2/9/2005 14:04:27 Penny Readie 6310

Survey Summary: customer satisfied with vehicle and very satisfied with service experience. Customer claims vehicle was not ready as promised and requires an additional visit. Customer included a letter stating his dissatisfaction with the delay of parts.

Action: called [REDACTED], writer left 800# message with secretary - (no voice mail).

2/9/2005 17:51:09 Patricia Rosado 7837

Customer called back in regards to message left. Customer claims he brought vehicle in for repair in Aug of 2004 Customer claims teleaid was not working and the SRS button was continuously lit up. Customer claims dealer fixed the teleaid system but have not been able to fix the SRS issue. Customer claims he was waiting for a part in Dec. 2004, the part came in it did not work properly. Customer claims dealer told him they were ordering another part and they have not called him yet. Customer claims the 2nd part was ordered around Dec. 20th. Writer advised customer to speak with Serv. Manager customer claims he already did and that the issue is not with the dealership its with MB not having that part available. Writer apologized for inconvenience and advised his concerns would be passed along to a supervisor for their review.

2/10/2005 10:01:30 Robyn Letz 6209

Writer called dealer to get specifics of what part is on back order. Customer is listed as Universal Fuel at dealer, they will research and call back.

6/29/2005 20:41:08 Lauren Wizemann 7863

IBS Survey Summary

- Customer left most of survey blank
- Customer comments: "Please Call Me. "

Action: Called [REDACTED], spoke to [REDACTED], who stated she had several issues with her vehicles at International Autos. Customer alleged her first 2006 E350, which she no longer owns, had "sealer" glue on the windshield of both sides of vehicle, had problems with the TeleAid GPS locator, and a malfunction with the SRS, Airbags light, and the seats getting hot. Dealership allegedly had trouble obtaining parts and replaced vehicle.

Customer alleged she also had problems with her 2002 E320, which she no longer owns, that following a service visit regarding an engine oil system message, her vehicle was vibrating in the steering wheel, brakes, and gas pedal. Customer alleged that issue was resolved another visit later when the tires were changed. Customer stated she still likes International Autos.

Customer stated she loved her 2002 E320 and that the new 2006 E350 has a smaller armrest console and the glove box is too small for the maintenance book.

Survey Very Satisfied for dealer. Very DISSATISFIED for vehicle. DISSATISFIED for Alt Trans - States "SUV dented in multiple places, I sell high end real estate." Also states "Very Displeased . Owned It Since Jan. Constantly In Shop; Electronics

Always A Problem; Air Goes Out, Roof Doesn't Work. SRS System, Seat Belt Broken, Goes On. I Have Always Owned Mercedes But Very Displeased With This New One. "

Action: Contacted customer @ [REDACTED]. She stated that there have been "Constant" electrical problems with vehicle. States that vehicle was in last week for seat belt sensor problem, and "popping" sound in trans or steering column. States that both still exist. States that she spoke to SA, Jim Basher and he adv to bring vehicle back in again. States that she feels vehicle is a Lemon as she has only had for 6 months and has had so many repairs. States that she will probably NOT purchase another MB. Also states that Jim Basher has been great. Writer adv that she should speak with SM, Mike Destefano. She states that she does know Mike. Writer adv that she contact him and adv that vehicle will be coming in again.

Summary Notes

8/2/2005 00:07:44 Theresa Gelfand 6337

Postcard sent - customer prefers internet/mail due to deafness.

- Customer dissatisfied w/dealer
- Customer satisfied w/vehicle
- Excerpts from 5 page letter attached to survey:

"I received a "message" in the instrument panel saying the SRSD system was inoperative & that I should immediately take the car to a service center. Since we were leaving on a 4,000 mile trip the following morning, I immediately took the car to remove facility & spoke to Bob, one of the service writers. He told me that despite my emergency situation that it would be at least a WEEK before they could call the main facility & see if there was anyone there who could at least look at the problem. Reluctantly, he did & told me they were too busy as well"....."The technician took the wagon into the shop & returned in about 5 mins. saying he'd reset the computer & that was probably just a random error. I thanked Gary & the tech, departing for home. The SRS light instrument panel message came on again the following day, while on the trip.....The service writer at the (Tacoma) dealership told me, after I detoured there, that it was probably more complicated than just a reset & they were too busy to do anything for at least 3-4 days. We simply departed, assuming that at least one of the SRS devices were inoperative & hoping for no accident.....When I returned to Las Vegas, I drove to the remote facility gain".....

"while I've been in the waiting area of Fletcher Jones main service facility, my 3 brief & 2 longer visits to the remote facility were uncomfortable at best....I apologize to whomever is sitting somewhere in NJ having to read a 5 page whining letter about the service dept.out in the desert of Las Vegas.....It is my intention to return to the remote facility on July 14 for the windshield replacement & to have the service technician see if he can find some intermittent problem that might have caused the inactive passenger airbag message. After that, it is my intention to have further work only done at their main facility. If I should be equally disappointed in those facilities, responses to reasonable requests, or if my vehicle is once again returned dirty or damaged, then I will simply give the wagon to my son in Texas & find a different auto & dealership for my wife & myself"

Survey & complete letter recorded in DL.

Released from the TL queue.

Survey Summary: Customer Satisfied with vehicle and service experience. Customer claims an additional visit is required and there was no contact after service. Customer included a brief letter and the dealer invoices. The letter claims there is a problem with the warning light indicating there is water in the fuel tank. Customer also claims a problem with the SRS light.

Action: called [REDACTED], writer spoke with [REDACTED] who is very dissatisfied with the vehicle. Customer claims the vehicle went in again on August 8th and again on August 15th . Customer claims she just received the vehicle back today. Customer states she is 70 years old and this is her first MB vehicle which has been a life long dream. Customer is very concerned about her safety and feels she may have gotten a " lemon ". Writer offered regrets on this experience and assured her that her comments would be documented. Writer offered 800# for future reference if any additional issues arise with the vehicle.

Contacted customer who stated that he was very dissatisfied with he had the issue with the SRS light twice in three months. Customer stated that on the first occasion Service Dept was very concerned and towed vehicle. But that the second time light came on he was just told to bring vehicle in. Customer stated it has been very inconvenient and does not think it should happen on a car of this price. Customer stated that issue appears to have been resolved. Writer advised customer that his comments would be documented.

SES Survey Summary

Dealer: VS

Alt. Transportation: VS

Vehicle: Neither

Comments/Issues Paper work handled - Poor = " Autohaus was supposed to pay for my rental car but I was charged \$34.00. Still having trouble with computer system - " I think the computer system I have is a lemon - I've had it service two times for the same problem already - now the SRS light is on."

Action: Called [REDACTED] - left machine message -

FYI - Customer dissatisfied that she was charged for her rental car (allegedly told by 75534 it would no charge)

Also, customer has constant electrical issues with instrument cluster, thinks the computer is a lemon:

Customer dissatisfied with vehicle.
Customer alleges vehicle not ready and not contacted after service.
Customer alleges vehicle is having many electrical issues and has been to service many times for radio, battery, AC , and SRS malfunctions.

(949)-360-0066 left msg.
survey is in DL.

11/15/2005 14:15:00 Virginia Stella 4684

[REDACTED] contacted the survey department stating that she was returning our call. Customer stating that she still has outstanding issues with her vehicle - navigation and air conditioning is shorting out and does not feel that the clear coat application that she had done now has lots of swirl marks in it and chip marks. Writer advised customer to speak with the Service Manager regarding her concerns and vehicle condition. Writer assured customer that her information would be forwarded to writer's Team Leader and invited customer to contact the CAC in the future.

Sum Note Information given to Team Leader Kathleen Durning.

Action: Called [REDACTED], spoke with customer who stated his dissatisfaction with service from RAP and th dealership. Customer claims that when he drove off the lot at 8 o'clock his SRS light came on. Customer stated he asked agent that if vehicle was towed how would he get home and was told he would have to find a way. When he brought vehicle to Precision that would not give him a loaner and the Jaguar dealer gave him a brand new car to drive for 4 days. Customer claims that Tina finally realized what was going on and gave him a loaner, a C. Customer stated he loves the car and wants to thank the MB engineers for the design. Told customer his comments would be documented. Gave 800 number for future reference.

Survey Very DISSATISFIED for dealer. Very Satisfied for vehicle. NO for appointment made in advance. POOR for understood problem, explanation of charges, completion and quality of work. Customer states "2nd visit same problem, I don't have time to visit again". Very DISSATISFIED for Alt Trans. Customer checked unresolved issue States "I called them. They didn't fix all the problem. 1 out of 4."

Action; Left VM msg @ [REDACTED] w/800#

2/16/2006 15:14:32 Jessica Redzia 6206

Customer's wife called Survey Dept. and left a message requesting a call back regarding SES at [REDACTED]. Writer did not call customer as customer was currently on the phone with and being assisted by Penny Readie.

Summary Notes

2/16/2006

15:35:00

Penny Readie

6310

Customer called back regarding the issues with her vehicle. Customer claims the following items are still outstanding: check engine light still comes on intermittently, oil light comes on with either "oil too high" or "oil too low". Customer claims this is still occurring after the 2nd visit - prior issue of the SRS light seems resolved but that also concerns her. Customer claims at both visits she was never offered a loaner or pick-up service and they didn't even re-set her clock as she simply requested. Customer states "I'm not looking for any special attention or service" - customer also claims this is the same dealer who wouldn't help her find the 2006 CLS - she ended up buying it in Atlanta G.A. - Customer knows she needs to bring it back in but seeks assistance from MBUSA to help the dealer address and fix these issues. Customer loves the vehicle and actually asked writer if she could help her locate a 2007 CLS 500. Writer offered regrets on current experience and assured her that her comment would be documented and forwarded to a Supervisor for further review. Customer would like to hear back from either the dealer or MBUSA.

Writer placed notes in TL folder.

Customer may be reached at [REDACTED]

Summary: Customer is very satisfied with dealer. Customer is dissatisfied with vehicle. Suggestions: "The Electrical Satellite System Is Always Broken. " Comments: "I Own A 2005 Cls In Satellite System Is Very Sensitive And The Battery Keeps Going Flat."

Action: Called [REDACTED] and spoke with [REDACTED] who stated that vehicle has been in for service 6 times. Customer alleges that she is brining vehicle in today because the SRS light is on and says visit workshop Writer advised customer that she should not drive on vehicle. Customer stated that she is bringing to dealer. Customer also stated that she has been in contact with an attorney to see if the "lemon law" applies to vehicle. Writer advised customer to speak with the Service Manager at dealer and that I would be forwarding to TL for review.

Survey is in DocuLogic.

SES Summary

Customer did not complete survey

Customer attached simple letter stating he has had a loose door handle, faulty srs sensor, and a navigation system malfunction in 2000 miles. (Warranty history reflects repairs but not mileage)

Writer dialed [REDACTED] no answer, writer reset in queue for attempt on 3/10/06

3/10/2006 21:08:25 Theresa Gelfand 6337

Writer called customer @ [REDACTED] as requested on survey

Writer unable to leave message on VoiceMail. No contact made.

- Excerpts from attached letter:

"I've just bought my car and with 2,000 miles this car visited the Service Dept. 3 times so far..

1. Loose door handle

2. Bad SRS sensor

3. Nav.System mulf.

I feel the worse is yet to come. I think it was a big mistake I bought a CLS 500. Sam Kodeih 909-266-6206"

SN forwarded to TL Q for follow-up (NTMT)

Customer dissatisfied with service and vehicle.

Customer indicated poor in quality of work.

Customer alleges not contacted after service.

Customer alleges vehicle went in service 3 times already with less than 5000 miles.

[REDACTED] customer [REDACTED] stated all issues have been resolved finally. Customer alleges it took 3 service visits for the SRS light issues to be resolved and before that vehicle indicated oil needed but vehicle only had 5000 miles.

Customer stated vehicle went in service and service deemed unnecessary for oil change.

Customer stated service has been helpful and the issue was a vehicle one not service.

Writer advised customer her concerns will be noted and gave 800# and ext. survey is in DL.

Writer called customer @ [REDACTED] as requested on survey
Spoke to Mr. Henry who claims he has intermittent re-occurring issues w/Airbag deactivation light & climate control. He claims dealer addressed his concerns but believes they have done all they could, but it seems to be a glitch in the vehicle itself. [REDACTED] claims he lives in area that is far from any MB dealer. He claims he is somewhere in between San Diego & Phoenix. He claims he prefers to use MB/Chandler & claims he is very pleased w/their service. Writer assured customer his concerns/comments would be documented & forwarded to appropriate parties. Writer advised him to contact his Srv.Manager & referred him to our 800# for the future.
Mileage Update: 27,000
SN forwarded to TL Q for follow-up (NTMT)

Survey Satisfied for vehicle. FAIR for promptness, understood problem , completion and quality of work. POOR for explanation of charges. Addtl visit required. Not contacted after service. Very DISSATISFIED for how paperwork was handled, amount of time required to pay.

Action; Tried to contact customer @ [REDACTED] business machine, no VM avail. Tried [REDACTED], constant busy.

Returned to Que for 2nd attempt.

5/29/2006 11:13:25 Suzanne Kuhn 6380

Second attempt: [REDACTED] person who answered business phone stated that there was no one available by the name of [REDACTED]. Called [REDACTED] - line busy- Called [REDACTED] - line busy -

No contact made - forwarded to post card folder.

FYI - Survey appears favorable for vehicle and somewhat dissatisfied with Service dept. experience

6/1/2006 12:09:31 Carol Ann Carroll 4673

Post Card Sent

Summary Notes

6/9/2006 09:16:23 Toniann Corrigan 4662

Customer called back regarding the post card he received, and stated he had an appointment to get the oil change and also asked them to rotate the tires. Customer stated they were overbooked and he had to keep calling to follow up and see if his car was ready. Customer stated when he went to pick it up the tire rotation was not completed although he was charged for it. Customer stated he was told by service advisor that they would get back to him, and never did. Customer stated also he had a SRS malfunction light on, and a part was ordered to resolve it. Customer stated he called to follow up two weeks later and was told it was in (but they never called him). Customer stated he still has to bring the vehicle in to have the SRS malfunction resolved. Writer advised customer that his comments would be documented and reviewed.

Mileage Update: 16,000 miles

Writer forwarded to TL for possible NTMT.

6/9/2006 10:53:48 Andrew Dunleavy 6320

Customer was very upset by the lack of follow up with dealership. Perhaps dealer may be able to save customer and proactively contact and assist him. Sent NTMT

Internet Corr # 281877: Comments: I must inform you of my less than satisfactory service experience with MB. My first attempt was to schedule an appointment via the online service ? this did not work at all. I did not get a phone call to confirm the appointment nor were my calls returned. Secondly , I called to schedule this same service request after getting a follow up card inquiring how the phantom service appointment went. Again, my ca was placed into voice-mail and never returned. Third, a SRS Failure message and warning light went on. I immediately called to get this taken care of. Again, my call got routed to a voice-mail box. Again, my call was no returned. Finally, I called today 10/28/2005 and was able to actually speak to a human being in the service department who told me to come right in to have the SRS taken care of. I told him I would wait for the vehicle an if this was going to take time, we should schedule for when I could leave the vehicle. I was told, no problem it won't take long at all. So, I brought my auto into the dealership and completed the requested paperwork to have ONLY the immediate safety issue (SRS) taken care of. I informed the service advisor I would be waiting for the auto. I was shown to the waiting area. The service / waiting area was a cigarette stench area from which I had to remove myself. I went into the showroom, which was not much better. I was becoming congested and was force to wait outside the dealership simply to breathe freely. After well in excess of an hour, my auto was brought around front. I went back into the odiferous service area to inquire about my auto. The advisor followed me outside and started to inform me about what service action had been performed. He informed me about ?PINS? being loose in the steering wheel as they relate to the Air Bag. He said the CODE they got showed this to be a repair ONLY to be performed by a MB tech. Before he could finish his instructions, we were rudely interrupted by another Tech / Advisor without so much as an ?excuse me? - from either MB person. I was left to wait while someone else's issues got resolved. Once the other person's issues were resolved, the advisor continued to inform me the light was reset, the problem still exists, it may happen again and he must open a case with MBUS/ to get it resolved. I asked when I can expect the safety system to function as designed. I was informed that this an unknown and I will have to wait and see. So, there you have it. My very first MB service visit ever. Quit frankly, this was a most disappointing process. At this point, I could not recommend MB if this is the service experience typically enjoyed by its clients. I have Jaguars, and yes, they have issues. However , their service experience has been head and shoulders above MB. The Jaguar dealership is clean, neat and smoke free. The service personnel do not interrupt, treat everyone with dignity and respect, and take a sincere interest in getting you out of the dealership fast. I realize this is based on only one visit. However, first impressions tend to be accurate. I was left with the impression a case would be opened on my auto. I want to know if this is true or not. Please inform me either way as to the status of this issue as I am concerned. Regards, Peter

10/31/2005 14:21:04 Cynthia Feuss 6289

I called 36103 SM Wes who states he has a call in to TAC, the engineer from TAC who handles this issue is not in today. Contacts/pins needed to complete the repair are on backorder. Wes agrees to call owner directly to acknowledge our receipt of his e-mail and to review his concerns. (THANKS WES!)

MY EMAIL REPLY TO OWNER: Dear [REDACTED], Thank you for your e-mail. We regret your the technical difficulty you have experienced with the SRS light in your 2005 E320W4 and apologize for your expressed disappointment. We too, would prefer to see the completion of this repair accomplished for you sooner rather than later; unfortunately, the part required to properly complete the repair is currently on backorder. Please be assured that we are researching the current status and will do every possible to expedite it delivery. That your is first service experience with Smith Motor Sales of Haverhill did not proceed flawlessly in indeed regrettable and we appreciate your taking the time to share your feedback. As you may be aware, all Mercedes-Benz dealers ar independently owned and operated and as such, are solely responsible for their own daily business operations including personnel, service department operations, etc. Nonetheless, you are a valued customer and your disappointment is of course , ours. Please be assured that your comments have been documented in our reporting system and shared with our Regional Manager for his review with Wesley Reed, the Service Manager f Smith Motor Sales. [REDACTED], we truly regret the circumstances that prompted our communication, and are confident that Wes stands ready to assist you. successfully resolve this matter. In the meantime, it is our hope that this incident will not permanently overshadow the overall safety, comfort, and performance your beautiful nev E3532-W4 has to offer. Thank you for bringing this matter to our attention, and for this opportunity to respond. Sincerely, Cynthia Feuss Customer Relations Liaison

10/31/2005 19:09:34 Cynthia Feuss 6289

EMAIL REPLY FROM OWNER: Hello [REDACTED], I understand the structure of the relationships with your dealership distribution. Unfortunately, you are often judged by the company you keep, especially when they have your authority to bear your name. Subsequent to my recent telephone conversation with Wes Reed of Smith Motor, I am going to find out if my experience was a fluke or not. Regardless of the outcome of my future service Experience, I would like to thank you for your response to my comments. Peter

Corres # 283719 sent via Certified Mail postmarked 11-23-05, CAC rec'd today. See closed Case 185996. Owner alleges 3 service visits for SRS light. Owner writes "my dealer has set up an appt. for Friday, Nov. 25 for me to bring the car into service in Palm Beach, at which time I am invoking my rights under the Lemon Law. I have been a devoted MB customer for more than 20 years and have never had a problem with any of my vehicles. I am hoping that this situation will be remedied."

I left a v-mail for 14323 SM Mike Destefano w/ request he review this sum note & call me to confirm if repair was performed on 11-25 appt. & any other pertinent details. I sent following email to SPOM WN , cc: Mark Kelly: De: Bill, (& Mark: FOR MBUSA ATTORNEY'S INFORMATION ONLY): Scanned & attached above is Corres # 28371 from Bonnie Perlin - SUM 978054 - see closed case 185996. I have left a message for update from 147323 SM Mike. Please review & advise if I should open another case or, if Mike advises me that the SRS light has been repaired , do you want me to write to owner advising we are not in position to buy back vehicle? Regards , Cynthia

11/29/2005 15:18:31 Cynthia Feuss 6289

Per SM Mike, states Shop Forman and Tech Service mgr are involved with TAC. Wiring Harness is coming from TAC. Car is still at dealer. Owner has been updated daily. (Thanks so much for your very prompt update Mike!)

Corres # 283818: Owner writes to [REDACTED], letter is dated 11-21-05, CAC rec'd 11-30-05. Owner claims when she picked up her CLS "can you imagine after all that I have been dealing with when I walked into the shop, as huge a place that it is, I mean like maybe 12,000 sq. ft. Of all places to place it, a mechanic placed his jacket, zippers and all, right on top of my hood. What do you say to that? I complained to Charlie and to the rep helping me that night. The 2nd paint job was good, how it should have been the 1st time..." Owner claims in a day or 2 the SRS light came on (claims this is the 3rd time). And now there is a weird noise coming from the dash board area like some weird power surging noise. I will take it this time around to MB Manhattan...that is where I stand with my new luxury car. Thanks Rallye Motors. Thank you Paul. Thank you MB. My purchase of your products has been real." Owner signs her name, writes her cell phone # and under that writes "Cell for Sucker!"

I sent following email to SPOM SD, & cc'd P. Juron & SPOM Zawacki: Dear Steve, Scanned & attached above is Corres # 283818 from Kathleen Deegan to [REDACTED]. In review, we sent a letter in response to her first several letters, then rec'd another, to which we replied that we felt our previous letter conveyed our position to this point. Owner claims SRS light has come on again and alleges noise from dashboard since a few days after picking vehicle up from Rallye. Please provide any update or guidance for response.

Ted: I copy you in on this as Ms. Deegan has indicated she will make appt. with 56113. Please review customer/vehicle history, sum note 954793 & Case 185222 for review with MB Manhattan whom you may wish to fill

12/2/2005 09:29:56 Cynthia Feuss 6289

Email from SPOM to Dealer 56113: Gail, Dan Please see the customer attached letter. This customer may be calling for a service appointment. Regards, Ted

12/2/2005 14:33:42 Cynthia Feuss 6289

E-Mail from Gail, 56113: Ted, Customer did schedule two appointments, which she didn't make: 10/24/05 - For SRS light and a few other issues. She did not show. 12/0505 - For SRS light and the noise from the dashboard. She cancelled. I've put an Alert in our system - if she calls in we'll make certain to handle and also involve Ralph Montagnese. Gail Fernandez

My email to Gail: Dear Gail, Thank you for the appointment information re: Kathleen Deegan. FYI - This is owner's 5th communication to [REDACTED] since 10-24-05. Case was opened to Rallye 55109 on 10-26-05 and extensive sum notes follow. If you need any more details, let me know. Please keep me in the loop. Thanks so much, Cynthia

12/2/2005 14:34:10 Cynthia Feuss 6289

E-mail from SPOM SD: Cynthia, I have a meeting set up with Nick Toomey (VP Rallye Motors) for next week to discuss this customer. Regards, Steven J Dennis

12/2/2005 14:35:05 Cynthia Feuss 6289

Thank you Steve, Let me know the outcome for reply to owner. Cynthia

12/7/2005 13:09:26 Cynthia Feuss 6289

E-Mail to SPOM SD: Dear Steve, I have some letters gathering dust that I must get to. Please advise how you would like me to respond to Kathleen Deegan. Thank you. Cynthia

12/7/2005 16:00:12 Cynthia Feuss 6289

Email from SPOM: Cynthia, Please see the comments below from Gail Fernandez, if the vehicle had this issue why would she cancel the appointment? To date no one has been able to verify this latest complaint on the SRS system. It's a most unfortunate situation that she has encountered these difficulties with the new vehicle, but that is why the vehicle has a warranty. Let's not lose sight of the fact that we complied with her first request to assist her with the lease mileage, Rallye Motors has sent her a check for the excess mileage she may encounter at the end of the lease.

The lot damage at Rallye Motors has finally been corrected, while it took an additional visit to correct the damage to the customer satisfaction which was finally accomplished. So from a manufacturer's and dealer's standpoint we have done that is possible to address her concerns, obviously if the vehicle continues to have issues MBUSA will either have to have technical assistance sent out to the dealer or the more drastic measure is to take the vehicle back if it complies with the guidelines of New York State Lemon Law, but at this point we have not reached those limits. Regards, Steven J Dennis

12/7/2005 16:00:36 Cynthia Feuss 6289

My email reply to SPOM SD: Thanks Steve, Then I will just write back acknowledging receipt of her letter, advising (again) that we will continue to honor the terms of other warranty, and encourage her to have vehicle inspected by dealer if she feels there is an outstanding issue. Thanks again, Cynthia

Summary Notes

12/8/2005 13:33:22 Cynthia Feuss 6289

Following email to SPOM SD: Dear Steve, Attached above is my draft response to Kathleen Deegan's Corres # 283818, for Paul Juron's signature on behalf of [REDACTED]. Please review and advise of any necessary changes, corrections, additions, etc. Thanks. Cynthia

Dear Ms. Deegan: Thank you for your letter to [REDACTED] dated November 21, 2005; after review, he has asked that I respond on his behalf. We are very sorry to learn of the inappropriate placement of a Rallye employee's jacket on the hood of your car and certainly understand your expressed discontent. Please be assured that we have reviewed this matter with Charles Ludemann, who has of course, handled this matter internally. That the body shop service now meets your satisfaction is good news, and we again acknowledge, and apologize for, the frustration you encountered regarding this repair. It is our understanding that you have been unable to keep the appointments that were made with Mercedes-Benz of Manhattan for the SRS light. We are not clear if the light is still on, but if so, we encourage you to reschedule your appointment as soon as possible. Mercedes-Benz USA does not recommend the operation of the vehicle when the SRS light is illuminated as we can not guarantee proper airbag system function. Thus we invite you to contact Roadside Assistance at 800-367-6372, menu option #1, if you want to arrange to have the vehicle towed to the dealer. Ms. Deegan, while we cannot alter the event that have prompted you to contact us, our apology is sincere for the disappointment you have expressed and the inconvenience you have experienced. We will, of course, continue to honor the terms of our Manufacturer's New Vehicle Limited Warranty, and are certain that Mercedes-Benz Manhattan stands ready to assist you. Sincerely, Paul Juron General Manager Customer Relations

Corres # 288020: owner writes "I am writing to get some explanation re: why the SRS system malfunctioned in my 2006 E350W4 which has been driven less then 2200 miles." Owner claims SRS light came on Jan. 23, claim she called dealer who advised her "there was a problem with either the seat belt or the air bags, it was ok to drive but bring it in the next day." Owner alleges after the repair she asked what the problem was and was advises "that some adjustment had to be made to the drivers airbag. I asked the SA what could cause the SRS on a 2006 to need an adjustment so soon. He said he did not know. I am very concerned about my car having this type of problem so soon. I am concerned that the system may not work properly when needed. Can someone tell me wh the SRS is malfunctioning. It is very disappointing to start having problems already with a new car." Owner attaches copy of RO from 05119.

I reached owner this time/date. I apologize for her concern & inconvenience, assure of our confidence in Dealer's repair, etc. Owner states when she bought a MB she "did not expect to need any repairs, let alone within the first couple of months of ownership. A bracket also had to be repaired. I am concerned about the quality though." I discuss with owner for several minutes, allay her concerns, owner thanks me for my follow-up. I offer to confirm in writing, owner replies "its not necessary. Thank you any way."

Corres # 288104 is directed to [REDACTED]. (Exec HOT Letter, response to be signed by Paul Juron).

Owner writes in part "I have been a MB owner since 1964 & have never had fewer then 3 MB's in our family motc pool at one time. Over the years everything has gone smoothly...however our last purchased in March 2005 has not been up to standards." Owner claims CLS had "a defective right interior door handle" and claims it took "several months to repair due to the parts ordering process." owner alleges his wife "lightly rear ended another car & it took the body shop almost 2 months to get the parts." Owner alleges "the latest issue has been a restrain system malfunction which again had taken a month for the parts...while she drove the car w/o airbag safety." Owner writes "we have never missed a payment and have gotten less then satisfactory service from MB. Our dealer, and especially Vinnie Mandzak, has been most apologetic, supportive & helpful, but I am beginning to los faith in the marquee. The press & word on the street is that Mb is not what it used to be...I have always taken exception and defended your reputation but this is wearing me down. Thank you for your thoughts and review of this matter." Owner copies Bruce Schulman, Robt. Allan and Vinnie Mandzak

2/8/2006 16:32:26 Cynthia Feuss 6289

Email to SPOM Brian Bae: Dear Brian, Scanned & attached above is Corres # 288104 from loyal owner Bruce Meyer, see sum note 1074094. The letter is directed to [REDACTED] (Exec HOT Letter, response to be signed by Paul Juron). Please call me to review ASAP. Thank you. Cynthia

2/9/2006 11:12:44 Cynthia Feuss 6289

Email from Gregg A Clark to William Kurtz/171/DCAG/DCX@WK-COOP: William, I spoke to Rami today on this customers history. 10/26/05 was in for a repair and was told parts were ordered for right rear door inside handle. Parts arrived, customer returned on 10/31, had parts installed. No parts availability issue. 12/26/05 SRS lite on. Control unit # 171-545-09-32 ordered, arrived, car picked up 12/29. No parts issue. 1/27/06 Customer had a flat. Tire could not be safely repaired. GOODWILL NEW TIRE. No parts issue. Car involved in a accident, Insurance Co. did not arrive to body shop for first 9 days. Gregg A.Clark Supervisor, Dealer Parts Services

Summary Notes

2/9/2006 13:28:27 Cynthia Feuss 6289

Request 05146 SM Cameron review the above sum note data from parts dept. and call me to confirm vehicle in/out (in for service, repair completed) dates. Thanks Cameron!

2/9/2006 15:26:35 Cynthia Feuss 6289

I left voicemail for SM Cameron with request he review this sum note and call me to confirm states, parts delivery etc. before I put in writing to owner.

2/10/2006 20:00:55 Cynthia Feuss 6289

I spoke with SM Cam who will e-mail his files/details to me, which, upon our initial review together, seem to contradict the 2-9-06 email above from Gregg Clark. SM also mentioned that SPOM has provided 2 lease payments to owner. (Request SPOM BB confirm for this writer the # of payments, the total amount, and if this was done due to owners complaint re: alleged parts delays! These details are necessary as this is EXEC HOT letter to be signed by Paul Juron, so my information must be accurate. Thank you.)

2/14/2006 15:09:56 Cynthia Feuss 6289

Email to SM: Hi Cam, Per my voicemail . . . Please review my draft response to Mr. Meyer and confirm that the dates (vehicle in, repair completed) are correct. Also, please advise name of Body Shop, date vehicle went to Body Shop and date owner picked up car; and if there were any parts delays, if so, which parts.

Sorry to have to bother you with this again...know you are very busy...but this letter must be accurate. Thanks, & always...

Cynthia

2/15/2006 15:08:23 Cynthia Feuss 6289

I left v-mail for SM Cameron this time/date.

2/16/2006 09:14:52 Cynthia Feuss 6289

Cameron left me a v-mail stating he never received my email with draft letter. I resent draft to Cameron this time/date.

2/16/2006 10:35:42 Cynthia Feuss 6289

Email to SPOM: Dear Brian, I sent you this information a week ago....still have not heard back from you. I must complete this EXEC HOT letter today. Please advise/confirm below (in blue) information asap.! Cynthia

2/16/2006 13:48:14 Cynthia Feuss 6289

Email from SPOM BB: Cynthia,

This was brought to Danny Aden and my attention by Rob Allan, who offered to pay for the lease payment through his own budget. We offered two lease payments for \$4400 total. Please let me know if you need any more information that is not provided in the e-mail string. Thanks! Brian Bae

2-7-06 from SPOM to MM: Danny, Customer retention comes from a separate account so it won't put the dealer in the red on the Goodwill Report. We can do this one on our dime without any trouble. Thanks for the e-mail. I'll let you know when the check goes out. Brian Bae

2-7-26 from MM to SPOM: Brian, What do you think, you know where you stand better than I on Goodwill. Danny Aden

2-6-06 from SPOM to 05146 SM: Cam, When you get back, could you please cut him a check for \$4,400 as customer retention. Thanks! Brian Bae

2-3-06 from Rob Allan to Danny Aden: Hi Danny, We received a troubling letter from Bruce Meyer (BH Ltd. Customer) whose CLS55 AMG has been down two months waiting for parts / repairs. The letter went to [REDACTED] but he copied me and Vinnie Mandzak as well. He made no threats but stated that his affinity for the Mercedes-Benz brand was being tested. Maura Kilkenny of [REDACTED] office requested that we handle this through you. In speaking with Vinnie yesterday, there is no big problem, but 1-2 month's lease payment would go a long way to restoring our favor with this VIP owner. Please let me know how you would like to handle this and whether you need a cost transfer to your budget for the funding. Best Regards, Robert F. Allan

Email from 05146 Parts Dir Rami: Hi Cynthia, I am replying to your e-mail that you sent to our service manager, Cameron Stewart, in regards to Bruce Meyer's car. I have sent a copy of all three invoices of parts that were ordered by the body shop, where Mr. Meyer was having his car repaired, to Gregg Clark at the PAC. These three invoices have all the parts involved on them, including the opening and closing date of those invoices. If you have any questions please don't hesitate to give me a call.
Thank you, Rami Joukhadar Parts Director

3/8/2006 19:39:19 Cynthia Feuss 6289

Corres # 290573: Owner writes to Paul Juron to thank him for our replay and "for the generous 2 month reimbursement on my lease. I am impressed by your timeliness and your sincere interest in this case which goes a long way in maintaining the long standing relationship I have with MB. With regard to the highlighted concerns, have a different time line, but at the end of the day they are all in the past and I look forward to a continued relationship with your fine company....Thank you again for your handling of this."

3/14/2006 14:33:09 Cynthia Feuss 6289

Marion Lopez Customer Service

3/20/2006 13:21:01 Joseph Leonardi 6255

Ms Meyer called in reference to above stating that she received a letter from Paul Juron stating that they will be receiving 2 lease payments. Customer states that she has a lease payment due on March 27th and wants to apply her payment to that.

Writer spoke with Cynthia and stated that MBUSA will issue customer a check for 2 lease payments but customer must pay her lease payments at this time.

Writer advised customer to pay her lease payments on time and she will be receiving a check from MB.

E mail from Rhonda Pollard @Home Office:

Honora,
My neighbor came over my house last night practically in tears because of his frustration with Nanuet Mercedes.

Approx. 3 months ago he bought a new E320 from Nanuet Mercedes (traded in his 1995 C-Class which he also bought from them). 5 weeks ago his wife was in an accident and the car was towed to an autobody shop. The autobody shop just finished fixing the car (had to wait a long time to get Mercedes parts). To make a long story short, the autobody shop took the car to Nanuet on Friday, Oct. 22 to have the airbags reset. There was 6 failing signs, but nothing has been done to his car. "Can't find the problem" He was there yesterday and the way he was treated by them, particularly David Rogers, the Parts & Service Director, wasn't to be believed. He wants to know why the car was only looked at but not worked on. He asked if he could get a loaner car and they wouldn't even give him that. He is ready to trade the car in for a Lexus! I feel horrible because I raved so much about Mercedes and talked him out of getting a Lexus in the first place!!!!

Rhonda didn't give me any information to go by .. so I replied:

Rhonda:

While I recognize your neighbor's feelings, regrettably dealers are privately owned and solely responsible for repairs/service they perform. Not having any details to go by, and not being involved, I'm sure you realize I can't really comment on your neighbor's story/concerns.

Can you give me you neighbor's Name (what's the year/model of the car, etc.)? I can document that he is dissatisfied with Nanuet, and share with Mike Willard of the NY Region.

It's also best that you give David Rogers a call yourself @Nanuet (845-624-1500) .. so you can personally share your neighbor's concerns (introduce yourself as working for Home Office) and allow David to explain/give dealer's side of the story.

Sincerely,

10/28/2004 15:27:29 Honora Duffy 6307

Rhonda wrote back:

Thanks for getting back to me.

Customer's name: [REDACTED], [REDACTED], Spring Valley, NY [REDACTED], Model: 2005 E320.

I'll try and give David a call.....

Thanks again!

Rhonda

I decided to call Rhonda. I told her (nicely) that while we are sorry to hear her neighbor was upset, we must remain neutral in this matter & recommend that she not contact dealer or get involved. I also suggested to Rhonda that she not "take sides" in this matter or make any comments that may be misconstrued by [REDACTED] and his wife - because we are manufacturer she has to watch what she says to them (for legal purposes)

I also confirmed to Rhonda there are always 2 sides to the story ... while we are not questioning [REDACTED] feelings, we always like to get the other side of the story from the dealership and I'll call David to see what happened.

