National Highway Traffic Safety Administration
Attention: Early Warning Division (NVS-217)
Room 217
1200 New Jersey Avenue, SE
Washington, D.C. 20590

Dear Associate Administrator:

We are transmitting the enclosed Report of a Defect in a Vehicle in a Foreign Country.

Very truly,

Donald Neff
Manager
Technical Compliance

Encl.

**REPORT OF A SAFETY RECALL OR OTHER SAFETY CAMPAIGN
IN A FOREIGN COUNTRY**

1. Manufacturer

Nissan Motor (Thailand) Co., Ltd., Thailand.

2. Vehicles Potentially Involved

Nissan X-Trail vehicles produced from October 22, 2014 to January 15, 2015 at the Nissan Motor (Thailand) Co., Ltd. in Thailand. No vehicles sold in the United States are affected because they were produced with a different spot welding process as discussed below

3. Total Number of Vehicles Potentially Involved

Approximately 909.

4. Description of the Defect

Due to an inappropriate spot welding condition, incomplete penetration may have occurred in the spot weld on the bracket which holds the left-hand second row seat belt retractor. In an extreme case, the occupants may not be restrained appropriately in a crash.

5. Foreign Country in which the Safety Recall or Other Safety Campaign is Being Conducted

Thailand.

6. Date of Determination

February 12, 2015

7. Determination Made By

Manufacturer

8. Date the Recall or Other Campaign will Commence

February 16, 2015

9. Descriptive of Corrective Action

Owners of potentially affected vehicles will be notified to take their vehicle to a dealer. The weld condition of the subject bracket will be inspected. If it is not in line with the design intention, it will be corrected.

10. Vehicles in the United States (If known)

Model year 2007-2012 Nissan Sentra vehicles, model year 2008-2015 Nissan Rogue vehicles and model year 2014-2015 Nissan Rogue Select vehicles sold in the U.S. are on a similar "platform" as the Nissan X-Trail vehicles sold in Thailand. However, these U.S. vehicles are not identical or substantially similar from an engineering standpoint. This issue affects no vehicles sold in the U.S. because no U.S. vehicles were produced in the above noted manufacturing facility.
