Description:

Fuel leaking from fuel tank at stem.

Comment:

Out of factory warranty and CA emissions warranty.
Provided goodwill PAS for new tank since customer has been dealing with intermittent electrical problem for some time.
7/8/03 pb: Customer not satisfied with parts only on this claim. Believes he should get labor due to circumstances involving an electrical repair. (SWP00039170)
Reference SR 1-154473932.
Forward to Rob Keating.

7-8-03 RK Called dealer. TC does not want customer to escalate this or get any more upset. At this point the cost of labor is small and the goodwill return on labor goodwill is large. Gave one time only goodwill auth. for repair.

Description:

Customer concerned with stain on fuel tank

Comment:

Customer concerned with staining on the external side of the fuel tank. Possible stain coming from leaking fuel. Dealer reports customer has a information from Internet.....asking if ASMC has had any reports of this situation? Customer will leave vehicle at dealer for inspection at this time.

* I explained ASMC will not discuss Internet information, only the customers unit

* Motorcycle factory warranty has expired

* Customer did not purchase SEP coverage

* Inspection of fuel tank required for dealer to determine repair cost for customer

2/18/04 wk. dealer called back in. customer unhappy with info dealer gave. took unit to other dealer in area. they told customer they had replacement tank in stock and would repair the unit under warranty. explained to paul, i have not heard of any failures, unit is a year out of warranty and second dealer is misinformed.

Fuel tank leaking

Comment:

John says the fuel tank is leaking at the weld for the rubber mounting cushions on both sides. Asking for goodwill, does not have SEP. Forward to Derek for consideration, dealer did not have mileage.
 3/18 dc: Dealer has removed the gauges to service the carburetors. The vehicle has aftermarket exhaust system (cobra). After working on the unit tech could smell fuel after filling tank. At were the bolts mount the fuel to the frame a small seep occurs.
 * one time goodwill for the fuel tank only
 * customer is responsible for all labor charges
 * factory warranty has expired 9 month ago / No SEP purchased

Description:

Fuel tank leak from top rt corner.

Comment:

Leak when at or near full.
Crack, rt front corner, less than an inch long.
Unit has SEP, suggested contacting them for warranty auth.
SW 8/27/04 Chris said extended warranty (aftermarket western
service) would not pay for the repair since it is a CA emissions
item.
Provided goodwill autho for new fuel tank under CA emissions
warranty even though unit not in CA.

Description:

Strong fuel odor, Occasional drips of fuel on ground.

Comment:

Customer states that odor has been getting more noticeable for approx 1 year.
** more recently, fuel noticed on ground after fill up, then stops after 40-50 miles.

** Inspection found a crack approx 50mm long on the upper R.H. side of fuel tank approx. midway between front and rear of fuel tank.

No evidence of history of crash damage. Good service history.

I gave a PAS for new fuel tank as a 1 time goodwill gesture.
