Foreign Safety Recall / Other Safety Campaign Report

Subject: Side mirror camera quality issue

Manufacturer Name: Mazda Motor Corporation

Type of Action: Safety

Potentially Affected Vehicles / Assembly plant / Production Period:

Make/Model	MY	Production Period	Assembly Plant
Mazda/CX-5	2012-2014	1/10/2012-3/12/2014	Hiroshima plant of Mazda Motor Corporation, Japan

Number of affected vehicles:

67,413 vehicles

Market:

Japan

Estimated percentage of the affected vehicles that contain the subject condition:

Unknown

Description of the Defect:

On the side mirror camera which allows the driver to view the front and left side of the vehicle while parking, due to inappropriate coating of the lens surface, acid contained in cleaning products, rain, and so on, may corrode the coating. Continuous exposure to these acidic substances may make the lens itself corroded and clouded, causing the view of the side mirror camera to become less clear over time. In the worst case, the driver may not be able to see the camera view of the front and left side of the vehicle while parking.

The number of reports of the condition:

Alleged concerns: 277 cases

Alleged injuries: None

Alleged fatalities: None

Program for Remedying the Defect:

Owners will be notified of the defect and the side mirror camera will be inspected by a dealership. If the lens of the side mirror camera is clouded, the camera will be replaced with a modified one. The remedy will be completed free of charge to customers.

Date Field Service Action will commence: February 17, 2017.

Determination to recall was made by Mazda Motor Corporation.

Substantially Similar Vehicles in the U.S.:

MY 2012-2014 CX-5

Reason the Similar Vehicles in the U.S. are not affected with the Recall Campaign:

The side mirror cameras are not installed on the side mirrors of the Substantially Similar Vehicles sold in U.S. and/or U.S. territory markets. Therefore, these vehicles are not involved in this recall campaign.

The foreign recall number assigned:

No. 3993
