Hello Eric,

From our discussion yesterday with Larry Sak regarding MY 07 Jeep Wrangler stalling (PE07-027) and similar stalling complaints for the 07 Dodge Nitro (VOQ complaints attached up to 6/15/07) NHTSA requests the following data.

Wrangler/Nitro Stalling Data Request:

1. By model and model year, the number of subject vehicles DaimlerChrysler has manufactured for sale or lease in the United States.
 Separately, for each subject vehicle manufactured to date, provide the following:
 - a. Vehicle identification number (VIN);
 - b. Make;
 - c. Model;
 - d. Model Year;
 - e. Date of manufacture;
 - f. Date warranty coverage commenced; and
 - g. The State in the United States where the vehicle was originally sold or leased (or delivered for sale or lease).

2. Provide a data table of consumer complaints, field reports, property damage, injury or crash claims containing the following information:
 - a. DaimlerChrysler's file number or other identifier used;
 - b. The category of the item, as identified above (i.e., consumer complaint, field report, etc.);
 - c. Vehicle owner or fleet name (and fleet contact person), address, and telephone number;
 - d. Vehicle's VIN;
 - e. Vehicle's make, model and model year;
 - f. Vehicle's mileage at time of incident;
 - g. Incident date;
 - h. Report or claim date;
 - i. LaborOp;
 - j. Problem Code;
 - k. Verbatim reason for the complaint;
 - l. Whether a crash is alleged;
 - m. Whether property damage is alleged;
 - n. Number of alleged injuries, if any; and
 - o. Number of alleged fatalities, if any.

3. Provide a list of applicable Labor operations codes and Problem codes with their descriptions.

10/31/2007

Multiple incidents involving the same vehicle are to be counted separately. Multiple reports of the same incident are also to be counted separately (i.e., a consumer complaint and a field report involving the same incident in which a crash occurred are to be counted as a crash report, a field report and a consumer complaint).

Provide this information in Microsoft Access 2003, or a compatible format. A Microsoft Excel database would be acceptable if file size permits.

Please reply to me with an estimate of time required to submit the requested information.

Regards,

Chris Lash
