Hello Larry,

Your request for an extension for DaimlerChrysler to reply to ODI's November 17, 2005 letter is granted. The due date is extended to January 27, 2006. If DaimlerChrysler is able to provide a partial response prior to the new due date, we would appreciate that. It will help us meet our analysis schedule.

Thank you,

**Tom Cooper**

Tom,

Per our telephone conversation earlier this afternoon, DaimlerChrysler Corporation is requesting a two week due date extension to January 27, 2006 for response to the PE05-081 information request (2005 minivan front air bag sensor). This request is the unfortunate result of extensive coordination involved with required input from multiple suppliers involved with this investigation, as well as manpower constraints and multiple unavoidable scheduling conflicts that have recently occurred. Thank you for your consideration of this request.

Regards,

Larry Sak
