Summary: ODI opened this PE after receiving fuel tank leak allegations from eight owners. Subsequently, we met with both complaint vehicle owners and inspected their motorcycle(s), met with owners of subject vehicles which had not experienced a fuel leak, discussed the matter with Suzuki authorized dealership personnel, requested and reviewed information from Suzuki, and discussed this matter with the company during a meeting on 11-3-05. Suzuki has decided to recall the subject vehicles to correct the fuel leak issue. With Suzuki's action, this matter is concluded and the investigation closed.