Summary Notes

10/28/2004 15:37:47 Honora Duffy 6307

I called David who confirmed that [REDACTED] came into dealership yesterday upset, but almost like he didn't want to be there.

Customer tried to blame Nanuet for holding up repairs and became agitated at Service Director; yelling at David trying to blame dealer for the reason that vehicle had been at independent body shop for about 5 weeks because of accident.

David tried to discuss that this was not Nanuet's fault ... [REDACTED] refused to accept and said that's what body shop said - so he's blaming dealership - not body shop or insurance. David tried to explain that sometimes insurance takes some time to get there & body shops don't just drop everything to fix his car right away.

Customer demanded his vehicle be fixed right away or dealer give him free loaner; David asked customer why insurance is not paying for loaner - customer admitted he didn't get rental coverage on his insurance and wife is without a car for all this time.

David offered to get more people in to discuss & called in Service Manager and Parts Manager; by the time they came into his office, [REDACTED] had already grabbed David's business card and left angry.

Parts Manager confirmed that first order from Body shop was September 30th. Body shop then, again, called in another part order on October 15th.

David said that a tow truck showed up out of nowhere last Friday and dropped [REDACTED] car in their lot - no call to say it was coming - the tow truck driver just dropped the keys on the counter and left no message. SRS lights were on dash.

David then said either Saturday or Monday (not sure of day) [REDACTED] came to dealer; they pulled into shop & cleared the codes - codes came right back on again,

Upon further inspection dealer confirmed there's a problem with body shop repairs and SRS system from collision work.- Nanuet finally determined SRS light needs more work than clearing codes.

Dealer contacted body shop to get authorization to do further diagnostics/repairs; dealer finally got authorization from body shop on Tuesday/Wednesday to do what needs to be done to fix it. Body shop will be paying Nanuet for any further work.

Nanuet feels they have not done anything wrong in this matter; I'll let Rhonda know of my findings and assure her that if [REDACTED] has any further concern, David stands ready to discuss with customer directly.

10/28/2004 17:08:14 Honora Duffy 6307

I called Rhonda and told her what I found out ... I told her that if she has to get back to [REDACTED], to tell him she's looked into the matter and:

1. We can't get him a loaner car; if they need a vehicle, they should rent one & then give the bill to the insurance company of the other driver that caused accident to see if they will cover.

2. Dealer has to go over vehicle thoroughly which is going to take time, to find out why SRS light is not turning off. If [REDACTED] has any questions as to status, he needs to speak to dealer - we have no idea what repairs independent body shop did, whether they were done correctly, or whether what they have/have not done is causing light to stay on.

Comments

I have aleased 2005 bens and have trouble with the seat belt signal. The last time I had it in the garage, I was to the air bags were never connected and thank God I did not have an accident. Now I have the same problem. What do I di now. I am afraid to drive it. Any help will be appreciated. ██████████

I called customer - then called Service Director @Santa Barbara - he was not at his desk, but I gave Lisa a message. I also sent below E mail to Bob Milner (cc to Dan Berberian):

Bob:

Per my discussion with Lisa in your office, below is E mail I received from ██████████

I called customer - he confirmed he has not contacted your dealer yet. In September , when he brought vehicle i for seat belt chime was going on for no reason , he alleges someone at dealer "told me the airbags were never connected" (???)

There's claim:

09/08/2005@10,093 milesCONTACT SPIRAL/VOLUTE SPRING , AIRBAG CONTACT
FAULT/INTERRUPTION

He said now sound/chime is happening again - "it started a couple days ago and I don't know what to do". I guided him to contact you to discuss his concerns so appointment can be arranged. Once vehicle arrives, I assured him that if dealer finds they are in need of technical help from MBUSA, you have the means to obtain same via the proper channels.

Due to what customer alleges someone told him in September, if repair was simply a bad contact, maybe you ca go over the prior repair & any possible misunderstandings? (He made it seem like because of the alleged comment made , he now thinks airbags were never connected from time of production - he's been driving vehicle since October 2004).

Please keep me posted on outcome/handling (in case he contacts Home Office again); if you have any question give me a call.

Thanks!

Thanks!

Honora Duffy

Owner called in on TeleAid - said "SRS Malfunction" light is on - he wanted to know if it's safe to drive car for next couple of days I confirmed that it is not recommended vehicle be driven, because there is no guarantee that SRS system would function properly in accident situation.

I had RAP take the call; Jennifer spoke to customer & he declined tow - said he was going to take car into dealer himself.

I called MB of South Bay & gave Steve Schimkus a head's up - this is long-time loyal MB customer and I wanted Service Director to know that Mr. Dewenter declined RAP & said he would take into dealer himself.

Steve assured me that dealer will take care of this customer & thanked me for head's up.

 Owner called & left message on CAC machine over the weekend "I want someone to call me about the horrendous service I've been receiving at dealership"
 I left her VM to call me.
 8/28/2006 13:07:51 Honora Duffy 6307
 I called Ronnie Underwood .. left her VM - I also sent her E mail:
 Ronnie:
 Per my voicemail - customer left message on CAC's machine over the weekend that she wants to speak to someone about "the horrible service I received from Jacksonville dealer".
 Below is survey from January:
 I've left message for Ms. Phillips to give me a call are you aware of this customer's dissatisfaction?

Summary Notes

8/28/2006 15:07:54 Honora Duffy 6307

Ronnie called me - she spoke to this customer the other day.

Customer's shopped for vehicle & had planned to purchase at Jacksonville - then showed up with this car one da that she bought from Fort Pierce because she got a better deal.

Fort Pierce also sold her an after-market maintenance contract that guarantees free loaner - so she demands the Jacksonville honor this & give her free loaner whenever she comes in.

Ronnie has advised customer that since she didn't purchase vehicle there & this is an after-market contract , Brumos is not required to honor. Fort Pierce has now made arrangement that if she goes to Jacksonville, she wi give Fort Pierce the bill for rental & Fort Pierce will file for reimbursement through the after-market company on h behalf.

Per Ronnie customer is very demanding she has had many talks with Service Manager and no matter what Brumos does for her - she threatens to trash them on surveys.

Ronnie just spoke to customer last week [REDACTED] again complained about not being contacted on status of c , etc. Ronnie apologized, but this is not good enough for [REDACTED]

Ronnie said that if customer is calling home office to complain about something other than what they already discussed last week, she will be happy to call [REDACTED] .

I've left another VM for customer.

8/28/2006 15:46:07 Honora Duffy 6307

I spoke with [REDACTED] ... she expressed extreme bitterness over service @dealership "they are abysmal! "

She brought up loaner car issue & also "I have to say now when you call Brumos - they have a system and you speak to receptionist - unless you are on the side of the road bleeding - you can't speak to Service Advisor."

"I don't know if these people now answering the phone are technically competent enough to know whether you should come in for service immediately or not. I had an incident where the SRS light came on & system told me to drive to shop. I called & told her exactly what was happening - the woman said that earliest she can get me in was 10 days from now - on a safety system? I had to call the dealer in Fort Pierce ... who called Brumos on my behalf and got me in earlier."

When you pull up my file at Brumos there's a note on my screen "never give this person a loaner car because sh didn't buy from Brumos" - I feel they are just pissed off at me because I didn't buy the car there!"

I told [REDACTED] that many dealers have the same policy - I explained that due to small loaner car pool, as a per many dealers will only provide loaner cars to the individuals that purchase their vehicle from them. Since dealers are privately owned, we cannot force them to provide free loaners if they choose not to.

"You are losing a customer over this ... my husband walked away from Mercedes because of Brumos and for years I've endured "I told you so from my husband". I love this car - but want to let you know that I'm shopping fc BMW after all these years!"

"I've tried talking with Ronnie - I can't seem to reach her - her standard response is that's the owner's decision. If you want to have a receptionist screen calls - good for you - but have someone that is responsible answer questions regarding safety issues that come up!"

I asked [REDACTED] if, when that happened, did she ask to speak to Ronnie - she admitted she did not - then wer into story on how allegedly she cannot get through to Service Manager directly "they take your name, but won't give you to her immediately".

She claims that she is friends with owner of the dealership & "knows the Davis family" ... yet hedged when I aske if she feels this strongly about this & if dealer is going to lose her as their customer, has she spoken to the owner of the dealership - she back peddled - she said "I shouldn't use friendships to get what I want - I should be treatel like an MB customer and not like a friend of the owner".

8/28/2006 15:46:34 Honora Duffy 6307

I told [REDACTED] that we understand how she feels - this is all documented and will be shared with dealer's management.

E-mail: plflaw@erols.com

Comments: My E-320 is approximately 2 months old. It has approximately 2700 miles. The dash near the speedometer displayed a message last night saying that there was a defect in SAS and the SAS red light around the rpm was on . I am disappointed with this problem I heard that Mercedes was having electric problems but was told that they had been corrected. I bought the CDL version because my father was very committed to Mercedes Diesel and got great use from the engine. I must admit that I am having doubts about recommending this car to my friends, and whether I should get rid of it. Also my warranty was extended to 7 years and 100,000 miles thru Mercedes. Please correct the information on my MBUSA.COM site. Advise me how to resolve this problem ASAP. Thank You , [REDACTED]

10/18/2006 09:42:08 Honora Duffy 6307

I forwarded the Owner's On-line portion to Ron Hellard:

WDBUF26J36A [REDACTED]

E mail address [REDACTED]

Ron:

Owner sent below E mail, asking if his Extended Limited Warranty is supposed to show on his owner's online account

this is my first time with this question. Is this something customer has to enter himself? Or does Owner's On-line not have this feature to show extended warranty?

Our records confirm he purchased 36 month ELW - ends 8/15/2003 or 100,000 miles (whichever comes first)

Please let me know - thanks!

10/18/2006 10:03:16 Honora Duffy 6307

I called Milford (RAP call from 10/14 indicates that IG Burton was paged when customer called). Emil said that vin# doesn't pull up in his files.

I called Herb Gordon - vehicle not there either.

Michelle in RAP called IG Burton in Delaware ... RAP technician said that [REDACTED] told him he was about 14 miles away from home & wanted to know if vehicle was safe to drive with SRS light on. RAP technician said he advise customer it should be OK, but to take vehicle to his authorized MB dealership immediately when he gets home.

I called customer's office - secretary gave me [REDACTED] cell phone- I left message on his cell to call me ASAP so we can determine if vehicle is at an authorized MB dealership.

10/18/2006 10:06:07 Honora Duffy 6307

I sent E mail to customer:

Dear [REDACTED]:

Thank you for your E mail.

I left you a message on your cell phone today, to please call me at your earliest convenience so that we can discuss this matter further.

Sincerely,

E mail to Brian Bae (cc Bryan Lima, FB, GB, GC, TB):

Brian:

Received below "cc" of letter owner's Lawyer sent to Calabasas:

Mr. Segar called CAC on 2/22 (see Sum Note 1621263) - he said nothing about personal injury claim. All he stated was that vehicle was totalled in an accident and he wanted to know if he can cancel ELW - he was guided to see dealership on cancellation policy.

Now it appears [REDACTED] is trying to file personal injury claim against Calabasas - alleging airbags failed to deploy due to service being performed to vehicle back in February 2006.

At this point, do you feel a Referral is needed so MBUSA can ask Lawyer for pictures or locaiton of vehicle so we can inspect? Or should we stay out of this?

Honora D.

Primary Phone: [REDACTED]
Current Mileage: 26642
Dealer(s) involved: 05747

Situation: Owner purchased a pre-owned 2006 CLS 55 AMG. He brought it back to the dealer for a malfunction in the transmission. Owner explained that the dealer had the car in the service dept for a month the first time. When he drove the car again he stated that the dealer was unable to repair the car properly and that the transmission was still not functioning properly. Owner stated that he was told by the service dept that an expert from Germany would be flown in to repair the car. Owner was later told that this would not be the case and that a representative from the corporate office would be in to diagnose and repair the transmission.

Owner stated that the car would be bought back and then was told that this was not the case. Owner was told the car would be fixed and returned to him the following week. Owner received the car and then reported that the SR light was on and that the gauge panel was malfunctioning. Owner is driving the car the way it is and is currently making an appointment to bring it in to have the SRS serviced.

Owner is very displeased with the service that he has received from the Laguna Niguel dealer. He stated that he has been lied to by the service advisors. He has left numerous voice mails at the dealer and has received no answer. Owner stated that this dealer doesn't want him as a customer. Owner was not pleased with the fact that he had to drive a C-class car instead of the CLS AMG that he owns. Owner stated that he would like to remain a MB customer, he just wants his car repaired properly.

Action Taken: I told the owner that I would document his concerns and have a case manager return his call

6/11/2008 13:57:53 Stephen Quinones 6261

Writer phoned SvcM Richard U. in regards to the above.

SvcM advised writer customer's vehicle has currently been at their dlr for over a month in which his SPOM Brian and TS Jim is involved with trying to repair his vehicle. SvcM advised they are currently processing to have a 2nd goodwill lease payment offered to the customer in which it will be "personally delivered to as early as today."

SvcM advised they are currently attempting to address his concern in which he recommended opening up a referral if the customer makes any specific requests.

Primary Phone: [REDACTED]
 Current Mileage: 41000
 Dealer(s) involved: 39133

Situation: The owner was driving the car with his wife in the passenger seat. Owner stated the car was operating at approx 60 mph . The owner went from a paved road to a dirt road. Owner stated the air bag on the passenger side deployed suddenly. Owner stated that he did not hit anything in the road to cause it to deploy. Owner stated that after the airbag went off there was a message on the display stating "SRS Malfunction drive to workshop. "

The owner did explain that he "had taken this road before" and that this never happened . The owner did state th "I may have taken the turn off a little faster than I usually do."

Owner brought the car in for repairs and was told by a service advisor that this repair will not be covered. Owner was told to submit the bill to his insurance company for reimbursement. Owner doesn't want to submit the repair to his insurance company to prevent an increase in his premium. Owner was told by the service advisor that the information in the computer sensed a potential roll over condition and the system acted accordingly.

Action Taken: I told the owner that I would document his concerns for review by an escalation specialist.

3/31/2010 15:42:27 Joe Flannery 6343

What did the customer say? I spoke with [REDACTED]. She recently purchased the car. Owner has the car at the dealer in Signal Hill. Owner is stating the car is out of warranty and that she is looking for post warranty consideration.

The transmission is shifting very hard. The owner was stating that she has had Hondas with much more mileage on them and never has a transmission issue. Owner is stating that she expected more from German engineering and a quality car like Mercedes.

The car was just dropped off at the dealer and the owner wants to open a case. Owner wants Mercedes to call the dealer now and find out what happened with her transmission and make arrangements so that the owner will not have to pay.

Owner also has another issue with the SRS light coming on. Owner was asking what could of failed that would cause the SRS light to come on.

What was your response? I told the owner that for Mercedes to pay for a post warranty claim the work would need to be performed. The car is still being worked on, therefore no claim can be paid on yet. I explained that warranty parts need to be sent to MBUSA for testing as well and that this will take some time.

I explained that the SRS system is too complex for me to guess at what could be the cause of the SRS warning light coming on. The dealer will need to address this as well.

I told the owner that I will document her concerns and to contact the CAC again later after repairs have been made to see if a post warranty request can be honored.

Owner wanted to know how to locate her case. I told the owner her file can be found quickly using her phone number. Owner will be in touch.

What commitment(s) did you make to the customer (including timeframe)?

414215

██████████ faxed and e-mailed a letter to the CAC. Customer is disappointed that the valve body of the vehicle required replacement so soon after "the 80,000 miles warranty".

Customer says she is outraged.

Writer called ██████████ at ██████████

Writer explained that the MB warranty is 4 years 50,000 miles.

Writer asked customer when she bought the vehicle and how many miles it had on it. Customer couldn't remember when, but thought the vehicle had 60,000 miles on it.

Writer apologized that customer was disappointed with the vehicle and need for repairs.

Writer explained that in the future if she was a regular customer of the dealer and serviced the vehicle there, she might discuss her requests for assistance with the SvcM of MB Long Beach.

Writer explained that now that the vehicle is repaired and since the customer purchased the vehicle out of warranty and the vehicle was now 31,000 miles outside of its terms, we are unable to offer assistance.

Customer then told the writer that MB no longer stands for quality, claims she was going to buy another MB but not now. Writer again apologized for customer's disappointment.

Customer requests name and phone number of SvcM. It was provided.

The customer called in on the Tele-aid system to RAP. RAP agent Cinthia Sanchez asked the writer to speak with the customer. The writer called the customer back.

The customer alleged that her vehicle has the SRS light on and this is the second malfunction within 2 months of ownership. The customer explained that the vehicle oil level was off originally.

The customer requested a loaner vehicle for her husband when he brings the vehicle in on Wed morning. The writer left SVC Manager Glenn Gaito a v-mail with the information above.

Customer called CAC requesting a free service for the issues he has with his vehicle. Customer claims his SRS light has come on and he has to take off work to have the issue address. Customer stated the vehicle is defectiv and feels MB should offer free service based on the fact that he has to continually go to the dealer.

Writer advised customer the service manager at the dealership would be in the best position to discuss his request. Writer noted there has only been the MB first service.

[REDACTED] called the CAC and claims he had a brake fluid light on and brought vehicle to the dealership to address and was advised to have brake pads changed which he did. He claims since brake pads were changed the brakes are allegedly squealing. He claims he brought vehicle back to dealer where he claims the attempted 1 repair alleged brake squeal. He claims the SRS light is on and he brought vehicle to Euro Motorcars in German and he claims he was advised the brakes were not done properly.

Writer called and spoke with Service Director, Dave Sullivan, who stated he would contact the Service Director at other dealership.

Writer advised customer and suggested he speak with the Service Manager at Euro.

e-mail received:

Comments:

I want to speak with someone to dispute a recent charge on my lease ending inspection. Not only am I immensel disappointed with my E350 which I've had for 27 months, I've hardly driven it , and it's been in the shop more tha 8 times for various reasons and constant problems. I thought I had a lemon, yet the mechanics told me this was normal. Is it also normal that I have paid thousands in miscellaneous repair costs that should be covered under warranty? I hope not. There is a constant SRS light, and other inspection lights that come on in the car, and HAV NEVER BEEN FIXED. The car always indicated that something is wrong, my mechanic told me to disregard this light, which I've done. Now that my lease is over, not only did the inspector tell me I have to pay in excess of \$300 because it says my car was due for service, but I have to pay a \$600 disposition fee. Normally this would be acceptable, but given my frustration with this car, I would appreciate waived final expenses.

Dealer(s) involved: 03703

Situation: Service Manager Mike Pratt called the CAC to update customer file. He stated customer brought vehicle to MB of Naperville, IL where they agreed to Goodwill Repair to replace the SRS control Unit and Wiring Harness. Due to time restraint customer was unable to have repairs completed at MB of Naperville and the vehicle is now at Phoenix Motor Company to have repairs completed. Service Manager, Mike Pratt stated that he has contacted his SPOM Ed Connor and they have declined to participate in this repair. He stated it seems that soda pop has been spilled on control and this is not a warranty repair.

Action Taken: Writer advised Service Manager his comments would be noted.

What did the customer say?

██████████ called the CAC and stated that his wife was in an accident on Sunday November 29. He stated the vehicle was taken to Park Place Collision Facility and was totaled by his insurance company. He stated that the vehicle is currently at the dealership but he released the vehicle yesterday to the insurance company.

██████████ stated that the airbags or the seatbelts did not deploy. He stated the Service Advisor Mark Waugh advised him that the rear seat belts should have deployed and didn't.

██████████ stated that his wife hit the rearview mirror, bruise on her head, has bruises on her knees and may have a broke her hand but she has not gone to a doctor.

██████████ stated that a vehicle hit his wife's vehicle at a 90 degree angle, the driver's side headlight and the vehicle spun around 360 degrees and hit the other side. He stated the vehicle crumbled in all the right places but he is puzzled about the seat belts.

Customer stated he will be sending pictures (writer provided e-mail , mailmaster@mbusa.com)

What was your response?

Writer advised customer that his comments would be documented and forwarded to a Case Manager for follow up.

What commitment(s) did you make to the customer (including timeframe)? Writer advised customer to allow 24 hours for follow up.

Customer called CAC stating that he would like to know Mercedes-Benz policy on replacing vehicles with continuous repair issues. Writer advised that if any defect is found within the vehicle, we will make any repair or adjustments that are necessary under the terms of the Limited New Vehicle Warranty.

Customer alleges he feels as though he may have a "Lemon" having repairs over the course of the 6 months he has owned the vehicle = at least 5 visits for repairs on electrical components including;

- replaced Navigation system two times
- SRS replaced one time
- electrical problem with trunk

Customer alleges that he is now getting warning lights on the SRS once again.

Customer stated that he is "embarrassed, frustrated and tired of going back and forth the dealer" which is a 50 minute drive from his home.

Customer stated he already expressed these concerns with the Service Manager, however has not received a call back from anyone in one week. He is requesting assistance from a Mercedes-Benz representative to discuss returning this vehicle.

Writer advised that I will forward his concerns to the appropriate parties and invited him to call back should he wish to follow up with us, or make additional comments

Current Mileage - 7,265.

Forwarded to TL folder for NTMT and follow up.

Customer called stating his SRS light came on suggesting he drive to workshop. Customer stated he was right near MB of Monterey and drove vehicle there, however the service dept. is closed. Writer advised customer to leave vehicle at dealership, as we do not recommend he drive it. Customer stated that he is on vacation and was heading home today. Writer advised customer to inform sales manager that he will be leaving vehicle there for the service dept. to inspect tomorrow. Also, since his vehicle is under the Limited New Vehicle Warranty, he is covered for trip interruption. Writer advised customer to save his receipts for food, lodging and car rental, and when vehicle is repaired, he may submit the receipts to his selling dealer 05643 for up to \$300.00 per day for up to three days without his vehicle.

customer at airport. SRS light on. writer advised customer car needs to be towed. danger of either airbags not deploying, or they could deploy. customer in a hurry to catch plane asked if we could tow and leave a loaner. writer advised customer that he would have to leave keys, he could ask dealership for loaner car (we do not arrange loaners), or we could call ATX Concierge for a rental at his cost and he could submit rental cost for possible reimbursement. customer did not have time to take care of this now and could not leave keys. also advised customer we could not pay for car to get out of parking garage. customer said forget it, i will take care of it when i get back. ended call.

Charles Vanaman, Service Director at 85220 stated he was calling on behalf of their customer, [REDACTED], who is in AZ.

He stated customer's vehicle has been at AZ dealership for multiple weeks for SRS issue, that customer has asked for contact from MB about svc and repair.

Writer contacted customer and he alleged that vehicle has been at dealership for two weeks, waiting for part, that dealer advised wrong part was initially ordered, then no contact from dealer as to repair status. Customer stated he attempted to contact svc mgr but was advised he was out for training - customer requested MB assistance in having issue resolved. Customer stated he needs vehicle as he is returning to VA next week 3/

Writer apologized for any inconvenience and advised customer he would contact dealership and request contact with customer on repair status.

Writer contacted Nathan in svc - he confirmed that svc mgr was out for training, he stated he would ask svc tech (Evan Stark) who is working on vehicle to contact customer - he also provided writer with part information (21191072929D16 cover), they had ETA of 2/24 for part.

Writer checked with PAC who tracked part and advised it was shipped 2/21 and delivered 2/23.

Writer contacted Nathan and he stated he would have Evan check on part and then contact customer.

Customer called in to inquire about warranty coverage - she stated she had installed a wiring harness on her vehicle for towing - (vehicle is a sedan) - and inquired if warranty would be voided. Writer advised if repair issue was caused by installation of such, then that part of warranty related to repair would be voided.

Customer then stated she was at dealership for "svc" and dealer advised that they would charge her for svc to SRS light issue due to wiring harness installation.

She requested writer to put response in writing - writer advised customer to speak to svc mgr who is in best position to address issue - that if she put her request in writing to CAC, she would receive response.

Writer contacted svc mgr Kevin Derby who advised that he has spoken to customer and her spouse about installation of after market wiring harness - he also advised them that SRS issue is related to wiring harness, that vehicle has other electrical issues also:

codes read fault (resistance issue) for driver side air bag, tail lights an control for suspension in rear, fault in air bag, that wiring harness may have caused damage to SAM unit.

He stated they have also been in contact with MB TAC who advised that wiring harness cannot be installed in American version vehicles.

(CAC Technical Coordinator advised that towing is not recommended for any MB vehicle other than M & G class

Svc mgr stated he did advise customer they can remove harness to do proper diagnosis on vehicle but it would be at her cost.

Customer alleged that vehicle has SRS light on for 1 month, that dealer had part on back order and advised her vehicle is safe to drive - she stated she has to call dealer for part's status, no one calls her.

Writer apologized for any inconvenience, advised customer that MB does not recommend vehicle be driven with SRS light on; also, that he would look into matter - writer contacted assistant service manager Andy Mussarra who advised repair kit was in and customer may call for appointment

Writer called back customer and advised she call dealer to schedule service.

Customer alleged poor service from dealership - that "they are non-responsive , not helpful" when needed. She stated she has brought vehicle in 4x for service - 1st for the 1st service at 2500 mils; then had low oil light ar dealer did add 2 quarts at no cost; then she had no acceleration on vehicle. customer stated she had to discuss issue with service manger for 1/2 hour before she got immediate appointmer and loaner. Customer stated the SRS light went on, dealer advised her to come in, they would disconnect airbag and then sh could come back for repair; that MB "knows about" issue and will not repair it until light goes on.) Customer stated vehicle has been repaired.

Writer apologized for any inconvenience, advised customer that her comments could be noted and shared appropriately.

7/26/2006 10:57:36 James Blasie 4620

Customer stated he purchased damaged vehicle, repaired it himself - that SRS light would not go out. He stated he brought vehicle to dealership who replaced battery, seat track assembly (advised him related to SR issue), and light stayed on.
 Customer stated dealer advised him they did not know cause of issue, would need to take vehicle apart - customer declined further work , took vehicle on trip, went to Crown and they repaired issue in "10 minutes" (re-programmed airbag module).
 Crown also advised customer that module needed to be re-programmed first in order to diagnosis any issue with SRS light.
 Customer advised he called svc manager at Huntsville, manager advised him tech who worked on vehicle had 22 years experience - no offer of accommodation made.
 Customer was cordial, courteous throughout conversation - he stated his disappointment with dealer's response, may take matter further with dealership management.
 Writer apologized for any inconvenience, advised customer that dealership is independently owned and operated responsible for own day to day activities and actions of staff, that his comments would be noted and shared with dealership and MB field staff.

7/26/2006 13:27:39 James Blasie 4620

SPOM shared information from svc mgr:
 MARK CALDWELL WORKED ON THIS VECH AND PETE INSTALLED SEAT FRAME, VECH WOULD NOT PROGRAM DUE TO SEAT FRAME BEING SLIGHTLY WARPPED. WE COULD NOT GET THE CONTROL UNI TO PROGRAM WITH 2 DIFFERENT SHOP COMPUTERS. THERE IS ABOUT 4 WEEKS LAG TIME BETWEEN OUR VISIT AND HIS VISIT TO CROWN. HE SAID HE DID NOT ATTEMPT TO REPAIR ANYTHING BETWEEN VISITS. HE OWNS HIS OWN BODY SHOP. HE HAD TO REPLACE THE B PILLAR ON PASS SIDE AND WE REPLACED THE SEAT FRAME ON PASS FRONT.
 THANKS
 JOEY TIBBS

Comments: My SRS light is on. My car was purchased in the Spring of 2005 and this is the second time that this has happened. The last time was January of 2006. Can you please tell me what can be done so that a permanent fix is made to my car and I don't have to deal with this issue again? Thank you.

Contacted customer in prior SN# 883953. She states that vehicle has been in for service 4 or 5x. States that there was a crack in the Turbo Engine where the hose was attached. States she was told this had never been seen by dealer before. States that vehicle was in for over 1 week. Also states that vehicle was in 2x for malfunction of "airbag off" light and weight balancing in seat. Also in for seat memory. She states that ALL items are not fixed. Writer adv her that we would document her concerns.

#67793097 Loyalty Survey - Follow-Up

Contacted customer. He stated he has not been contacted by the dealership regarding his concerns. State as ior the Survey that the passenger seat belt warning goes off all the time unless he keeps the belt buckled which he does. Also states that the Navi system often has a msg that there is "no DVD". States he waits it out or turns on and off and it then will work. Also states that in the last 2 days he gets an "SRS failed take to dealer msg".

Writer thanked customer for returning the Survey. Advised that it lets us know what his experience is at the dealership and does give us the opportunity to address his concerns.

Writer advised that I would contact the dealership on his behalf to advise his concerns and have the dealer call him back.

He can be reached at [REDACTED].

Customer's SRS light is on. I told him our recommendation is tow to dealership for safety reasons. Customer asked if he could bring to dealership on Monday. Again, I told him we recommend an immediate tow to dealer. Customer asked to be connected to dealership, which was only a few miles away. I had ATX connect him to dealership.

customer's SRS light on. I advised cust. that in this situation, our policy is to tow the vehicle to the nearest MB dealership. He stated that he lives in West Chester, PA, and is currently in Lansing, MI. I told him I could arrange a tow to the dealership in Okemos, MI. Cust. stated he would drive there. I again reiterated that our recommendation is to tow vehicle, for safety purposes. He again stated he would drive to dealer. I asked if he wanted the phone # and address of Okemos dealer. He stated he had nothing to write info down with, and would "find them".

7/2/2009 13:17:58 Maureen Didomenic 6256

Primary Phone: [REDACTED] - cell

Current Mileage: 60000

Dealer(s) involved: 80210

Situation: Cust. states veh has been at above dlr about 6 times for electrical issues. Twice for SRS system , 3 times for glow plugs, etc. Cust. has owned veh 18 mos. Cust. states they also overcharged him for this vehicle, when he purchased vehicle. Cust. feels he was sold a "lemon" and wants MBUSA to "make this right". Writer has no problem w/his ML - only this vehicle. Cust. states he is away on business a lot, and fears for his wife's safety driving above vehicle. Writer assured customer his concerns have been documented, and will be escalated to a case manager, for callback by close of business today.

Action Taken: Escalated to case managers for callback.

7/2/2009 13:19:44 Maureen Didomenic 6256

Call back Date: 07/02/2009 time: 4:00 PM EST

7/2/2009 16:44:48 Norman Swartz 6341

The customer was left a v/m for a return call.

7/2/2009 16:45:02 Norman Swartz 6341

Additional call required Date: 07/06/2009 time: 2:00 PM EST

Summary Notes

7/7/2009 19:40:58 Norman Swartz 6341

The writer spoke with the customer. He alleges that he was contacted today by the dealer and they offered him 21,000 for the vehicle and 10,000 off another E Class. This would leave him 15000 in the hole. He is requesting a deal with a fair price. He purchased two vehicle , the ML has had no issues , but this E Class was in the shop 21 times before he bought it for electrical issues.

The customer wants the dealer and MBUSA to step up and assist with this issue.

Writer thanked customer for calling, apologized for any inconvenience, and advised customer that all comments will be documented and shared with the appropriate parties

7/7/2009 19:41:18 Norman Swartz 6341

Self reminder Date: 07/08/2009 time: 11:30 AM EST

7/9/2009 12:11:25 Norman Swartz 6341

The writer left a v/m for the S/M Charlotte for a return call.

7/9/2009 12:11:39 Norman Swartz 6341

Self reminder Date: 07/10/2009 time: 12:45 PM EST

7/9/2009 12:20:41 Norman Swartz 6341

The S/M called back she will look into this customer issue's.

7/9/2009 12:21:01 Norman Swartz 6341

Additional call required Date: 07/10/2009 time: 1:00 PM EST

7/9/2009 15:42:39 Norman Swartz 6341

The writer spoke with the S/M, Sales Manager and the S/A.

The vehicle has been to the dealer a couple of times and the issues were resolved.

The customer will be contacted and advised that the dealer is in the best position to assist with the sales issue of getting him into another vehicle.

7/9/2009 15:43:02 Norman Swartz 6341

Self reminder Date: 07/10/2009 time: 2:00 PM EST

7/13/2009 19:03:33 Norman Swartz 6341

The writer spoke with the customer. He was advised to see the dealer for further assistance. He was advised that any sales issue's would be handled by the dealer.

At this time he still has a ELW on the vehicle until 10-09 which will be honored.

Primary Phone: [REDACTED]

Current Mileage: 22970

Dealer(s) involved: 78602

Situation: [REDACTED] called asking about wrty on above vehicle. His SRS light came and above dlr told him the casing around the wiring wore out and had to be replaced. Vehicle went out of wrty on 8/2/09, and the cost of the repair is \$600.00. Customer alluded to the fact that his SA stated that MB knew about this issue and sent dlrs a "fix" to problem. Therefore, [REDACTED] feels MB should help out w/repair cost. Writer asked if customer spoke to SM at dlr about any pwc. Customer had not. Writer explained that any pwc is extended at dlr level , and provide name of SM, Robert O'Donnell. Customer will speak to SM and call back, if further assistance is needed.

Action Taken: Documented call.

Writer received call from SM Wyatt Stoppard from 49702. [REDACTED] and her husband TS Marshall have been in touch with service manager about issues experienced with vehicle.

Vehicle is exhibiting an SRS light. Svc manager has advised customer that vehicle should be brought into svc immediately for warranty repair. Customer declined towing and advised SM Stoppard that she wants her vehicle bought back (she feels that it is a lemon). Customer declined service towing and service to her vehicle until SM reviewed records with SPOM. SM reviewed with SPOM and maintained to customer, and husband (TS Marshall that MBUSA is not currently in a position to buy back the vehicle. SM conveyed to customer that vehicle will be repaired to manufacturers specifications. Customer declined towing/ service and conveyed that media will be contacted as well as law suits filed.

If customer should cal back , please maintain MBUSA position that the vehicle will be repaired under the terms of the Warranty.

Hi Eileen ,

FYI - We just received another call from this customer. She would like to have a response in writing faxed to her at [REDACTED] by 5:00 pm today. I realize it is already late in the day and this might not get out today , hopeful a response can be sent out Monday. Please call with any questions. Thanks for your help.

Hi Eileen,

See Andy's request for a customer letter below. Please assign and then have the CAC rept send the draft letter to Andy and myself for review.
If the CAC rept needs more details, please contact Andy.
Thanks and have a great weekend!
Yvette

Summary Notes

Hi Yvette,

The dealer has called this customer a few times to bring the car in to the dealer to inspect and verify her complaints. We have even offered to go to her home and pick up the car. She has refused to let us look at the car. Can you have someone send the owner a letter asking her to contact me (800-225-6262 x 7330) to set up a time to inspect the vehicle.

Regards,

Andy Homer
Service and Parts Operations Manager
Market 6, Los Angeles Region

Fax: (480) 699-6326

10/28/2005 16:55:36 Nicole Shababb 4619

Writer drafted a response and called Andy Homer and advised him of the contents. Writer asked if Andy wanted to see the letter before it was sent out. He advised this was not necessary. Letter was approved by Jackie Galletta, Team Leader. Writer then called Jaclyn Boita and advised her the letter was done and approved. write advised that she would fax the letter to the customer ASAP. Jaclyn indicated she would advise Yvette of status.

Writer faxed letter to customer. Hard copy will be mailed to the customer's residence.

11/1/2005 13:35:58 Nicole Shababb 4619

Following note added to the customer's file per request of Andy Homer , SPOM:

"Hi Nicole,

Can you add this to the sum note. Owner is requesting MBUSA to pay for a rental car because she feels the car is not safe to drive. She has refused to allow the dealer to pick up the car to repair. However , the service manager, Wyatt Stoppard, of FJ Las Vegas, saw [REDACTED] driving the vehicle last Sunday, 10-30-05. See the below e-mail from Wyatt Stoppard.

Regards,

Andy Homer

Customer contacted CAC this afternoon to advise of issues experienced with her vehicle. Customer conveyed to writer that she is very happy with MB and has always driven MB vehicles. Customer is however upset with repeat servicing of her vehicle. Customer advised writer that the vehicle is currently at the dlr for the second time to have an SRS light rectified. Writer apologized to customer for issues experienced and advised that her concerns will be documented. Customer was advised that she may wish to speak with the svc mgr at the dlr to review her concerns. Customer call dropped.

Writer called [REDACTED] and spoke to customer who stated his vehicle has been at the dealer three times for an airbag system malfunction. Customer stated this could cause serious injury or death and customer has already spoke to a lawyer regarding this matter. Customer stated he will give MB one more chance to resolve this matter before he takes legal action. Writer provided customer with our address so he could write a letter.

