Re: RQ06-001; NVS-213dlr

Dear Mr. Quandt:

Enclosed is Nissan's partial response to the referenced NHTSA Information Request of March 31, 2006 concerning the Agency's investigation of 2003 model year Nissan Altima vehicles. A complete response will be submitted on the extended due date of June 2, 2006.

The attached reply responds by first stating each question, then the response. Please contact us if you have any questions.

Sincerely,

Frank D. Slaveter
Senior Manager
Technical Compliance

Enclosures

Response to

RQ06-001

INTRODUCTION

In accordance with discussions with the Agency's Jeffrey Quandt and Derek Rinehardt, an extension of time was granted until June 2, 2006 to respond to this Information Request ("IR") and the alleged defect statement has been modified to read "Engine stall while driving, due to cam and/or crank position sensors failure". Additionally, the model year scope was limited in Items 5 and 6 to the 2003 model year. Nissan appreciates the Agency's courtesy in this regard. This partial response to the IR includes responses to Items 1, 2, 5, 6, 7 and 11. A complete response will be submitted on the June 2, 2006 revised due date.

In responding to this Information Request ("IR"), information has been obtained from those places within Nissan likely to contain such information in the regular and ordinary course of business. When a particular Request seeks "documents" as defined in the IR, reasonable, good faith searches have also been made of corporate records in those places likely to maintain them in the regular and ordinary course of business.

The definitions of "documents" and "Nissan", however, are unreasonably broad, vague and ambiguous in the context of the information sought by this IR. For example, "calendars", "appointment books", "financial statements" and "personnel records" would not contain owner complaints, field reports or other information sought by Question 2 pertaining to the alleged defect. Therefore, searches were not made for such "documents", inasmuch as they would not likely contain responsive information. In addition, Nissan has not provided information from persons or entities over which it does not ordinarily exercise control. Nissan understands this IR to seek information on vehicles manufactured for sale in the United States.

Responses are provided after each question, and Attachments are utilized as appropriate. The source of information used as a basis for the data in each Attachment, including the date the data were updated and retrieved, is identified at the beginning of each Attachment, as applicable. If a document itself is the source for the requested information and it is provided, we assume no further source identification is called for. If a document, drawing or component is requested, or if no responsive information is available, we assume no further source identification is called for.

With regard to claims of privilege, Nissan understands that it is acceptable to the Agency for Nissan to identify specific categories of privileged documents rather than any specific document. These specific categories are: 1) communications between outside counsel and Nissan Legal Department employees, other Nissan employees, or other Nissan-represented parties in litigation and claims; 2) communications between Nissan Legal Department employees and other Nissan employees or other Nissan-represented parties in litigation or claims; 3) notes and other work product of outside counsel or of Nissan Legal Department employees concerning communications with Nissan employees or consultants, and the work product of those employees or consultants done for or at the request of outside counsel or Legal Department employees; and 4) other categories to be identified later as necessary. For any privileged documents that are not included in these categories, such documents, if any, will be specifically identified on a separate privilege index at a later time. To the extent that a document is furnished, Nissan is not asserting a privilege claim for that document, although the disclosure of such document does not waive the attorney-client

privilege or work-product protection with respect to other documents prepared in connection with the specific litigation or claim or other litigation or claims. In addition, in submitting such documents, we reserve our right to claim the attorney-client privilege and/or work-product protection with respect to analyses that may be prepared subsequently in connection with these and other cases. Also, we understand documents specifically related to the preparation of the responses are not sought.

Nissan believes NHTSA's policy is to protect the privacy of individuals under exemption 6 of the Freedom of Information Act, 5 U.S.C. Section 552(b)(6). We understand that name, address, and other personal information of owners or other individuals, including Nissan personnel, contained in any of the attachments in this response will not be made available to the public. Therefore, Nissan is not requesting confidential treatment for this information pursuant to 49 CFR, Part 512, but we believe any private information concerning individuals should not be made public.

