2. Identification of the date of determination by the manufacturer or the order by a foreign government to conduct a safety recall or other campaign in each foreign country:

On July 7, 2016, Porsche AG decided to initiate a stop-sale involving a total of 157 vehicles in various markets outside the United States and Canada.

3. Identification of the vehicles potentially containing the defect or noncompliance, including a description of the manufacturer's basis for its determination of the recall population and a description of how the vehicles to be recalled differ from similar vehicles that are not included in the recall. The identification shall include the make, model, model year, the inclusive dates of manufacture (month and year) and any other information necessary to describe the vehicle.

The model year 2016 and 2017 911 models involved in the stop-sale are:

911 Carrera
911 Carrera S
911 Carrera 4

PART 579.12 Report

4. If a different manufacturer from the one reporting manufactured the component that contains the defect or noncompliance, the report shall identify the component and the component manufacturer by name, business address and business telephone number.

Supplier of the belt deflector:

Autoliv Romania SRL
Str. Bucegi nr.8
500053 Brasov, Romania

Tel. No. 011 40 268 508 100

5. The total number of vehicles potentially containing the defect or noncompliance.

A total of 157 vehicles are involved in this stop-sale action.

6. A description of the defect or noncompliance, including a description of the nature and physical location (if applicable) of the defect of noncompliance.

It is possible that a spacer was not fitted at the fastening screw on the securing belt deflector fitting to the B-pillar. Were that to be the case, the strength of the assembly in a crash would be reduced.
