December 19, 2005

Daimler Chrysler

To whom it may concern:

I own a 2000 Dodge 1500 extended cab pickup. I purchased the pickup from Mike Perry Chrysler Dodge in January 2005. VIN 3B7HC13YM2 [REDACTED], mileage 77,038.

My concern with the vehicle is yesterday on December 18, 2005 I was traveling about 40 mph when the hood flew up. This caused minimal damage to the hood. Is this company aware of this style pickup having recall for this reason? There must be some reason why the latch did not catch on my pickup.

This event could have caused an accident and I feel very fortunate this did not happen.

I am asking that Chrysler repair my pickup at no charge to me. Also, please research this problem as it may prevent a potential death due the faulty latch.

I am enclosing pictures of the damages.

Please contact me at 936-556-2652 or 936-569-7366

I appreciate your time and I look forward to hearing from Daimler Chrysler immediately.

Sincerely,

Thomas C. Permenter, III