Writer advised customer his comments would be documented.

Writer forwarded to TL for further handling.

Customer called the CAC via tele aid, incident #65139848, stating the SRS warning lamp is illuminated.

Writer advised that MBUSA recommend towing the vehicle to the dealer, and for customer to NOT drive the car...as the airbags may accidentally deploy, or if customer were to be in an accident , airbags may not function.

Customer thanked writer for the explanation, but states that she is about 2 miles from dealer, and will drive to the dealer and drop car off. Writer again, suggest vehicle be towed, citing that this is for customer's safety. Customer again declined.....writer advised customer to drive very carefully.

Customer called claiming that vehicle is at dealer for SRS issue.

Customer claims that she was surprised to learn that vehicle is on Warranty 8 status. Writer suggested she request SM to have SPOM vehicle inspected and to approve repair if appropriate.

3/17/2006 12:12:33 Patricia Murdy 6394

Customer called back stating she needed to speak to Mike Ellis. Writer advised he was not available & offered to help. Customer stated she needed to speak with him because her service advisor advised her that her vehicle cannot be repaired under warranty until he sees it.

Writer inquired if customer spoke to SM as she was previously advised by Frank. She stated she had not. Writer advised customer to speak with Debbie at the dealer.

Dear [REDACTED]

This is to advise you that the Tele-Aid Response Center (ATX) has notified Mercedes-Benz USA that the above referenced vehicle has erroneously activated an alarm associated with the Tele-Aid System.

We recommend that you have this system error addressed as soon as possible. Please contact the service department of your authorized Mercedes-Benz dealer to schedule an appointment for the appropriate inspection and repair.

We apologize for any inconvenience this may cause you, and thank you for your prompt attention to this matter.

Sincerely,

Frank Parente
Customer Relations Liaison

Dear [REDACTED]:

Thank you for your letter.

We regret to learn of your disappointment with recent service at Mike Smith Autoplex in Beaumont, TX, and apologize for any inconvenience you may have experienced. However, lacking direct involvement in the actual occurrence with the dealer prevents us from commenting on this matter specifically.

As you may know, Mercedes-Benz dealers are privately owned businesses, solely responsible for their daily business affairs, which include personnel, repairs, charges, loaner vehicles, etc. (Alternate transportation is a courtesy that may be offered by some dealers.) Since you seem to suggest that Mike Smith Autoplex was remis: in their dealings with you, we forwarded a copy of your letter to them for whatever action they may deem appropriate.

If you have an outstanding technical issue or questions about recent repairs, we suggest that you contact Sean Manuel, Service and Parts Director at Mike Smith Autoplex, for review. He may be contacted at [REDACTED]

[REDACTED], we appreciate your taking the time to share your concerns and the opportunity to respond. Best wishes for safe and pleasant driving.

Sincerely,

Lois Grillo
Customer Relations Liaison

LG/jla

Customer alleges that the SRS light comes on in his 2006 CLS500; writer advised that the vehicle should be towed to dealer for inspection. Customer declined to have the vehicle towed at this time - writer provided the RA number to arrange a tow (customer indicates that he may call later).

Customer had contacted CAC about his 2006 R350 issues (writer did a referral on this) and the customer "mentioned is the course of the conversation about an alleges SRS light" on in this vehicle.

Customer called the CAC requesting to speak with "Frank Dingman" by name. Customer alleges that dealer (Susan Turner) told her to call him at the CAC and she alleges issues with the SRS system in her vehicle.

Customer alleges that dealer told her that Frank Dingman is "reviewing her file".

Customer would like a call back at 760-801-0414. Writer suggested that customer contact the S/D at dealer who is her contact; writer did not promise call back by the SPOM. Writer stated that she would hear from "someone". Customer was disappointed with the response.

Writer alerted SPOM of call.

11/3/2006 15:38:53 Lois Grillo 4627

#308731
customer sent email to CAC (see attached below).

Writer called S/A Wendy at dealer that customer paid for an "A" service at 9,781 miles pm 10-31-06. Customer also paid for a brake fluid flush and tire rotation.

Summary Notes

11/8/2006 09:38:37 Lois Grillo 4627

Dear [REDACTED]:

Thank you for your recent e-mail to our Customer Assistance Center.

In 2005, we carefully reviewed the maintenance services and customer care initiatives we were providing to our customers. After we began offering the Mercedes Maintenance Commitment in model year 2000, to complement our Flexible Service System, our customers indicated the program was creating confusion in terms of what was covered and when. The program covered basic maintenance items such as oil and filter changes, cabin dust filter and engine air filter elements and miscellaneous system checks. As you may know, customers still had to pay for remaining maintenance costs, including more significant costs for wear items, which sometimes caused unanticipated customer confusion.

After monitoring this over time, we decided, as of Model Year 2005, to reinstitute fixed service intervals so that our customers' cars could be serviced at a more regular and predictable schedule. We will provide what we call The Service Welcome, consisting of a First Visit between 1,000 and 3,000 miles for a vehicle diagnostic check, introduction to service personnel, as well as a scheduled tire rotation at up to around 6,500 miles (a service not typically covered under "included maintenance" programs, but one which our customers indicated would be helpful) are covered with the purchase of the vehicle. (For vehicles with staggered-width tires, the initial rotation is replaced by a tire inspection and inflation check.) This information is indicated in the Service and Warranty booklets provided with your vehicle.

That being said, while we cannot speak for other manufacturers in regards to the terms of their warranty coverage we believe that this initiative meets the needs of the majority of our owners and apologize for your dissatisfaction. Please be assured your comments regarding our warranty coverage have been documented and will be shared with the appropriate areas within the company.

If we can be of any further assistance, please feel free to call us at 1-800-FOR-MERCEdes (1-800-367-6372). The opportunity to correspond is appreciated.

Regards,
Lois G

Comments: Dear Sir/Madam I am writing to tell you how deeply disappointed I am with my 2005 E320 and the Mercedes Benz experience. I have had this vehicle to the dealer at least 4 times for SRS work for wiring harness and connection repairs. Each time I was assured the problem was going to be fixed and each time more work was required. In addition, I bring my car in yesterday for a 10K service call and find out that the computer is calling for a break line flush and an internal air filter. So in addition to a \$250 service call I am charged an extra \$180 for things that should not be required on a car this new.. As colleagues of mine were purchasing the Lexus and BMW offerings I resisted the temptation and choose to remain with the Mercedes product. I have to be honest in saying that I do not know if I will be making that same mistake again.. Mercedes has a lot of ground to make up to be back in that caliber of vehicles. It starts with standing behind your products and not charging for things that should

not be defective in cars that ~~Summary Notes~~ less to say i am very disappointed with my Mercedes Benz and right now would not recommend them to anyone in the market for a new car. Thank You [REDACTED]

Lois i appreciate the response but feel you missed my point... Why does a car w/ <10k miles needs a break line flush and an cabin air filter? I am not frustrated w/ the service interval, but rather parts needing replacement so early on in a cars life, and not covered under warranty..

Thanks,
Mike

Customer called the CAC alleging that she has had many past issues with her vehicle. Customer alleges that at this time she had the following concerns;

- *defroster not working correctly (also fogs up) and the wipers not working correctly.
- *metal threshold at rear lifting up.

Writer advised that vehicle needs to go to an authorized MB dealer for investigation/repair. Customer states that she does not want to go her selling dealer and that dealer 39133 is much more convenient. Customer will contact dealer for appointment ASAP.

Writer called dealer 39133 and left a V/M for Idris Sherrod regarding customer and requesting additional info.

Customer also stated that MBUSA needs to do something for her - she suggested that "compensation". Writer stated that customer comments would be noted.

Damon:

FYI customer feels that due to the history of this vehicle MBUSA should do something for her ("compensation"). She stated that her vehicle should be picked up and a loaner brought to her like Lexus. Also stated that she has been inconvenienced in the past due to SRS and brake issues.

Lois

Customer sent the following email to Alan McLaren -
Alan McLaren

Vice President Customer Services
Mercedes Benz USA

Dear Mr. Mc Laren,

I am a long time Mercedes Benz fan and currently own four of your vehicles. They are a 1997 E420, a 2003 S55, a 2003 SL55 and a 2006 E350 4matic wagon. Obviously I really like driving Mercedes Benz automobiles, but the reliability of all but the E420 is so atrocious, all one can do is laugh about it or become extremely angry.

I'm sure you have access to all the service records so you can see for yourself what my experience has been. Further aggravating my feelings is the fact that I also own a 2003 Chevrolet Suburban which after 95,000 miles has been more trouble free than all but the E420.

Two of the latest examples of a long list of problems caused by the poor quality of Mercedes automobiles: About a month ago, the SL55 needed new connectors where the SRS wiring attaches to the seats. They were corroded and needed to be replaced. It also needed a new power steering pump and lower balls joints. This is totally unacceptable for a car that costs in excess of \$100K and has only 27,000 miles on it. Fortunately I have an aftermarket warranty which covers all but the SRS connectors. Then last week I took the E350 in for routine maintenance. As I drove away I attempted to turn the radio on and it was dead. I immediately returned to the dealer. Over a week later they still have my car.

I've spent close to \$12,000 for aftermarket warranties for the three late model MB cars and it has been money well spent. But what a sad state of affairs it is that my experiences are such that I need to do this.

I know there is nothing you can do to correct the poor quality of these cars, but under the circumstances, I really do think MB USA should cover the cost replacing the SRS connectors.

Sincerely,

██████████
11/28/2009

No Escalation Required

12/2/2009 10:38:12 Lois Grillo 4627

I spoke with ServM Andrew Savoy about customer's request for assistance with the SRS connectors; ServM offered to cover the cost of the repair and asked that customer contact him directly to have the work done.

12/2/2009 11:22:19 Lois Grillo 4627

I called customer at his home ██████████ and his wife asked that I call him on his cell phone. I called ██████████ at ██████████ and stated that I was calling on behalf of Alan McLaren. I stated that we contacted the ServM at dealer 08103 and that he has offered to cover the cost of the SRS connector and to ask for Andrew Savoy to make the arrangements .

Customer thanked us for the assistance and stated that he would speak with Andrew Savoy at the dealership.

[REDACTED] contacted the CAC

Customer stated that paint has chipped from the rear bumper. This concern is currently being addresses at WALKER AUTOMOTIVE. Per customer, vehicle has been there for 6 days. Customer claims the dealer has told him that this is a factory defect.

Customer upset that alternate transportation is not backed up by MBUSA. His selling dealer promised loaner whe vehicle is serviced.

Writer apologized for his troubles, but advised that alt. trans is at the dealer's discretion as dealers are independently owned.

Customer stated that he expects quality service and loaner program when buying a MB. Customer is dissatisfied

Writer advised customer that his comments/concerns would be documented and shared.

Summary Notes

9/19/2006 15:23:22 Christine Dingler 6361

██████████ phoned the CAC back regarding lack of loaner and service at this dealer.

Customer stated that this vehicle has been at this dealer for 7 days. Vehicle was brought to dealer for paint chip on rear bumper and SRS light being on. Customer stated that dealer promised vehicle would be ready last Friday then Monday - vehicle is still not ready. Customer very dissatisfied that he requires repairs so early in service life of vehicle.

Customer was difficult to understand.

Writer apologized for his experience. Writer suggested customer speak with SM of dealer, MBUSA would provide technical assistance if required to repair vehicle. Writer advised that dealers are independently owned and operated and solely responsible for daily business actions.

Customer not satisfied w/ dealer stating that dealer did not have color he wanted when purchasing vehicle and did not like dealers "attitude" so he purchased vehicle in TX.

Writer spoke with RAP tech - Dealer phone line was not working - who advised he would ask David Allman to phone writer back as SM is not in office today.

9/19/2006 16:44:49 Christine Dingler 6361

David left writer VM - writer returned VM.

[REDACTED] contacted the CAC

Customer upset he was charged \$300+ dollars for service. Stated he was not charged before with his other cars.

Writer advised customer that FSS service is no longer covered under the warranty as of MY 05.

He stated that he has had repeat issues with the SRS light and power steering. He stated that he just got his vehicle from service 30 mins ago, and reports no trouble at this time. However, wanted to know what MB planned to do about this.

Writer advised that we would honor the terms of the warranty and invited him to call us or speak with the SM if issues resurface.

[REDACTED] sent letter to MBUSA. Customer feels that vehicle is a lemon and says that she no longer feels safe driving it. Customer references our decision to decline her buyback request back in July and writes that The SRS light has come on while driving and that other electrical issues have resurfaced as well. Customer says that her lease is coming to an end and has to decide between MB, Lexus or BMW.

Writer contact [REDACTED] who advises that he is afraid to drive the vehicle. She claims that malfunctions appear on the display and after she shuts that car off, they disappear. She says this happens intermittently and for this reason, she does not trust the car.

Customer is requesting trade assistance and says that she like Mercedes' although she has never had a problem with her Lexus.

Customer wants to work something out with Mercedes' help to get her into another vehicle and 'not put the energy into getting an ATTY involved again'. Writer made no guarantees but advised that I would relay her request.

Customer requesting to work with Rusnak/Arcadia, specifically with Edith Wolfe, her salesperson whom she trust and feels very comfortable

12/4/2007 14:50:33 Maria Cruz 4604

Writer will review with MM and SPOM.

12/13/2007 16:14:15 Timothy Ucker 7810

Customer called in regards to above requesting status and requesting to speak to above agent. Writer spoke with above agent who agreed to speak with customer, Writer transferred call

12/13/2007 16:25:39 Maria Cruz 4604

Writer sent e-mail to MM and SPOM regarding the above so that writer can respond to customer.

Summary Notes

1/29/2008 18:04:57 Maria Cruz 4604

1/10/2008 e-mail from SPOM:

Here request for repurchase has been denied and we do not offer any type of trade assist to customers in these types of situations.

I have contacted the Sales Manager, Greg Sexton, and informed him of the situation and asked that he work with the customer to get her a favorable price on the vehicle. The decision on how favorable that price is going to be at the discretion of the dealership.

Thanks for keeping me in the loop!!!

Take care,

Robert D. Mansfield

2/29/2008 15:35:43 Maria Cruz 4604

██████████ called writer.

Says that she opted to buy her vehicle out right, since the lease is coming to an end. Customer to sign paperwork in the next day or two and claims that the dealer in Encino told her that the SRS system is not covered under the ELW she intended to buy.

Customer now questioning her decision to purchase the car. Wanted to know if MB could do something for her. Writer advised customer that MBUSA's ELW is the only extended warranty we offer for her car, and that we were unable to change the terms. Writer inquired if she was certain that it was a MBUSA warranty she was being offered and not an after-market (which we had no affiliation with) which some dealers may also offer.

Customer claims that she was offered both and was provided their respective prices as well. Customer certain it was the MBUSA ELW.

Customer stated that since the SRS system was repaired three times in three years "for the same thing" (wire), that MBUSA should back their product and guarantee free repair should she have problems with the SRS system after her warranty expires, since the ELW won't cover.

Writer advised customer that we could not speculate as to what would/could happen and for this reason could not commit to paying for future repairs. Writer advised that we would honor the terms of the warranty but would review PWA on a case by case basis through the service manager, if needed- at the time of vehicle repair.

Customer requested that writer put this in writing. Per TL, Lois, writer asked customer to send her written request and that we would respond accordingly.

At customer's request, writer also provided MSRP of ELW purchase options for her vehicle. Writer offered to send her the ELW pamphlet, customer declined and advised that she would pick one up at a dealer. Customer inquired about getting a discount on the ELW price. Writer advised customer that MBUSA is not involved in retail sales and could not offer a discount.

Customer stated that she would shop around for the best price on an ELW and send her written request, which writer explained would have no guarantees and just explain our PWA policy/procedure.

 [REDACTED] contacted CAC. [REDACTED] alleges vehicle has been at dealer since Friday for "SRS" concern.
 [REDACTED] alleges he was advised by Danny Chang service advisor a part had to be ordered and hasn't arrived yet.

Writer advised [REDACTED] since MBUSA hasn't been directly involved in the diagnosis or repair it is difficult to comment or speculate on any action taken thus far.

Writer advised [REDACTED] MBUSA does work through our authorized dealer locations. Writer advised Mr. [REDACTED] would contact the dealer on his behalf.

Writer advised [REDACTED] he may be contacted directly by the dealer.

Summary Notes

6/1/2005 19:12:44 Katina Clement 6262

Writer left message for Cameron Stewart service manager requesting call back.

6/1/2005 21:16:50 Katina Clement 6262

Cameron Stewart returned writer's call. Cameron stated part was ordered , originally thought to have arrived, but dealer has found out it is on back order.

Cameron stated backorder RO 517776 line A. Cameron stated he will attempt to find out additional information and call writer back.

6/1/2005 21:32:28 Katina Clement 6262

Cameron called writer back advised part number is 171545083228 for a SRS control unit. Cameron also stated h attempted to contact [REDACTED] but it just rang.

Writer provided Cameron phone number's on file for [REDACTED].

6/3/2005 13:19:54 William Maher 6250

Update from PAC:

Parts manager Rami Joukhadar advised me that the part was installed in the car on 6/02/05. This case is now closed

 Dealer(s) involved: 34107

Situation: [REDACTED] called CAC requesting assistance for part availability. Owner alleged "SRS, ESP visit workshop and Active Head Lamp currently unavailable warning lamps have been on for the past three (3) weeks

Customer alleged he called selling dealer 72320 and dealer 34107 for repairs. Dealer allegedly advised customer he needs a "steering column sensor replacement" and allegedly the part is not being shipped from Germany.

Writer apologized to customer for inconvenience and advised I would document his concerns and share them with the appropriate individuals.

7/27/2005 10:37:31 Reina Rojas 6367

Writer called and left SPOM Brian Maloney a voice msg regarding above issue.

7/27/2005 15:54:14 Robyn Letz 6209

From PAC:
 Dealer has no record of this customer, or vin #

Summary Notes

7/27/2005 16:05:13 Reina Rojas 6367

Writer spoke with both SM Carlos & SPOM Brian Maloney regarding customer driving around with SRS warning Lamp on. Per SM Carlos customer refused to bring vehicle into dealer for inspection and demanded dealer place an order for the steering column sensor. SM Carlos also advised customer has an "aftermarket radar detector hooked up to the vehicle."

Writer also spoke with SM Pierre at dealer 72320 who claimed he advised customer he should not be driving with SRS warning lamp on.

Writer called customer to advised vehicle should be brought into dealer for proper diagnostic as customer alleged dealer 72320 allegedly advised over the phone that he had seen "4 of these vehicle need module replacement and allegedly Germany is not releasing part because they don't know what the cause of the problem is". Customer stated various times that writer was not answering his question "what if steering column sensor is the part needed to solve the problem what is MBUSA going to do then?"

Writer advised customer that with out a proper diagnostic we can not determine what is causing SRS & other warning lamp to come on. Writer again suggested he bring vehicle into dealer for service. Customer stated he will bring vehicle into dealer 72320 for service.

8/2/2005 15:24:59 BRIAN MALONEY

SM at 34107 phoned writer. Cust vehicle brought in for diagnosis. Diagnosis reveals need for B/O part. Cust may be upset due to cust had called selling dealer and selling dealer advised that this B/O part was the needed part to take care of issue. Servicing dealer policy is to perform own diagnostic work before acquiring any needed parts. SM states that cust would call MBUSA to complain. Dealer providing car for 3 days before beginning to charge customer.

Primary Phone: [REDACTED]
 Current Mileage: 18750
 Dealer(s) involved: 05759

Situation: [REDACTED] called CAC (please see referral # 183017) alleging she is ready to "invoke the lemon law" and requests that MBUSA "take back the vehicle".

[REDACTED] alleges the vehicle has been brought to the dealer for "GPS, Radio , A/C unit replacements, SRS warning lamp, and driver side seat malfunctions" customer also claimed that the two (2) times she went to use teleaid, it did not work. Customer stated "my heart is palpitating...this car is taking months off my life...I'm about to have a heart attack". Customer then claimed she had a "couple of late payments" on her vehicle and requested if MBUSA could "remove" those late payments as a "courtesy" for the issues, she's had with vehicle.

Writer asked [REDACTED] if she had reviewed matter with service manager. Customer claimed she is waiting on a call from SM Chris. Writer advised customer I would call SM on her behalf.

Action Taken: Writer called and left SM Chris voice mail regarding above matter.

SPOM E-mail sum note up dates:

Hello Carl,

I spoke to [REDACTED] yesterday after playing phone tag for 1-2 days. When I mentioned the words of the vehicle "not being a buy back" she had an intense reaction as if she could not think, breathe or speak any more. Then another person by the name of AL continued the conversation. He spoke about her extreme need of safety; need of trust the vehicle in remote locations and late evening hours. Then he added about her having been raped in the past. He stated he thought the vehicle has been in 14-15 times and has been "down" for over a month. He was going to review his records since we show 9 total visits and 14-15 days down. He said he would call me back. I did offer to reimburse a month's lease payment as a goodwill gesture or to wait and monitor the performance of the vehicle for a month or two. At that time we will still honor the reimbursement offer or review the vehicle again should other complaints arise. I will wait for a few days and if no contact is made to Caliber Motors I will contact them again.

Keeping you posted,

Chris

9/15/2005 17:53:52 Reina Rojas 6367

Hey Carl,

This is an update.

Just spoke to her again. She is coming in next week for Easy Entry operations being intermittent, brake light on and double checking the Tele-Aid system. She basically "just doesn't feel safe and can't trust the vehicle" for fear of being stranded and also not being able to contact Tele-Aid. This is greatly based on her being "a recent rape victim". Even items that do not concern the vehicle breaking down keep giving her mental and physical traumatic reactions. We spoke in length about her concerns. She does appear to understand MB USA is not buying the car back but along with Caliber Motors, will keep monitoring any future situations as need be.

Thank you,
Chris

Summary Notes

9/14/2005 12:45:05 Reina Rojas 6367

Primary Phone: [REDACTED]
Current Mileage: 3400
Dealer(s) involved: 05101

Situation: [REDACTED] called CAC to discuss his IBS survey.

IBS Overall Rating: "very dissatisfied" Survey Comments: Rated "poor" for 2b-f; under suggestions for improvement of the E500 for the future, customer wrote "The seats need substantial improvements".

Customer expressed his overall "dissatisfaction" with dealer 05101 services and quality of vehicle. Customer stated "If I could drive the vehicle off a cliff I would". Customer claimed vehicle has been into the dealer 5 times for electrical issues-including: seats at time have no power, radio malfunctions...airbag activated warning lamps on...etc. Customer claimed "every one I talk to I tell them I would never buy a Mercedes-Benz...the dealer is pathetic...and the seats are like a rock on my back , I can't drive for more than 45 min without having to stop...I haven't had any braking problems or undo acceleration as I have heard from other people... I am doing everythin possible to get out of this vehicle".

Customer claimed he looked in the internet and alleged that under owner reviews, that "20% of the owner's complaint about the seats in the vehicle". Customer again expressed his overall "dissatisfaction" with quality of vehicle and dealer service and claimed he would "never buy another MB" and that "BMW is far superior in quality and service".

Writer apologized to customer for experience, advised I would document his comments/concerns and share them with the appropriate individuals. Writer also thanked customer for taking the time to call MBUSA and provide us with his feedback.

Action Taken: Sent MM, SPOM & dealer a NTMT. Forwarded sum note to survey and follow up dept.

What did the customer say? [REDACTED] called to state that the veh was taken for service B and he advised the SA that the SRS light has been on for less than 6 months ago. Cust states he was advised by the SA the price to repair the SRS light is \$900. Cust states that this problem is all over the internet concerning these vehicles. Cust states that the expense is not shared, this will be his last MB.

What was your response? Writer inquired if cust has spoken with the SM and his response was negative. However, cust states the SA will speak with the SM and get back to him. Writer advised cust the SM will be notified of his call.

What commitment(s) did you make to the customer (including timeframe)?

Summary Notes

1/13/2005 12:46:52 Anthony Turturiello

The customer called claiming that she called for roadside service on 1/12/05. The customer alleges that she was experiencing numerous electrical issues with her vehicle such as her interior dashboard lights blinking on and off SRS warning light appeared, and her exterior lights flickered intermittently.

The customer claimed that she was heading home when this occurred and the roadside agent informed customer that she would page at technician that would contact her in 15min, however no one ever called her back. The customer alleges that she drove vehicle directly to dealer 05734 for repairs.

I advised that customer that the SRS (Supplemental Restraint System) light means that the airbag system would be inoperative. The customer was also informed that the airbags might deploy when least expected or might not work when needed. The customer was informed that at tow should have been sent for the SRS light and other electrical malfunctions.

I advised the customer that there was an error with the page being sent out , and that I would document issue into MBUSA database. I then informed customer that I would inform the Roadside Department of what occurred. The customer was pleased. AT

1/13/2005 12:51:36 Anthony Turturiello

The sum note was given to Roadside Team Leader, Bernadette Cavanaugh. AT

Closed Referral #: 180 805
Dedup function inoperative

██████████ called for a status update regarding the above closed referral. Writer advised customer that the Regional Management believes that the SRS and Transmission issues have been resolved. The customer was then informed that his request for a repurchase/trade out was denied, however MBUSA will provide the customer with one lease payment reimbursement for the troubles with the vehicle.

The customer claimed that first of all he paid cash for the vehicle and secondly the vehicle is back at the dealer for an SRS issue. The customer also alleges that his vehicle's clock is inoperative. The customer believes that this vehicle is having far too many issues.

The customer alleged that he has been purchasing MB vehicles from 1972-1994, then switched to Lexus from 1994-2004, and now back to MB, however he believes that if MB does not make right on this bad situation he will pursue the "Lemon Law" and leave MB.

Writer advised customer that his issue would be documented and forwarded. AT

6/30/2005 15:47:13 Anthony Turturiello

Writer left a vm for Service Manager, Chuck Turk, to call me regarding the above situation at (201)476-6339. AT

 Roadside # 323 8406

[REDACTED] called claiming that the SRS (Supplemental Restraint System) light came on and I informed customer that the airbag system may be inoperative. The customer was also informed that the airbags might deploy when least expected or might not work when needed and a tow is recommended.

The customer then claimed to have the battery visit workshop light on. Writer advised customer to have vehicle towed since he might have an alternator or broken belt. The customer stated that he wanted to drive home and then have the tow sent to his home. Writer did advise customer of the danger of driving with his current malfunctions. Writer set up tow for customer. AT

Driver [REDACTED], the vehicle owners' husband was driving [REDACTED] called CAC and spoke to this writer Spanish Only Speaker, utilized ATT Language Line interpreter 4679. Mr. Hidalgo stated at 5:00PM while driving 30MPH, he struck the rear of another car at the intersection of 7th Street and Tamiami Canal Rd, in Miami. The vehicle in front of him was slowing to a stop for a red light. [REDACTED] claims the brakes did not perform properly. He believes the brakes should have worked better to stop his car. Also, he claims the airbags did not deploy. When ask what the damage was he stated the headlight lens(s) were broken. I asked if there were any injuries. Hidalgo stated that the police came and no one claimed injuries. Information in this report was shared with Shift Leader H. Quelal. [REDACTED] was offered the assistance of a tow and declined to have his car towed - electing continue driving the car. Again, I offered to tow and was declined. He will drive the vehicle to the Coral Gables dealer and request the dealer inspect the braking system.

Summary Notes

2/16/2010 10:09:38 Kathleen Weller 6387

██████████ called and left message over the weekend. He claims that he contacted us over the weekend for a to and was told that this vehicle would only be towed if he paid \$150 up front. He claims that he has been experiencing the same issue for some time and the cause was allegedly determined by Buckhead. He claims that he was told that it is the harness but they have not fixed it. He alleges that it only does it occasionally but his ELW is going to run out soon. He stated that he arranged to have the vehicle towed in himself. He stated, " I a very disappointed in MB. I purchased 3 MB vehicles and I have had issues with two of them." He mentioned that the vehicle is currently at MB of Buckhead. He would like MUBSA to get involved.

Writer explained that he would be called back at ██████████
Writer apologized and advised that he would be contacted back by Feb. 17.

2/16/2010 10:09:58 Kathleen Weller 6387

Call back Date: 02/16/2010 time: 10:45 AM EST

2/17/2010 10:02:14 Jennifer Burton 7843

What did the customer Say? [REDACTED] called regarding issue with vehicle. She states vehicle is currently dealer due to SRS light. Customer alleges this is the 3rd time vehicle has been to dealer for same issue. Customer states she has never had an accident and does not feel she should have to pay for repair, especially since it is a recurring issue that she did not cause. Customer states she has spoken to SvcM Craig and alleges he offered possible assistance with half cost. Customer is now requesting assistance from MBUSA. Customer state they are replacing the airbag harness at a cost of approx. \$600.00. She is hoping to pick vehicle up this evening

What was your response? Writer advised customer her concern will be documented and shared with appropriate area. Customer stated the SvcM is in the best position to review request for PWA and MBUSA upholds SvcM decision.

What commitment(s) did you make to the customer (including timeframe)? Writer assured customer she will receive call back this afternoon.

Customer's preferred callback date/time (by time zone): [REDACTED] or [REDACTED] 3PM Central time.

Customer's preferred callback number:

What did the customer say? [REDACTED] called regarding issue with vehicle. He states whenever he or his wife drives vehicle (not every day) all of a sudden the instrument cluster will go out, clock will run backwards & SRS light comes on in red. After a few seconds customer states the instrument cluster comes back, clock goes to correct time & SRS light goes out. Customer states it has been doing this sporadically for about 6 months. On 12/1/09 [REDACTED] brought vehicle to dealer who kept vehicle for 1 day & advised customer issue resolved. Customer alleges as soon as he drove off he experienced the same concern again & brought vehicle back to SvcM Mr. Epps. Customer states the issue did not occur again when SvcM drove vehicle. [REDACTED] maintain he has been waiting for 2 weeks to hear back from SvcM regarding this ongoing issue. Customer states he is aware there is an issue with instrument cluster on MB vehicles that have resulted in recall. Customer requesting assistance from MBUSA.

What was your response? Writer advised customer his concerns will be documented and shared with appropriate area. Writer did advise customer no recall pertaining to instrument cluster on his vehicle per VMI

What commitment(s) did you make to the customer (including timeframe)? Writer advised customer to allow 24 hours to receive a call back.

Customer's email (corres # 281205) dated 10/20/05:
To whom it mat concern,

I purchased an E350 seven months ago from South Bay Mercedez Benz. This car has been into service at the House of Imports many times. The SRS light came on. The engine light came on. The air conditioner was broken. The brakes were vibrating. You should be able to check with your records to see exactly what I am talking about.

I have taken my E350 to service at the House of Imports six times. The last two times the service engineer checked my engine, brakes , auxiliary fan and air conditioner and he could not find any problems. It's kind of embarrassing but since I have had problems with this car from the very beginning, I don't think I am being paranoi

Maybe this is the way Mercedes Benz is designed. There are a few questions I would like to have answered:

1. Is it normal for the E350 to have its' brakes vibrate? The brake pedal vibrates intermittently and the brakes make a spinning noise.
2. When the air conditioner is set to auto and switch it to maximum low, the auxiliary fan spins at a very high speed and does not stop. It only happens when you put the air conditioner on auto mode.

You may contact me at the following number [REDACTED] during regular business hours.

Thanks,

Allen Yeh.

Writer spoke with customer, customer claimed dealer is currently addressing his cocnerns. Customer satisfied with follow up.

E-mail: [REDACTED]

Comments: I have owned BMW's, Audi's, Chevy's, Ford's, Volvo's, Dodge's, Land Rover's and Cadillac's. My 2005 Mercedes e500 sedan and wagon are at the dealer for repairs more than any of the aforementioned cars, even the Land Rover! I am very disappointed with the quality of these cars. For example, SRS systems have failed, brakes squeal continuously, gas caps need to be replaced, emission systems fail state exams, brake hydraulic pumps are loud and vibrate. Did I by a Yugo? Did I really spend 100K on these two cars? BMW here I come, if these things are not fixed.

To: Ellen Bie/171/DCAG/DCX@WK-COOP
cc:
Subject: 2005-E320-4matic

Dear Ellen:

I leased my first Mercedes Benz on December 14, 2005 and picked it up in Nanuet with much excitement. I love , but on January 24, 2005 my steering wheel began to malfunction. The multi-function page button has not worked since then, but most of all to my concern I have not had a horn. I took my car to service that week in Nanuet to no avail. They are now waiting for another part from Germany, an air bag. Ed is my service advisor there, and has stated he is not sure if this will work since it did not work on another E320 that had the same issue. That car was replaced with a new car. I am awaiting word to bring my car in again , this part is a Hazmat part and I believe it will take 7-10 business days.

My major concern is that I have been driving since January 24th without a horn, I don't feel safe on the highway anywhere, and I don't know when this issue will be resolved.

My vin is WDBUF82J85X [REDACTED] Any help you can give me in this matter will be greatly appreciated.

[REDACTED]
[REDACTED]
Consumer Promotions

2/25/2005 15:31:42 Miriam Clark 4699

Debbie called again advised the horn is not working again...and that she is afraid to drive vehicle...she stated that she called Ed the SM and left message....

I advised that I would follow up...

Spoke with ED, SM who advised they are not going to replace the airbag and that on Monday 2/28/05, she can bring the vehicle in to have the module replaced once again...

I called Debbie and advised the same...she will contact ED and make arrangements for Mon...

Also told Debbie that I would share with RM, Mike Willard..

2/28/2005 09:45:06 Ellen P. Bie 6301

Vehicle is going back to Nanuet again this morning - horn doesn't work ...

I spoke with SPOM Mike Willard who has involved TAC in a resolution (Mike will monitor to insure vehicle is repaired)

Customer called the CAC to complain that dealer will not give him a specific date as to when the vehicle will be ready....He stated the SRS problem was what initially brought the vehicle to the dealer...
 I apologized to the customer and advised that if the dealer knew exactly when the vehicle would be ready, he would tell him..and that it depends on various factors...such as part availability...
 Customer then stated that dealer told him the part may be in tomorrow ...
 I then advised sometimes parts do not arrive as scheduled and the dealer probably did to want to make commitments they could not keep..
 Customer was also advised his concerns would be shared with the dealer , SM.

9/14/2005 16:43:54 Miriam Clark 4699

Customer called the CAC to complain that he has an SRS light coming on in his vehicle and he cannot get an ap before next Thursday....
 Customer then stated that he is not happy with the Service at this dealership...and they did not offer a loaner... I apologized to the customer and advised the dealers are independently owned and operated...and are responsible for their own daily business transactions...
 customer was also advised his comments would be shore with dealer and dealer would be contacted..

9/15/2005 12:31:49 Carol Pantua 4635

Customer called back and claims that he was expecting a call from the dlr for a follow up regarding his dissatisfaction that they cannot schedule him in for service until next week.

Writer apologized to customer for his dissatisfaction and advised that dlr is privately owned and solely responsibl for their scheduling. Writer advised customer that he may call dlr and speak with SM directly who can review his concern and request. Writer advised that MB would uphold SM's decisions. Customer claims he will call SM. Writer advised that concern would be documented.

9/15/2005 12:44:06 John Hart 4669

[REDACTED] phoned the CAC wishing to express continued dissatisfaction and contacted Service Manager as suggested in above note and said "they can do anything about it and when they get to it they get to it".

Writer advised customer concerns will be documented.

Email from SM Glenn Matsudo to SPOM Brian

Hi Brian,

Again, I know you're on vacation until Monday so no reply is expected until then.

Looking at the vehicles history it has been in 3 times..1, SRS, 2 trans. complaints and the last being a B/O trans. from EDAC. Days down are 18 total. I suggest 1 lease payment for inconvenience.

Glenn Matsuda

[REDACTED] left a voicemail on writer's ext. over the weekend.

[REDACTED] claims "two days after leaving the dealer, the SRS warning light reappeared again". The customer claims this would be the fifth time "dealing with this situation". The customer requested a call back from the write (10a est....writer will wait until the afternoon to call customer who is in CA).

3/28/2005 10:17:31 Arnold Almaguer 4621

According to closing notes on Referral 177878: Per SM - parts arrived and repairs were done. Customer picked-up vehicle on 3/23/05. No further action will be taken at this time. SPOM will close this matter.

Summary Notes

3/28/2005 15:06:18 Arnold Almaguer 4621

Writer returned call to [REDACTED]. The customer was very calm but did express his frustrations and being inconvenienced by bringing this vehicle allegedly 5 times for the same concern (SRS warning light). The customer acknowledged that a repair occurred, however he claims the warning light has reappeared. The customer asked what MBUSA can do to assist him again.

