Dear Victory Rider:

We are writing to let you know about a limited-time offer available to certain owners of Model Year 1999 and Model Year 2000 Victory motorcycles. In appreciation for your loyalty to Victory, we are offering a program where Victory will help pay for a transmission upgrade kit for your Victory motorcycle under certain conditions. This upgrade kit includes the latest transmission design that is used in current Victory motorcycles.

Under this program, if your bike has fewer than 30,000 miles, Victory is offering a parts discount on a transmission upgrade kit of 50 percent off MSRP. This discount will be in the form of a rebate check for \$884.00 on MY 1999 upgrade kits and \$728.00 on MY 2000 upgrade kits. You will be responsible for paying for the costs of the inspection and installation of the upgrade kit at your authorized Victory dealer. Labor time is estimated at 11 hours.

This limited time offer starts on October 1, 2006 and expires on October 15, 2007.

To qualify for this program you must do the following:

- verify that your bike has fewer than 30,000 miles
- contact your authorized Victory dealer to schedule the installation of your upgrade kit before expiration of the program on October 15, 2007
- pay your authorized Victory dealer for parts and labor
- submit your payment receipt, a copy of the completed work order from the dealership and the form below to the following address:

Polaris Industries Inc.
2100 Hwy 55
Medina, MN 55340
Attn: Consumer Service-Victory Transmission Program

Your dealer must return your old transmission to Victory. Once Victory receives the original transmission parts from your dealer, a copy of your receipts and the completed form (below), we will issue you a check for the applicable amount. This offer is good for one upgrade kit per applicable VIN.

Ask your Victory dealer if this kit is right for you. We wish you many more years' enjoyment of your Victory motorcycle.

Sincerely,

Victory Motorcycles
