Mr. Ditlow,

The test is scheduled for 1:30 p.m. on Thursday, July 1, 2010. I would suggest a 1:00 arrival. This should allow for time to get through security and to discuss the test setup prior to the test itself.

The facility is the FHWA Turner-Fairbank Highway Research Center which is located at 6300 Georgetown Pike, McLean Virginia 22101. Please note that the access road to the facility is identified as Colonial Farm Road on google maps and is the first road north of Rt 123 (Dolley Madison Blvd) on Georgetown Pike. You will take Colonial Farm Road all the way to end where

the guardhouse for FHWA is located. Please do not enter any of the guardhouses / gates on the right hand side of the road, this is for the CIA, they will stop you and perform a background check which can consume numerous hours.

I will need the names and affiliations of all individuals attending the test. I will pass this information along so that you will be allowed on property by security.

Upon arrival at the facility, please inform the guard that your are there to visit the FOIL (Federal Outdoor Impact Laboratory) and that Mr. Chris Story is your contact.

Sincerely,

Shaun Kildare
