Re: REQUEST FOR RECONSIDERATION-Futaba Corporation of America
Request for Confidential Treatment in Regards to NVS-212mjl, PE07-044

Dear Mr. Cooke,

This letter is in response to a letter sent to Futaba Corporation of America (Futaba) by Mr. Otto G. Matheke, III, Senior Attorney for NHTSA, on March 9, 2009 denying Futaba's request for confidential treatment for Futaba's materials related to the above-referenced investigation (a copy of Mr. Matheke's letter is enclosed).

Due to NHTSA's rejection of Futaba's request for confidential treatment of the materials on procedural grounds (actual copies of the documents were not included) please note that such documents are herewith enclosed. Two copies only have been enclosed as it is Futaba's position that all information contained in all three documents is considered by Futaba to be confidential and therefore should not be accessible to the public.

The documents being referenced to enclosed are as follows:

Document Name	Bates Numbers
GMT201 Power Sliding Door Module Environmental PV Test Plan	CL07-015-0466 to 0488
GMT201 Power Sliding Door Module EMC PV Test Plan	CL07-015-0489 to 0511
GMT201 Power Sliding Door Module PV Test Report	CL07-015-0551 to 0563

The above referenced copies have been submitted previously by GM on behalf of Delphi and it was the original understanding by Futaba that NHTSA would have used the above

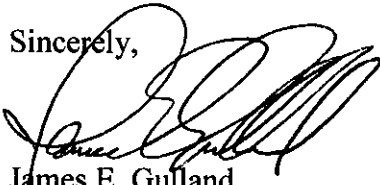

information submitted by GM to reference the documents; however, the letter from Mr. Matheke seems to indicate this was a procedural issue which had resulted in Futaba's initial denial.

Should you have any further questions or need any clarification please contact:

Mr. Gary Wires, Director of Engineering, Futaba Corporation of America, at the above referenced address and telephone number.

Thank you for your consideration of this request for reconsideration.

Sincerely,

James E. Gulland