Writer stated that his concerns will be forwarded to the appropriate parties and that we remain committed in honoring the terms of the Limited New Car Warranty. Customer stated that he appreciates whatever efforts we take.

Writer will call SM to advise so that dealer can schedule an appointment.

3/28/2005 15:10:08 Arnold Almaguer 4621

Writer left voicemail with SM.

Summary Notes

8/12/2005 19:42:19 Arnold Almaguer 4621

Writer received corres. no. 275232 which is dated 8/5/2005 and received at the CAC on 8/8/05.

[REDACTED] expressed her dissatisfaction with the quality of this vehicle. Customer claims she emailed MBUSA No email received , according to customer's profile.

Customer claims since taken delivery of this vehicle the oil sensor had to be replaced. See Warranty claims history.

[REDACTED] also claims the SRS warning light allegedly came on but the dealer couldn't duplicate it.

Writer called Melvin Peoples and left a voicemail requesting a contact at [REDACTED].

8/18/2005 14:57:33 Arnold Almaguer 4621

Writer left another voicemail with the Service Manager.

Summary Notes

8/19/2005 10:21:51 Arnold Almaguer 4621

Writer called dealer again, and spoke with Sam (CR Manager) because Melvin (Service Manager) was unavailable.

Since taken delivery of this vehicle the customer has had the following issues:

1. (Most recently) SRS passenger weight sensor behaved erratically. Dealer tested for error codes. No codes found. Dealer recalibrated weight sensor.
2. Customer complained about an alleged intermittent surge while accelerating. Dealer tested and couldn't duplicate the alleged symptom.
3. Customer complained about the oil light appearing. Dealer replaced engine oil sensor.
4. Customer complained about a "check engine" warning light appearing. Dealer checked for error codes. Dealer replaced valve body and performed transmission adaptation.

8/19/2005 10:23:18 Arnold Almaguer 4621

Writer called customer at [REDACTED] and left a voicemail encouraging the customer to contact writer at 800-367-6372 ext. 4621.

8/25/2005 09:27:55 Arnold Almaguer 4621

Letter sent to customer on 8/23/05

8/25/2005 09:30:02 Arnold Almaguer 4621

see referral notes 181407.

Customer returned writer's call and complained about past repairs. [REDACTED] stated that no outstanding issue exists at this point in time. Nevertheless, she remains dissatisfied with the quality of the vehicle because of her past repairs.

Writer apologized for any inconvenience experienced and assured customer that MBUSA will continue to honor the terms of the Limited New Car Warranty.

██████████ called extremely irate about the conclusion of a recent visit at MB of Ft. Lauderdale. She stated "no repairs made because no issues were found".

Referral# 188699 was closed by G. Zitman (SPOM) on 2/22/06.

Note :Repair history does not confirm Customers claims.

Vehicle has been inspected by Dealer and ME Flash performed.

I upheld the above conclusion but the customer remains dissatisfied. She stated "I want to speak with your factor rep.: I advised that this is not available. However, her request is duly noted and shared.

She stated "what do I do now". I suggested that she continue to drive the vehicle and should a technical issue arises she can contact our office. Also, in the case of an emergency we have MB Roadside available 24 hrs a day 7 days a week.

Customer thanked me for listening. Call was recorded on Witness.

2/28/2006 10:17:21 Frank Parente 4675

Customer called again on same issue. Customer claims that vehicle has been stalling and that dealer has been unable to confirm why this is happening. Customer claims that she has lost confidence in the vehicle and is seeking MB assistance in determining the cause of this issue.

3/1/2006 10:34:46 Frank Parente 4675

Writer sent e mail to SPOM (GZ) outlining issue and requesting a course of action for customer.

4/20/2007 23:32:56 Randall Bibber 4647

██████████ called very upset and stated this was the 3rd time the SRS Light had come on in her vehicle. The writer recommended she should not drive the vehicle and allow Mercedes Benz to tow the car, The customer declined service and stated she will call back in the morning

Situation: Received the following e-mail - forwarding to both dealer and SPOM for review and possible assistance to the customer if all concerns have not yet been addressed.

E-mail: JOHND@PHONEWAVEWIRELESS.COM

Comments: To Whom It May Concern: I am a current and first time owner of a Mercedes Benz. I have an E350 2006. The reason for writing to you is to address many issues with my vehicle. I had purchased this vehicle in June 2005; since then, I have brought my car to service at least six to nine times. It has been extremely inconvenience for me. I enjoy this car since I started the engine and have no problem in the future to purchase another one. But ever since the reoccurring problems begin, I have doubted Mercedes and went through with the servicing; and still had no problem with servicing my car until today. Just in January 2006, I turned my car in on the 13th and work was completed on 20th. The problems reoccur regarding to my airbag deactivated and I need add a quart of oil in engine, I turned in my car again on the 30th of January 2006. That same day I received a cal from my service advisor telling me the car will be kept over night. Since then, I have been trying to contact my service advisor and left him numerous voice messages. Today is February 7, 2006, my service advisor called me today to follow up said he is unable to locate the technician working on the car. I asked him if I was able to get reimbursed for the time my car was in service because I was bringing it in for service more then driving it; he replied "sure call Mercedes" I paused and he said "I'll call you tomorrow" and he hung up. It has been very inconvenience for me. I would really like to know what I can do to resolve this on going reoccurrence with my vehicle. Please call me at [REDACTED] Regards , John Dang

Serial No. WDBUF82J15X [REDACTED]

Dear [REDACTED]:

Thank you for your letter.

We regret to learn that your vehicle needed repair so early in its service life and apologize for any inconvenience you may have experienced. Immediately upon receipt of your letter, we reviewed your concerns with Guido Chaves, Service Manager of Ray Catena in Union, who advised us that the vehicle has been repaired and returned to you.

Your vehicle comes with a Limited New Vehicle Warranty of 4 years/50,000 miles, whichever occurs first, which we will continue to honor, if required and applicable. In addition, we will provide technical assistance through our regional staff, if necessary, to insure that your vehicle is operating properly.

[REDACTED], if your vehicle has any outstanding technical concerns of which we are unaware, please contact Guido Chaves, or the Service Manager at any authorized Mercedes-Benz dealership, who will personally review them.

The opportunity to review this matter and to correspond is appreciated.

Sincerely,

Carol Pantua
Customer Relations Liaison

Customer called and claims that he is extremely dissatisfied that this is his 2nd concern with the SRS system. Customer claims that he brought vehicle to Baker dlr and they tightened the cables the first time. Customer claim he brought vehicle back to dlr again and is advised that the SRS cables need to be replaced and the part is on national back order. Customer requests that the part be expedited.

Customer claims that he drove vehicle out of the dlr and he is driving the vehicle at the moment, since he needs transportation. Writer advised customer not to drive vehicle further with SRS concerns and to do so would be at his own risk. Writer apologized to customer for his dissatisfaction and advised that his concern would be documented and reviewed. Writer advised customer that he may follow-up with the Parts Manager at a later time. Customer claims he would do so.

SPOM emailed writer today and stated:

The charges the customer is referring to is loaner car charges . John, loaner car supervisor was supposed to call him back not Chris. Chris will call the customer. Customer also asked Chris to get out of vehicle. This is his third visit for SRS , he has received a lease payment in the past. Chris, will tell the customer that if there is another confirmed SRS problem than we would look at taking him out of the vehicle.

Thanks,

Michael P. Willard

Customer called, stated that he has SRS lamp on the dash, writer conferenced customer with Roadside Assistance, and RAP advised customer not to drive further with that lamp lit on the dash and offered to tow the vehicle. Customer declined RAP's offer for tow and claims he will drive vehicle to dlr himself.

Customer inquired about the SBC Hydraulic system extended coverage. Writer advised that should his vehicle experience concerns with that specific repair, customer may be eligible for 10yr coverage (from warranty start date) for that component.

Summary Notes

2/22/2007 16:09:21 Carol Pantua 4635

Customer called to voice their dissatisfaction with service at MB Palm Springs. Customer alleges that they made appt with dlr for today since FSS lamp is allegedly lit on the dash for maintenance. Customer claims that half the day was wasted when they brought vehicle to dlr and dlr advised that they forgot to reset the FSS lamp on a prior occasion and customer doesn't actually need maintenance performed at this time.

Customer claims that Service Advisor seemed very put out when customer requested that they reset the FSS lamp. Customer claims that dlr reset the lamp, but when driving home, customer alleges that the SRS lamp came on and didn't go off. Customer claims that they have not experienced the concern prior to bringing vehicle to the dealer and does not believe it is a coincidence. Customer claims that dlr gave them difficulty when advising that they would not look into their SRS concern that day, though customer claims they already had an appt set for the maintenance they did not need.

Writer apologized to customer for their dissatisfaction, advised that their concern would be documented, and advised customer that they may speak with SM who can review his concern, since dlr is privately owned and operated. Customer claims they will call SM.

SUM NOTE # 1621232, [REDACTED], WDBUH87J86X [REDACTED] 2006, E350, purchased 84100

Hi Brian ,
please update this sum note for me:

I reviewed this issue with Service Advisor Ken Ellerbeck, (the vehicle was purchased at M/B of Tacoma) [REDACTED] set an appt. for today to have service performed, upon arrival (9:57a.m.) Ken determined that the car d not need a service, the dealer that performed the previous service failed to reset the maintenance calculator , Ke pulled the car into the shop and reset the calculator for her total time in the dealership was 15 minutes !!!! appro 2 hrs.later she called back stating the SRS light was on, Ken asked her if she could return to the dealership today she told him she would talk to her husband and get back to him.

[REDACTED] called me at approx.1:30 p.m. today, we discussed the issue and his dissatisfaction, he will return to our dealership tomorrow @ 10:00 a.m.we will determine the cause of the SRS light being on and perform the necessary repair.

Regards,
Carl

2/23/2007 17:45:30 BRIAN BLOKDIJK 7322

Hi Brian,
please update the subject sum note:

[REDACTED] brought her vehicle in this morning, SRS light is on due to a faulty SRS wiring harness , part is coming from Germany, they will be given a loan car tonight to drive until the repair is completed.

Regards,

Carl

Customer contacted the CAC alleging her vehicle has been at dealer 56106 for four days and she has not yet received an update regarding the repair status. Writer contacted Service Manager Ralph, who forwarded me to Danny , customer's Service Advisor. Danny indicated the car was at the dealer with less than 200 miles for an SRS warning lamp. The part needed was on a national back order for two months (passenger seat weight sensor) and therefore a second appointment was made for the part to be replaced. Danny advised the part was replaced on the second visit and now the car is back in the shop for an alleged SRS light concern. According to Danny the vehicle has been road tested and is operating as designed, and also no codes were found and no warning lights are currently illuminated therefore the vehicle is ready for pick-up. Writer explained this customer. Customer not pleased. Customer alleging MBUSA is not "helping her". Writer advised we will continue to honor the terms of the Limited New Vehicle Warranty. Customer asked for writers name and President's address. Writer provided.

Customer called the CAC alleging his vehicle was involved in an accident on 08/10/05 and was towed to Folks Auto body, in Reseda, CA. Customer claims the vehicle is repaired however they are waiting on a wiring harness. Writer explained that I would contact both the body shop and the dealer in an attempt to expedite the part. Writer advised the customer that the independent body shop should remain in contact with the Parts dept. at dealer 05102.

Writer called George at Folk's Auto body. He advised that he ordered the part through dealer 05102 and that he was advised it would be shipped out on 11/02/05.

Writer requested an estimate as to the vehicle's damage. He advised the estimate for repairs is \$35,000.

Writer called dealer 05102 and spoke with Richard in Parts. He advised that Folk's ordered the part on 09/28/05 (part # 2115407435) and verified the ship date is 11/02/05.

10/14/2005 16:17:00 Nicole Shababb 4619

Writer sent an e-mail to Jill Houseworth regarding possible status 8.

Ronald English phoned the CAC demanding to speak with SPOM John Freund pertaining to alleged back ordere wiring harness.

Writer phoned SPOM who advised he is aware of concerns as of yesterday and everything that can be done is being done. Special Procurement is involved and ETA is for week 09.

Writer contacted the customer advising the above information. Customer claims his vehicle has been in the body shop for 6 months awaiting the wiring harness and feels MBUSA is process driven not customer driven.

"You are costing me my insurance company money, because the inability to obtain parts and I am not paying the price. I am turning this over to my insurance company and tell them they are being ripped off".

Writer assured customer his comments will be documented and concerns are being reviewed.

Writer phoned SPOM discussing concerns. SPOM advised there is a TAC case open regarding the above referenced matter and customer will be awarded some compensation once concerns are resolved.

Additionally customer contacted the writer claiming that the SRS light is on and "what if" this reoccurs in the future? Writer explained to the customer that he will be provided compensation and customer insists on discussing "how much will I be compensated, my friends are telling me that the only thing I have on my side is the Lemon Law".

Writer assured customer we will document concerns and if seeking further discussion at this time please speak with the Service Manager.

12/29/2005 14:17:55 John Hart 4669

Customer [REDACTED] phoned the CAC wishing to express dissatisfaction with the need to replace tires at 12k miles, and perform an alignment. Customer claims that he was advised by the dealer that alignment is covered during the first year of ownership up until 12k miles and disappointed that the dealer will not honor alignment. Writer advised customer this is accurate, per the warranty and service booklet MBUSA will perform one wheel alignment within the first year of in-service or 12k miles. Writer suggested customer speak to the Service Manager who is empower to discuss requests of financial assistance as we would support their position.

Customer claims there is an electronic malfunction (he believes it is related to the SRS system and was advised that the part is on back order for at least 3 weeks. Customer is seeking intervention from MBUSA to obtain part. Writer advised customer that his concerns will be documented and shared with the appropriate party; please remain in contact with the dealer Service Manager.

Additionally, customer wished to express disappointment with the price quote to replace tires by dealer. Customer claims he was able to obtain a substantially lower price from Tire Rack. Customer requested if he may purchase and perform tire maintenance from an independent facility with out affecting his warranty and inquired about purchasing tires with a lower speed rating to increase tire longevity. Writer explained and stressed we only suggest work and repairs be performed by an authorized Mercedes-Benz dealer however, we are unable to limit customer from using an independent, and if you choose to do so it is extremely important to use only factory approved tires (products) and work must be performed to Mercedes-Benz specifications. Writer advised customer against using tires with different specifications such as speed rating and assured customer his comments will be documented.

E-mail from MBUSA Employee Mike Molino:

Hi John,

As a follow up to our phone conversation, a month or so ago my battery died in the parking lot of 1 Mercedes. I called Roadside to have the car jumped, and a tech from MB Nanuet came to assist me. I can't remember if the car was jumped from the terminals in the trunk or in the hood, but I know the hood was opened to check the front battery. After the hood was closed, it did not sit properly. I checked to see if any tools had been left by the roadside tech under the hood, but there were none. Now the hood on the driver's side is raised by approximately 1/4" (it is flush with the fender on the passenger side , though).

As I mentioned to you in our conversation, my concern is that when I turn the car in at the end of my lease, I will be charged to have the hood realigned. Since I didn't cause the misalignment, I'd rather not have to pay for it. Any assistance you can provide in this matter would be greatly appreciated.

Thanks for your help,

Mike Molino

Hi John,

Thanks for the follow-up. I actually had to take my E Class in for service last week for an SRS malfunction. I mentioned the hood misalignment to the service advisor, Rob, and explained the situation to him. They did fix it for me, and did not charge me for it. So the hood looks great now!

Thanks for your help, John.

Regards,
Mike

Cust. called on Tele Aid, Incident# 15086700 with SRS Light on.
 Writer advised customer that he should pull over and writer would get Roadside Assistance on line to have vehicle towed. Writer explained that airbag is malfunctioning and that they could deploy while driving for no reason, or might not deploy if needed in an accident. Customer stated vehicle was driving fine. Writer again explained issue and advised that should there be a problem with the airbag system, and he did not take my advise by pulling ove and having vehicle towed we would not be responsible should anything happen to customer or occupants in vehicle. Advised writer would document his decision to drive against advise. Customer stated "That's okay, goodbye"

Trigger Oct. 05 List.

Called [REDACTED], general voice mail, called [REDACTED], and spoke with cust. who stated it is ridiculous that there are so many problems with this car. Stated it is an infringement on his time to have to keep going back Dealer goes out of their way, the problem is the car. At dealer once a month. Claims SRS light goes on once a month, something wrong with Brake sensor, windshield washer sensor has had issues. Cust. stated he lives in PA and going back and forth to Princeton is a hassle. At this time the side view mirrors move on their own, which allegedly was already taken care of.

Cust. believes there is a defect in the vehicle. Cust. stated he spoke with Gen. Sales Mgr. Tom Knobloch last Monday and advised him he would like something done for him. Claims Mr. Knobloch told him he would get in touch with MBUSA and get back to him but he has not heard.

Writer advised cust. I would call dealer and get back to him.

Writer called dealer and left a mess. for Tom Knobloch with my extension for a call back regarding above.

11/16/2005 09:49:57 Carol Ann Carroll 4673

Tom Knobloch left mess for writer stating he would be out of office Wed. 11/16 returning 11/17. Stated he was meeting with the Market Manager at that time to discuss [REDACTED] request.

Writer called cust. and advised of above. Cust. requested writer fax this in writing. Writer advised this was not customary and I was verbally advising what Mr. Knobloch informed me. Cust. wanted to know who would contact him. Writer advised I would request Mr. Knobloch to call him.

Gave to T/L for NTMT and note to dealer.

9/5/2006 08:34:13 Carol Ann Carroll 4673

Customer has SRS light on for the 4th time and does not want to return to closest dealer because they cannot solve the issue.

Customer spoke with Serv. Mgr. from dealer 09100 New County Motor , which is where customer wants to go , who advised customer that we would have to approve tow to this dealer , because it is not the closest. Allegedly advised customer that if we approve tow for this Thurs, 9/7, he would have tow truck bring customer the loaner when he picked up vehicle.

Writer advised customer I would speak with RAP Supervisor and return call.

Best number for today, [REDACTED]

9/5/2006 12:33:43 Michael Reger 6383

The wrier spoke with SVC Manager Dana Thomas, who understood that dealer 55212 was the closest to the customer, but for some reason the customer wanted his dealer to perform service to the vehicle.

The writer called the customer to explain that the warranty would cover the cost of the tow to dealer 09100 since dealer 55212 was 15 miles closer. The customer mentioned that he will take matters into his own hands....

Customer stated SRS light was on. Writer advised customer that vehicle needed to be towed. Advised vehicle needed to be taken to a dealer to determine what was wrong with vehicle. Advised with light on Air/Bag/ Seat belt restraint might not activate if needed, and could activate accidentally. Customer stated he was away from home at this time/ confirmed 100 miles. Writer explained trip interruption. Advised customer I would document conversation and if he refused tow we would not be responsible for anything that might happen regarding this issue. Customer stated he would call back

12/31/2006 14:44:08 Angela Londono 7851

Customer called stating that he drove to dealer w/ SRS Light and requested a loaner vehicle. Writer advised customer that dealers are closed and he would have to rent a vehicle. Customer also requested writer to call dealer and have them work on vehicle first thing Tuesday morning. Writer provided customer with dealer number and advised him that writer will not be here Tues morning. Customer very unhappy

[REDACTED] called and stated that his vehicle was brought to dealer in the beginning of April.
Customer stated he had been in a minor accident where his side airbags deployed and Insurance Co. had him bring vehicle to an independent repair shop.
Stated when work was completed, the SRS light was still on and he brought to dealer.
Stated that was beginning of April. Customer claims that he asked for a loaner and kept being told they would call him when one was available.
Customer stated he just found out that dealer needs to order a part / SRS Sensor?/ which will not be in until the end of May.
Customer stated he became upset on phone and again asked for a loaner vehicle.
Customer claims he was advised there is a 4 week waiting period for a loaner.
Customer stated GM Pete got on phone and advised customer he would try to expedite part.

Customer stated that Gregg, who he has been working with has lied to him and has been very rude.

Writer apologized to customer for the delay. Writer inquired if customer had spoken to SM regarding why it took so long to order part.
Customer stated he had not and does not want to call dealer again.
Writer advised customer that I would put in an inquiry as to time frame of part but that dealer is the one who would be notified of ETA.
Writer provide customer with Parts Mgr. Bruce Brocks name for contact.
Writer also advised customer that dealers are individually owned/operated and loaner vehicle issues are part of their daily management and not something MBUSA controls.

4/30/2007 10:49:55 Robyn Letz 6209

Response: from SPOM:

Robin,

I have been in contact with the dealer. The real story is -

Customer was involved in an accident. Vehicle was repaired at an independent shop. It was there for 2 mo. I was then brought to the dealer two weeks ago. It was determined that the car needs a wiring harness. The part has been ordered and has an ETA of the end of MAY. The dealer has placed the part on special procurement, b wiring harnesses are usually hand made by the vendor and not stocked. The customer is upset and demanding loaner vehicle.

This is an issues that he needs to address with his insurance co.

Had the vehicle been at a Certified collision center - This issue may not have happened.

5/2/2007 11:38:10 Robyn Letz 6209

From PAC:

They do not have this customer listed

██████████ called and stated that his vehicle has been at dealer since 8/2/07, he has been paying for lease and does not have a car to drive.

Customer claims that dealer cannot fix the car.

He also stated that dealer gave him a rental but he brought it back because it was too small and they will not give him a Mercedes.

Writer inquired what customer meant by dealer could not fix vehicle.

He stated his SA advised him that every time they repair something, another issue comes up.

Writer advised customer that loaner vehicles are up to individual dealers.

Customer stated he knew.

Writer inquired how we could assist him.

Advised I could call dealer to find out status and offer technical assistance if needed.

Customer asked what else we could do.

Writer inquired what it was he wanted.

Customer stated if dealer cannot fix he wants a new vehicle.

Writer confirmed that lease was under different name and that he has a different address from lease.

Customer confirmed.

Writer advised customer that I would call dealer to find out status of vehicle.

Advised that if customer was requesting to be taken out of vehicle lease/owner would have to make this request.

Customer stated he would wait to hear from me.

Advised I would call him tomorrow.

9/12/2007 17:04:45 Carol Ann Carroll 4673

Writer called SM Glenn and left a message for a callback.

Gave SM a recap of above.

9/13/2007 12:08:07 Carol Ann Carroll 4673

SM Glenn called writer.

He advised vehicle does have different issues and they are working with the TAC to resolve.

Advised there was a trans oil leak which went into the wiring harness.

A new alternator was delivered to dealer yesterday which they will be installing and will continue testing vehicle.

Glenn advised that when vehicle's repairs are complete, he will discuss down time compensation with SPOM.

Writer called customer and advised customer of my extension.

Advised dealer is working on vehicle and will speak with him regarding downtime compensation when vehicle is repaired.

9/17/2007 16:29:40 Carol Ann Carroll 4673

██████████ called again and stated vehicle is still not repaired and he still has to make his lease payment.

Writer advised I spoke with SM Glen regarding compensation for down time.

Advised customer that he should speak with him once vehicle is repaired so that we know the exact amount of time he did not have vehicle.

Customer stated he would.

10/19/2007 14:33:20 Jennifer Burton 7843

Customer phoned requesting "status of buyback". customer claims that Service Manager Glen advised him that MBUSA will be buying back vehicle.

Writer did not see any documentation regarding buyback.

Writer spoke with Assistant Service Manager Kozet (SM Glen Matsuda not at dealer today). Kozet advised she will have to look into and will call back. Writer provided direct number.

Summary Notes

10/29/2007 15:36:08 Carol Ann Carroll 4673

██████████ called customer relations and again advised that dealer SM Glen advised MBUSA would buy back his vehicle.

He is requesting that all the paperwork be done at Downtown LA Motors. He stated he wants to purchase new vehicle at that dealer.

Writer advised customer I would need to investigate his request further and get back to him.

Writer called SPOM , Ron R and left a VM for a callback.

10/30/2007 11:40:03 Carol Ann Carroll 4673

SPOM, Ron called writer to update.

He advised that a buyback offer was made to owner, Elizabeth Berberyan, papers were filed to ISG and the owner then rescinded and advised SM Glenn she did not want the buyback.

Ms. Berberyan was left a message approximately 15 minutes ago to confirm that ██████████ is calling on her behalf and to finalize the buy back question.

SPOM also advised writer that the vehicle will need to be turned into Calstar Motors , if customer goes through with the buyback, as this is where the inspection and paperwork has been done.

If transaction is completed, customer will receive a check and she will then be free to purchase a new vehicle where ever she chooses.

SPOM will contact writer with an update.

11/2/2007 14:47:12 Carol Ann Carroll 4673

Writer E Mail SPOM to inquire if there was an update. He replied:

The customer/owner has not responded to two messages. Nothing else to do at this time.

Best regards,

Ron

Summary Notes

5/1/2008 12:07:44 Carol Ann Carroll 4673

Writer received letter from [REDACTED] addressed to Ernst Lieb.

Customer is very dissatisfied with the way she was treated by service advisor at dealer, claiming that she had to bring vehicle there 2X for SRS light and he has not treated her in the manner a luxury car owner should be treated. Claims vehicle was supposed to be ready for a car wash in 15 min. and waited an hour.

Vehicle was brought in at 7 am for a 3 hr repair and ended up being there until 5 pm. No loaner was provided and while she was waiting her SA left telling her there was nothing he could do the mechanic had the vehicle. She compliments a Samantha who has "integrity, diplomacy and tact."

Writer called dealer and spoke with Customer Care Manager , Carol.
Scanned letter to her. She will speak with SM about doing something for customer and call writer back.
Dealer will call customer.

5/6/2008 09:59:03 Carol Ann Carroll 4673

Writer spoke with Carol from dealer.
She advised she called customer and all concerns have been reviewed. Customer is now satisfied.

Writer called customer and left a voice mail advising I was calling from Mr. Liebs office. Advised I had called dealer to advise them of her dissatisfaction and have since spoken with them and have been told concerns have been address.

Invited customer to call me if this is incorrect and provided direct extension.

[REDACTED] sent the following:

Comments:

I own a 2006 E350. It was told to me by MB service rep that there is a known safety problem with the wiring harness of the SRS. My question is why has a recall not been initiated to resolve this as instructions have been given to service departments on fixing the issue. It doesn't seem fair for MB, known for it's outstanding customer service, to make owners pay for a problem that has been identified by you and that has occurred frequently, rather than just recalling affected models to be brought in to get fixed before something happens. Thank you and I await your response.

Writer called dealer and spoke with acting SM Tom Molnar who is the Parts Mgr. He pulled RO and advised there is a malfunction display for SRS visit workshop and customer declined service at that time.

He will have SD call me on Monday to discuss.

No Escalation Required

Summary Notes

11/24/2008 16:29:35 Carol Ann Carroll 4673

Writer spoke with SD Dave.
He will have SA call customer and offer discount.

Sent to customer:

Dear [REDACTED]:

Thank you for your recent e-mail concerning your E 350

We apologize for your dissatisfaction on the current needed repair. Work instructions are provided by Mercedes-Benz USA to our dealers on a regular basis. It is our responsibility to supply the dealers with work instructions for all repairs. This does not mean that we are recognizing a defect, but simply acting in due diligence.

Nevertheless, we called your dealer on your behalf to discuss your concern. They advised that the vehicle needs a new camshaft at this time. They have also advised they will be contacting you to offer assistance with this repair as a gesture of good faith. You should be hearing from them shortly, if not already.

We appreciate the opportunity to look into this matter. We wish you many years of safe and pleasant driving.

Sincerely,

Carol C.
Mercedes-Benz USA

[REDACTED] phoned the CAC requesting MBUSA assistance. Customer alleges that he has been without this vehicle for 8 weeks for a part issue. See prior case 177809--airbag deployment issue.

Customer alleges also that he is getting MPG of 28-32 and is dissatisfied with this as the reason he purchased th vehicle was for fuel economy. Customer alleges that dealer, "was not able to pull any codes." Customer alleges that he teaches automotive technology and wants to know why dealer has not run any type of test on vehicle to determine if there are other factors affecting his MPG.

Writer left VM for SPOM for info.

Writer spoke with Parts Manager James CUILTY who advised that last part # 000 540 8605 harness for airbags, should be at dealer today or tomorrow.

Writer left VM for SM Keith Young requesting further info.

Writer spoke with SPOM who advised that he will contact dealer to follow-up.

Mr. Herman phoned the CAC stating that his vehicle is stating "Do not drive vehicle--SRS fault."

Customer stated that the earliest appointment with a loaner vehicle that he can get is on August 24th. Customer stated that dealer is aware of what his issue with vehicle is. Customer completely dissatisfied with dealer and response, understands that dealer is independently owned and operated and MBUSA can not force dealer to see vehicle sooner. Customer asked that writer share his dissatisfaction with dealer.

Writer apologized for inconvenience and experience and advised that writer would share his comments.

[REDACTED] phoned the CAC expressing great dissatisfaction with lack of loaner offered by Mobile AI. Customer stated that she has less than 2,000 miles on car, SRS light is on, and customer experienced flat tire.

Customer alleges that independent shop inspected tire and found damage other than customer driving one block on tire because it had no tire pressure.

Customer also stated that her Sirius is not operating.

Customer also explained that she has been having medical concerns (bleeding kidney's, physical therapy 3 X a week because of boating accident, surgery on Monday) and is currently going through divorce.

Writer apologized for her experience. Writer advised that dealer's are independently owned and operated and se their own loaner vehicle policy's. Writer advised that writer would document her dissatisfaction and share with dealer. Writer advised that SRS light should be addressed as soon as possible.

Customer stated that she has not yet made appointment but will.

Writer spent approx 20 additional minutes walking customer through operations of Navi unit.

8/11/2005 11:22:00 Robyn Letz 6209

Pete from dealer called, they will make an exception to their loaner vehicle policy for this customer due to low mileage on the vehicle.

[REDACTED] phoned the CAC alleging that his SRS light is on and dealer is unable to provide loaner vehicle until 17th of Nov.

Customer alleges he contacted another dealer and they haven't advised if they have loaner for customer. Customer expressed great disappointment stating he should have purchased a Lexus and will allegedly tell his friend not to pick up his vehicle because of this.

Writer apologized for experience. Writer advised that loaner vehicle's are provided by dealer, not MB and advise that his comments would be documented.

It has been one month since I took my car in to the Mercedes Dealer Ship here in Champaign – because the SR light came on stating that my restraint system has malfunctioned and I should take it in immediately – I did that, I was given an appointment which was one week out took the car in , they called me after about 2 hrs and said the car was ready – ready meant that a part had to be ordered. – One week later I stopped by to see if the part was in, I was told that all of the Mercedes were in need of the same part that I was needing and that it is not clear when I would be able to get the car serviced. I have a Survey in my hands to fill out.... How can I give a positive answer to any of the questions.....? The car I purchased was very expensive as you know – I just expected better service.

[REDACTED] phoned the CAC stating that he fastened the rear seatbelts in this vehicle yesterday to stop them from rattling - no one sits in the rear of the vehicle. Customer stated that the SRS light came on and has stayed on.

Writer suggested unfastening then fastening them again and restarting vehicle to see if this corrects - maybe connection was poor. Writer advised that if this does not correct, to contact RAP and have vehicle towed to deal - MBUSA does not recommend driving w/ this light on.

Comments: I thought Mercedes-Benz was a company who knew how to treat their customers properly and with a commitment to customer service. If that is the case, it appears that you need to educate Jackie Cooper Mercedes-Benz to that fact; as well as the folks that answer the phone at you 800 customer assistance number. The SRS malfunction warning light came on yesterday (Sunday). Obviously this is a safety issue, yet Jackie Cooper Mercedes-Benz doesn't think so, nor your customer assistance person. Jackie Cooper said they couldn't get me a loaner car until Friday. I called customer assistance and they said they couldn't help me. It was an issue with the dealership. Now, with the Lexus GS430 we traded in for the E320CDI, we had a loaner car waiting for us and running to warm it up in this cold weather. This is for an oil change, not a safety issue. Clearly, Lexus understands customer service. I had to call Jackie Cooper twice to get some assistance. First, I asked for the manager of Mercedes-Benz and was routed to his phone number, only to get a voicemail that he wouldn't be in until Tuesday. Then, I called again and finally got a person that would help. I took the car in this evening and received a loaner vehicle. This was an extremely frustrating series of events and tells me that Jackie Cooper Mercedes-Benz and Mercedes-Benz USA really have a long way to go to match up to your competition and earn our repeat business.

Comments:

I would like to register a complaint about required repairs that arose just after my warranty expired. Knowing that my warranty would expire at 50,000 miles, I took the car in for a complete check-up on March 19, 2009 at 49,160 miles - the dealer said everything was fine. A required service was due at about 52,000 miles. I was surprised to be advised by the dealer at that service that both batteries needed to be replaced. Perhaps the dealer missed the pending failure of the batteries or they expired at an unfortunate (for me) time. Either way the timing of this issue suspect. This sort of "coincidence" used to arise with the former big three domestic auto makers but I never expected it to occur with a Mercedes and am very disappointed. This is my fourth Mercedes. Other than this issue and wipers that come on when they shouldn't, I have been very happy with the car.

No Escalation Required

5/21/2009 13:03:27 Christine Dingler 6361

Writer spoke with ServA Mike who advised that dealer completed repairs to SRS light and steering column concern - did not test batteries.

Mike has left msg for customers ServA Kevin to phone writer back.

5/21/2009 18:15:29 Christine Dingler 6361

Writer spoke with ServA Kevin who advised that dealer did run basic diagnostic and did not detect any battery concern. Kevin advised that when vehicle came in for service they ran additional test which indicated both batteries needed replacement.

5/26/2009 12:54:46 Christine Dingler 6361

Dear Dr. Nye:

Thank you for your recent e-mail.

We regret the circumstances that prompted your contact. Lacking direct involvement in the situation you described prevents us from commenting with specifics. Therefore, we did speak with Duval and shared your concerns with them. It is our recommendation that you speak directly with your Service Advisor Kevin who is in the best position to explain what was found upon their inspections of your vehicle.

Dr. Nye, your patronage of our products means a great deal to us. We appreciate you taking the time to share your concerns.

Sincerely,

Christine D.
Mercedes-Benz USA, LLC

Thank you for replying to my email although the content of your response was not acceptable. The bottom line is that the batteries failed shortly after the warranty period expired. I am not responsible for their design and manufacture - you are. Therefore, I look to MB for resolution to this case. I have already talked to the dealer and does no good to send me back to him. I do not intend to allow you to play ping pong with me as the ball - where you bounce me back and forth between you and the dealer.

I would like to be reimbursed for the cost of the batteries. Whether it is you or the dealer that is responsible is not my concern. I would simply like to receive the value that your advertising claims is present in your automobiles. If not, I will be shopping on your competitors lot when it comes time to replace this car. Thank you.

David Nye, PhD, MBA

 Dealer(s) involved: N/A

Situation: [REDACTED] called into CAC on behalf of his sister Ms. Amin. He claims that his sister was in an accident recently and he is asking why the airbags did not allegedly deploy. He alleges that she sustained some neck injuries as a result. He claims that she was traveling 50 - 55 m.p.h. and hit a tree while trying to avoid hitting a dog. He stated that she is out of the country until the end of this month. He claims that the vehicle is currently EMC Collision Shop located in Fremont, CA. He stated that the contact person there is Homer Alvarez and he can be reached at [REDACTED]. He would like a call back on his cell [REDACTED].

Action Taken: Writer escalated to CM for call back.

4/1/2010 10:09:28 Kathleen Weller 6387

What did the customer say? [REDACTED] called into the CAC asking if there is an outstanding recall on this vehicle. He alleges that he is experiencing various issues with this vehicle and has been researching recalls on line. He claims that there is a recall regarding his specific issues. He alleges that he brought it into Ewing and was told that there are no outstanding recalls. He claims that the brake pedal goes to the floor and the steering wheel get tight. He asked where he should take it to.

What was your response? Writer advised that there are not outstanding recalls. Wrier explained that there is a warranty extension on the SBC hydraulic unit. Writer advised that he have the vehicle inspected at one of the authorized service centers again to determine what the issue could be. Wrier explained that is sounds that there may be more than one issue and repairs would most likely be at his expense.

What commitment(s) did you make to the customer (including timeframe)?

[REDACTED] called back asking for the phone number and address for Park Place in Dallas. Writer provided this info.

Summary Notes

4/13/2010 19:23:50 Eric Rios 4672

██████████ called in and stated he continues to have problems with the SBC unit in his vehicle.

