RE: EA04-032

Dear Tom,

Enclosed you will find a copy of the ODI request EA04-032 (Keystone RV IR1-19-05.doc) which shows the name of each Keystone RV Company response. The content of many of the responses are too large to send electronically, even if compacted. We will be incorporating the entire file into a Compact Disc (CD) format and will forward you two (2) copies today, overnight UPS.

We graciously submit this response to your request understanding we have the same end goal in mind: Keeping wheels on Recreational Vehicles. However, some information contained in our response we consider "Proprietary" and would request it is kept confidential. For example, we request that any information related to Production numbers (unit shipments) by product or as a whole for any time period mentioned in any response be kept confidential. In addition, because production numbers could be logically acquired from the number of certain components used, we request this information be kept confidential. Finally, we request any information relating to Keystone specific methodology, control plans or processes also be kept confidential.

Thank you for your cooperation and should you have any questions or concerns related to this confidentiality request or Keystone RV Company's response to the EA04-032 inquiry, please let us know.

Sincerely

KESYTONE RV COMPANY
