RE: Audit of Rental-Car Safety-Recall-Campaign Completion

Dear Mr. Collins:

In response to allegations of crashes and deaths from un-remedied, recalled vehicles, the National Highway Traffic Safety Administration (NHTSA) opened AQ 10-001 to evaluate the remedy completion rates of rental car fleets. During the investigation, NHTSA has received completion rates information from several manufacturers and received additional information from several rental-car companies. As you may be aware, the audit query is ongoing and the Agency seeks additional information from Toyota Motor Corporation.

Senator Claire McCaskill, Chairman of the Subcommittee on Consumer Protection, Product Safety, and Insurance, and Senator Barbara Boxer have requested the Agency's view and analysis on proposed legislation – known as the Raechel and Jaqueline Houck Safe Rental Car Act – that would prohibit rental-car companies from renting recalled vehicles, unless the vehicle has been remedied. Specifically, Senators McCaskill and Boxer have requested the Agency's views on language proposed by the Alliance of Automobile Manufacturers that would apply the rental prohibition only to recalled vehicles that are subject to a “do not drive” or similar advisory from the manufacturer.

To analyze the Alliance's proposal, NHTSA seeks additional information concerning recalls for which the notification provided under 49 U.S.C. §§ 30118(b) or 30118(c) has included precautionary advice to refrain from driving the vehicle until the remedy specified by the recall was completed.