He stated he has brought the vehicle in to two different DLRs (75534 & 75568) and they have both declined to replace the SBC hydraulic unit under the extended warranty.

██████████ stated the vehicle was last at DLR # 75568, and they would not address the problem. ██████████ is asking that we have someone call the DLR on his behalf and make them aware of this ext. warranty

Writer informed him that the information will be sent to a CM for review and follow up.

He can be reached at ██████████ or ██████████

4/13/2010 19:24:09 Eric Rios 4672

Call back Date: 04/13/2010 time: 8:00 PM CST

4/14/2010 16:23:21 Jennifer Burton 7843

Writer left VM for SrvM Nick (dealer 75534) and SrvM John (dealer 75568) requesting feedback.

4/14/2010 16:32:19 Jennifer Burton 7843

Writer left VM for ██████████ at ██████████ providing 800#/ext. Writer phoned 214-417-3425. ██████████ answered and referred writer to first number.

4/14/2010 16:32:28 Jennifer Burton 7843

Additional call required Date: 04/14/2010 time: 5:15 PM EST

4/15/2010 11:57:41 Jennifer Burton 7843

Writer spoke with SrvM JOHN from Park Place Motorcars (75568). John stated that vehicle visited dealer 4/2/10 for unrelated issue (ESP light, ABS, Check Engine light). John stated that transmission fluid was leaking onto wiring harness creating issue with transmission control unit. Dealer recommended cleaning area and replacing unit. Dealer cleaned area however customer declined control unit replacement. John advised that customer declined any additional repairs.

4/15/2010 12:10:47 Jennifer Burton 7843

Writer spoke with SrvM Nick (Ewing Autohaus). Please see sumnote 3564574 dated 1/28/10 under Mrs. Linda Duffin.

SrvM Nick advised that vehicle was at dealer in 1/2010. Nick stated that he met with both ██████████ and ██████████ explained that vehicle needs ESP Control Module which does not fall under terms of SBC extended warranty and are unrelated. Nick stated that customer was challenging. Nick stated that customer declined any repairs and ha vehicle towed out. customer was working with independent as well.

Summary Notes

4/15/2010 12:39:43 Jennifer Burton 7843

Writer spoke with [REDACTED] in length. Writer advised customer that writer had the opportunity to speak with management at both Ewing Autohaus and Park Place Motors in regards to the most recent visits. Writer advised customer of above feedback/diagnosis provided by Service Managers. Writer advised customer that extended warranty only covers the SBC hydraulic unit and no other related components.

Customer claims that dealers are "just trying to make money" and that is why they have found other things wrong but not the SBC hydraulic Unit.

Writer advised customer that it would be no benefit to not replace it if it was faulty as dealer would be paid.

Customer demand that MBSUA replace the SBC hydraulic unit.

Writer advised customer that as per dealers, this is not faulty and not contributing to the current issues with vehicle. Writer advised customer that MBUSA will only replace if faulty.

Customer stated that he was advised that SBC part was under recall and already repaired. Customer request confirmation.

Writer advised customer that SBC bracket was recalled however this has already been closed and repaired.

Customer demand that MBUSA replace SBC bracket.

Writer advised customer that dealer did not find faulty SBC bracket and recall is already closed therefore MBUSA respectfully declines.

Customer demand that MBUSA replace SBC hydraulic unit.

Writer advised customer no.

Customer voiced dissatisfaction stating that dealer is just trying to make money off of him and that is why they are recommending these other repairs. Customer demand that SBC unit be replaced and if it doesn't fix the issue then he will pay for it.

Writer advised customer that writer can contact SrvM on his behalf.

Customer voiced dissatisfaction and demand authorization. Customer claims that he is a mechanic and has also brought vehicle to a "transmission specialist". customer claims that dealers are lying.

Writer advised customer that we only have a working relationship with our authorized dealers. Writer advised customer that dealers are trained by MBUSA and have several different resources available to them. Writer advised customer that we have full confidence in our dealers and their diagnosis of vehicle.

Customer voiced dissatisfaction. Customer was very challenging. Customer stated that he "will be in touch" and hung up.

[REDACTED] (the cars driver) called back requesting to have the car towed into MBZ of Miami. [REDACTED] state that she was unhappy w/ service, that they were not able to get parts to repair the issue, and that Bill Ussery refused to provide her a free loaner car. Customer's original complaint was that her airbags deployed inadvertent without being involved in an accident. Writer advised client that rap may help her tow the car into dealer but that she would have to pay for the tow that was already done to Bill Ussery and may also be responsible for the tow into MBZ of North Miami. Customer agreed to pay for both tows as long as her vehicle is towed into MBZ of Mian. Writer advised Mustafa of issue with [REDACTED]. Mustafa followed up with Bill Ussery and the actual problem with the car is the suspension and the shocks for her car are on backorder. There is NOT and airbag deployed in the car. Customer chooses to have her car towed into MBZ of Miami. Writer will call client back to advise to keep receipt of both tow bills to have her MBZ of Miami submit to warranty.

12/16/2005 04:17:41 Dawn Olson Rowe 4600

Driver in car called on teleaid claiming to be the customers son, however he did not give his name. He stated that the SRS light/visit workshop light was on. He also stated that the vehicle had been in the shop for this very issue "three times". I advised customer to have the vehicle towed for safety reasons. However I also advised customer that since the car has already been looked at by the dealer it is unlikely that this malfunction will occur. I did reiterate to the customer that there is always a possibility that since this SRS light is on the SRS system could malfunction while he is driving. The customer declined the tow and will take the car to the dealer...dawn

Customer called in via tele aid inquiring about how the tire pressure monitor works and writer explained. During explanation writer questioned if there were any malfunctions on the instrument cluster and customer claims the SRS light was on. Writer offered roadside assistance to tow the vehicle due to the danger of having such a malfunction. Customer stated that he knew because the light was on yesterday and went off. Customer decline roadside assistance. Writer reiterated the risk and suggested he take the vehicle to a dealership as soon as possible.

SPOM asked writer to open the following SN, message forwarded from SM of dealer:

Joan Yarfitz
 2006 CLS00
 WDDDJ75X36A [REDACTED]
 Miles: 3,367

I spoke to [REDACTED] last week concerning the problems that she has had with her car. She demanded that the car be bought back. Then she referred to the meeting that we had with her back in October. I explained again the during that meeting if the transmission was an issue again then the consideration would be brought back and reviewed. I told her that the current issues that she had last week were addressed. Radio set on a station but playing a different station TAC seems to have solved that problem with new software. The steering squeaking was the SRS contact spring, replaced. The center console cover she claims need to be slammed to close was unable to verify but the shop foremen , Technician and I. I decided to end the conversation when she continued to say that the people that were checking the car were morons, I told her I guess I'm a moron since I drove the car and checked the console cover and had no problem at that time closing or opening the cover at least 15 times and could not verify the problem. Today, she spoke to Jason and demanded that MBUSA give her a letter stating the car will be bought back. If you remember you did give her 3 lease payments \$2,250.00 for inconvenience when the transmission was replaced in October on Ro. 84621. She has told me that she has already contacted an attorney. Please enter as a sum note for reference.

[REDACTED] called the CAC. Customer continues to complain about issues with the vehicle. Customer alleges that there is "something wrong with the computer of the vehicle. Customer alleges "crazy noises coming from the rear of the vehicle. Customer also claims that fuel gauge continues to malfunction. Customer says that SM of dealer has been driving the vehicle for 2 weeks. Customer says dealer advised customer to pick up the vehicle. Customer claims she told dealer the last time that if anything else was wrong with the vehicle she would bring it back and they could keep it. Customer threatens that she is gathering papers for her lawyer, but then advised "she doesn't have time for this." Writer reviewed notes, reminded customer that she had spoken with SPOM, Tom Ishler who had explained our position that MBUSA would continue to support the vehicle under the terms of the warranty and that we declined to repurchase. Writer apologized to customer and assured her that we would share her additional comments with SPOM and dealer.

CORR# 293094 [REDACTED] sent a letter Certified Mail to the CAC dated 04/03/06 and received 04/07/06. Customer requests "final repair." Customer continues to alleges issues with Transmission, seat belt chime, fuel gauge , excessive fuel consumption, SRS light, oil leak, windshield wipers, "noise" from the rear of vehicle when shutting the driver's door.

Writer will respond with letter supporting the SPOM's position.

4/10/2006 13:13:36 Robyn Letz 6209

From SPOM, Tom Ishler to the writer:

Hi Robyn,

I have talked with this customer a couple of weeks ago and explained all of the crazy stuff going on with her vehicle that the dealer verified as normal. I did advise her that if I received a couple of weeks notice for a dealer appointment, I would arrange to have a T.S. available for inspection of the vehicle. I would have to insist that she be present so she can explain and demonstrate any unresolved issues related to the vehicle.

Her only complaint to me with regards to the fuel gauge was that the fuel tank only takes 17 gallons when the reserve light first comes on - which is normal.

You can put in the e-mail that I will await her call so we can schedule an appointment.

Response:

I'll put that in a letter and you to review it before it is sent.

Should I have her call the dealer and speak with Pat Evans at 757-217-6214 or you at 800-634-6262 x 7126?

Thanks

4/10/2006 17:16:51 Robyn Letz 6209

Writer drafted letter and per SPOM gave customer option to call SM or SPOM.

5/1/2006 19:29:47 THOMAS ISHLER

Writer contacted customer today to thank customer for allowing MBUSA to perform a final inspection and repairs on the vehicle. Writer advised customer that the T.S. found and repaired the fuel leak. Writer advised customer that the light sensor didn't appear to be working because somebody had gone into the instrument cluster and programmed the lights for 'constant'. Writer advised customer that the lights were functioning properly based on how they were set but the T.S. did program the light function so they were not on 'constant'. Writer advised customer that the fuel gauge readings were checked and the fuel gauge was found to be reading properly.

Customer advised writer that the customer had already turned it over to an attorney and is planning to sue under Lemon Law. Writer advised customer that during our final inspection we repaired any outstanding issues and found the other complaints to be normal operating conditions. Writer asked the customer if there were any unresolved issues and the customer stated that there is a problem with the vehicles computer and things don't work the way they are supposed to. Writer advised customer that we were sorry if the customer felt the vehicle was not reliable and advised customer that she could pursue the matter however she felt was necessary but that we stood behind the vehicle and would continue to honor the warranty.

Note: Writer requested a copy of the vehicle file from the dealer to forward to legal based on customer's above-mentioned comments to writer.

5/3/2006 22:31:50 THOMAS ISHLER

Writer received a call from an attorney with the Consumers Law Group. Writer was advised that they would be filing under Lemon Law. Writer will forward a copy of the vehicle's history with a summary for legal review.

██████████ forwarded her boss, Mr. Wither's internet message to Paul Renick:

Dear Paul,

I am writing this letter to you out of some built up frustration with Brumos. I know that your organization is committed to delivering a level of high customer satisfaction. Unfortunately, there are several areas that have me very frustrated and disappointed.

In Jun of 2005 , I purchased a 2006 CLS500 from Kraft Motor Cars in Gainesville. Kraft is a client of our office and a personal friend of one of my Financial Advisors in my office. I was very pleased with the level of service I received from Kraft. At the time of my purchase I asked about service issues in Jacksonville and was assured that Brumos would provide me with a high quality of service and that it is standard practice that I would receive a loaner car if I took it in for service if needed. Having owned luxury cars in the past , and requiring a vehicle during the day, this was very important to me.

At the time of purchase, I noticed a strong vibration while driving. Kraft stated that it needed to be aligned and they currently did not have the part for their machine to perform this and I could take it to Brumos for service. Brumos offered to do the service but refused to provide me with a loaner car. They also told me at that time that I would never be entitled to a loaner car because "loaner cars are only for clients who purchase their cars through Brumos". I appealed to the Service Manager and she again instructed me that a loaner car was not an option. The next time I was in the service area, I noticed in bold letters on the screen on my client record "NO LOANER CAR - CUSTOMER PURCHASED CAR FROM KRAFT"

I have to say that this is very disappointing. To spend over \$75,000 on a car and "the Mercedes Experience" , to be treated this way is not appropriate.

This is not a good public relations for Brumos. This week, no less than eight of my Financial Advisors asked me why I was driving a Chevy Cobalt as they walked past my parking spot in the garage. I had to tell my story eight times how Brumos refused to provide me with a loaner car because I did not buy my car from them. These are eight affluent people that you want driving your cars.

As you can see by the chronology of events listed below, I have brought my car in for service to Brumos six times in past 12 months. Each time, I have also discussed the vibration I feel when driving. They have addressed it on several occasions. The latest results stated that all four of my rims are slightly bent and causing the vibrations. I could have them replaced for \$2,200. No one can explain to me how it is possible for all four rims to be bent at the same time. This does not make sense to me. I have had the vibrations since day one.

I owned a Lexus for 4 years prior and my experience was wonderful. The only service the car ever required was the regularly scheduled maintenance. The level of service I received was excellent. During that time, I received a loaner car at three different dealerships where the car was serviced.

Currently I have spent \$1,901 with Brumos for service and installation. They have certainly been paid by Mercedes Benz for the additional warranty work they performed. Six service issues in 12 months is also very burdensome.

Two Issues:

1) I believe that I should be entitled to the same experience as any other Customer, that includes the use of a loaner car.

2) Mercedes Benz should replace the rims on my car at no cost to myself

It is my hope that you have the authority to help me with these issues.

Calendar of events

Jun 17, 2005 Purchased Car through Kraft Motors in Gainesville

Jun 21 , 2005 Took car to Brumos for Service

Car had a noticeable vibration when driving

Kraft did not have the equipment in service to perform alignment

So I took car to Brumos at suggestion of Kraft

Replaced all four tires & Front Camber bolts

Balanced all four wheels and tires

Cost \$597.15

Loaner car not provided for two days of service

- I rented a Camry across the street at Budget

Jul 5, 2005 Took Car to Brumos for service

Warning lights were on for Airbag

Noticeable Steering Vibration at 30 mph and greater at 50 mph

- Adjusted Preteanchen Steering Rack

Cost - Warranty

Loaner Car not Provided

- Rented Hyundai from Budget

Aug 5, 2005 Took car to Brumos for Service

ESP Sensor light malfunction

- Replaced part

Performed Sched. A Maintenance

Summary Notes

Cost - \$315.30

No loaner car - Rented Camry from Budget across street
Mar 16, 2006 Took car to Brumos for Service
Active Headlamp malfunction - Part not available
Oil Level Sensor malfunction

Cost - Warranty

No loaner car provided - Rented car from Budget
April 6, 2006 Returned car to Brumos for service
- They received the Headlamp to install
- Battery was also replaced for malfunctioning
- Installed Satellite Radio

Cost - \$ 988.63

No loaner car provided
June 16, 2006 Took car to Brumos for Sched. B Service
- Also requested that they look at car for vibrations
as discussed in prior service.

- Brumos stated that all four Rims were slightly bent and caused vibrations

Cost - \$350.43

No Loaner car provided - Rented Chevy Economy car from Budget
I look forward to hearing from you soon.

p.s. I would like to compliment Jonathan Hill (Service Rep). He has been very polite and provided me with a quality experience for the things that are within his control.

Sincerely,

Robert E. Withers II

6/19/2006 13:30:29 Robyn Letz 6209

internet message:

I am embarrassed that I referred and persuaded my manager (Rob Withers) to purchase a CLS given his current experience. I currently own two MB and that represents my fourth and fifth MB automobiles. I cannot believe that a MB Regional rep would give my local service manager (whom I've contacted for assistance with this problem) the response that each dealership sets their own policy on loaner cars and that his problem with the tires/rims is not going to be covered by MB. I clearly recall Mr. Withers telling me and Roger Daigen (Kraft Sales Manager) on the very day he bought it and drove it home to Jacksonville, that they needed to do an alignment because of the wobble. He has continued to complain about this with each service visit, only to be told now that he needs all new rims (at his expense). I'm mortified that he's had it in for some type of service SIX times in just a year and each time is forced to go "across the street" and rent a car. You will see from Mr. Withers' email below that we are an office full of expensive cars in the parking lot...not only does his experience not bode well for Brumos, but it puts MB in the stew as well.

I expect a management response, not a service rep response....as this matter has already been brought to a Regional Rep's attention. I would also like to be included on any response from MB to Mr. Withers, as I now have a very keen interest. This is a permanent black eye on Brumos and all of their related dealerships and has the potential to be one for MB.

For now, a loyal MB driver.....

6/19/2006 17:51:44 Robyn Letz 6209

CORR # 298170 see SN 1257397 (SPOM reply)

Writer will respond with hard copy to Mr. Withers only.

Customer's internet message and writer's response:

Comments: Hi, We've just leased our first Mercedes Benz (2006 E350) about a month ago in late July. Everything was good for two weeks, then out of nowhere a message appeared regarding "ESP malfunctioning"; we were able to bring the car back to the dealership and they determined it was a sensor error and replaced it. Then on Friday night (9/1), there was another message stating that "the passenger side airbag has been activated" This message stayed on for about three hours and miraculously went away by itself. I'm a bit confused as this is (supposedly) a brand new vehicle and since it's already went back for service once shortly after it was sold; shouldn't they have check the vehicle thoroughly?? Perhaps I haven't been in new car market for too long, but I thought \$50000+ car supposedly be both luxurious AND good quality. In addition, when I tried to contact Mr. William Ho, the manager of Rusnak Arcadia, where I got my vehicle, on Friday, I was told by the receptionist that he was on the phone, AFTER I explained to her why I called. I left him a message on his voicemail and asked him to call me back. As of now, 9/3 10:22pm, I have still yet heard from him. I'm a bit concerned with the after-sale service of your dealership. It appears to me that once I drove the car off the dealership they no longer care. Granted MB has good reputation, yet this kind of treatment and services from your dealership might make people think twice before getting another MB.

Dear [REDACTED]:

Thank you for your message.

Your concern over the necessary repairs to your vehicle is understandable and we cannot overstate your importance to us as a Mercedes-Benz customer, or our regret for any inconvenience you might have experienced. However, as you can certainly appreciate, it is impossible for us to independently assess the details of your situation, since we have no first hand knowledge of it.

Your dealer is in the best position to evaluate vehicle performance and, if necessary, request technical assistance from Mercedes-Benz USA to confirm that it is operating properly. We suggest you discuss any mechanical concerns you may have with your E350 with the Service Manager of your authorized dealer.

As you may be aware, authorized Mercedes-Benz dealers are independent businesses responsible for their own day-to-day operations and employees. Please be assured your comments will be forwarded to the management at Rusnak Arcadia for review and response as deemed appropriate by the dealership.

The opportunity to correspond is appreciated.

[REDACTED] called the CAC, customer is dissatisfied with alternate transportation policy of the dealer in Modesto CA and that MBUSA cannot provide alternate transportation. Customer alleges vehicle has SRS issue. Customer says dealer offered to rent the customer vehicle.

Writer apologized explained that program is administered by the dealer and while we apologize , we are unable to provide alternate transportation. Writer suggested customer speak with GM of dealer.

9/11/2006 15:59:04 Patricia Murdy 6394

Customer called back stating he wanted the number "for the general manager of Northern California dealers." Writer inquired what customer needed assistance with. Customer stated that he "wants to speak to someone of a high level at MBUSA because he feels the dealer is treating him like garbage." Writer inquired what he means by that. Customer stated his wife brought the vehicle into the dealer "and they treat her like garbage and don't give her a loaner." Writer again asked customer how they're treating them "like garbage." Customer again stated, "No loaner, that's ridiculous."

Writer advised customer that each dealer is independently owned & operated & sets their own loaner policy.

Customer then stated he wants MBUSA to buy back his vehicle because he isn't given a loaner car at this dealer & is not going to take his vehicle back to where he purchased it. Writer advised customer MBUSA would not buy back his vehicle because he's dissatisfied with the loaner policy.

Customer again stated he wanted the number for the GM of Northern California dealers. Writer declined. Customer hung up on writer.

CORR # 309860 [REDACTED] sent a letter to the CAC, requesting contact from MB rep. concerning alleged safety issues with his 2005 E320CDI. Customer alleges that vehicle was at dealership 10/31/06 and claims that SRS light was on previously but not on when it the vehicle was physically at the dealership. SM advised him at that time that no fault codes were stored and no malfunctions found. customer alleges to have digital photo of the light on. Writer called SM to review, Tom Haig advised that SRS light does not turn off by itself and locks in codes when it is triggered. Tom says customer has not presented the picture to him. SM says he will advise his SPOM, Brian Maloney to review the history but told the writer that when he saw the vehicle it was operating as designed. Writer will respond with letter.

Summary Notes

4/4/2005 19:11:31 Patricia Murdy 6394

Customer contacted the CAC stating that he's brought his vehicle in twice & does not understand why when it is such a new vehicle. Customer claims that the first time it was brought in for the SRS light. Customer claims that the second time there was a shaking & the brake pads & rotors were replaced. Customer claims that's he's bringing the vehicle in a 3rd time for an alleged wind sound he hears from the passenger seat. Customer stated that he is upset because each time he brings the vehicle in, the dealer has the car for over a week. Customer stated that he is provided a loaner vehicle, but is still dissatisfied. Customer stated he purchased the vehicle because of the reliability of it & now he does not feel that it is reliable.

Writer apologized to customer for his dissatisfaction. Writer advised customer that his concerns would be documented. Writer advised customer no manufacturer can predict when a component may or may not need to be replaced. Writer advised customer MB would continue to honor the terms of the warranty.

Customer stated he will be bringing the vehicle into the dealer again tomorrow.

Customer contacted the CAC stating that the vehicle has been in the dealer many times for several different issues - SRS, ABS, ESP, etc. Customer claims he's an employee of Beshoff. Customer stated that the car is currently in the dealer & has been there since last Friday. Customer stated that he does not know what to do with the car. Customer stated that he's been driving the loaner vehicle more than his car. Customer stated that it is hard for him to sell cars to customers when he is dissatisfied with his car. Customer stated that he no longer wan the vehicle.

Writer apologized to customer for his dissatisfaction. Writer advised customer MB would continue to honor the terms of the warranty. Writer advised customer his concerns would be documented.

Summary Notes

9/13/2005 15:11:11 Patricia Murdy 6394

Customer contacted the CAC stating his SRS Light is on for the 2nd time. Customer stated the dealer told him they can get the car in but they would need 2 days to get the vehicle back to him. Customer stated he thinks the dealer is playing games with him. Customer stated that he has to drive to NY & cannot wait 2 days for them to get the vehicle back. Customer stated he is stopping in Jacksonville & may have them repair the vehicle there.

Writer advised customer that when the SRS light is on we recommend the vehicle be towed & not driven. Writer advised customer that a number of things may have brought the light on, therefore the dealer cannot say why it would take 2 days when 1 repair could be more entailed than another. Writer advised customer there are 3 other dealers in his area & offered to give their numbers. Customer declined & only took the number for Jacksonville, stating he would be driving the vehicle there.

Customer contacted the CAC expressing dissatisfaction with her vehicle. Customer stated that she's had transmissions issues & climate control issues. Customer stated that today her SRS light is on and she refuses to have the vehicle towed. Customer stated she will not pay \$15.99 a day for a rental vehicle. Customer stated she needs her car for work.

Writer inquired what customer would like writer to do to assist. Customer stated, "Do you want to pay \$15.99 a day for my car?" Writer advised customer that each dealer is independently owned & operated & sets their own loan vehicle policy. Customer stated, "Then what is the purpose of the warranty?" Writer advised customer the warranty protects against manufacturing defects. Writer advised customer her comments would be documented.

Honora Duffy

6307

██████████ (who is owner - I've added his wife, Indu, who called yesterday, as driver on Fastracc) called.

I confirmed we are current investigating this matter; this can take several business days.

██████████ refuses to accept; I confirmed this is first time (yesterday) we have heard of this matter and must seek hi understanding that review can take at least several business days. Dealership will be in contact with him once repairs are finalized.

██████████ continued to refuse to accept demanding MBUSA "take back" his vehicle. He also demanded that dealer provide him with loaner.

There are no warranty claims on this vehicle other than PDI; I confirmed that MBUSA will stand behind the warranty and provide whatever technical assistance to dealership necessary to ensure that his vehicle is fixed. Loaner car is between customer/dealership.

██████████ refuses to accept he has to work with dealer on this matter; I confirmed since they have his vehicle, they are his contact point and in best position to advise him on status of repair.

After we hung up, I called Dave; Service Manager confirmed that parts arrived yesterday and dealer is currently working on vehicle. Once repairs are finalized, they will contact customer.

E-mail: [REDACTED]
 Comments: I purchased this car with the understanding from the salesman, that the SIRIUS antenna and receive could be dealer installed, as long as the car had the factory GPS system installed. The dealer now tells me that even though my car has the proper front end installed, the car was not factory wired for the SIRIUS system for the 2006 model year. I just can't believe that Mercedes does not make a wiring harness that the dealer can install? Please HELP! Thanks, Willy Demel

10/18/2006 10:37:49 Joseph Leonardi 6255

Dear Mr. Demel:

Thank you for your recent e-mail to our Customer Assistance Center.

We regret the circumstances which prompted you to contact us and apologize for any inconvenience caused. As you are aware, SIRIUS Satellite radio for Model Year 2006 E320CDI is a factory installed option only and can not be later installed at the dealership.

Please be assured that your comments have been documented and forwarded to the appropriate individuals within our company. The opportunity to correspond is appreciated.

Sincerely,

Joseph L.
 Customer Relations Liaison

 CORRES: 308506.

Customer sent letter to the CAC in reference to his 2004 E320. He states that he has had recurring issues with the electrical harness in the vehicle. He claims that due to his recurring issues, the dealership offered him 2,500 towards a new vehicle.

He claims that when negotiating the new deal he had to pay 4,400 to get out of the vehicle and pay 671 for 27 months, which is more than he currently pays.

Customer feels that his offer is "inadequate".

11/1/2006 11:07:58 Joseph Leonardi 6255

Writer e-mailed SPOM, He responded.

Joe - it was an offer that I made with the GSM. I am here today and will discuss with him appropriately. The customer does NOT have a bad vehicle as you can see from the VMI. This was a goodwill gesture due to some concerns. I will handle.

Regards,

Joe Gallagher
 Service and Parts Operations Manager

Summary Notes

11/6/2006 15:36:12 Joseph Leonardi 6255

Hello Joe,

Was there a resolution reached with this customer?

Thank you
Joe

SPOM replies

unfortunately not. Dealer overpromised. Customers history wasnt close to what he thinks it is. Customer was upside down \$10k which I was not going to cover. I'll find out if they worked anything further out.

Regards,

Joe Gallagher
Service and Parts Operations Manager

11/7/2006 08:53:09 Joseph Leonardi 6255

Hey Joe

I am in the process of writing [REDACTED] his letter. Just to clarify, is there ANY offer from MB still on the table for this customer?

Thanks again
Joe

11/7/2006 09:09:14 Joseph Leonardi 6255

he can apply the \$2500 goodwill money for another vehicle if he chooses.

Regards,

Joe Gallagher
Service and Parts Operations Manager

As Mercedes so effectively markets, I spent many years working toward the ultimate rewards of success. A Mercedes clearly fit the bill. Now that I reached that point in my life, somethings are not what I had hoped. My greatest disappointment... My wifes Mercedes. We have had it for two years, bought new. It has been in repetatively for the same things, the SRS (3 times), an unidentified suspension problem (3 times)among other things. These issues still persist. My new material goals: to replace my Mercedes with a BMW or Lexus. Thank for reminding me that material things are just that, material things. Sincerely, Doug Kramer

Summary Notes

2/15/2007 14:22:29 Joseph Leonardi 6255

Customer called the CAC in reference to his CPO 2005 E500. He stated that he is disappointed with the CPO certification.

He claims that there was an issue with the SRS, the tires were below the recommended pressure and were "bald" and the vehicle is pulling to the right "hard".

He alleges that he brought these issues to the attention of the dealership and they addressed the issues with the SRS and the tire pressure.

He states that the vehicle is still pulling to the right and he stated that he was told by the dealership that "they don't want to see the car anymore".

Customer is skeptical that the vehicle was properly certified and wants the alignment checked and repaired by the dealership.

he alleges that he has sent e-mailed and left voice mails but they have not returned his e-mails or calls.

Writer informed him that he will call the dealership.

2/15/2007 14:27:36 Joseph Leonardi 6255

Writer left voice mail for the service manager.

Summary Notes

2/20/2007 10:42:24 William Maher 6250

Customer called in reference to above. Customer stated he received an Email from the General Manager telling him that there is nothing that they are willing to do for him.

Writer apologized however informed him that the dealerships are privately owned and operated and are responsible for the certifying of the vehicles. Writer informed him that the General Manager is the person that would make this decision.

2/21/2007 16:35:15 Timothy Ucker 7810

Customer phoned the CAC in regards to above alleging he has taken his vehicle to another unknown dealer and they have told him the alignment is off and are going to charge him \$120.00 to correct it.

Customer is requesting compensation from the selling dealer.

Writer advised it is difficult to comment on the above from this vantage point as the dealer is in the best position to determine the best procedure in addressing the above.

Writer advised customer dealers are independently owned and operated and this is an issue to be addressed at a local level.

Writer apologized for any inconvenience, thanked customer for calling, and advised customer that all comments will be documented as well as shared with the appropriate parties for review.

Writer advised customer to be in contact with General Manager, as that is the best point of contact regarding the above.

NTMT: Dealer, MM, and SPOM

2/21/2007 17:43:33 Timothy Ucker 7810

Writer re-contacted customer to determine which dealer performed the above alignment.

Penske Motorcars in West Covina.

Customer also added to above an allegation that the dealer sold him the vehicle as Certified Pre-Owned with illegally bald tires on the rear.

Customer, [REDACTED] called in to initiate a complaint. Customer claims he just received his SES survey for his 10/7/05 service visit. Customer states he is very dissatisfied - customer claims his appt. was for 8:30 for the SRS light and maintenance- arrived at 8:15. Customer was waiting for three hours and then approached the service representative to determine the status. The rep. informed him that the vehicle has not been looked at yet. Customer is very upset by this lack of concern for his time and poor customer service. Customer claims he had just received a letter from the dealer promoting this dealer and how they have 30 bays waiting to service the need of MB customers. Customer can't believe that he waited for three hours only to be told the vehicle wasn't looked at yet - not acceptable. Customer was eventually given a loaner. Writer offered regrets on this experience and advised customer to please complete the SES survey as this is one of the way to communicate to the dealer which area's they need improvement. Customer states that he will send in the survey. writer thanked customer for his time.

 See CA Referral # 175636

Customer phoned the CAC to request a report of findings from CA Referral an alleged non air bag deployment. Customer advised he is looking for MBUSA assistance in getting out of his vehicle. Customer advised Regional Representative Scott Fischer will not return his call. Customer advised he is requesting the report since he feels the vehicle airbags didn't work as designed and wants to bring the report to other experts, or BBB.

Writer apologized to customer and advised the findings can be obtained by placing a request in writing to the legal department of MBUSA. Writer directed customer to discuss request of getting out of his vehicle with the sales manager.

Summary Notes

2/2/2005 09:00:31 Jacquelyn Galletta 6323

Customer was transferred to writer after above contact with CA Rep, Brian Dudek. Writer spoke to customer and advised that I would alert the appropriate individuals regarding his request for the findings of the inspection. Customer admits that he has been told by our Regional Manager that the vehicle performed as designed - no malfunctions. Customer wishes to trade out of vehicle, doesn't think that it possible that our findings could be correct.

Writer advised that although I can't confirm findings (this would come from our legal department) MBUSA would stand behind the determination made by our expert Technical Specialist and Regional SPOM. Writer suggested that should customer want to trade out of vehicle, he speak to his dealer. I also advised customer that his request has been sent to the legal department (per Referral notes) and it can take time, but that I would again put forth his request for our position in writing.

Customer threatens to pursue via the media, etc. and wants it noted that he is not happy with the performance of this vehicle or our company position. Writer advised it would be noted.

Writer sent email to Frank B., Scott Fischer and cc: to Donna Boland.

2/2/2005 09:00:57 Jacquelyn Galletta 6323

Writer received email from Frank advising that a letter will go out today or tomorrow with our position.

Summary Notes

3/24/2005 15:12:54 Julia Hart 6254

Customer contacted the CAC demanding assistance with vehicle.

Customer alleges his vehicle is currently at dealer 56119 awaiting a part for the "SRS". Customer claims he has been dealing with "SD John Bruno" who originally advised the part would arrive on 3-22-05, however it is now 3-24-05 & there is no ETA. Customer is extremely pleased with the dealership , but would like MBUSA to "step up" & assist in locating the part.

Customer stated "I am a retired Chrysler employee & we would never treat our customers this way!"

Writer apologized & advised customer I would research his concerns & contact him with any updated information

Customer is requesting I contact him today regardless what information I have obtained. Writer agreed.

3/24/2005 15:17:29 Julia Hart 6254

Writer spoke with Parts Manager Tom from dealer 56119.

Tom advised the Part is a Spital Contact & the Part # is 1714640518. Order # 1145596.

Tom claims he was originally advised this part was available in Fontana in which he would receive the part on 3-22-05. Tom stated the part never came in which he then contacted "Damien from Parts" who advised he has located this part in Robbinsville in which it will be shipped on 3-25-05. Tom stated he was not able to locate this part in Robbinsville & would like confirmation that the part will be shipped.

3/24/2005 15:23:11 Robyn Letz 6209

sent to PAC.

Summary Notes

3/24/2005 17:53:39 Robyn Letz 6209

ETA from PAC 03/25/05, writer advised Julia as she promised to call customer.

3/24/2005 17:58:07 Julia Hart 6254

Writer contacted the customer to advise of the updated information.

Customer contacted the CAC to express displeasure with vehicle.

Customer is extremely displeased with the quality of the vehicle as he alleges several repairs have been performed in the last few months of ownership.

Customer claims currently the SRS light is on in which dealer 05101 is sending someone out to pick the vehicle up.

Customer is demanding MBUSA provide "customer service" & adjust to the customer's needs.

Customer is requesting when his vehicle is in for service, MB waive the charges for insurance on the rental vehicle & reimburse him for gas used.

Writer apologized & advised the customer all dealerships are independently owned & operated & set their own policies regarding loaner vehicles.

Writer explained MBUSA will continue to honor the terms of the warranty & provide technical assistance if needed.

Writer offered to contact the SM to further discuss the outstanding issue with his vehicle.

Customer stated he has already spoken with "SM, Bob Evens" & is requesting to speak with a supervisor to waive the charges for gas & insurance on his rental vehicle.

Writer explained there are no supervisors available & reiterated that MB would not be able to assist in providing him with gas & insurance.

Writer assured the customer his concerns will be documented & shared on his behalf.

Customer requested the name & # of the President. Writer provided.

Primary Phone: [REDACTED]
 Current Mileage: 12412
 Dealer(s) involved: Viti

Situation: Customer called looking to speak to someone about the accident she had with her vehicle on Friday. Allegedly, car accelerated on its own while her foot was on the brake and she crashed into a cement wall in a parking garage. Front of car was smashed and [REDACTED] advised no airbag deployed. Customer stated she has since gone on line and has seen many recalls on this vehicle including issues with "brake failure" and advised she or her husband has not gotten any notices or advisement from dealer about this or any issue. She is very upset and does not feel like she will be able to drive this car again, does not feel safe. Customer advised she was frustrated when no one answered phones this morning, stating the dept was in a meeting.

Action Taken: Writer advised she was sorry to hear about her accident, as well as the delay of getting thru today on our phones.

Writer stated she wasn't able to determine what could have caused this accident, and explained how recalls are vin specific and what she has seen on line may not be related to her vehicle. Also advised that writer did see campaigns, however, they do not require customer contact, they get inspected/repared at the dealer when in for service. Writer did not see any recalls related to "brake failure".

Advised customer I have noted all her concerns and will have an escalation specialist call her back by the end of the day today to address her concerns.

Customer [REDACTED] phoned the CAC to document a concern with a recent service experience.

Customer claimed that she had brought her vehicle in for service on the SRS light 4 times. The fourth and last time she was advise that her entire dash had to be removed and the dealer held her vehicle for one week. Customer claimed that upon receiving vehicle the ash tray would not open and most of the air vents were broken Customer advised that the dealer responded by replacing the broken items and providing customer with a complimentary detailing and fueling which she appreciated, however she advised that when her vehicle was returned her rear floor mats were missing and her front floor mats were not hers and not the correct size customer was calling to document her concerns and to ask for advise as to how to proceed in rectifying her situation.

