Subject: RE: Request for Extension: Response to PE06-024 IR

Cris,

Toyota's request for an extension for reply to ODI's July 12, 2006 Information request (IR) letter is granted. The new due date is September 8 for response to questions 1-7 and 10; and September 22 for the remainder of the IR response.

Subject: Request for Extension: Response to PE06-024 IR

Tom,

Due to the upcoming holiday in Japan, we would like to request a 1 week extension for a partial response to the IR letter for the Scion TC moonroof investigation. The response is due September 1, and we would like to submit our response to questions 1-7 and 10 on September 8.

In addition, we would like to request an additional 2 weeks for the remainder of the response. Question 8 requests information on testing and assessments. According to the office in Japan, they are in the midst of some testing and believe that (with this additional time) they will be able to complete it and respond by September 22.

They have also requested extending the due date for Question 9 (design changes and modifications) to September 22 in order to get some extra time to obtain this data from their suppliers and check and translate it all into English. Toyota's assessment (Question 11) will need to draw on this information and we would appreciate responding to this part on September 22 as well.

In summary, we would like (for the aforementioned reasons) submit the response to Questions 1-7 and 10 on September 8 and the responses to Questions 8, 9 and 11 on September 22. If you have any questions or concerns, please let me know.

Regards,

Chris Santucci - Safety Engineer
