Dear Mr. Urbahn:

This letter is to inform you that the Office of Defects Investigation (ODI) of the National Highway Traffic Safety Administration (NHTSA) has opened a Preliminary Evaluation (PE10-038) to investigate allegations of loss of power steering assist in Model Year (MY) 2004-2005 Mini Cooper vehicles manufactured by BMW, and to request certain information.

This office has received 117 complaints, and one additional field report alleging an unexpected loss of power steering assist while driving MY 2004-2005 Mini Cooper vehicles. The loss of power steering assist requires the driver to use increased steering force to control the vehicle. The reports indicate that the loss of power steering assist may be related to a power steering pump failure. Identification numbers for the 117 consumer complaints are provided at the end of this letter.

Unless otherwise stated in the text, the following definitions apply to these information requests:

- **Subject vehicles:** all MY 2004-2005 BMW Mini Cooper vehicles equipped with the subject components that were manufactured for sale or lease in the United States.
- **Subject component(s):** the electric power steering system, including, but not limited to the electrical wiring components, the cooling fan for the steering pump motor and its electrical wiring, and the power steering pump.
- **BMW:** BMW of North America, LLC, including its parent company where the design, engineering and/or manufacturing are undertaken in a foreign country, all of its past and present officers and employees, whether assigned to its principal offices or any of its field or other locations, including all of its divisions, subsidiaries (whether or not incorporated) and affiliated enterprises and all of their headquarters, regional, zone and other offices and their employees, and all agents, contractors, consultants, attorneys and law firms and other persons engaged directly or indirectly (e.g., employee of a consultant) by or under

For purposes of this request, any document which contains any note, comment, addition, deletion, insertion, annotation, or otherwise comprises a non-identical copy of another document shall be treated as a separate document subject to production. In all cases where original and any non-identical copies are not available, "document(s)" also means any identical copies of the original and all non-identical copies thereof. Any document, record, graph, chart, film or photograph originally produced in color must be provided in color. Furnish all documents whether verified by BMW or not.

If a document is not in the English language, provide both the original document and an English translation of the document.

- **Other Terms:** To the extent that they are used in these information requests, the terms "claim," "consumer complaint," "dealer field report," "field report," "fire," "fleet," "good will," "make," "model," "model year," "notice," "property damage," "property damage claim," "rollover," "type," "warranty," "warranty adjustment," and "warranty claim," whether used in singular or in plural form, have the same meaning as found in 49 CFR 579.4.

In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as BMW has previously provided a document to ODI, BMW may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After BMW's response to each request, identify the source of the information and indicate the last date the information was gathered.