Writer apologized customer for her experience and directed customer to either her SM or GM of her dealer. Write advised customer that her concerns would be documented appropriately.

Azalea from dealer phoned CAC about above customer concerns. Azalea advised that the vehicle had clear floor mats from the dealers detail shop at the time of original retail sale. Azalea advised customer that they will provide a set of the same floor mats. Azalea advised that customer feels that they were custom ordered floor mats and not the ones from the detail shop. Azalea reviewed with Sales rep and parts department and determined that customer had been provided with the detail shop clear floor mats and that is what they are willing to provide.

Customer [REDACTED] phoned the CAC to voice his concern with the service department of his dealer.

Customer claimed that since he took delivery of his vehicle, it has been in the dealer for a total of 2 1/2 months, including but not limited to one month for an airbag/srs malfunction and maintenance service (which was not completed after said time frame), and 17 weeks for a clogged fuel filter. Customer advised writer that he is very happy with his vehicle and will most likely purchase it off of lease however his negative experiences with the dealership have affected his view of the brand, and he will most likely not buy another MB vehicle.

Customer did not have any request of writer other than to document his concerns.

Writer a[apologized for customers experience and advised that customers concerns would be documented appropriately. Writer advised customer to speak with the SM Jeff C.

What did the customer Say? Customer is disgusted because he has issues with his vehicle and this is the third time he has been turned down for a loaner. The next loaner will be available on October 21st. Customers SRS light is on. Customer went to dealership in Houston and was told that the SRS function needs wire repair which would take about 4-5 hours to repair. Customer could not wait in Houston for that length of time but customer was offered a loaner car and he didn't even purchase the vehicle there. Also on his instrument cluster he has dotted lines at the bottom. Customer claims he called Mr. Idler at 10:17 a.m. 11:25 a.m. and never received a callback. Customer finally spoke to Mr. Steve Idler, Service & Parts Director and complained that he needs work done on his vehicle and can never get a loaner. Customer claims that Mr. Idler advised him that the dealership in Houston is a larger dealership. Customer would like a callback.

What was your response? Writer apologized to customer and advised him that I would forward his complaint to the appropriate department.

What commitment(s) did you make to the customer (including timeframe)? Writer advised customer that I would forward his complaint to the appropriate department and have someone get back in touch with him on Monday, October 12.

Customer's preferred callback date/time (by timezone): 10/12/09 at 11:00 CST.

Summary Notes

10/12/2009 11:16:50 Romy Parekh 7832

Writer contacted [REDACTED] on ([REDACTED]) to discuss.

Customer reiterated concerns, claiming "I can't understand how I can get a loaner car from other dealer(s) - San Antonio and dealers in Houston but not from the dealer I purchased the car from?!"

Writer advised customer that MB dealers are independently owned and operated and have policies regarding submission of loaner/rental vehicles respectively. Writer apologized for customer's frustration, advising his comments will be noted.

Writer also offered to communicate contact to Cardenas Metroplex Dealer Management however unable to guarantee any consideration as mentioned, alternate transportation is handled by dealer(s) at a local-level.

10/12/2009 11:17:38 Romy Parekh 7832

Self reminder Date: 10/12/2009 time: 12:00 PM EST

10/12/2009 11:20:04 Romy Parekh 7832

Writer contacted Cardenas Metroplex and attempted to reach SrvD - Miles I. however he was unavailable.

Writer was transferred and spoke with SrvM - Andy L. to relay above concerns.

SrvM took appropriate information, as he will consult with SrvD - Miles to inquire any alternate transportation availability [rental, shuttle / driver service, etc.]. SrvM advised dealership will contact customer directly to further discuss [writer provided contact: (956) 802-5239 as needed.

Writer noted accordingly.

10/12/2009 11:23:26 Romy Parekh 7832

Writer contacted customer on [REDACTED] to follow-up regarding the above conversation writer had with SrvM - Andy [as SrvD - Miles was unavailable].

Customer appreciated assistance and follow-up, as he will await contact from dealership to further discuss [understanding this matter has to be addressed with dealership directly].

Both parties thanked one another and disconnected call.

340146

Comments: I leased a 2006 E350, on the summer of 2006. Unfortunately , I was involved in an accident Nov 2006. Ever since I got the car back (four months), I've had numerous electrical trouble with the car. The dealerships I have visited have been very helpful, but they yet to find the problems with the lights. During the last visit, they pointed out that the hood's paint is fading, or "dry". I truly believe that the repair shop (Y&S Body Shop) , the authorized repair shop for Mercedes of South Bay (Torrance, California) , must of missed something during the repair. And now to find out that the paint of the hood is fading, come on!!!. This is my second mercedes, and the run-around I have received from the dealerships, insurance, body shops, has really ruined my latest experience with the car. With front end frame damage , it would of been so much easier if the car would of been replaced. I would like to speak to someone regarding this matter, but someone who can actually do something in a different direction. [REDACTED]

12/18/2007 09:32:09 Theresa Mc Carthy 4601

[REDACTED] called the CAC in reference to the letter he sent. He claims the vehicle was in an accident and has not been properly repaired. He stated he wants to know what his options are in reference to getting out of the lease. He claims the vehicle has a number of electrical issues and claims he was advised by Murray Motors in Denver the hood looks like it was painted by a short person and is fading. He claims the dealer advised him they may have to take the vehicle apart to repair the electrical issues and if issues are related to the accident it would be an insurance issue.

Writer advised customer his concerns would be documented and damage due to the accident would be an insurance issue. Writer suggested he speak with the sales manager at the dealership in reference to trading vehicle early.

Summary Notes

12/18/2007 17:10:37 Susan Cunningham 7815

Dear [REDACTED]:

Thank you for your recent email inquiry and we regret any inconvenience you may have experienced with your 2006 E350.

We understand you have been in contact with a representative at the Mercedes-Benz Customer Assistance Center today to have your concerns addressed. If you should have future inquiries, please feel free to call our Customer Assistance Center for assistance.

The opportunity to respond is appreciated.

Sincerely,

Susan C.
Mercedes-Benz USA

12/19/2007 16:50:43 Jennifer Burton 7843

Customer phoned CAC requesting letter be sent regarding why airbags did not deploy. Please refer to previous sum note.

1/14/2008 17:47:13 Linda Tognetti 6268

Frank Berenz sent letter dated January 14, 2008, to [REDACTED].

"...my client's representative's inspection of your above referenced vehicle revealed that its Supplemental Restraint System was in proper operating conditio0n. The inspection further revealed accident damage consistel with an impact generating a frontal deceleration rate below the system's air bag deployment threshold. Thus, the air bag system operated properly and in accordance with its design in not deploying in the accident sustained by the vehicle...."

Letter sent to Doculogic for imaging.

Comments:

To Whom It May Concern: I currently own a 2005 Mercedes Benz E55 AMG (VIN# WDBUF76J35A [REDACTED]) whose 4yr./50K warranty just expired in late February this year. The car currently has approx. 25.5K miles. Early April (shortly after Service B) or a little over a month after the warranty expired, the SRS light went on. On 4/23/09 I brought it in again to Fletcher Jones of Fremont in Fremont, CA, to have it repaired. During that repair, the technician also found my S/C belt was cracked. As a result, the total repair came out to be \$920.77 (\$715 for the SRS repair; and \$205.77 for S/C belt repair). All of these should've been covered by the 4yr/50K warranty if these happened about 1 month earlier. As a long-time mercedes owner (this is my 3rd AMG), I kindly request your generous and good-faith consideration to have the above repair covered by the 4yr/50K warranty. With that, I thank you for your prompt attention to this matter and I'm looking forward to hearing from you soon.

Writer received voicemail from Dave. He advised they contacted the customer and offered to reimburse him \$715.01 (approx. 80% of total bill)

Dear [REDACTED]:

Thank you for your recent email and we apologize for any inconvenience you may have experienced with the recent repairs to your E55.

On your behalf, we contacted the Service Director, Dave Biasatti, regarding your request. We understand you were contacted by the dealer to review your issues and that you were offered reimbursement of \$715.01 for the SRS light, for this post-warranty repair, as a gesture of good faith.

[REDACTED], we greatly appreciate your patronage of our brand and the opportunity to review this matter. Please accept our best wishes for many years of safe and enjoyable driving.

Sincerely,

Susan C.
Mercedes-Benz USA
1-800-367-6372, 7815 for the airbag light as PWA good will.
The drive belt is customer pay as it is more of a "wear" item.

5/15/2009 13:44:29 Susan Cunningham 7815

Thank you very much for prompt assistance.

Yes, Mohammed Firoz has contacted me regarding this.

I really appreciate your good-faith gesture and can't say anything more other than thumbs up for great customer service.

I will surely continue to be a loyal Mercedes owner (in fact, I'm considering buying a GL right now).

Once again, thanks.

[REDACTED]

Dear [REDACTED]

Thank you for your reply.
As a valued Mercedes-Benz customer, it has been our pleasure to assist you.

corres. 394674-Letter from Kathryn Quon requesting PWA for repair/replacement of the motor for the steering column malfunction.

Customer claims cost of part/labor is \$1200 and expressed disappointment with vehicle quality.

Customer claims vehicle is just out of warranty and hopes MB will stand behind its product and offer assistance.

8/31/2009 16:05:32 Susan Cunningham 7815

No Escalation Required

8/31/2009 16:08:04 Susan Cunningham 7815

Writer left message with SM, Mark.

9/1/2009 14:08:23 Susan Cunningham 7815

Writer spoke with Mark at Beshoff. He claims the customer has had some warranty work performed but minimal customer pay and doesn't service her vehicle at the dealer.

He noted she was given goodwill toward repair of the sun visor.

He stated there was no notation of vehicle being brought in for this \$1200 estimate.

He offered to call customer for information and that it may be possible to offer a small discount.

Writer advised that she would contact customer first to acknowledge the letter and check to see where the vehicle was taken, then let Mark know so he could follow up.

Writer called and left message on cell [REDACTED] for return call.

Note, writer first called the cell number on the letter - [REDACTED] and reached customer's father. He believed the car was taken to Beshoff but suggested it be confirmed with his daughter.

Summary Notes

9/1/2009 14:27:43 Susan Cunningham 7815

██████████ returned writer's call.

She confirmed that the SF, AI, provided the estimate and that she has her vehicle serviced by Beshoff. Writer advised customer that PWA consideration is handled by the SM, on case by case basis and that she would have Mark contact her on her cell to further discuss this matter. Writer called Mark and advised him accordingly.

9/1/2009 21:45:54 Susan Cunningham 7815

Writer received voicemail message from Mark, SM. He spoke with ██████████ and confirmed quotation of \$1500 less discount for total of \$1300. He stated that customer declined his offer as she found an after market company to perform repair at cost of \$30

11/12/2009 19:41:04 Susan Cunningham 7815

corres. 401210-Letter from ██████████ to MBUSA expressing disappointment with vehicle quality. She claims she was so pleased with the E-Class after trading in her 2006 C230 for it, but now is disappointed with the many repairs so soon after warranty expiration.

She claims the SRS malfunction light came on and had to bring car to the workshop. she states she spoke with Beshoff Motorcars and was informed there are no recalls. A diagnostic was performed and determined it is not a simple sensor malfunction but the computer had disabled the airbag function.

She goes on to state this is a safety issue and not simple wear and tear...much more serious issue. She states her expectation from MBUSA is that the airbag functionality will last the lifetime of the car and not be faulty at 4 and 1/2 hrs.

She states in 1 and 1/2 yr of ownership, she had to replace the visor and during Service D, the dealer neglected to add PS fluid and she had to go back. Also, she states she was given a quote for a steering column repair by the dealer of \$1400. (see above notes, customer went to and ISP for that repair).

She requests MB resolve matter with upcoming SRS repair, as the poor quality has diminished her enjoyment and may affect her consideration of another MB in the future.

Writer will email letter to AOM and call the dealer.

11/13/2009 19:17:57 Susan Cunningham 7815

Writer spoke with Mark Peachy. He advised they have not seen customer since August and suggested she bring vehicle in for inspection. she would be charged \$160 for diagnosis, and unfortunately, they would not be able to offer any PWA to this customer as she does not regularly service the vehicle at the dealer and declined the last offer.

11/17/2009 14:58:21 Susan Cunningham 7815

Writer called ██████████ - ██████████. She claims a licensed MB mechanic determined that the computer "disabled" the SRS system and it is not a sensor issue.

She insisted this is a serious safety issue and repair should be covered under warranty.

Writer reiterated the manufacturer's warranty coverage to the customer but she insisted that this is a safety matter. ██████████ claims she was only offered 10% off the last repair and feels she should be given more consideration under these circumstances.

she stated that she does not want to pay another diagnostic fee and requires that she be given PWA prior to bringing in the vehicle to the dealer for diagnosis/estimate.

Writer advised she would reach out to the dealer on her behalf.

Summary Notes

11/17/2009 16:48:44 Susan Cunningham 7815

Writer emailed the SPOM:
Hi Rick:

I'm passing along [REDACTED] letter for your information.

I spoke with Mark Peachy on Friday and he does not feel PWA is warranted. However, since the malfunction is SRS matter, I thought we might be able to offer her something. She is requesting to know if and how much PWA would be considered prior to bringing the car in for diagnosis/repair.

She was disappointed with the 10% offer on the prior repair which she did decline.

She is really fed up with the quality of the car and mentioned possibly trading it in for another model.

Thanks for looking into this and let me know if you need any further information.

Regards,
Susan

11/17/2009 20:04:13 Susan Cunningham 7815

Writer received email from the AOM.

He advised that he spoke with Chris Nelson, the SD, who confirmed the customer has been in once since acquiring vehicle 1.5 yrs ago, other than the goodwill to repair the sun visor. The dealer did offer a 10% discount on the steering column, no offer on the SRS.

If customer pays for a diagnosis, there "May be goodwill" consideration, but until the dealer has an opportunity to inspect the car.

No blanket or open offer for SRS will be given.

If she wants consideration, she has to pay the diagnostic fee.

Writer will contact customer.

11/17/2009 20:42:33 Susan Cunningham 7815

Writer provided the above information to [REDACTED]. She requested writer call the dealer and ask either Mark or Chris to give her a call tomorrow.

Writer inquired if she would like them to call to schedule an appointment. She stated she would just like to talk to one of them.

Writer advised she would contact the dealer on her behalf.

11/17/2009 20:56:11 Susan Cunningham 7815

Writer spoke with Chris who will call her tomorrow. He also stated that he would be willing to waive the diagnostic fee. He also reiterated the information provided by the AOM.

Writer thanked Chris for his assistance.

11/20/2009 16:12:02 Omar Guerra 6230

[REDACTED] has called in to request to speak with the supervisor of ECM (Susan Cunningham). Writer apologized to customer for her experience. Writer offered a call back from Supervisor of ECM. Customer ok. Customer requests a call back before end of business today PST.

11/20/2009 16:13:51 Omar Guerra 6230

Transfer

11/20/2009 18:07:45 Paul Harmon 7831

Writer contacted customer who inquired about conversation mentioned above on the 17th and that she had not heard from anyone.

Writer apologized and offered to have Susan reach out to the dealer again to request a call back again.

Customer thanked writer and expects a call.

11/20/2009 18:25:21 Susan Cunningham 7815

Writer called to speak with the SD, Chris. Lindsay, in service offered to send him an email with the request from the writer as he was away from his office.

Writer provided her with the information requesting he leave writer a vim message that he was able to reach her.

Summary Notes

11/23/2009 12:50:02 Susan Cunningham 7815

Writer received voicemail from SD, Chris confirming he spoke with [REDACTED] on Friday. He stated that she is considering trading in the car and also wanted to know what the best and worst case was for the repair of the SRS.

He advised he would like her to bring in the vehicle for necessary inspection at her convenience.

She stated that she didn't want to waste his time and will think about her next steps and will advise if she wishes bring in the car

Customer called RAP advising the SRS light was on in the vehicle.

The writer strongly advised the customer have the vehicle towed to the dealership.

The customer started yelling at the writer about the vehicle and demanding a tow on Monday morning. Customer demanded writer to advise what caused the malfunction in the vehicle.

Writer advised the customer without diagnosis the vehicle at the dealership there is no way the writer would be able to determine over the phone what caused this in the vehicle.

The customer still yelling at the writer demanded a loaner vehicle be brought out to customer.

Customer apologized to customer and advised at this time we can make arrangements for the vehicle to be towed to the dealership. The writer advised the customer would need to speak with the dealership on Monday in regard to a loaner vehicle.

The writer advised the customer we also can not make an appointment for the towing on Monday morning and advised the customer roadside service is offered on a 24 hour emergency basis and there are no scheduling of appointments.

The customer advised she will be keeping the vehicle and speaking with the dealership on Monday morning.

The writer advised all comments and concerns would be documented and forwarded to the appropriate parties.

Summary Notes

11/16/2005 19:31:21 Kristin Kapr

Customer called through Rap Tele-aid inquiring on the SRS light in the vehicle.

The writer strongly advised the customer have the vehicle towed to the dealership.

The customer declined and requested to be connected to the dealership. Customer wanted to confirm a loaner vehicle before allowing vehicle to be towed into the dealership.

Writer advised she would document the customer's comments and concerns and forward them to the appropriate parties.

Writer transferred the call to Concierge representative Olivia and provided Olivia with the MB of San Diego's service department number.

Olivia took the call from writer.

Customer called the CAC to request his call be documented in the system.

Customer stated "I had called in on Sunday with the SRS light on in the vehicle. I was told I should not drive the vehicle. I didn't drive the vehicle and I had the vehicle towed into the dealership on Monday morning. I just got the vehicle back today and the vehicle is dirty. Besides the vehicle being dirty there are these little raised spots over the exterior of the vehicle. I am going to contact the dealership tomorrow. I just wanted it on record that I called."

The writer advised the customer all comments and concerns would be documented and forwarded to the appropriate parties.

12/5/2005 13:44:08 Kathleen Weller 6387

Client called into roadside assistance stating that his key would not lock or unlock the vehicle. Writer suggested use the other key which seems to work fine.

Customer was transferred to the customer through tele-aid rap call.

The customer advised his SRS light was on in the vehicle. The writer advised the customer we would strongly advise to have the vehicle towed.

[REDACTED] became very upset at the writer and demanded to know how long this would take to repair. The writ advised this determination would be made at the dealership. The customer declined the tow and advised he would drive the vehicle to the closest dealership.

Customer advised he wanted the call ended. The writer advised all comments and concerns would be documented and ended the call.

Customer called the CAC to inquire about his NCLW.

The customer claims "I had to replace the right side exhaust but, now I am nervous about the left side going out & well and would like to know if that would be under my warranty."

Writer advised the customer that writer would look into this matter on his behalf.

8/6/2007 12:44:54 Theresa Mc Carthy 4601

Customer called again in reference to replacing the other side of his exhaust. Customer stated he doesn't trust it that is should not have to be replaced on a 2 year old vehicle.

Writer advised customer that if parts were not defective they would not be covered under warranty. Writer suggested customer speak with the service manager at the dealership who would be in the best position to inspect vehicle to determine if parts need to be replace.

8/8/2007 14:31:47 Susan Cunningham 7815

Writer was assigned Corres.# 329435 - below email:

Comments

I am an owner of multiple Mercedes vehicles, and one if is a 2005 AMG E55(VIN:WDBUF76JX5A [REDACTED]). Last year I took the vehicle in for repairing SRS , and it took as long as 1.5 months to fix the problem. Last month when I was on the freeway in my E55, the right exhausting pipe of the vehicle fell off without any warning. I took my E55 in to Mercedes-Benz Fletcher Jones Motorcars of Fremont for repair , and they replaced the right exhausting pipes. I request my left-end pipes replaced with new ones for several reasons. First, I do not trust the left-end pipes' durability. Second, the car looks odd with two brand new exhausting pipes on the right side and two old ones on the left. Third, I have never heard or seen such ridiculous event (pipe falling off in the midst of freeway), will do no good to Mercedes' reputation. For details about my case, please contact Fletcher Jones Motocars of Fremont at [REDACTED]

Summary Notes

8/9/2007 12:27:41 Susan Cunningham 7815

Writer contacted SPOM who will look into the warranty repair with dealership and advise writer what should be conveyed to the customer.

8/12/2007 15:44:55 Susan Cunningham 7815

Writer received below email from SPOM, R. Zollman
Susan,

Sorry it's take a day more than I had hoped to respond. But I wasn't able to reach the dealer person who had the most insight to this customer and his issue until today.

Long and Short, the chrome exhaust tip on one side of his car broke off. Very unusual, I nor anyone I spoke to has ever heard of this previously. I'm suspicious that perhaps it had been hit or run into at sometime, weakening the weld, but we can't say. In any event the dealer personnel went to great length to inspect the other chrome tip on the other exhaust, to ensure it was sound and no signs of fatigue or failure were viable. No issue at all was observed with the other side. They correctly advised customer of same and advised that there is no reason to expect a problem from the other piece. Advised [REDACTED] of same.

I see no reason not to support the dealer's efforts to go into detailed explanation and inspection with the customer. I suggest we advise the customer his issue is noted in our system should this turn out to be an issue in the future but also that he has a thirty six month ELW on the car, taking it out several more years.

Also of note, another dealer, 05619 issued a goodwill lease payment to [REDACTED] earlier this year. I think we have been duly attentive to his concerns.

Rick

8/13/2007 11:40:09 Susan Cunningham 7815

Below email sent:

Dear [REDACTED]:

Thank you for your recent email.

On your behalf we contacted the Service Department at Fletcher Jones of Fremont who confirmed they inspected the chrome tip on the other exhaust, and determined it was sound with no signs of fatigue or failure. We understand the dealer advised you of their findings and that there is no reason to expect a problem from the part. Please be assured your concern has been duly noted.

In addition, this will confirm you also have a 36 month extended warranty on your vehicle which will expire October 13, 2011 or 100,000 miles (whichever occurs first).

[REDACTED] the opportunity to respond is appreciated.

Sincerely,

Susan C.

*****Dealer SrvD - Tim contacted CAC regarding below*****

Writer received VM on personal extension from SrvD - Tim M. regarding the above customer - [REDACTED] visit to dealer today.

SrvD advised that customer had on prior occasion came to dealership however due to his behavior, dealer had to contact Police Dept.

SrvD advised that customer came into dealership today with complaint of vehicle's SRS light on-dash, alleging safety recall on vehicle however provided a document which was a Dealer Technical Bulletin. SrvD made customer aware DTB's wouldn't entail coverage and since vehicle outside of warranty - diagnosis/repair would be at owner's expense.

SrvD advised, an alternate vehicle concern was with Tire Pressure Monitor System malfunction however customer wanted coverage due to last visit pertaining to similar concerns. SrvD advised that customer came into dealer in August 2009 and dealer determined nail in tire however there wouldn't be any terms of coverage at this time.

SrvD advised there is a service campaign pertaining to 'drip rails' however due to customer's behavior, [REDACTED] isn't welcome to their facility. SrvD advised that customer was demanding these current concerns be performed no cost however SrvD is declining to service vehicle regarding such complaints.

Writer noted accordingly [writer attempted to return call to SrvD however left message acknowledging receipt of his voicemail].

Customer called Survey Dept. and requested to speak with Paul Juron. Writer advised customer that Mr. Juron was not available and inquired if I could assist her.

Customer stated she was dissatisfied with Rusnak (dealer code 05646). Customer alleged that she dropped vehicle off 5/2/05 due to SRS malfunction. Customer claimed that she was informed that parts had to be ordered from Germany and was not given a date when vehicle could be picked up. Customer stated that service advisor went on vacation and she was assigned another service advisor. Customer alleged that alternate service advisor called her yesterday and stated "car was being checked" but still did not inform her when vehicle would be ready. Customer stated that she has a loaner vehicle, but is dissatisfied that vehicle has been in for service for so long, and is fearful that vehicle is "a lemon".

Writer informed customer that her comments would be documented and forwarded to the appropriate parties. Writer informed customer that parts would take longer to come in due to the fact that they had to be shipped from Germany. Writer advised customer to follow up with service manager to expedite the process of getting an estimated date when vehicle would be ready. Customer stated she was unsure if she would speak with him or no. Writer invited customer to call 800# should she require future assistance.

Customer left a message on ex. 6399 for Survey Dept.
 Writer called customer back at [REDACTED]. Customer stated she was dissatisfied with service at Penske (dealer code 05127) and inquired why she never received a SES.
 Writer checked in DocuLogic and found that we received an IBS from her 3/15/2005. Writer advised customer that we only send out one survey per every six months and that is why she never received an SES. Writer offered to perform phone survey with customer; customer accepted.
 SES Summary: Customer was very dissatisfied with dealer service. Customer stated vehicle was not ready when promised and additional visit was required. Customer was dissatisfied with how warranty paperwork was handled. Customer was very satisfied with vehicle.
 Customer stated she had to take vehicle in due to SRS light. Customer alleged that she stood there for "exactly 17min. and no one even acknowledged [her]". Customer claimed that Pete, former service advisor, made her wait at a service before SRS issue and tried to take a customer that did not have an appointment before her. Customer stated other customer made Pete take her first because she had an appointment. Customer claimed that George her new service advisor, is very helpful and never makes her wait.
 Writer advised customer that her comments would be documented and thanked her for calling. Writer invited customer to call 800# should she require future assistance.

██████████ phoned CAC requesting MBUSA trade her out of this vehicle into a GL. Customer claims she wants out as this vehicle because of electrical and other minor issues.

Customer claims she special ordered this vehicle in Dec 2005, took delivery of the vehicle in April 2006. Claims the left headlamp went out while driving home from the dealer. Claims it happened 2 other times (four weeks after first incident and 1 month later after that incident). Customer claims she brought the vehicle back to Philips each time (52 miles each way).

Customer claims the floor vents went out and the center vents had a squealing noise.

Customer claims she also had an Airbag malfunction message. Claims dealer advised that the airbags were defective and may not have deployed if she was involved in an accident.

Customer claims all issues are resolved but she does not feel safe or comfortable driving this vehicle. Customer claims she is a travel agent and does a lot of driving, claims all of these service visits put her out of commission for a day or so.

Customer claims she is a first time owner and would like to be happy and have a vehicle she can enjoy. Customer stated "the dealer is fantastic, I have no complaints about them."

Writer apologized for dissatisfaction and advised customer her concerns and request would be documented and shared with the appropriate party.

Writer suggested the customer contact the SM if she has any further concerns. Customer claims she's spoke with the SM and sales people and they told her to call MBUSA.

NTMT to SPOM & MM.

3/1/2007 14:03:48 Patricia Rosado 7837

Writer spoke with SPOM regarding customer's concerns.

SPOM advised that he has spoken to the Sales and Service Manager. Dealer has communicated to the customer to come into the dealer so they can discuss an offer.

SPOM advised that dealer is still waiting on the customer to come in so they can review and make offer.

[REDACTED] wrote letter expressing his complete dissatisfaction with the amount of repairs and problems he's had with this vehicle. States he purchased the vehicle new from an authorized dealer (Beck) and has had it primarily serviced at MB's dealers (Hendricks and South Charlotte). Customer lists some of the problems while under warranty - drivers door handle replaced 4-5 times, PS pump replaced, lifters have been repaired and replaced , airbag sensor recalibrated 2 times, computer that establishes acceleration patterns and adapts reset twice, driver side door handle finish defective , brakes wear down into the rotors w/o squealing or indicators, transmission mount collapsed, evaporator coil on the AC system replaced, transmission connector leaking and replaced, SRS light defective wiring, sunroof express feature repaired, summer window convenience feature repaired about 3 times.

Now the Navi system is inoperable again. States he mentioned this will under warranty beginning at 12,000 miles Dealer unable to duplicate. Customer requests that Nav be replaced at no charge to him since this occurred while under the NVLW. Also feels that he's been sold a lemon and would like to give us the opportunity to fix this problem before he seeks legal avenues.

Writer consulted with SPOM, no referral necessary as customer is only looking for goodwill, per her conversation with the dealer.

Writer agreed to split the repairs with dealer 50/50. Contacting SPOM and Srvm to inquire about C1A amount.

9/23/2009 09:14:52 Patricia Rosado 7837

No Escalation Required

Summary Notes

10/1/2009 10:52:14 Patricia Rosado 7837

Jackie (SPOM) sent writer email last week advising that Jim Willard will be contacting me in regards to C1A amount that we are splitting with the dealer. Customers concerns being covered 100%. Jim will be in contact with the customer to advise accordingly.

10/1/2009 10:56:13 Patricia Rosado 7837

Writer phoned SrVM as follow-up to above email. Left message requesting call back with C1A amount and will also send email to SrVM and SPOM requesting the same.

10/1/2009 11:16:16 Patricia Rosado 7837

Writer phoned customer as follow-up. He advised that he's been dealing with Kevin (who's fantastic) and he has an appointment scheduled for next Monday. Kevin has made him aware that the Navigation will be covered 100% and he is extremely thankful for this. Advised that he's gone through so much with this car that this offer really means a lot. Customer thanked writer for following up.

Cust called survey dept claiming that as soon as he drove his vehicle out of dlr parking lot on day of purchase, th vehicle displayed SRS malfunctions. Cust claimed that he immediately turned around and brought the vehicle back to the dlr. Cust stated that the vehicle has been in the service dept ever since. Cust stated that he will nev purchase another MB vehicle again. Cust stated that now his vehicle is being ripped apart because the service dept is unable to diagnose vehicle. Cust claims he has already spoke with SM. Cust is very upset and stated th his vehicle is a lemon. Writer assured cust that his concerns would be documented.

Writer forwarded sum note to TL for further review or NTMT.

Sending this information to dealer and SPOM via NTMT due to warranty history indicating that there was one repair made on 8/29/05 for the front airbag contact -

Customer has expressed his feelings with the SM - customer is dissatisfied with the length of time it took the dealer to correct an issue he feels should never have occurred driving out of the dealership on the day of delivery

FYI

 Primary Phone: [REDACTED]
 Current Mileage: 41802
 Dealer(s) involved: N/A

Situation: [REDACTED] called via Teleaid and advised that there is a message in display " Restraint system malfunction, drive to workshop." Customer claims that his friend put in a car seat in the backseat. He wasn't sur if that message regarded the car seat that was put in.

Action Taken: Writer advised that we recommend that vehicle is towed to dealer, since there could be a possible malfunction with the airbags. Writer explained to customer that we cannot determine if the car seat is causing the message to display, therefore should be taken to dealer. Customer declined tow at present time.

Please see SN# 3419411

██████████ sent letter to MBUSA and to Daimler. Letter was forwarded from Daimler to us for handling. Customer states he purchased this vehicle in 2005 as a new 06 model. States they've experienced issues from the beginning such as the oil cap missing and oil spilling onto his garage floor. Now the most recent states he only has 18,000 miles on the vehicle experienced repeated difficulties. States he utilized the tele-aid button for assistance with the vehicle not starting. States same thing happened one day later, the dealer ended up replacing the battery. States then his wife took a road trip about 70 miles away. States vehicle performed fine on the way there, however, on the way home they IC had a message indicating SRS Restraint System Malfunction. States they ended up having the vehicle towed to Buffalo as the dealer was unable to assist because they were too far from them.

States it took four days for the dealer to repair the vehicle and defective part. States his wife had to have a family member come and get them 70 miles away to bring them home as they weren't offered a loaner vehicle. States the warranty just expired one month prior.

States he called headquarters spoke with the President who advised that his complaint was baseless as he received a discount from the dealer and the rest of the amount his expense.

States at least he should have received a loaner and an apology.

Customer would like our comments on this letter.

Customer attached invoice - states dealer replaced EIS and recoded. Customer also attached tow bill \$ 351.86. Writer phoned SrvM (Mike Hopkins). He advised that he provided a discount to the customer, unfortunately nothing further can be done. Advised that he and the dealer owner spoke with the customer as the customer was seeking an explanation as to why the part failed. Advised that they are unable to provide what the customer is seeking as the EIS is an electrical component and unable to determine when a part will fail.

Writer phoned ██████████ and sincerely apologized for dissatisfaction and any inconvenience. Customer stated he's looking for an explanation as to why he needed these repairs. Writer respectfully advised that our SrvM and the owner have spoken to him regarding the recent repair. Unfortunately because the EIS is an electrical component they are unable to advise why the part failed.

Customer stated this is not good enough for him.

Writer sincerely apologized and advised that we can not guarantee that a part will last forever. However, for his inconvenience, I asked if there was something we can do to make him happy. Customer stated he didn't want anything at all. Stated the point is that the battery failed twice and then the third time it was out of warranty and the dealer replaced the EIS and wants to know why.

Writer sincerely apologized and advised that we are unable to provide an explanation as we can not guarantee that a part will never need replacement or that a part last forever.

Writer advised that his dissatisfaction would be duly noted and shared accordingly. Customer stated he's seek legal action.

Writer thanked customer for his time and advised his feelings would be noted.

[REDACTED] phoned the CAC alleging "Auto Stiegler just informed me MBUSA is buying back this car due to all of the SRS issues it has had."

Customer claims "since we have owned this car it has given us many, many headaches and I have felt so unsafe driving my grandchildren around in it and due to this SRS issue, it stopped us from going on vacation a few times

Customer claims "because of all the suffering and headaches this has caused us, I would like MBUSA to assist me with the purchase of a new Mercedes-Benz."

Writer advised customer her concerns will be documented.

Customer claimed "I just want a record of this phone call."

Writer advised customer her call would be documented.

[REDACTED] phoned the CAC claiming, "My CLS is at the dealer because of what I believe is a defective reoccurring problem of the wiring harness that sets the SRS light off."

Customer claimed, "I had a 2006 E350 that had this exact same issue twice. I traded it in for this CLS and now, : 800 miles, this car had the same problem. How do I know this is not going to keep happening over and over aga and what happens to me if it does?"

Writer advised customer MBUSA has confidence that the dealership will resolve issues such as this and that if he has further concerns about a reoccurring issue, or if the issue does come back, customer should address his concerns with the service manager, who may request technical assistance if needed.

Customer claimed , "I am not dissatisfied with the car or the dealership, but I want you to document that both of these cars have had the exact same problem."

Writer advised customer his comments will be noted.

Customer called CAC about an issue with her vehicle and SES survey. Customer stated she is filling out the SES survey and she wanted to inform us about some issue she is having with the vehicle. Customer stated she brought the vehicle in for service cause the check engine light was on. Customer stated dealership(05636) fixed the issue and 2 weeks later the light came back on again. Customer stated she brought it back to the dealership and they had to replace the part. Customer stated the seatbelt light came on and the alignment had to be fixed. Customer stated dealership replaced the tire due to the alignment. Customer stated now her SRS light is on and the seat vibrates while she drives. Customer states she know that everything is covered under warranty, however this is her first bad experience with MB and now she is thinking next time she won't lease another MB again. Customer claims her vehicle is defected. Writer asked customer if the SRS light is still on. Customer stated yes and she hasn't had time to bring the vehicle in. Customer stated she has been driving the vehicle for a week now with the SRS light on. Writer advised customer about the issue with the SRS light being on and advised her to have the vehicle towed to the dealership. Customer claims dealership advised her about the issue with the SRS light also, however she hasn't had time. Customer stated she is going to call the dealership now about the issue. Writer also advised customer to speak to the service manger about the issue.

Customer stated " The service at the dealership is excellent. They have been trying to fix my vehicle , however th vehicle must be a defect. " Customer stated she wanted to call to inform us that she is very happy with the dealership. Customer had 2 suggestions about the survey. Customer stated there should be a question about problems with your vehicle and a questions about vehicle going in for repeat malfunctions.

Writer apologized to customer about her issue with the vehicle. Writer advised customer her comments will be documented. Writer thanked customer for giving us feedback on the survey. Writer advised customer to call the dealership about the SRS light. Customer stated she will soon. Customer also stated she will send in the survey too.

****refer to Referral #196427****

Customer called the CAC claiming MB has agreed to buy his vehicle back but paperwork will take about 3 weeks to process. Customer claims "the dealership has taken the rental car back and told me my car is drivable, but thi car still has the SRS light on, this is dangerous."

Writer advised MB warranty does not provide free loaner car service under its terms, alternate transportation is specifically up to the dealerships decision to provide. Writer advised customer vehicle should be taken back to th dealership and left there. Writer offered tow but advised charges may apply because it was the customers decision to pick up the vehicle from the dealership.

Customer not happy with response ended call with "either you call the dealership and tell them to give me a renta or I will continue to drive this car and you better hope nothing happens to me."

Writer advised it is the customers responsibility and choice at this point.

Writer advised concern will be documented and shared with parties involved.

