Subject: RQ08-002

Jeff,

As I mentioned in my voicemail, with PE 08-002 now submitted, we are now focusing on RQ08-002.

This RQ has requests some additional detailed information over what a normal PE would contain, with regard to both data, service measure chronology, and part design/performance specifications.

4/21/2008

I think we will be able to answer all of these questions, but we will need until June 5 to make that submission.

Let me know if this raises a problem for your team.

Best Regards,

R. LATANE MONTAGUE, PARTNER
