the turn signal lights on my truck are not working right

Comments:

-----  
The turn signal lights on truck sometimes they just don't work right. Sometimes I want to go right, I turn it right but the one on the left is the one that start blinking and that happens on the opposite way too, sometimes they don't work at all. I took my truck to the dealer service twice because of that but they said no problems found and nothing had been fix...