* * * * *

1. State, by model and model year year, the number of MY 2002 through 2004 Nissan Altima vehicles Nissan has manufactured for sale or lease in the United States. Separately, for each subject vehicle manufactured to date by Nissan, state the following:

- a. Vehicle Identification number (VIN);
- b. Model
- c. Model Year;
- d. Engine Type;
- e. Date of manufacture;
- f. Within scope of subject recall ("yes" or "no");
- g. Recall completion date (03V-455 vehicles only);
- h. Date warranty coverage commenced; and
- i. The state in the United States where the vehicle was originally sold or leased (or delivered for sale or lease).

Provide the table in Microsoft Access 2000, or a compatible format, entitled "PRODUCTION DATA." See Enclosure 1, Data Collection Disc, RQ06-001 for a pre-formatted table which provides further details regarding this submission.

The numbers of Altima vehicles manufactured for sale or lease in the United States by model year are:

2002 - 192,883
2003 - 225,702
2004 - 90,498

The information requested in 1.a through 1.i is provided, when known, in a file titled, "PRODUCTION DATA RQ06001.mdb" on a CD enclosed as Attachment A.

2. State the number of each of the following, received by Nissan, or of which Nissan is otherwise aware, which relate to, or may relate to, the alleged defect in MY 2002 through 2004 Nissan Altima vehicles:

- a. Consumer complaints, including those from fleet operators;
- b. Field reports, including dealer field reports;
- c. Reports involving an injury, or fatality, based on claims against the manufacturer involving a death or injury, notices received by the manufacturer alleging or proving that a death or injury was caused by a possible defect in a subject vehicle, property damage claims, consumer complaints, or field reports;
- d. Reports involving a fire, based on claims against the manufacturer involving a death or injury, notices received by the manufacturer alleging or proving that a death or injury was caused by a possible defect in a subject vehicle, property damage claims, consumer complaints, or field reports;
- e. Property damage claims;
- f. Third-party arbitration proceedings where Nissan is or was a party to the arbitration; and
- g. Lawsuits, both pending and closed, in which Nissan is or was a defendant or codefendant.

For subparts "a" through "d. / e." state the total number of each item (e.g., consumer complaints, field reports, etc.) separately. Multiple incidents involving the same vehicle are to be counted separately. Multiple reports of the same incident are also to be counted separately (i.e., a consumer complaint and a field report involving the same incident in which a crash occurred are to be counted as a crash report, a field report and a consumer complaint).

In addition, for items "c" through "d/e/f/g," provide a summary description of the alleged problem and causal and contributing factors and Nissan's assessment of the problem, with a summary of the significant underlying facts and evidence. For items "d/e/f" and "e/f/g", identify the parties to the action, as well as the caption, court, docket number, and date on which the complaint or other document initiating the action was filed.

The number of each of the referenced items in 2.a, 2.b, 2.c, and 2.g, received by Nissan, or of which Nissan is otherwise aware, which relate to, or may relate to, the alleged defect in the subject vehicles, is identified below. Multiple incidents involving the same vehicle have been counted separately. Multiple reports of the same incident have also been counted separately, so there are duplicate counts in several categories. The additional requested information to the extent available will be provided in the final response.

- a) Consumer complaints: 195
- b) Field reports: 27
- c) Reports involving a crash: 1
Reports involving an injury* or a fatality: 0
- d) Reports involving a fire: 0
- e) Property damage claims: 0
- f) Third-party arbitrations: 0
- g) Lawsuits: 3

* Injuries reported in one non-collision appear unrelated to the alleged defect.

5. State, by model and model year, a total count for all of the following categories of claims, collectively, that have been paid by Nissan to date that relate to the alleged defect in MY 2002 through 2004 Altima vehicles: warranty claims; extended warranty claims; claims for good will services that were provided; field, zone, or similar adjustments and reimbursements; and warranty claims or repairs made in accordance with a procedure specified in a technical service bulletin or customer satisfaction campaign.