Customer called the CAC with concerns about his 2005 E320.

Customer claims he bought vehicle from an independent dealership that sells "buyback vehicles." Customer claims vehicle is experiencing an SRS light which he believes is the reason vehicle was bought back in the first place.

Writer offered a tow due to the SRS light, customer declined. Writer advised vehicle is out of warranty and post warranty assistance is reviewed on a case by case basis by the dealership management team. Writer advised concern will be documented and shared with the parties involved.

Customer called in on teleaid claiming "SRS light in red" has come on. Writer advised customer to pull off of the roadway and stop vehicle. Writer strongly suggested that call be transferred to roadside department, customer agreed.

Summary Notes

7/20/2005 16:42:55 Mark Sluscavage 6234

██████ declined a tow for an SRS malfunction at this time. Customer claimed she "has to pick up people who are flying in on a private jet, and show them the new condo I just bought. I have OCD and everything MUST be perfect. I will have to pick them up in my new car."

Writer strongly advised customer to have the vehicle towed to the dealer.

Customer claimed she would get back to the condo "and call my friend to see what says I should do."

Writer again advised customer to have the vehicle towed due to a malfunction in the air bag system.

Customer declined tow at this time.

7/20/2005 16:45:20 Mark Sluscavage 6234

Customer claimed she was closest to Pensacola FL dealer.

[REDACTED] called the CAC and stated that while driving her vehicle to Florida the SRS malfunction warning came on. Customer stated when she got to Florida she brought the vehicle to the Fort Pierce dealer who advised her that the SRS system replacement will cost \$1600. Customer stated they advised her that she would have to pay \$800. Customer stated she does not think this is fair for only being 1,000 miles over warranty.

Writer apologized for the inconvenience and advised that the warranty is for 4years or 50,000 miles which ever occurs first. Writer advised that the dealer has offered 50% in goodwill and because the warranty has expired does not have to offer any assistance.

Customer stated, "Then you are telling me there is nothing you can do. I know you could do something, you just don't want to."

Writer advised that he was not telling customer that. Writer advised that if the dealer has made a goodwill offer that comes from the dealer and MB. Writer advised that if the dealer had offered no assistance writer would have advised customer to contact the SM. Writer advised that a goodwill offer has been made.

Customer stated then I'm not going to buy another MB and I'm going to call my dealer in New Hampshire to tell them.

Customer is requesting a buyback, alleging his vehicle has been serviced on six separate occasions for different issues such as, Power surges, Airbag malfunctions, and low gear sticking.

Customer stated that the only issue currently outstanding is a fuel line leak that the dealer has not yet made an attempt to service.

Writer advised customer a warranty does not guarantee the vehicle will not need service but, if and when a problem should arise, the dealer is in the position to address any issues as they already have in this case. Write advised this is indicated by the customer's statement that the fuel leak is currently the only outstanding issue, meaning all other issues have been properly addressed.

Writer apologized for any inconvenience and advised customer his comments will be documented as well as shared with the appropriate parties for review.

Writer advised customer to be in contact with Service Manager as he is the best point of contact regarding the above.

Customer phoned the CAC stating his SRS light in on.

Writer offered and advised tow advising vehicle is unsafe to drive.

Customer declined and is fully aware of why vehicle is unsafe to drive and stated, "Okay so then who's going to give me a loaner car?".

Writer advised MB dealers are independently owned and operated and do employ their own individual alternate transportation policies.

Customer ended the call.

Customer phoned CAC upset about Back -ordered part. Customer claims his vehicle has been at dealer for two weeks and SA advised customer he still has no idea when part will be coming in. Customer requests MBUSA be involved and assist in getting part to him. Customer unable to provide part number or name.

Writer advised customer that writer would contact dealer and have part expedited to him. Writer advised customer to stay in contact with PM. Writer advised customer that comments would be documented.

Writer spoke with Craig from parts department at dealer who advised they have three vehicles at dealer all needing the same parts. Part number is 0015408705 , cables for SRS light being on.

1/12/2006 17:32:28 Paul Harmon 7831

Craig from dealer advised writer that they need 12 of the above mentioned part numbers.

Summary Notes

8/25/2006 16:18:54 Paul Harmon 7831

Customer phoned CAC to express his dissatisfaction with dealer service. Customer claims that SRS light came on so he contacted dealer. Customer claims that SA advised customer that it is not a big dealer and not to worry about it. Customer claims that he phoned RAP and was advised to have vehicle towed to dealer. Customer declined that tow and drove to dealer who advised him that they are too busy to look at vehicle any time soon. Customer now irate claims that SM Judy Sutton was no help at all and that MBUSA needs to do something about this dealer.

Writer apologized and advised customer that dealers are independently owned and operated and responsible for their day to day operations. Writer advised customer that his comments would be documented and shared with appropriate parties at MBUSA.

Customer extremely irate claims that we will hear from his attorney. Customer terminated call.

Customer requesting vehicle replacement.

[REDACTED] phoned CAC to request a replacement vehicle. Customer claims that over the last 8 years he has purchased 6 new MB vehicles. Customer claims that he is a loyal MB driver. Customer claims that his last vehicle the E500 was nothing but a headache and had many transmission issued including being replaced. Customer claims that he took a \$15,000 hit to get into current vehicle. Customer claims that the current CLS500 has been at dealer 4 times for SRS light on. Customer claims that he does not want this vehicle and will leave th brand if MBUSA does not do something to assist him.

Writer advised customer that there concerns would be forwarded on to the appropriate parties for review. Writer advised customer to allow several business days to process the information and that SM at dealer is the point of contact.

email received:

Comments: The subject vehicle (E320, 2005) needs new electrical harness that connects the fuse box to headlights. The old harness has part nbr stamped on it that reads: A211 540 61 32. Local MB shops tell me that that part nbr does not exist! Could you please tell me if this part nbr has been changed to A211 540 62 32 or the MB parts data base is not current. Thank you for your assistance.

writer forwarded info to Darren Suran to confirm.

10/8/2007 09:15:46 Paul Harmon 7831

Email sent:

Dear [REDACTED]:

Thank you for your email.

The "stamped number" that is on the actual part is a casting number, and not the Mercedes-Benz Part number. To ensure that you order the correct part or to verify a part number, please feel free to speak with the parts department at your local authorized Mercedes-Benz dealer.

The opportunity to correspond is appreciated.

Sincerely,

Paul H.
Mercedes-Benz USA

Dear [REDACTED]:

Thank you for your email.

Our day-to-day contact point with you - our customer – is your Mercedes-Benz dealership Service Team which is fully authorized to inspect, diagnose, and perform necessary repairs to your vehicle. It simply isn't possible to assess the symptoms you have described via correspondence or to speculate as to their root cause (or: origin). Please contact the Service Manager at any authorized Mercedes-Benz dealership who is in the best position to address any technical questions you may have.

We solicit your understanding of our limitation in this matter and appreciate the opportunity to correspond.

Sincerely,

Paul H.
Mercedes-Benz USA

5/9/2008 14:43:05 Paul Harmon 7831

Email received:

Thank you for your response. However, the initial problem I am having with MB is not being solved by having a service manager charge me for diagnostic work. Which by the way, is what the service manager (Mike Daniels) suggested when I brought the car in per your reply to my original contact, knowing that the car has a transmission problem.

Along with the 2006 E350 in question, I have a 1998 SL500, and a 2007 S550. I have previously owned MB's. My recent MB purchases were based on the reliability and dependability of your product. As well as the service. I, therefore am at a loss as to the reasoning behind the major breakdown of the 2006. Perhaps this relates to a defect or continuing problem with this model.

The dealer said that I am past the warranty by 15,000 miles, which I understand. What I do not understand is why at 65,000 miles a transmission pump and a torque converter should fail. MB should be able to manufacture these parts with a performance life beyond 65,000 miles....as they were with my other MB's.

I am disappointed with MB Penske's handling of this problem as I have been a customer since 1997 when I purchased my 1998 SL500 from their dealership and my S550 back in 2006.

I was contacted today by my service advisor Eddie A. and told that since they can not find service records for this particular car, they can only assist by providing the labor necessary to replace the transmission as long as I pay for the transmission which costs about \$8,500.00. In reading your service manual and based on my past experience with MB vehicles I understood that almost all MB transmissions go about 100,000 miles before service is needed, so I do not understand what your service advisor was expecting to find in the service record that had much to do with the transmission.

Again I am very disappointed and I think these parts should have a life beyond the warranty period. If MB is only good for 65,000 miles before major breakdowns, then I may have to rethink my vehicle choices in the future.

I would appreciate it if you could be of further assistance to me with this problem.

Thank you.

Writer left VM with SM Mike to request additional information.

Summary Notes

5/12/2008 11:42:01 Paul Harmon 7831

Writer received VM from SM Mike about above. SM advised that he has reviewed this request for PWA. SM advised that dealer made offer to cover 100% labor for either a rebuilt or new transmission. SM confirmed that SPOM Brian Dear is aware and agrees with offer made. SM advised that customer has declined offer and has openly admitted that he purchased vehicle from an auction less then 60 days ago and has no service records for vehicle. SM advised that they found an internal fault with trans which has been confirmed.

[REDACTED] called very upset and stated this was the 3rd time the SRS Light had come on in her vehicle. The writer recommended she should not drive the vehicle and allow Mercedes Benz to tow the car, The customer declined service and stated she will call back in the morning

4/25/2007 16:30:28 Carol Pantua 4635

CR TL Honora D. asked writer to follow-up.

Writer called MB Ft. Lauderdale and was advised that customer does not have an appt with them.

Writer called and spoke with [REDACTED] who advised that there is nothing currently wrong with the vehicle, but she is dissatisfied that she recently picked up her vehicle from dealer after 3rd repair to SRS concerns.

Customer claims that though she loves MB, she has lost faith in this vehicle, and spoke with MB Pompano SM "E Taylor" and Sales Mgr "Marc Klein," who are allegedly "looking at the numbers to get me into another vehicle." Customer alleges that last year, RSPM "Glenn Zitzman" advised SM Ed Taylor that they would "try to fix it one more time and if it happens again, they'll buy back the car. It's that time already."

Writer apologized to customer for her dissatisfaction , advised that her concern would be documented, and advised customer to maintain communication with MB Pompano SM and Sales Mgr. Customer thanked writer for the follow-up and advised that she will do so.

Friend of customer is calling for customer, who is speaking on behalf of customer, due to a language problem. Customer is stating his vehicle has been in the shop four times for the same issue. The SRS light has been on constantly, and the computer shows there is a problem inside the system. Customers friend, Arthur Katz is stating the dealer has changed the cable. Customer states that his front headlights go out and back on while driving. Customer stated the vehicle is in the shop as we speak at Beverly Hills MB. Customer is very unhappy with the vehicle, and wants to go forward with the lemon law. Writer transferred customer to customer relations rep.

Loyalty Survey follow-up:

Customer called writer back and stated this vehicle had about 59,000 miles on it and the SRS restraint light came so when he took it to the dealer they told him there was a broken solder and the repair was around \$600. He spoke to the Srv. Mgr. and told him he thought it was a craftsman issue because the vehicle had never been in an accident or anything. Customer stated he went on the internet and it seems this kind of problem exists with the vehicles and should have been covered by warranty because it's an issue with the MB vehicles. Customer stated he was about to buy a 2010 but is looking into other manufacturers as well. Writer apologized for his dissatisfaction.

Cust. contacted CAC on teleaid today re: check engine light and SRS malfunction light illuminated on vehicle. Cust. declined tow for SRS malfunction and will make arrangements to take the car in to the dealership early next week as it is the Thanksgiving Holiday weekend and he will be away from his home area. Cust. noted that he felt the idle was rough, his definition being it was staying steady at 500 (between 0 and 1). Cust. stated he test drove vehicle and it was not hesitating and was shifting properly. Cust. was advised that check engine light could have been as a result of bad gas, gas cap not being tightened securely enough. Cust. will follow up with his dealer.

Customer phoned CAC claiming that vehicle was involved in an accident and has been at collision center since "mid January". Customer claims that wrong part was ordered to repair seatbelt and is requesting assistance for ordering correct part.

Customer claims that Collision center manager is waiting to speak with PM "George Styles" regarding part.

Writer contacted PM George Styles. George referred writer to contact Dave Romacheck in collision.

Writer contacted Dave (248-644-4410). Dave stated that original part ordered was listed wrong parts catalogue. Dave stated that they had "to take apart entire seat belt to get correct part number". Dave stated correct part has been ordered and is due to leave Germany 3/11 with 10 business day ETA because it is considered "hazardous material" due to explosive devise for SRS.

Writer advised customer of above. Customer became frustrated stating that he just spoke with Dave and did not receive the same information. Customer stated he will call back once he speaks with Dave again.

Customer stated SRS light. Customer claims he is over 300 miles from home and is inquiring about repairs.

Writer advised customer of safety precautions and recommended tow. Writer advised customer that warranty repairs must be made at authorized dealer and roadside can set up tow to nearest dealer under warranty. Writer provided trip interruption information and advised that if repairs are made at independent facility, warranty can be affected and he will not be eligible for reimbursement for charges.

Customer claims he is going to think about it and will call back if further assistance is needed.

Customer phoned CAC claiming that SRS light and check engine light are on. Customer claims that vehicle was at dealer last month for these same issues (Fastraac indicates service only, no history in VMI). Customer claims that he has had "nothing but issues with vehicle" and request that he be put into a new lease with financial assistance through MBUSA.

Writer apologized and advised Customer that best thing to do would be to have vehicle towed to dealer who performed most recent repairs.

Customer claims that he is not in state of California and will have it towed once he returns claiming vehicle is in garage not being used.

Writer advised Customer that his concerns will be updated and shared and suggested that he speak with Sales Manager about possible options for getting into new lease.

2/25/2008 11:00:22 Jennifer Burton 7843

Writer left VM for SM Christopher.

2/26/2008 12:26:31 Jennifer Burton 7843

SM Chris phoned to advise in 1/07 Customer brought vehicle to dealer for SRS light which dealer could not duplicate. Chris advised that dealer performed regular maintenance.

Writer advised of Customer concerns.

Chris stated that he will give Customer a call to let him know that they will be waiting for his call when he returns California to set up service etc.

Customer stated they are so aggravated with this vehicle and the service that they have received from MB Larchmont. Writer explained what the SRS light means and the possibility of the airbags not deploying when needed or deploying when not needed. Customer stated "I will take a knife with me and cut it if it does" she state she will take her chances and wait until her next scheduled service. Writer advised customer of closest dealer, customer stated but they wont give me a loaner , writer advised customer to call dealership and they may not have the same practices as the BMW dealer she continually made references to. Writer also provided customer with the number for customer relations (tier 3) to speak with someone as well. Customer asked writer not to relay any of her comments about her disgust with the dealership because she has to go back to them and she must deal with them for service because she bought the vehicle from them. Writer explained again about the light and customer again declined tow.

Customer called in to express her dissatisfaction with her vehicle. Customer stated she is "NOT HAPPY w/ vehicle" "HAS HAD NOTHING BUT PROBLEMS" "The SRS lights are always on" " "It has defective wheels" "It has defective brakes" " has been in dealer alot" "Transmission problems" states the customers. Writer tried to g customer to expand on these problems stated. Writer asked customer what does she mean by "Defective wheels" customer stated as she was driving the wheel "Blew up" customer stated she called AAA to assist her. Writer asked customer about transmission problems, customer stated she doesn't know she is not a mechanic, write asked customer if there is anything she notices when she is driving, customer stated when she pushes on brake she "feels something." Writer asked customer if vehicle is at dealer now, customer states vehicle has beer there since Thursday 7/6/06 , customer states it is at dealer for SRS lights, which keep going on. Customer state when vehicle went to dealer on Thursday, she was told she will be called the next day, customer did not receive phone call. Writer asked customer if she called dealer to get status of vehicle customer stated "No, I am very busy." At this point writer apologized to customer for her incontinences. Writer explained to customer this is not the MB experience we wish her to have. Writer told customer her to speak to Service Manager at dealer, not Service Advisor, about all issue. Writer told customer her comment will be documented and forwarded to a Tean Leader. Customer stated she "DOES NOT WANT THIS VEHICLE."

7/10/2006 14:58:56 Kathleen Durning 4633

since vehicle is already at the dealership - sending this info as an FYI - customer is very dissatisfied with vehicle performance and warranty repairs to date

Primary Phone: [REDACTED]
 [REDACTED] Girlfriend
 Current Mileage: 1787
 Dealer(s) involved: MB of Orland park

Situation: [REDACTED] phoned CAC for her Boyfriend [REDACTED] who is the owner. [REDACTED] stated [REDACTED] took vehicle in the dealer for electrical issues, such as back windows not working and ignition issue. [REDACTED] stated the dealer stated to customer the floor boards were wet due to the vehicle being in a flood. [REDACTED] stated the vehicle was NOT in a flood and the dealer is "LIEING." [REDACTED] insists on having somebody come out to inspect vehicle and demands MB take care of this issue. Writer apologized and stated these comments will be documented and forward onto a specialist for further review. [REDACTED] stated th is not good enough and wants to speak to a manager. Writer stated this is the best course of action for the situation and reiterated [REDACTED] will get a callback.

Action Taken: Writer documented comments and stated a specialist will look into this further and call customer back.

10/16/2008 13:54:15 Christina Lignos 7830

Call back Date: 10/16/2008 time: 18:30:00

10/16/2008 14:19:48 Christina Lignos 7830

[REDACTED] phoned back and stated the electrical issue were SRS light, rear window and front passenger seat.

November 19, 2008

[REDACTED]
[REDACTED]
[REDACTED]
Encino, CA [REDACTED]

Subject: Model: 2005 E320W
Serial No: WDBUF65J65A [REDACTED]

Dear [REDACTED]:

Thank you for your recent letter.

Upon receipt we contacted Donald Dorion, Service Manager with Mercedes-Benz of Encino who confirmed the vehicle's computer did not reflect an issue with the Safety Restraint System (SRS). Mr. Dorion also advised that there would not be an offer of Post Warranty Assistance at this time.

If you have any further questions, Mr. Dorion invites you to call him directly at 818-788-0234.

[REDACTED], we also believe that the facts and circumstances support our response as a reasonable one.

Sincerely,

Annie L.

Primary Phone: [REDACTED]
 Current Mileage: 63971
 Dealer(s) involved: 05179

Situation: [REDACTED] called in stating that his daughter is the driver of this 05 E320 which has had several problem with the electrical system. Cust claims that this vehicle has been back to MB of Calabasas 6-7x for this and hasr been resolved. Cust claims that he has gone to Dlr. requesting to speak with owner and hasn't been allowed to c so.

On Sat. Aug. 10, [REDACTED] son in law was involved in a accident where a truck in front of him slammed on the brakes and he slammed in to the rear of the truck. Cust claims that the airbags didn't deploy and the seat belt didn't lock up. [REDACTED] believed that this is due to the electrical issues with car. Cust stated that car was drivabl and needs to be fixed and wants MB to take car back for another car after car has been repaired.

Action Taken: Writer advised that this will be documented and forwarded to a CM for review and he will receive a call back.

8/10/2009 17:23:08 Rosemary Robinson 7809

[REDACTED] contacted writer and stated his Son in law was driving this vehicle , the vehicle was in accident.. where the back of a Semi/tractor trailer was hit, and the airbags did not deploy.

The son in-law on the way to the Hospital because [REDACTED] grandson was in a bicycle/BMX racing accident and was air lifted to the hospital.

[REDACTED] then stated that in the past the vehicle has had so many electrical problems ,and he believes that the accident could have contributed to the airbags not deploying.

The Son in law continued to drive the vehicle to the Hospital, and then after to a friends home.

[REDACTED] expressed that he does not want his daughter in the vehicle any more and would like MBUSA to assist.

Writer apologized and accident, and that MBUSA would be happy to assist. Writer requested personal insurance a police report, photos and [REDACTED] was not prepared for this he s stated " I just want Mercedes to put my daughter in safe car".

[REDACTED] did not have all of the specifics and expressed that he, may have to call his attorney. Writer apologized that he felt that way. Although writer provided MBUSA address: 3 Mb drive Montvale NJ

Writer advised that at this juncture , MBUSA would recommend to have the vehicle brought into a Authorized Mb dealership, or Body shop to have the vehicle reviewed, to determine non deployment of the air bags in order to assess the vehicle.

8/10/2009 17:25:20 Rosemary Robinson 7809

[REDACTED] expressed " Im not sure what to do., I may call back."

Writer will send this sum note to the dealership, SPOM, and product compliance for review, just incase Mr. Falks calls back.

8/10/2009 17:26:03 Rosemary Robinson 7809

10/21/2009 12:49:11 Jennifer Burton 7843

Writer spoke with [REDACTED]. Customer stated that he appreciates Writer calling again however he "just does not care anymore and will never buy another MB again". Customer stated that he drives "5 hours to Dallas so that he can be provided with loaner". Customer voiced dissatisfaction with after market ELW company stating that they require payment up front.

Writer apologized. Writer advised customer that dealers are independently owned and operated and responsible for setting their own loaner policies. Writer advised customer that MBUSA is unable to get involved with after market ELW's as they are through different companies not affiliated with MBUSA. Writer empathized.

Writer inquire if SRS, SOS and other mentioned issues are still remaining.

Customer stated yes.

Writer advised customer of safety concerns regarding SRS light on and recommended tow. Customer declined.

Customer stated that he "just doesn't care and does not want Writer/MBUSA to do anything".

Writer inquire how Writer can assist, how MBUSA can assist.

Customer stated nothing. Customer thanked Writer for calling and stated that he does not want MBUSA to assist and that he is certain that he will not purchase another Mercedes.

Writer assured Customer that his dissatisfaction and comments will be documented and shared.

11/10/2009 12:01:24 Paula Brown 4680

██████████ called stating someone was to call her back regarding PWA - SRS light on. She has been waiting since Friday and would like to speak with someone.

Writer warm transferred customer to Romy CM for further assistance.

11/10/2009 12:01:36 Paula Brown 4680

Transfer

11/10/2009 12:23:43 Romy Parekh 7832

Writer received warm transfer from above Customer Care Rep. - Paula.

11/10/2009 12:34:49 Romy Parekh 7832

Customer reiterated concerns, claiming "I know this vehicle is outside of factory warranty since September but it's just over 17,000 miles. Can Mercedes extend any assistance towards repair?"

Writer apologized for customer's experiences, thanked customer for patience [since call last week wasn't forwarded] - customer understood and appreciated any assistance.

Writer confirmed NVLW terms [4yrs/50K miles; whichever comes first] has expired since 9/27/09. Also, assuring customer there are no active campaign(s), nor any issued, regarding this matter. Writer inquired if dealership had had opportunity to make an assessment on vehicle yet.

Customer claimed, "I called Euro Motorcars my selling / servicing dealer and they told me I would be charged and I hope it isn't too expensive? What can Mercedes do to help because I wouldn't think a SRS system malfunction would occur this early?"

Writer advised customer that Post-Warranty Assistance is reviewed on a case-by-case basis by Dealership Management and MBUSA has trust in dealer to determine consideration based on vehicle terms, dealership relation, etc.

Writer assured customer her comments will be noted, moreover writer will relay PWA request to SrVM for possible consideration to SrVM however unable to guarantee any consideration can be given - customer understood.

Both parties thanked one another and disconnected call.

11/10/2009 12:38:41 Romy Parekh 7832

Writer contacted Euro Motorcars in Bethesda, MD and spoke with SrVM - Jim M. regarding the above 'PWA request'.

SrVM agreed with writer, dealership unable to make assessment until diagnosis performed at an MB Center and suggested customer contact their Service Center to make appointment arrangements as needed.

SrVM acknowledged ██████████ being original owner(s), as well as, service history at their facility however will review further upon vehicle diagnosis.

Writer noted accordingly.

11/10/2009 12:43:48 Romy Parekh 7832

Writer contacted ██████████ on ██████████ to relay above conversation writer had with SrVM - Jim [agreed to review further upon vehicle assessment].

Customer understands, claiming "I know I have to get the car there first for them to see what's wrong, I will give them a call and make arrangements. Thanks for your assistance."

Both parties thanked one another and disconnected call.

11/10/2009 12:44:25 Romy Parekh 7832

 Comments:
 We have had three Mercedes. Right now we have a 2006 E350. It has been in for service 3 times in the last two weeks, since Nov. 5. Twice, the check engine light came on the next day after servicing. It is currently at the Walnut Creek dealership. In October we needed a brake job and also found out that there was no fluid in one ball joint and it had to be replaced. There were also issues with the fan belt and pullies were replaced. Previously we had a C240 and experienced none of these problems. Do we have a lemon? My husband has missed several hours of work in order to get the car in and pick it up. We have another year and a half on the lease and we are currently questioning if we will consider another Mercedes in the future.

 Customer sent the following email to the CAC
 Vehicle Information:
 VIN: WDBUF65J15A [REDACTED]

Comments:

I am the proud owner of a 2005 E320, however, I now have a problem. This model has had an issue with the wiring harness for the SRS since its inception. Mercedes-Benz is aware of this problem, as referenced in DTB P-B-91.60/99e JAN06. Considering the date of the DTB, MB has obviously made numerous repairs to vehicles under warranty. My problem arises because at 68500 miles and 5 years, my car is clearly out of standard warranty, and just experienced this problem. Considering this is a safety issue, that MB is obviously aware of, and is far beyond the control or prevention of an owner, I feel there should be a good faith effort to repair the problem. My reasons for purchasing the car in the first place is MB's reputation for safety, reliability and longevity, and this clearly comes into question with this problem. Westminster MB in Colorado quoted me a price of over \$600.00 to repair the issue, with no discount because of a known safety issue. I await someone's response.

Writer contacted customer and apologized for phone tag and email tag.

Writer let customer know that she was in receipt of his email regarding the wiring harness concern

Writer let customer know that currently the vehicle didn't have any outstanding service campaigns or recalls

Customer alleges that MB has known about this concern since January of 2006 referring to a dealer technical bulletin and that he feels it must be a "design flaw" and MB should take care of this in good faith.

Customer claims that he knows MB would take care of it if he purchased the vehicle as a CPO but since he bought it from an independent he feels as if he's out of luck.

Writer reviewed with customer that a dealer tech bulleting was a set of instructions for technicians

Writer advised she is unable to cover the repair.

Customer was dissatisfied with the response requesting to speak with someone else

Writer advised that there wasn't a further escalation process and she reported to the CEO

Customer advised he would be going to the FED's and ended the call

Jeff,
 Here are the photos I told you I'd send. The car has been brought over to the RBM of Atlanta/Roswell today as I understand it. The engine is making a lot of noise and there is an apparent oil leak that occurs only when the engine is running. As I mentioned during our conversation, my main concern is the safety of this vehicle and the restraint system malfunction light occurring at the time of the accident. I do not want my family in a car with an inoperable safety airbag system. Certainly unsure whether or not it would have made a difference whether the airbag would have helped , but my wife has been diagnosed with a detached retina as a result of her head striking the steering wheel. This may require surgery to repair. She can mostly see out the eye still, but has significant problems doing so. The doctor hopes it reattaches itself over the next 6 weeks, but isn't sure if that will happen. We are still waiting for the catscan results to see what else may be going on due to the head blow. So we are bringing this safety issue up for good reason.

Please call me if you need the number to the collision repair company dealing with the body work.

Thanks.

No Escalation Required Comments:

To whom it may concern, I had dropped off my car on Dec. 26,2008 at Laguna Niguel Mercedes Benz for a service appoinment. The reason for the service, I was hearing a creaking noise coming from the center console this noise appeared after my car was serviced by the same dealer for a SRS light that came ON. Upon dropping off the car for service that day I had two other things that I mentioned to the service advisor about, one of which was suspension noise that I heard coming from driver side when driving over speed bumps, and the other to rota my tires. To make a long story short, my car was kept for a week,I had to cancel my family vacation. I got the car back without the creaking noise being fixed and the tires were not rotated, to make matters worse there is a paint chip and scratch on the front hood and the front rim where the noise was coming from has a curb rash. I called and left a message for Richard Yule and I have not heard back from him. This has been a horrible experience

Writer received a call from SM who advised he did not receive a message from customer. SM stated if customer has outstanding concerns she is welcome to contact them to set up a service appointment so they can be addressed.

Dear [REDACTED],

Thank you for your e-mail.

We regret the circumstances that prompted you to contact us. Please be assured that your comments have been shared appropriately.

Upon receipt, we contacted Richard Uhl, Service Manager, at Mercedes-Benz of Laguna Niguel to make him aware of your outstanding concerns. Mr. Uhl advised that he did not receive a message from you regarding this matter. However, he invited you to contact their Service Department at (949) 347-3700 to schedule a time that is convenient for you to have the vehicle concerns addressed at their facility.

[REDACTED], we appreciate the opportunity to respond and extend our best wishes to you for future safe and pleasant driving.

Sincerely,

Jessica R.

Customer phoned CAC stating dissatisfaction with vehicle's safety.

Customer claims she witnessed her vehicle be hit by another vehicle. Customer claims that the airbags did not deploy and that glass was shattered everywhere in which she believe the glass would be "shatter proof."

Customer stated "My confidence in the vehicle is shaken." Customer claims she is a loyal customer in which she requested to be taken out of her lease. Upon requesting this, customer requested time for review due to "holding a 2007 vehicle to be traded into. Customer added that she wished to be compensated with a loaner for the downtime of the vehicle.

Writer apologized for customer's experience and advised customer that the airbags would not deploy in the vehicle if no one was in the vehicle. Writer added that though the glass in the vehicle is not regular glass, it is no entirely "shatter proof."

Writer advised customer to speak with SM at dealership as he is in the best position to review her concerns about receiving a loaner vehicle. Writer advised her concerns would be documented and shared.

9/10/2007 10:34:46 Stephen Quinones 6261

Writer phoned SPOM Mike Willard in regards to above.

SPOM advised that referral would not be needed in which she was not entitled to a buyback for her vehicle. SPOM advised that this issue involves outside influences in which the vehicle acted as designed. SPOM advised customer speak with SM for any form of compensation regarding a loaner vehicle or for any consideration in regards to a trade in.

9/10/2007 10:40:28 Stephen Quinones 6261

Writer left VM with customer to inform of above.

9/10/2007 12:53:03 Robyn Letz 6209

CORR # 332566 customer sent letter about her concerns as discussed above. Writer called Gary Bowne, left message asking for his additional guidance in these circumstances.

Issue

9/10/2007 15:29:53 Stephen Quinones 6261

Customer called back in regards to above.

Writer advised her a position has been made in which she will not be taken out of her lease. Writer advised that any consideration for an upgrade could be discussed with the dealership.

9/10/2007 15:40:37 Robyn Letz 6209

From Gary Bowne:
Hi Robyn,

Airbags will only deploy if the ignition is on- they will not deploy in parked car. As for the glass "shattering", we would need to see photos of vehicle damage to comment.

9/10/2007 16:21:42 Robyn Letz 6209

From SPOM:
Robyn,

I told Chris to contact. We will not take her out of the vehicle.

Thanks,

Michael P. Willard
Service and Parts Operation Mgr

Summary Notes

2/10/2010 16:45:45 Stephen Quinones 6261

What did the customer say?

██████████ phoned the CAC requesting PWA towards a repair needed for the "Airbag Harness" on his vehic

Customer alleges since purchasing his vehicle he has had an intermittent issue with an "SRS light coming on every 3-4 months." Customer claims recently it came on and has stayed solid, in which he brought it into Hoehn Motors for inspection 2 weeks ago. Customer alleges his SvcA Rick advised him his vehicle was outside of warranty and his 3rd party extended warranty would not cover the repair for the "harness of his airbag being that emits too much pressure." Customer was quoted price of \$680 to repair.

Customer believes this is a "safety related issue" and feels MB should contribute towards the repair. Vehicle is currently at customer's home and he has not spoken to SvcMgr.

What was your response?

Writer apologized for customer's concerns and clarified there are no outstanding recalls on the vehicle in this regard. Writer additionally clarified that outside the terms of the NVLW (4yrs/50k) any repair costs incurred would normally be at the owner's expense. Writer advised his request would be forwarded to a CM for further review in which writer advised no guarantee could be made regarding the possibility of assistance being given.

What commitment(s) did you make to the customer (including timeframe)? Writer advised of CLB within 24-48hrs due weather.

Customer's preferred callback date/time (by Time Zone):
24-48 hrs.

Customer's preferred callback number:

Call back Date: 02/10/2010 time: 5:30 PM PST

2/11/2010 16:27:30 Justin Haase 6302

Writer received escalated call from above customer care rep.

Writer phoned dealer 05749 and left a detailed VM for callback with SrvM Dave C.

2/11/2010 16:30:55 Justin Haase 6302

Writer phoned customer ██████████ on ██████████ as requested and left a VM for callback with appropriate contact information and hours of operation.

2/11/2010 16:31:43 Justin Haase 6302

Additional call required Date: 02/12/2010 time: 4:00 PM EST 7605784417

Summary Notes

2/12/2010 16:01:16 Justin Haase 6302

Writer phoned customer [REDACTED] on [REDACTED] as requested.

Customer re-iterated his concerns as noted above. Customer advised that he is less than two months out of the warranty terms and the vehicle has less than 50k miles. Customer advised that he did purchase an after-market warranty that is not covering the repair.

Writer apologized for customers concerns and advised that I would review them further with the dealership.

Writer advised that customer would receive a follow-up call from either writer or the dealership subsequent to review.

Customer was appreciative.

Customer is the original owner of the vehicle, it is less than two months outside of warranty, and customer claims that he services only with dealer 05746.

Writer will phone AOM Brian to advise of above and request approval for 100% goodwill coverage on repairs. Offer needs AOM approval as customer currently has an after-market warranty.

Writer had also received follow-up VM from SrvD Dave C who advised that the repairs are roughly \$640.

Writer left a follow-up VM for SrvD.

2/12/2010 16:14:09 Justin Haase 6302

Writer sent a detailed email to AOM Brian and SrvD Dave requesting that repairs be put through for 100% goodwill coverage. Writer also requested dealer contact to customer as writer will be out of the office until 2/22.

2/12/2010 16:14:41 Justin Haase 6302

Self reminder Date: 02/22/2010 time: 4:45 PM EST

2/22/2010 16:45:13 Justin Haase 6302

Writer phoned SrvM Dave as well as AOM Brian and left two VMs for callback.

Writer also sent corresponding emails to AOM and SrvM to confirm that customer has been taken care of.

2/22/2010 16:46:42 Justin Haase 6302

Additional call required Date: 02/23/2010 time: 3:30 PM EST

2/23/2010 09:22:25 Justin Haase 6302

Writer received follow-up email from SrvD Dave C advising that customer will be in the dealership this week and the new airbag harness will be installed at no cost to him.

Writer will follow-up with customer at the end of the week to close notes.

2/23/2010 09:24:28 Justin Haase 6302

Additional call required Date: 02/26/2010 time: 10:00 AM EST

3/2/2010 12:48:33 Justin Haase 6302

Writer phoned customer [REDACTED] on [REDACTED] as follow-up.

Customer advised he was VERY pleased with the assistance he received and expressed satisfaction with MBUS and the dealership.

Summary Notes

4/8/2010 21:13:05 Robert Nevola 6234

What did the customer say?

██████████ called stating he had an experience with the SVC Mngr at his local MB dealer (MB of Freehold) that left him very upset. ██████████ stated he purchased a 2006 E350 from this dealer and the SRS light was on & had to be fixed before delivering it to ██████████. ██████████ stated a while later the SRS light came back on and Mr ██████████ set up an appointment to look at it. ██████████ stated he was told the repairs were covered under warranty. ██████████ stated after diagnosing the issue the SVC Mngr came out and to tell ██████████ the repairs were not covered under warranty and the ██████████ would be responsible for the repair costs. ██████████ then stated the SVC Mngr was aggressive, gave the ██████████ "a hard time" & was an "asshole". ██████████ stated he left with the veh. ██████████ stated the SRS light is still on and it was never explained to him what the light means.

██████████ state he was actually going to buy a new veh from dealer and they talked him into this pre-owned vel. Mr. Baldino stated he paid cash for the veh. ██████████ stated he is going to give this veh to his daughter and buy a new MB veh. ██████████ stated he has all the SVC done at an MB dealer.

██████████ stated that because of his experience he will not return to the dealer. ██████████ was not clear on what the SVC Mngr actually said or did.

What was your response?

Writer confirmed & updated customers' data.

Writer apologized for this inconvenience and the aggravation. Writer advised ██████████ what the SRS light means and that the ██████████ may be driving in a veh with a compromised restraint system. Write advised Mr. ██████████ to have veh brought to a MB dealer for inspection & SVC ASAP.

