RE: GM CASE # C00753369

I'm fixing the agreement and the vehicle ID# for a car I saw is: 1G6EL12Y7YB700462, but I have to call back and make sure it has a Northstar Engine, also they would have to put in a sunroof like I had on my car. The dealership is Williams Cadillac, in Tinley Park, Ill. I spoke with Gregory M. Williams, Jr.

VIN: **1G4KFB499VU247833** Claimant's Name: [REDACTED]

Inspected By: **JOHN A. FITT** Organization: **EAA**

Phone: **662-458-8388** Inspection Date: **9/5/00** Mileage at Inspection: **41,871**

Inspection was conducted at **Thomas Cadillac, 1457 N. Larkin Avenue, Joliet, Illinois, 60435**, Telephone **615-744-2700**.

I INSPECTION SUMMARY

Type: **Non Collision**

Fire Origin: **Engine Compartment**

Following the inspection, summarize the observations: Fire originated in the engine compartment under the engine battery cover at the left side of the front fuel rail. The fuel hose at this point has been burned through. Its clamp is intact. Fire was fuel related. Paint is burned off both sides of the hood, as well as, the top right side of the front bumper. Both headlights are broken. The left front headlight is unfastened. Wiring to this headlight has been cut. All fuses underhood, and in the trunk are in serviceable condition, and properly tagged. The right side of the grille is burned through. The transmission linkage cable is burned in half. There is very little fluid left in the transmission. The writer was not able to find any evidence of a transmission fluid leak. The fuel pump is in serviceable condition. Scan test of engine controller produced P0603 "Battery Disconnected" diagnostic trouble code. The vehicle is equipped with an after-market Interstate battery. This battery has been burned and melted by the fire. The deck lid is tied down with an elastic cord due to an inoperative deck lid pull down motor.