Separately, for each such claim, state the following information:

- a. Nissan's Claim Number;
- b. Vehicle owner or fleet name (and fleet contact person) and telephone number;
- c. VIN;
- d. Repair date;
- e. Vehicle mileage at time of repair;
- f. Repairing dealer's or facility's name, telephone number, city and state or ZIP code;
- g. Labor operation number;
- h. Problem code;
- i. Replacement part number(s) and description(s);
- j. Concern stated by customer; and
- k. Comment, if any, by dealer/technician relating to claim and/or repair.

Provide this information in Microsoft Access 2000, or a compatible format, entitled "WARRANTY DATA". See Enclosure 1, Data Collection Disc, RQ06-001 for a pre-formatted table which provides further details regarding this submission.

The main purpose of the warranty system is to reimburse dealers for performing warranty repairs. Claims are submitted by dealers through an on-line computer system through the use of a set of codes. The codes are designed to allow flexibility for their use and, as such, do not supply a significant amount of information about why a particular repair was made, or specific details about the nature of the repair itself.

Within the limitations of our warranty system as it relates to the subject matter of this inquiry, the total count for all of the categories of paid warranty claims, as described in Request No. 5, is contained in Attachment B. In addition, the information requested in 5.a and 5.c through 5.k is provided, when known, in a file titled, "WARRANTY DATA RQ06001.mdb" on a CD enclosed in Attachment A. Owner information requested by item 5.b is not present in the warranty system.

6. Describe in detail the search criteria used by Nissan to identify the claims identified in response to Request No. 5, including the labor operations, problem codes, part numbers and any other pertinent parameters used. Provide a list of all labor operations, labor operation descriptions, problem codes, and problem code descriptions applicable to the alleged defect in the subject vehicles. State, by make and model year, the terms of the new vehicle warranty coverage offered by Nissan on the subject vehicles (i.e., the number of months and mileage for which coverage is provided and the vehicle systems that are covered). Describe any extended warranty coverage option(s) that Nissan offered for the subject vehicles and state by option, model, and model year, the number of vehicles that are covered under each such extended warranty.

The following search criteria were used to identify the claims provided in response to Question 5:

Model: Altima

Model Year: 2003

System code: 23730 (Crank Angle Sensor) or 23731 (Crank Position Sensor)

Problem code: AB (Engine Stall)

The warranty information on the subject vehicle are enclosed in Attachment C.

7. Produce copies of all service, warranty, and other documents that relate to, or may relate to, the alleged defect in the subject vehicles, that Nissan has issued to any dealers, regional or zone offices, field offices, fleet purchasers, or other entities. This includes, but is not limited to, bulletins, advisories, informational documents, training documents, or other documents or communications, with the exception of standard shop manuals. Also include the latest draft copy of any communication that Nissan is planning to issue within the next 120 days.

There are no documents that are applicable to Item 7 and there are no plans to issue any applicable documents within the next 120 days.

11. State the number of subject components that Nissan has sold that may be used in the subject vehicles by component name, part number (both service and engineering/production), model and model year of the vehicle in which it is used and month/year of sale (including the cut-off date for sales, if applicable).

For each component part number, provide the supplier's name, address, and appropriate point of contact (name, title, and telephone number). Also identify by make, model and model year, any other vehicles of which Nissan is aware that contain the identical component, whether installed in production or in service, and state the applicable dates of production or service usage.

The number of subject components that were shipped to dealers and that may be used in the subject vehicles is included in Attachment D. These numbers do not include numbers of parts returned by dealers. In addition, most of these parts are used for other vehicles other than the subject vehicles and, therefore, the numbers are higher than the actual quantities sold.

The supplier information is also included in Attachment D.

ATTACHMENT A

CD with Vehicle sales and warranty information

Vehicle sales information was gathered from a dally updated vehicle sales database which contained vehicle sales data through April 26, 2006.

