Enclosure 15 of EA response:

There are weekly Starline Reports for LX and HB (Durangos), but none for CS: Was the HB inadvertently substituted for the CS reports?

Some of the LX pdfs are duplicates: 2782946 & 3304763 are duplicate, covering 7/11/05 to 7/15/05
2933692 & 7577166 are duplicates, and 948591 & 9984703 are duplicates: Are we missing some reports?

Thanks for your help.

Steve

Fax 202.366.1767

Answer: The Starline reports (e-mails) for HB were mistakenly included in this response. These should not have been included for the subject and peer vehicle inquiry.

The responsible engineering representatives did not retain any CS related electronic communications specific to this issue. Additionally, it should be noted the CS Starline reporting was initiated on February 7, 2006 and subsequently shut down at the beginning of March, 2006.

The replicate attachments you note are the result of the same e-mails being sent twice to the recipient. In the process of providing all e-mails and attachments, "replicate" e-mail attachments were not deleted.

I can't find the production data for the LX model in the response materials. Any idea if it is there?

Steve

Fax 202.366.1767

Answer: This data was inadvertently omitted from the enclosure during the copy process. Attached is the complete LX production volume as originally requested (zip file format).

PRODUCTION DATA (PE06-010) PEER.zip

I am looking for the updated information to Question 11 for parts sales. The response notes that it is in Enclosure 9, but that is Change History: Is it somewhere else in the response?

Steve

Fax 202.366.1767

Answer: Our initial response incorrectly stated these files were included in Enclosure 9. This should have been Enclosure 11. Attached are the Service Part Sales for both CS & LX as requested.
