Re: Part 579 Foreign Campaign Report

Dear Ms. Lewis:

This letter is submitted by Mercedes-Benz USA, LLC (MBUSA) on behalf of our parent company, Daimler AG (DAG) pursuant to the requirements of 49 C.F.R. Part 579.11(a). This letter refers to a DAG campaign that will be launched by DAG in Canada only concerning vehicles that are defined under TREAD regulations as being “substantially similar” to vehicles sold or offered for sale in the United States. As indicated below, no potentially affected vehicles were sold in the United States. The information required under 49 C.F.R. § 579.12 is as follows:

Manufacturer's Name

Daimler AG, Stuttgart, Germany manufactured the affected vehicles.

Identification of Vehicles

Make	Line	Model Year	Inclusive Dates of Manufacture
Mercedes-Benz	M-/GL-Class (166 platform)	2015	June 30, 2014 - August 20, 2014

Total Number of Vehicles Potentially Affected

828 M-/GL-Class vehicles in Canada

Mercedes-Benz USA, LLC

Description of Issue

DAG has determined that in certain M-/GL-Class vehicles the "daytime running light" can be deactivated by the driver. Canadian regulations require daytime running lights that can not be switched off by the driver.

Vehicles with deactivated daytime running lights do not comply with the regulatory requirements in Canada.

Description of Foreign Campaign

DAG will initiate a voluntary compliance related recall on the subject vehicles in Canada. The campaign will only be conducted in Canada and is expected to begin in October, 2014. The affected vehicles will be properly coded ensuring hereby that the "daytime running light on" function is permanently activated.

Identification of Substantially Similar Vehicles Sold or Offered for Sale in the United States

The following vehicles sold in the U.S. fall under the definition of "substantially similar": Mercedes-Benz M-/GL-Class (166 platform). No potentially affected vehicles were sold in the United States.