The enclosed CD contains two Microsoft Access databases, entitled PRODUCTION DATA R06001.mdb and WARRANTY DATA R06001.mdb.

ATTACHMENT B

Warranty Information

Warranty claims data were gathered from Warranty database as of April 26, 2006.

The total count of warranty claims is 689.

Refer to the CD in Attachment A for warranty claims information in response to Question 5.

ATTACHMENT C

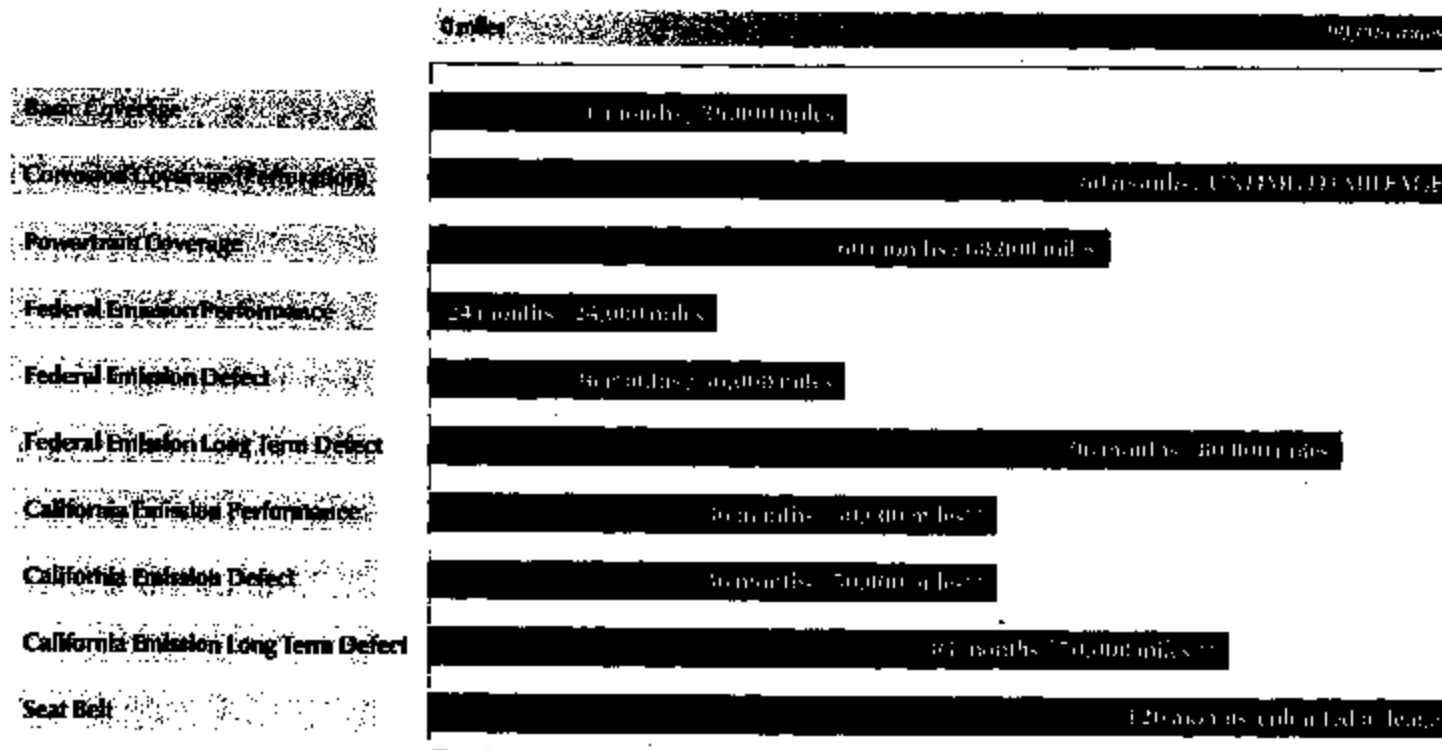

Warranty Coverages for subject vehicles

Enclosed are copies of warranty coverage for new vehicles and Security Plus coverages, which are available to customers for purchase.

