1									
2	2	680000435	3	2003	2003-04-04	RI			The insurance company alleges that the vehicle caught fire due to an alleged unspecified electrical or fuel line problem. Police report noted that there were several explosions coming from the sub area. [redacted] indicated to the police that the check engine light was on constantly. Fire Chief noted nothing suspicious about the fire and that it appeared to be related to a faulty electrical problem.
3	4	680000005	3	2003	2003-08-31	LA			The vehicle caught fire under airport, causing damage to car and residence.
4	10	680000427	3	2003	2003-04-17	CA			[redacted]
5	20	680000382	3	2003	2003-10-13	FL			The vehicle caught fire after being started. Claimants are making no allegations at this time.
6	21	680000078	3	2003	2003-01-31	MO			The insurance company alleges that the vehicle caught fire due to a malfunction in the windshield wiper motor. Plaintiff's expert indicated that the windshield wiper motor generated sufficient heat to ignite the combustible parts of the gear cover and electrical connector. Fire department noted an undetermined cause of the fire, although they noted that the origin of the fire was in the area of the wiper gear and relay center located above the driver's side inner fender directly over the fire. "At this time I am unable to determine where the malfunction originated in the relay panel."

8	32	680000141	3	2003	2003-06-21	TX			The insurance company alleges that the vehicle caught fire due to an unspecified defect. No other info.
9	37	680000068	3	2003	2003-06-14	AL			The insurance company alleges that the vehicle caught fire due to an unspecified defect. Plaintiff's expert found that the fire originated in the engine compartment and was caused by an electrical malfunction of the wiring harness attached to the front of the coil.
10	44	680000437	3	2003	2003-06-09	GA			Plaintiff's expert believes the fuel injector on the rear of the fuel filter slid part way off the inlet fitting allowing pressurized fuel to be sprayed on to the underbody of the vehicle and on to the exhaust system.
11	49	680000421	3	2003	2003-05-16	TX			The insurance company believes fire originated in the area of the electronic control module behind the battery along the passenger side inner fender.
12	70	680000301	3	2003	2003-04-26	TX			The insurance company alleges that the vehicle caught fire due to an electrical defect in the control module.
13	77	680000032	3	2003	2003-04-23	SC			The insurance company alleges that the vehicle caught fire due to an unidentified defect. Claimant saw smoke from the back window, stopped and got out and the rest of the truck burst into flames. No fire report. The insurance notes that even though there are no known defects, according to a previous recall, certain running boards and courtesy lights have been known to cause fires.
14	82	680000417	3	2003	2003-07-22	ND			Police report indicates that the fire appeared to be electrical and non-suspicious in nature.
15	83	680000365	3	2003	2003-05-11	CA			The insurance company alleges the vehicle caught fire in the driver's door due to an electrical short in the door switches/wiring. Insurance company stated that the owner went out to check that his vehicle was locked before going to bed and noticed that the vehicle's window was dark and part of the door lock had melted.

PI68 PROPERTY DAMAGE

	A	B	C	D	E	F	G	H	I
16	84	680000300	3	2003	2003-06-15	TK			Ford's inspection found fire was on the vehicle, instead of in it. Probably caused by the cooling from an exterior curb in front of the vehicle. Garage was wired with waterproof lights using headlight. Fire report indicates that the fire appeared to have started by an electrical short (ground fault) in pickup truck in garage.
17	91	680000309	3	2003	2003-07-27	AK			The insurance company alleges that the vehicle caught fire as an unspecified defect.
18	93	680000213	3	2003	2003-05-27	OH			While driving they heard a popping noise, began to lose power and then an explosion under the hood. They shut the engine off and as they were coasting to a stop, there was another explosion. The insurance company's investigation found that the loss was caused by a defect in the fuel system which resulted in a fuel leak in the right side of the engine compartment in the area of the right fuel rail and the right front fuel injector.
19	97	680000486	3	2003	2003-06-11	TK			Ford's investigators found that the wiring to an after market alarm was welded to the bulkhead and that all the fire patterns were coming from this area and adjacent.
20	118	680000413	3	2003	2003-08-19	PL			The insurance company alleges that the vehicle caught fire due to an electrical defect in the connector of the ABS module. The plaintiff's expert found that the fire originated in the left side of the engine compartment. The internal short within the connector overvoltage the wires at the connector which ignited the wiring insulation and surrounding combustible materials.
21	127	680000268	3	2003	2003-07-26	AZ			The insurance company alleges that the vehicle caught fire due to an unspecified defect. They are withdrawing their claim.
22	129	680000082	3	2003	2003-07-26	AZ			DUPLICATE
23	130	680000191	3	2003	2002-10-27	PL			The insurance company alleges that the vehicle caught fire due to an unspecified defect. They indicate that the leak of power steering fluid from a defective power steering system started the fire. The Police Report indicated had fire emitting from the bottom of the vehicle. Owner pulled off the roadway to check on the snow utility trailer which was hauling a lawn mower. When he was getting back into the vehicle he noticed fire and smoke coming from the driver's compartment.
24	133	680000372	3	2003	2003-07-14	IL			The insurance company alleges that the vehicle caught fire due to an unspecified defect.
