RE: NHTSA File PE04-008

Dear Mr. Boyd:

On March 30, 2004, Federal Coach, LLC ("Federal Coach") received a letter of inquiry from the Office of Defects Investigation ("ODI") of the National Highway Traffic Safety Administration ("NHTSA") dated March 26, 2004. The letter stated that the ODI had initiated a Preliminary Evaluation to investigate reported incidents of engine compartment fires in 2000-2002 Goshen buses manufactured by Goshen Coach and built on General Motors and Ford cutaway chassis ("PE04-008").

The letter went on to state that the purpose for the letter was to request peer information from Federal Coach that is intended to assist the ODI in its investigation by providing information about Federal Coach's experience regarding engine compartment fires.

Per the instructions regarding content and format contained within the letter of inquiry, the following are Federal Coach's responses to the questions put forward in the letter of inquiry.

Question 1:

1. Furnish the total number of Federal Coach Buses built on General Motors and Ford cutaway chassis manufactured for sale or lease in the United States.

Answer 1:

The total number of buses manufactured by Federal Coach in model years 2000-2002 is 405 chassis. See Attachment #1 for a complete listing. The source of information is Federal Coach's production records. This information was compiled on April 1, 2004.

Question 2:

2. Furnish the number of/and copies of all owner complaints and field reports, studies, surveys, or investigations from all sources which have been received or authorized by Federal Coach, or of which Federal Coach is aware, pertaining to

the alleged defect in the subject vehicles. This should include information pertaining to the report included with this letter. Separate the number and copies of owner complaints from other sources. Also, if Federal Coach has issued any service or technical bulletins, advisories, or other communications to dealers pertaining to the alleged defect in the subject vehicles, provide a copy of each document. If no such documents have been issued, so state.

Answer 2:

There were five (5) owner complaints and field reports of complaints that could possibly be related to an alleged defect on the subject vehicles were pulled from Federal Coach's warranty records. See Attachment #2 for a complete list. Federal Coach issued no technical bulletins, advisories or other communications to dealers pertaining to alleged defect in the subject vehicles. This information was compiled on April 8, 2004

Question 3:

3. Identify and describe all accidents, subrogation claims, or lawsuits known to Federal Coach pertaining to the alleged defect (where Federal Coach is or was a defendant or codefendant). Provide Federal Coach analysis of each item, clearly identifying the vehicle (model year and VIN), the vehicle owner, and any injuries or property damage which may have occurred.

Answer 3:

Federal Coach Warranty Department has no knowledge or information of any accidents, subrogation claims, or lawsuits where Federal Coach is a defendant or a co-defendant pertaining to alleged defect on the subject vehicles.

Question 4:

4. Identify and describe all significant modifications or changes that could relate to the alleged defect in the manufacture of the subject vehicles. The following information must be included for each modification or change:
- a. the reason for the modification or change;
 - b. a description of the modification or change;
 - c. the approximate calendar date on which the modification or change was incorporated into production; and
 - d. state whether the modified or changed components could be interchanged with earlier production components.

Answer 4:

Federal Coach has not made any modifications, significant or otherwise, or changes for any alleged defect in the manufacture of subject vehicles, as there is no knowledge of alleged defect on the subject vehicles produced by Federal Coach.

Question 5:

5. Furnish the number of warranty claims related to the alleged defect on the subject vehicles by model series code, calendar month, and problem code. Each problem claim code must be identified.

Answer 5:

Federal Coach's warranty records indicate that there were no warranty claims filed for warranty issues related to the alleged defect on the subject vehicles the were produced by Federal Coach.

If you should have any questions regarding this matter, please contact me at 1-800-282-6210.

Sincerely,

Ken Lynch
Warranty Administrator