WARRANTY COVERAGE AT A GLANCE

1

Summary of Warranty Coverage*

* See the express terms of the appropriate warranty printed in this booklet, which terms control if there is a conflict with this chart.

** **Senza CA ONLY:** Warranty coverage is 15 years/150,000 miles, whichever occurs first.

EMISSIONS DEFECTS WARRANTY

WHAT IS COVERED

Nissan warrants that your vehicle was designed, built and equipped to conform with all applicable requirements of the California Air Resources Board. This warranty covers any part which affects applicable regulated emission(s).

Exceptions to this warranty are listed below under the caption "WHAT IS NOT COVERED."

HOW LONG IS THE WARRANTY?

This warranty is for 3 years or 50,000 miles, whichever occurs first. Additionally, the components listed under the caption "Long-Term Emission System Defects Warranty Parts List" are covered for 7 years or 70,000 miles, whichever occurs first, except that the catalytic converter and engine control module (ECM) are warranted for 8 years or 80,000 miles, whichever occurs first. The warranty begins the date the vehicle is delivered to the first retail buyer or put into use, whichever is earlier.

Some items require scheduled replacement before 50,000 miles. These items are warranted only up to the replacement interval. The replacement intervals are outlined in the maintenance instructions in your NISSAN SERVICE & MAINTENANCE GUIDE.

LONG-TERM EMISSION SYSTEM DEFECTS WARRANTY PARTS LIST

- ☐ Exhaust manifold(s) (Maxima rear, and Sentra w/1.8 engine).
- ☐ Intake manifold (except Sentra w/2.5 engine, and Altima w/2.5 engine).
- ☐ Engine control module.
- ☐ Distributor (Frontier and Xterra).
- ☐ Catalytic converter(s) (except Sentra w/2.5 engine, and Altima w/2.5 engine).
- ☐ Throttle Body (except Sentra w/1.8 engine, Frontier w/3.3 engine, and Xterra w/3.3 engine).

- ☐ Fuel tank (except Sentra).
- ☐ Intake manifold collector (except Sentra w/2.5 engine, Altima w/2.5 engine, Frontier w/non-supercharger engine, Xterra w/non-supercharger engine, Altima upper w/3.5 engine, and Maxima upper).
- ☐ Automatic transmission control module (except Frontier w/2.4 engine, and Xterra w/2.4 engine).
- ☐ Torque converter drive plate with integral crankshaft position signal plate (except Sentra, Frontier w/2.4 engine, Xterra w/2.4 engine, 2WD Frontier w/3.3 engine, 2WD Xterra w/3.3 engine, and Altima w/2.5 engine).
- ☐ Flywheel with integral crankshaft position signal plate (except Sentra, Frontier w/2.4 engine, Xterra w/2.4 engine, Altima w/2.5 engine, and Murano).
- ☐ Front exhaust tube with catalytic converter (except Maxima, Frontier w/2.4 engine, and Xterra w/2.4 engine).
- ☐ ECU wiring harness (except Sentra w/2.5 engine, Altima M/T w/2.5 engine, Frontier, and Xterra).
- ☐ Mass air flow sensor (except Frontier w/2.4 engine, and Xterra w/2.4 engine).
- ☐ Exhaust manifold with catalytic converter (Sentra w/2.5 engine, and Altima w/2.5 engine).
- ☐ Knock sensor (except Sentra, Altima, Frontier, and Xterra).
- ☐ Supercharger (Frontier w/3.3 engine, and Xterra w/3.3 engine).

EMISSIONS PERFORMANCE WARRANTY

WHEN DOES THIS WARRANTY APPLY

This warranty applies to your 2003 Nissan vehicle only if it fails to pass a California "smog check" test or equivalent.

