National Highway Traffic Safety Administration
Attention: Early Warning Division (NVS-217)
Room 217
1200 New Jersey Avenue, SE
Washington, D.C. 20590

Dear Associate Administrator:

We are transmitting the enclosed Report of a Defect in a Vehicle in a Foreign Country.

Very truly,

Donald Neff
Principal Engineer
Technical Compliance

Encl.

**REPORT OF A SAFETY RECALL OR OTHER SAFETY CAMPAIGN
IN A FOREIGN COUNTRY**

1. Manufacturer

Nissan Motor Manufacturing UK Ltd., United Kingdom and Nissan Motor Company, Ltd., Japan.

2. Vehicles Potentially Involved

Nissan Dualis vehicles produced from April 24, 2007 to December 18, 2007 at Nissan Motor Manufacturing UK Ltd., Sunderland plant in the United Kingdom and produced from December 6, 2007 to March 4, 2010 at Nissan Motor Kyushu Co., Ltd. in Japan. No vehicles sold in the United States are affected because they use different rear combination lamps as discussed below.

3. Total Number of Vehicles Potentially Involved

Approximately 49,550.

4. Description of the Defect

Due to inappropriate assembly process of the terminal in the connector on a bulb holder of the rear combination lamp, current may not flow through the connector correctly. Consequently the turn signal, stop or tail lamp may not operate or may operate incorrectly. This condition does not meet a requirement of the Japanese local safety regulations.

5. Foreign Country in which the Safety Recall or Other Safety Campaign is Being Conducted

Japan.

6. Date of Determination

November 21, 2011

7. Determination Made By

Manufacturer

8. Date the Recall or Other Campaign will Commence

November 25, 2011

9. Descriptive of Corrective Action

Owners of potentially affected vehicles will be notified to take their vehicle to a dealer. The bulb holder of the rear combination lamp will be replaced with a counter-measured one and a connector of the wiring harness on the body side will be replaced with a new one.

10. Vehicles in the United States (If known)

Model year 2007-2012 Nissan Sentra vehicles and model year 2008-2012 Nissan Rogue vehicles sold in the U.S. are on a similar "platform" as the Nissan Dualis sold in Japan. However, the subject combination lamps are unique to the Nissan Dualis. As noted above, this issue affects no vehicles sold in the U.S.
