RP04-002

Dear Ms. Trowbridge:

This acknowledges receipt of your petition dated June 22, 2004, requesting the National Highway Traffic Safety Administration (NHTSA) to investigate the adequacy of the remedy for safety recall #04V165.

In accordance with 49 CFR Part 557, "Petition for Hearings on Notification and Remedy of Defects," NHTSA will conduct a technical review of the available information and will notify you whether the petition is granted.

Sincerely,

Thomas Z. Cooper, Chief
Vehicle Integrity Division
Office of Defects Investigation
Enforcement

Subject: RE: RP04-002 in Artemis

I have already done this several times before and I have called the Artemis Helpdesk and Artemis does not give me authorization to send for approval. Frank is working on this and will inform us when that is possible.

I'll add a small clarification, to say that the RP pursuit is now in Artemis but is unapproved; therefore the sequential part of the investigation ID (the 002 part in this case) has not been assigned. All needs to submit it for approval so it can go through the process before Dana can proceed.

I went to Scott Yon this morning about this particular investigation. Scott was able to pull it up in ARTEMIS, even though this investigation doesn't have the full identifying number. I am not able to pull it up because of the fact that it doesn't have the full identifying number. Scott says that this investigation needs to be approved by Kathy so that the number can be appointed. So, therefore, I am not able to prepare/distribute the slipsheets or scan the documents attached to this investigation until that process is done.

Ali should have the capability to create a RP sometime this afternoon. I will let everyone know when the code is complete and tested.

Frank,

Could you help Ali out on this issue?

Subject: RP04-002 in Artemis

I have not been able to create an opening resume in Artemis because I do not have authorization to make one. Until this happens it will be difficult to properly create a file for this RP. I have created an opening resume outside of Artemis and Dana has the other correspondence ready to go.