WHAT IS COVERED AND FOR HOW LONG?

Nissan warrants that if your vehicle fails to pass a California "smog check" test, it will make the necessary repairs so that your vehicle will pass. This warranty is for 3 years or 50,000 miles, whichever occurs first. The warranty begins the date the vehicle is delivered to the first retail buyer or the date it is first put into service, whichever is earlier.

Exceptions to this warranty are listed below under the caption "WHAT IS NOT COVERED."

WHAT IS NOT COVERED

These warranties do not cover:

1. Normal maintenance, service and parts replacement as outlined in the emission control maintenance instructions of your OWNER'S MANUAL and your NISSAN SERVICE & MAINTENANCE GUIDE.
2. Failures directly as a result of:
 - Lack of performance of required emission control maintenance as outlined in your OWNER'S MANUAL and your NISSAN SERVICE & MAINTENANCE GUIDE.
 - Misuse, accident or modification.
 - Improper adjustment or installation of parts during the performance of maintenance (non-warranty) services.
 - Tampering with or disconnecting any part affecting vehicle emissions.
 - The use of fuel other than that specified in your OWNER'S MANUAL or fuel with contaminants which the fuel filter is not designed to remove.
3. In the case of the Performance Warranty, the use of any non-Nissan part not certified in accordance with Federal requirements which is defective or not equivalent from an emissions standpoint to the original equipment part.
4. In the case of the Defects Warranty, parts not supplied by Nissan or damage to other parts caused directly by non-Nissan parts.
5. In the case of the Performance Warranty, costs of determining the cause of a vehicle failing a California "smog check" test if such failure is found not to be covered.

Security+Plus[®]

VEHICLE PROTECTION PLAN

GOLD PREFERRED PLAN

Component Coverage Guide

NISSAN SECURITY+PLUS

THE BEST PROTECTION FOR YOUR NISSAN

Nissan's Security+Plus Vehicle Protection Plan provides you with quality long-term mechanical protection and extra peace of mind.

It covers the most important components of your Nissan vehicle: Engine, Transmission, Steering, Drive Axle Assembly, Electrical, and many more. Repairs to these parts can run as high as \$4,000 or more. But with Security+Plus, if a covered part fails, Nissan pays...not you.

This guide lists the covered components for the Gold Preferred Security+Plus Plan, by major category, in Nissan part number code (PNC) numeric sequence. For complete information regarding other coverage features, and those excluded from coverage, contact your Nissan Dealer.

Unlike other service agreements, Security+Plus is exclusively for Nissan owners, and backed by Nissan North America, Inc.*

NISSAN SECURITY+PLUS: THE SMART CHOICE™

Nissan's Security+Plus Vehicle Protection Plan is designed for new and previously-owned Nissan vehicles—by Nissan—and offers Nissan owners:

Cost-effective coverage up to 7 years, or 100,000 miles, to protect your investment. Guards against loss from the escalating cost of major repairs (including parts and labor).

Nationwide Nissan repair at Authorized Nissan dealerships by Nissan-trained technicians. No payment hassles because the dealer is paid directly by Nissan.

Customer Assistance available throughout the United States. Just contact your nearest Nissan dealer, or call us at 1-800-NISSAN-1.

Optional terms of coverage (years and miles) to fit your driving needs, and an optional zero or \$50 deductible for each eligible component repair.

Transfer Security+Plus to a new owner if you sell your Nissan before coverage expires.**

Convenient and economical coverage, costing only pennies a day. Your Nissan dealer will be happy to explain the various financing options available to you.

The cost of **Genuine Nissan replacement parts** is included for covered repairs—**not** inferior substitutes.

* In Florida, Security+Plus is backed by Nissan Extended Service Corporation, Inc., P.O. Box 181, Gardena, California 90248-0181. License #60062.

** A nominal transfer fee may apply. For details, please refer to the Security+Plus Service Agreement or contact your local Nissan dealer.
