This repair estimate summarizes all of the services we will provide in the year of manufacture. The labor charges represent estimates of services other than those of inspection, cleaning and minor maintenance of responsibility of dealer or service center. Other services require an additional step prior to quoting up to one hundred hours additional time for each hour of labor.

Any services on the parts and consumables will likewise be made by the manufacturer. The manufacturer's maximum performance and quality standards are maintained at all times. Repair or rebuild, and cleaning of components, including removal of foreign materials or debris, for a particular purpose will require the use of parts under manufacturer's specifications and that in all cases right parts or tools for manufacture are required for maximum benefit, safety and economy.

The factory recommends all of the components cited above as the sole of use in
manufacture. The factory-furnished instructions do not require other materials or tools
unless otherwise directed or recommended by Bosch for your particular purpose. Every
customer has the right to buy any other product, as long as it is readily available
and less expensive than the product being recommended.

Any deviation from the parts and procedures recommended for use by the manufacturer
will detract performance characteristics and shorten the life of the equipment. In the event of
any such damage or failure, we shall not be liable for damages, including consequential
damages. It should be a general practice, with respect to the use of other products,
to contact the manufacturer or supplier and determine if the same will qualify for liability
in the event of a claim for damage or failure of the equipment.

The Power Steering pump is one of the most critical parts involved in the safe operation of your vehicle. The dealer service recommends inspection of this part every six months or earlier if you notice unusual vibration or noise when driving on a smooth surface. If this condition continues and worsens, seek repair service from your local Mercedes-Benz dealer to prevent loss of control of your vehicle.

Any questions on the parts and responsibilities under warranty are yours for the answering. The manufacturer guarantees performance and safety over their vehicles no component of any kind, either in original, and/or replacement, including warranties of manufacture, is limited to a maximum of one year, or one hundred eighty (180) days, whichever is shorter. It is the responsibility of the customer to present proof of purchase to the dealer for a return of the vehicle or replacement of components/basis arising out of such claim.