Writer advised ██████████ that his complaint will be forwarded to the dealer

Writer conferred with Paul H & Steve Q. Paul & Steve advised writer to escalate this beyond an FYI to a call back to find out what happened.

What commitment(s) did you make to the customer (including timeframe)? N/A

4/9/2010 15:39:50 Diana Sanchez 7834

Writer spoke with ██████████. He advised the information documented above is accurate. he states he does not know what caused the light to come on, what needs to be repaired, and why it is not under warranty. He states he has been a Mercedes owner for years and always services at MB dealers. Customer claims the repair performed before vehicle was purchased related to the SRS light as well and he feels whatever the dealer did to turn the light off did not work. Customer purchased vehicle on 01/04/2010. VIM shows last warranty claim on 10/21/2009 (jumpstart).

4/9/2010 15:40:12 Diana Sanchez 7834

5/5/2010 13:05:57 Timothy Ucker 7810

As follow up for Diana, writer called [REDACTED] at [REDACTED] cell who advised issue remains outstanding and he was waiting on MBUSA to proceed with repair. Writer advised writer will inquire with SrvM who is the appropriate contact regarding above. Writer advised an inquiry will be made and customer will be contacted as soon as additional information is available in this regard.

5/5/2010 13:06:08 Timothy Ucker 7810

Self reminder Date: 05/05/2010 time: 1:45 PM EST

5/5/2010 13:30:39 Timothy Ucker 7810

Writer left third message for SrvM Terry explaining above and requesting call back.

5/5/2010 14:44:38 Timothy Ucker 7810

Sent separate email to AOM requesting assistance in reaching SrvM Terry.

5/5/2010 15:14:39 Timothy Ucker 7810

AOM advised he has contacted the dealer and requested CAC contact

5/5/2010 16:54:43 Timothy Ucker 7810

SrvM left VM writer could not totally understand but did state customer was rude and no assistance will be provided because the vehicle was sold as non-CPO having no warranty. SrvM advised AOM has reviewed and supports dealer position.

5/5/2010 16:54:55 Timothy Ucker 7810

Transfer

5/5/2010 17:02:51 Diana Sanchez 7834

Terry called writer and informed that he was never rude to the customer and , on the contrary, it was the customer who used foul language in the service floor when he was advised no PWA would be provided. Terry advised that customer actually called to apologize.

Terry informed that this occurred because there is a note in the dealer's system that states not to provide good w to the customer due to a past incident where dealer's GM agreed to split a repair with him, but the customer left without paying anything.

When the customer brought it for this issue the SrvM informed customer would have to pay and customer reportedly became irate.

He called Terry to apologize and they made an appointment. Dealer provided a loaner and did not charge for diagnosis.

The SRS light is on due to a harness that needs to be replaced. No goodwill to be provided, information was reviewed with AOM.

Writer spoke with Paul Cortez (TS) who said he spoke with the customer and he alleges someone from MBUSA told him to tow the vehicle to the dealer. Writer informed Paul the no one from the CAC has been involved with th customer case or spoken with him.

Paul believes, due to a language barrier the customer was misinformed of just misunderstood the process. Paul; said he will discuss this matter with the spom.

Summary Notes

6/3/2009 12:39:32 Frank Obregon 6353

Writer informed Customer Care Mgr Randy B. as to Mr. Lei calling in regarding noted issues. Owner is inquiring that he was told that vehicle is ready for pickup and is questioning as to towing/storage fees pending the car's release. Owner alleges that he was instructed by MB during the accident that the vehicle should be towed to a MB dlr for inspection. Owner feels that based on (alleged) MB's instructions, MB should be liable for the storage/towing expense.

Writer informed Mr. Lei that Customer Care Mgr Randy B. will be calling him back as soon as he gets an updated status from MB's regional office.

Mr. Lei would like a call back on his cellular - 832.878.8885.

6/3/2009 18:11:25 Randall Bibber 4647

Writer spoke with the customer regarding referral #-211823, and he claims that some from MBUSA advised his to tow his vehicle to the dealers body shop to have his vehicle repaired. The customer alleges he received a tow bill and feels he should not be responsible for the charges.

The writer advised he would like to review this matter with the dealer and call him back.

6/3/2009 18:17:03 Randall Bibber 4647

While writer was documenting the above notes he received a call from Lindsey (CM) who said [REDACTED] was on the phone and said he was scheduler a call back for 5:45.

writer spoke with the customer via a conference and explained his concerns were being reviewed. writer apologized for the miscommunication and said we will be in contact.

6/4/2009 18:05:44 Randall Bibber 4647

the customer is requesting MBUSA absorb the cost of the tow to the body shop along with the storage fees. The writer review this matter with the appropriate parties and was advised the customer requested Technical Assistance at his discretion and therefore MBUSA is not held accountable for any charges.

The writer spoke with Ms. Timmons (Assistant) and advised of the determination made and suggested she speak with the body shop for they should of advised of the storage fee and also. The writer informed the customer to call her clients insurance company to see if they would be willing to absorb a portion of the charges.

Ms. Timmons said she will speak with her client and call the body shop.

--Customer re-contacting the CAC immediately requesting to speak with S. Cunningham. Rep. currently unavailable and per. customer's request sent customer to her voice-mail.

6/9/2009 21:42:55 Susan Cunningham 7815

Writer and customer have been leaving return call messages.

6/10/2009 14:45:19 Susan Cunningham 7815

Writer spoke to nice gentleman, [REDACTED]. He claims he cannot accept the position stated in the letter response from MBUSA regarding the non-deployment of the airbags during his accident.

He claims he is still going for neck therapy and was "almost killed" in the accident.

He claims no one could believe that the airbags did not deploy and there must have been a defect. He claims that other vehicle airbags deployed.

Writer apologized for his disappointment but reiterated that the system was fully inspected and no defect found. SRS operated as designed.

[REDACTED] claims he has incurred \$2100 in storage charges at the body shop and requested MB assist with the charges.

Writer replied that that is simply not possible as there were no malfunctions in the system, and suggested he contact his insurance company.

[REDACTED] claims he and his family put their trust and money in MB and also in China, but now will have to rethink their loyalty.

[REDACTED] stated he may pursue a claim with NHTSA.

Writer again apologized for his disappointment in this matter.

Primary Phone: [REDACTED]
 Current Mileage: 58045
 Dealer(s) involved: 05646

Situation: Caller stated she is an attorney for veh owner John Walls. Caller stated John took veh to dlr 05646 and it was diagnosed as needing repair to hydraulic suspension and is being asked to pay \$2000 for the repair. Caller stated John's SrvA is Sayde Lytton. Caller stated that John advised that he complained about the suspension 3 times while under warranty ... 04/2009, 11/2008 and 12/2006.

Action Taken: Writer stated that veh appears to be under an ELW and asked caller if anyone at dlr advised John why the repair is not covered under warranty. Caller stated that John was told the problem isn't covered because veh has a bent rim. Writer advised caller that any problems which are caused by an outside influence are not covered under warranty. Caller stated that John contends that the rim became bent because of the defective hydraulic suspension. Writer advised caller that these concerns would be documented and forwarded to a CM for a call back. Cust did not specify a time.

8/19/2009 16:54:47 Kathy Eilenberg 4623

Call back Date: 08/19/2009 time: 6:00 PM EST

8/19/2009 18:38:20 Michael Kirchner 6334

Summary Notes

8/19/2009 18:57:01 Jennifer Kapr 4616

Writer received above transfer and spoke with vehicle owner, Mr. John Walls. Cust reiterated complaint and maintains that he brought vehicle to dlr several times for complaint previously and dlr was unable to fix. Cust maintains that when he brought the vehicle to an ISP he was told that there was a concern that should be corrected. Cust stated now the vehicle is in the dlr and he is being told that work needs to be done for \$2,000. Cust stated that he is being told that it is not under warranty as he "hit a pot hole".

Writer advised that the dlr would be contacted on cust's behalf to determine what is occurring and cust would be contacted back accordingly.

Writer left VM for Assistant SvcM, Allien, requesting call back.

8/19/2009 18:57:06 Jennifer Kapr 4616

Self reminder Date: 08/19/2009 time: 7:30 PM EST

8/19/2009 19:39:40 Jennifer Kapr 4616

Writer spoke with Assistance SvcM, Allien, who advised that after speaking with both shop foreman it has been determined that the current suspension concern was caused by outside influence in the form of impact. as such the replacement of the left torque strut, control arm, and front strut would not be covered. Allien additionally advised that the vehicle has previously been in the dlr in October of 07 for a check engine light, November of 07 for an ESP control and CD player concern, in Dec 08 for an electrical concern, in April of 08 for sign and drive, ar March of 08 for an SRS light to be cleared after body work was performed. Allien stated that there is no record to reflect vehicle being brought in previously for suspension.

Writer attempted to phone Mr. Walls back on 323 317 1231 and 323 833 9451, per request, and left VM accordingly.

8/19/2009 19:40:04 Jennifer Kapr 4616

Additional call required Date: 08/20/2009 time: 8:00 AM EST

8/20/2009 16:13:00 Jennifer Kapr 4616

Writer received VM from cust indicating that he feels as though the repair should be covered. Cust indicated that he could provide records of having the vehicle in for suspension concerns.

Writer attempted once more to get in touch with cust and left an additional VM advising that regardless of past repairs, the current defect was found to be due to impact damage, which is a non-warrantable outside influence.

8/21/2009 18:14:14 Jennifer Kapr 4616

Cust contacted writer to advise that he would fax his documents about alleged previous suspension, in particular strut, concerns he has had. Cust feels that the dlr's claim that the current concern is due to an outside influence is false as he has previous documentation about the same concern from 2007 and 2008. Cust is requesting that fax be reviewed by writer's management.

When fax comes in please assign to an ECM.

What did the customer say? [REDACTED], alleges that 14 months ago he took his vehicle in for repair to Keyes European for the SRS light that kept appearing. Customer stated that the same light has reappeared and he knows its a safety concern and his children to ride in the vehicle so he took it back to Keys and they have advised him that it will cost him \$1000 to repair it again.

Customer feels that he should not have to keep bring the vehicle back for the same reason every year. He wants it repair correctly.

What was your response? Writer advised customer that his concerns and issues will be documented for a call back from a case manager.

What commitment(s) did you make to the customer (including timeframe)?

Customer's preferred callback date/time (by time zone):

Summary Notes

5/25/2010 14:17:07 Sonia Weaver 4675

What did the customer say? [REDACTED] called on behalf of his partner Mike Mcclung the owner of the vehicle. Mr. [REDACTED] alleges that the vehicle was rear ended last Saturday and they had the vehicle towed to MB of Memphis first. [REDACTED] alleges that the SRS light has come on after the accident. Customer stated that the dealership took a look at the vehicle and his service advisor Wes explained to him that it will cost \$800.00 to repair.

[REDACTED] stated that back in Dec of 2009 or Jan, 2010 he does not remember they took the vehicle in for the SRS light coming on. Customers main concern is why is the light coming on again. He does not feel that he should be responsible for the repairs. Customer is alleging that maybe the dealership did not correct the issue with the SRS light. He also mention that he is aware of the service bulletin for all model E Class for the SRS light.

[REDACTED] is requesting that MBUSA take care of the SRS light and no charge to him since its also a safety issue.

What was your response?

Writer questioned customer had he brought to the service mangers attention. He replied "that he was awaiting a call back from the svc manager".

Writer advised him that we would document customer concerns and issues. Explained that a case manager will contact him within 24 hrs.

What commitment(s) did you make to the customer (including timeframe)?

Customer's preferred callback date/time (by Time Zone):

Customer's preferred callback number:

5/25/2010 14:18:36 Sonia Weaver 4675

Call back Date: 05/25/2010 time: 3:00 PM CST

5/26/2010 16:04:23 Ray Daniels 7824

Writer spoke with Mr. Mcclung on 9014874097 (the only number on file) and he reiterated his concerns.

Additional the customer stated "I spoke with the SM Wes who said that they had about 3 or 4 cars that came in with SRS light issues on yesterday. I would think that there is something that could be done to help me with this. Not to mention, I was having problems with the light before the accident."

Writer advised the customer that writer would be more than happy to look into his concerns and follow up with him but, made no guarantees that his request would be honored. As writer made sure he had a clear understanding that damages caused by an outside influence/a result of an accident would not be given any assistance.

5/26/2010 16:04:35 Ray Daniels 7824

Self reminder Date: 05/27/2010 time: 10:00 AM EST

5/27/2010 12:22:57 Ray Daniels 7824

Writer contacted the dealership and spoke with the SM Wes who stated "I will look into this and follow up with you."

5/27/2010 18:58:51 Ray Daniels 7824

Self reminder Date: 05/28/2010 time: 10:00 AM EST

5/28/2010 18:26:59 Ray Daniels 7824

Self reminder Date: 06/01/2010 time: 10:00 AM EST

6/1/2010 17:46:49 Ray Daniels 7824

Writer contacted the dealership and spoke with the SM Wes B. who stated "I had the opportunity to review the customers concerns and the vehicle was diagnosed in January but, the customer declined the repairs. The customer recently came in to have the car repaired and paid \$633. I am unable to honor his request for any compensation as the vehicles service history doesn't reflect any past complaints/concerns with the SRS light. Additionally, the customer isn't the original owner."

Summary Notes

6/2/2010 14:01:32 Ray Daniels 7824

Writer spoke with [REDACTED] in regard to the above and explained that the dealer isn't able to honor his request for reimbursement and that MBUSA would uphold their position. As per the above.

The customer then stated "I only chose to seek reimbursement because the SA Wes told me that there was a well known issue. I just don't understand why he would tell me that and I don't think I should have to pay."

In that regard, writer explained that this is not a common concern and apologized on behalf of the dealership. The customer stated "I appreciate you following up with me but, I will be going to small claims court." he then hung up

Primary Phone: [REDACTED]
Current Mileage: 21451
Dealer(s) involved: 22415

Situation: [REDACTED] called stating he wanted to file a complaint regarding his vehicle.

[REDACTED] claims shortly after purchasing the vehicle he received a SRS malfunction message. Customer stated he took the vehicle into Knauz dealership where he stated they fixed the problem under his starmark warranty.

[REDACTED] claims he has had his vehicle in the dealership 4 times for the SRS malfunction and currently has an appointment for his 5th appointment on Monday 7/28/08. [REDACTED] claims he contacted the SM at the dealership Phil Harris and advised him of the situation and stated he will be seeing Phil Harris directly on Monday for his appointment.

[REDACTED] stated though he feels Knauz does a good job servicing his vehicle he feels they are unable to fix the problem with his SRS malfunction and is concerned with driving a vehicle that has airbags that are unreliable

[REDACTED] stating "this is my first Mercedes Benz, and may be my last if this problem is not fixed this time".

[REDACTED] feels Mercedes Benz may need to send their own tech out to assist the dealership in determining the problem.

[REDACTED] also wanted it noted each time he has received a loaner vehicle while his vehicle was in service, but was not given a Mercedes Benz. [REDACTED] stated it is embarrassing to pick up his clients in the vehicles MB provides through enterprise.

Action Taken: Writer apologized to customer for his inconveniences. Writer advised customer each dealership is independently owned and operated and determines their own loaner vehicle program. Writer advised customer his remaining concerns would be documented and forwarded to tier 3 for further review.

7/24/2008 17:06:50 Rebecca Rovegno 6274

Call back Date: 07/25/2008 time: 09:00:00

7/25/2008 10:07:08 Tom Burns 6306

Writer called SrvM Phil Harris to inquire about status of customer's concerns. Phil advised that customer will be in on Monday. Phil advised that if it is a simple issue they will take care of it. Phil advised if they need assistance he can contact TAC. Phil stated that the customer requested a MB for the loaner vehicle. Phil stated that he advised the customer that he can not guarantee a MB as the loaner vehicle. Phil stated customer was not pleased.

7/25/2008 10:11:42 Tom Burns 6306

Writer called [REDACTED] 0 twice, message states "this is not a working phone number".

7/25/2008 10:16:48 Tom Burns 6306

Writer called [REDACTED] as appears in the customer file. Phone rang 15 times without VM or being answered

7/25/2008 12:41:49 Tom Burns 6306

Writer again called [REDACTED]. Writer let phone ring 15 times without VM or being answered.

7/25/2008 12:47:27 Tom Burns 6306

Writer called [REDACTED]. The receptionist who answered advised that [REDACTED] no longer worked at this place of business.

7/25/2008 12:59:34 Tom Burns 6306

What did the customer say? [REDACTED] contacted CAC stating veh had just been involved in an accident (Writer was unable to get city, state or hwy info), writer asked if cust was injured, cust stated "I was not hurt" cust claims air bags did not deploy. Cust had stated veh was stuck in park and AAA was on scene to tow veh, cust requested assistance with getting veh out of park.

What was your response? Due to situation (Cust was focused on getting veh onto tow truck without damage occurring to veh) and cust stating "I am on a busy hwy and can not hear you very well" Writer was only able to get a call back number from cust. Writer tried to assist AAA tow driver with removing cup holder to access manual transmission release, driver stated "You better make this fast or I'm just pulling the veh up" AAA driver stated could not hear writer very well (Due to traffic noise)
Cust and driver had writer on speaker, could not hear writer, when cust did come back to phone, stated "Veh is already on truck and I have to go" Writer was able to get a contact number and advised would forward to CM for return call, advised the call back would occur on Monday.

What commitment(s) did you make to the customer (including timeframe)?

What did the customer say? [REDACTED] has numerous question regarding above veh. Cust requested info related to service D, correct oil to use, oil capacity of engine, inquired why oil needs to be changed on a yearly period even if cust does not put many miles on veh.
 Cust also requested pricing for oil change, and number for roadside assistance and what coverage entailed. Cust also stated SRS light is on. Cust and veh relationship were not in system.

What was your response? Writer added cust and veh relationship into system, answered cust's questions related to service D, advised what oil to use and advised how much oil engine hold with filter as per Rap Md. Directed cust to contact above dlr for oil change and service D pricing. Advised cust to have veh towed as SRS is a safety related issues, writer advised of charge. Cust declined, and stated 'I've been driving the veh, I drive it to the dlr'

Writer received call from customer this afternoon and had a brief discussion. Customer currently owns 5 MB vehicles and has been with the brand since 1974.

Writer apologized to customer for the inconveniences that he experienced and advised that the service bulletin is simply instructions for technicians-further that recalls and service campaigns are contingent on Vehicle Identification Numbers and ranges. Writer apologized to customer for any inconveniences that he experienced ir feeling that the dealership should have pro-actively known and assisted without the need for customer to contact the dealership asking for assistance.

Writer reflected on customer's longtime history with our brand and advised that moving forward, customer is welcome to contact writer directly should he feel the need. Customer very much appreciated this and thanked writer for taking the time to discuss this with him.

██████████ called stating there is a "SRS/ Restraint" light in the dash and in red. Customer expressed that he did not feel safe to drive the vehicle due to the uncertain airbag ejection if in accident or while driving unexpectedly. Customer requested to have vehicle towed to MB of Albuquerque. Writer advised customer of possible tow charges.

Customer requested for a loaner vehicle to be brought to his location. Customer was not willing to ride with the tow truck. Customer also requested to have the vehicle towed from the dealer once the repairs have been made to the customer's location.

Writer called dealer and spoke with Svc Adv. Damiano to ask if a loaner was available for the customer. Damiano stated that there were no loaners available, but is willing to call a rental car service that the customer can pay for and save the receipts for reimbursement. Writer also asked Damiano if and when the vehicle is repaired could the dealer deliver the vehicle to the customer location under the trip interruption program. Damiano stated he spoke with the Svc Mgr and stated that they are low staffed for the rest of the week and is unable to assist with the delivery of the customer's vehicle.

Writer advised customer that he would have to pay for a rental vehicle and to save the receipts for possible reimbursement under the Trip Interruption program. Writer explained in detail with the customer defining the Trip Interruption program. Writer advised that customer had a total of \$900 within 3 days to use considering the problem with the vehicle is warrantied. Writer also advised customer that the vehicle can be towed from the dealer to the customer and informed that the tow would be approx \$650 per Jennifer from Kirby Balthop tow 505 836-2000. Writer also explained that the difference can be for the rental car if needed and not to exceed \$900. Customer agreed and understood the terms.

Writer confirmed with Jennifer from Kirby that when the vehicle is ready for pick up she will communicate with the Svc Mgr. for billing internally within the dealer and that Jennifer stated she will call roadside for a Call #.

9/26/2008 13:53:19 Paula Brown 4680

██████████ called today regarding trip interruption reimbursement for vehicle reacquaintance that was denied. Customer states he spoke w/ SvcM Eddy and Melanie Warranty Clerk, however, was not given reason for decline.

Customer states the vehicle repairs were done under warranty and the total bill for car rental & tow to return vehicle back to customer came to approx. \$720. Customer submitted all necessary receipts & work order to his local dealer MB Georgetown.

Writer called to speak with SvcM Eddy, who was out to lunch, and Melanie warranty clerk was unavailable. Writer left a message w/ Cindy to have SvcM call o/w writer will call back Monday to determine status of trip interruption reimbursement.

Writer will call customer back at ██████████

9/26/2008 13:53:40 Paula Brown 4680

Self reminder Date: 09/26/2008 time: 14:30:00

9/26/2008 14:02:06 Paula Brown 4680

Cindy from MB Georgetown called writer back stating she spoke w/ Melanie - warranty who advised the claim was denied by regional mgr - Carl Hawkes who stated bringing vehicle back to customer location is not part of trip interruption.

Writer will look into further before calling customer back

9/29/2008 10:50:12 Paula Brown 4680

Writer spoke w/ Melanie in warranty who advised they are not aware of trip interruption enhancements(which would cover reuniting customer and vehicle once applicable repairs are completed (up to \$900)).

Writer is escalating to Tier 3 for resolution for customer.

Primary Phone: [REDACTED]
 Current Mileage: 54067
 Dealer(s) involved: 34205

Situation: Customer called expressing his dissatisfaction with a transmission issue and a high bill for repairs. Customer stated on June 8th, 09 vehicle was brought to a non MB service station called Sees repairs shop alleging service MB vehicle. Customer states " I was driving and all of a sudden the gears were slipping. I brought it over to See's and they don't the repairs. They replaced a valve gear and several other things. See's service station brought the vehicle to MB of Hagerstown who replaced the Control unit. I had no direct contact with the dealer. I do know that Mr. See dealt with SvcA Adam Himmelwright. I have the vehicle now. My only complaint is that the vehicle only has 54K, the reason why this problem occurred was due to a O-ring and the oil was leaking on the wiring harness. I think this is a MB issue and it should have been addressed. I paid a total of \$ 2675 and I don't feel like I should have spent that much".

Customer is requesting that MBUSA reimburses a certain amount back.

Action Taken: Writer advised customer that dealers are in the best position to possibly offer a PWA consideration. Customer states " I did not work directly with them. I need help from MBUSA". Writer advised customer that his concerns will be noted and forwarded to the appropriate parties for review. Customer requested a call back at any time today.

 Dealer(s) involved: 39128

Situation: [REDACTED] called to express her frustration with a service repair bill of \$ approximately \$700 for a repeat issue while vehicle was covered under the Manufacture Warranty. Customer stated while the vehicle was within the Man. warranty the SRS light appeared twice and was service at the MB of Novi. Customer states " MB of Novi told me they fixed it. The light appeared again last week so I had to take it to MB of Ann Arbor who are great to work with by the ways. There was an issue from what I understand with the wiring harness in the steering wheel. The car is ready for pick up today and I been dealing with Svca Ca Lasswell". Customer is requesting to know if MBUSA can extend the warranty due to customer claiming that the SRS light appeared twice while under the Manufacture Warranty. Customer stated she would like a call back as soon as possible due to vehicle ready for pick up.

Action Taken: Writer advised customer that her concerns will be forwarded to the appropriate parties for review.

Summary Notes

5/4/2010 11:25:36 Sadik Mujovic 4620

What did the customer say? [REDACTED] called expressing his frustration with an SRS light and in need of a new wiring harness.

Customer stated he is currently in Canada and brought the vehicle to Loan Star MB where customer alleges it was diagnosed. Customer states " I have done some research on the internet and saw so many issues with this. It is known that the reason why this happens is because the wiring harness is short causing issues. Its a known problem that MB knows about and this should be fixed with no charges. Loan Star also didn't really treat me all that great because its an American vehicle and it wasn't bought from them".

Customer is requesting that MBUSA covers the cost of repair amounting to approximately \$700 for repairs. Customer stated he will drive into the U.S if needed to repair the issue.

What was your response? Writer advised that there are no recalls or Service campaigns and vehicle no longer under warranty. Customer insisted that this is a safety concern due to the SRS light appearing and should be handled properly by MBUSA. Writer advised will forward concerns for review.

What commitment(s) did you make to the customer (including timeframe)? 24 hr call back.

Customer's preferred callback date/time (by Time Zone):

5/4/2010 11:29:06 Sadik Mujovic 4620

The above listed dealer is not the dealer that diagnosed the vehicle. A Canadian dealer diagnosed it. Writer was unable to escalate due to non MB dealer.

Summary Notes

5/4/2010 11:29:11 Sadik Mujovic 4620

Call back Date: 05/04/2010 time: 12:00 PM PST

5/5/2010 13:34:10 Richard Major 6348

Writer spoke with [REDACTED] who reiterated the above concerns stating, he has been advised by the MB Canada dealership that the cause of the concern is due to the "short" wiring harness, and due to the customer driving with the steering column fully extended extra pressure was put on the harness causing it to trigger a fault code. The customer states he was quoted approximately \$700 for the repair however, feels MBUSA should step in and cover the charges as it is a manufacturer's defect.

Writer apologized for the concerns, advising MBUSA has no ability to extend any PWA for vehicles in Canada as MB Canada is run independently from MBUSA. Writer advised the only way PWA for this concern can be reviewed would be after the vehicle is diagnosed by an authorized MBUSA dealership, advising that assistance would not be guaranteed even after the vehicle is diagnosed, as the review process is performed on a case by case basis.

The customer expressed his dissatisfaction with the information provided, stating MBUSA should stand behind the "known issue" regardless of where the vehicle is. The customer states he will think about bringing the vehicle back to the states to have the concerns addressed and ended the call.

TO WHOM IT MAY CONCERN: I am writing for assistance to get some customer care and repair on my 2006 CLS-500 auto. I have attempted to get a local Lithia Mercedes Benz Dealer to correct some auto issues for the past month without much success. I stopped in for evaluation of a problem and told them to order the parts for repair...only to find in a follow up call 2 weeks later that the Customer Care representative forgot to order the part....when finally ordered it took 2 weeks for a call to come back in...and then...after a full day in the shop a call came at 5 PM that the part was not correct and that the repair could not be made. Also, I had a door adjusted for better closing...but now a DOOR AJAR warning light constantly lights on the instrument panel. In effect...I now have 2 issues to deal with. I called your Customer Care phone number and sat on hold for over 30 minutes.....with no response. I Expect a call to me on my mobile phone at [REDACTED] I currently own 2 MB vehicles..but this type of customer care is not acceptable and needs immediate remedy. Sincerely, [REDACTED] De: Moines, Iowa [REDACTED]

Comments:

i own a 2005 e320cdi purchased at mb of wilmington , delaware in april of2005..as i live apx one hr+ from the dealer i had service performed at an authorized mb repair shop in vineland .under warreny apx one year ago, my srs warning light appeared. the shop reset it and said glitches in the computer happens.this was diagnosed as the driver airbag. In december 2009 eight months after my warreny expired ithe srs light cme on again. my shop lost the mb repair franchise so iwent to ditmire motorworks who only works on mercedes.They informed me that a service bulletin was issued for repair.Items involved were replace scm harness and 10 solder connectors.His estimate using the service bulletin of 3 hours and parts was for \$477.22. I declined and called mb with the proble who connected me with my mb dealer in Wilmington.The service manager said as i did not have service performed at thier shop a fix could not be done under a goodwill program.As this is a SAFETY ISSUE i had Ditmire repair .

2/2/2010 16:46:16 Christine Dingler 6361

Writer spoke with [REDACTED] regarding above.

Writer apologized for his experience.

Customer stated that he had reached out to his selling dealership, MB of Wilmington, who advised that because vehicle is not serviced through them, they would be unable to assist.

Customer stated that he used to have service completed by Quality Lincoln Mercury in Millville, NJ but dealer no longer has MB Franchise. Customer states that this dealer use to assist him with repairs after warranty expired. Customer repeated that he now goes to an independent who only works on MB's and advised of bulletin.

Writer advised that what independent was seeing was a tech bulletin, not recall or service campaign which customer understood.

Writer also advised that once warranty expires, dealer reviews request for assistance after warranty has expired on a case by case basis , and customers service history with them is taken into consideration. Customer asked i dealer could do a repair in the future and MBUSA consider after. Writer advised that consideration must be reviewed by dealer (and MBUSA) prior to completion of repairs.

Summary Notes

1/20/2010 11:40:30 Michael Maglio 4696

What did the customer say?

[REDACTED] j called regarding a concern with the quality of his vehicle. Cust explained that he has had many parts wear out prematurely and does not understand how this could happen to a high quality Mb vehicle. Cust explained that while under warranty all 4 ball joints were replaced, now a about 1000K later the bottom right ball joint needs to be replaced again. CUsT brought the vehicle is for SRS malfunction and was told that the SRS wiring harness needs to be replaced at a charge of \$400 which is half off offered by dlr. Cust SvcA is Peter who explained that h spoke to the SvcM and this is what can be offered. CUsT is requesting to speak with a manager regarding the quality of the vehicle

What was your response?

Writer apologized for the inconvenience and explained that items such as ball joints and tie rod ends are considered wear items and can wear sooner according to driving style. Cust understands this but would still like t discuss vehicle quality with manager

What commitment(s) did you make to the customer (including timeframe)?

Transfer

1/21/2010 17:52:17 Jennifer Kapr 4616

Writer received transfer.

Writer spoke with dlr SvcM, Kevin, yesterday. Kevin advised that 50% off of the wiring harness only was the most that could be offered. Kevin stated that the other items were service related while the wiring harness was safety related.

Writer had not contacted cust back to update when cust called back in while in the dlr. Writer confirmed with cust that 50% was the most that could be offered. Cust asked who makes the decisions, the dlr or MBUSA. Writer advised that MBUSA relies on the dlrs to diagnose concerns and provide feedback. Cust proceeded to speak with SvcM while writer was still on the phone. Kevin advised cust that the vehicle had an overall lack of service and that cust was not the original owner, all components of PWA. Cust stated that he feels regardless that the vehicle is an MB and should not have these concerns with such low mileage. Kevin advised that he would look into concern again to see if anything additionally could be offered. Cust stated to writer that the concern was being handled and cust ended the call.

Dealer(s) involved: N/A

Situation:

[REDACTED] contacted via TeleAid to claim that his SRS light was coming on in his vehicle and advising him to visit the workshop. He wanted to know what his SRS was and what his warning light meant.

Action Taken:

Writer stated that SRS stood for Safety Restraint System and pertained to his seatbelt and airbag system. Writer stated that for whatever reason this malfunction has occurred, his airbag and seatbelt system have been compromised and it is possible that they will fail to work in the event on an accident or that it is possible for the airbags to suddenly deploy. Writer advised customer to drive with the utmost caution and to visit workshop as soon as possible as vehicle is advising.

 Dealer(s) involved: N/A

Situation:

[REDACTED] called requesting technical assistance with his vehicle. He alleges that the SRS light has come on in the instrument cluster and would like to know what the means.

Action Taken:

Writer advised customer SRS light indicated a possible malfunction with the safety restraint systems in his vehicle therefore should bring his vehicle to the dealership for further diagnosis as this was a safety concern. Customer stated that there was a light on stating that the passenger side airbag was disabled. Writer advised customer that this light customarily illuminates when the occupant has left the seat therefore disabling the need for the airbag.

[REDACTED] called in alleging that his windshield washers came on while he was doing 75 mph on the NY thru-way and would not turn off . Cust claims he pulled over , turned the key off, and it was still spraying windshield washer fluid on the window . Cust then claims he turned the key on and smoke started coming from the vehicle . Cust claims the dlr is waiting for MBUSA to inspect the vehicle .Cust states the vehicle has been at the dlr for a week and no one has contacted him to give an update . Cust requests callback.

Writer apologized for the inconvenience and advised that his concern will be forwarded to an Escalations Specialist for further review .

Primary Phone: [REDACTED]
 Current Mileage: 68582
 Dealer(s) involved: 14115

Situation:

Customer states his rear sunshade will not go up or down and his SRS Airbag light is on. Customer is dissatisfied because he refers to what he believes to be "excessive" repairs on his 3.5 year old vehicle. Among them are a check engine light, glow plugs, rotors replaced, and now he's learned that a wiring harness (\$1500) needs to be replaced.

Action Taken:

Writer informed customer that an illuminated SRS Airbag light indicates a potentially unsafe situation since the airbags may deploy when not needed and may not deploy when needed. Writer offered to tow but customer declined stating he's bringing it to dealer tomorrow. Writer suggested that customer speak directly to the service manager regarding the repairs on his vehicle as a first step. Writer explained that the service manager would be in the best position to discuss the state of his vehicle, the types of repairs completed, and the rationale for them. Customer will speak to service manager tomorrow

10/15/2008 14:05:42 Christine Dingler 6361

ServM Bruce Jones phoned writer to advise that he met w/ customer this morning regarding above. ServM state that dealer has repaired and will cover 100% of cost for SRS light concern. Dealer is reviewing rear window shade at this time - no promise of Post Warranty Assistance has been given.

Situation: [REDACTED] stated the SRS malfunction light appears in instrument cluster. [REDACTED] expressed his preference not to drive vehicle due to this malfunction, and stated he had obtained cost information on tows to Seattle (\$600) and tow to MB Anchorage (\$1000). [REDACTED] requested information regarding warranty coverage for tow of vehicle from Juneau, AK to either Seattle, WA or Anchorage, AK.

Action Taken:
Writer informed [REDACTED] that the SRS malfunction indicator meant that the airbags may or may not deploy in the event of an accident.
Writer informed [REDACTED] if the repair is not covered under the warranty, the tow charge would not be covered as well.
Writer informed [REDACTED] that tow charges are covered for warrantable repairs, and the determination is made by the dealership. Furthermore, writer informed [REDACTED] that, due to the distance, the entire tow charge may not be covered through the basic new car warranty (per information provided by SL Peter H.).

Writer suggested that [REDACTED] contact the dealership in Seattle, WA to see what information they would be able to provide regarding reimbursement for the tow charges for warrantable repairs.
[REDACTED] claimed he had already had spoken with MB Anchorage regarding tow charges, but they were not willing to offer any assistance.
[REDACTED] would like to know if there is any consideration available through MBUSA to assist with tow, or if he could be provided with information regarding the exact amount of tow coverage he would be entitled to under the warranty.

 Dealer(s) involved: 51118

Situation: [REDACTED] called in about her vehicle that she has been having trouble with : the vehicle starts but it doesn't move even when the gas is being pressed on. Customer states the vehicle went into the DLR 5/7/09 and that it has been back 3 times since then for the same issue because it continues to happen, the customer was credited back the money from the first visit but now the customer is being charged \$500 and the DLR is stating now that the vehicle would need to be re-wired for 10K. Customer is highly upset and stated that " The DLR has : bad reputation, there liars, and thieves." Customer stated she doesn't want to pay for this because they advised the customer they have no idea what is going on with the vehicle and they feel they should re-wire the car as the best solution. Customer still has the loaner car and she will not return it , Writer advised the customer loaner service are the DLRs responsibility and that if there are any consequences the DLR will advise the customer. Customer feels that her vehicle should be fixed correctly and would like assistance.

[REDACTED] is working with ServA Bob Smith regarding her problem with the vehicle not moving.

Action Taken: Writer apologized for what has happened and advised the customer that she should speak to the ServM , Customer refused and would like a CM to give her a call back.

 Call back Date: 06/08/2009 time: 4:00 PM EST

Summary Notes

6/8/2009 16:17:04 Diana Sanchez 7834

She advised the vehicle would start and go normally, but when coming to a stop it takes a very long time to pick up speed and when in N it will not go over 4,000 RPM.

Writer spoke with [REDACTED], who stated the dealer is "holding [her] car hostage." She says the dealer could not find the problem and has suggested that entire wiring be replaced.

She advised the dealer will not release her vehicle unless she pays the \$500 labor fee.

She states she will not pay for that and she will not return the loaner they gave her.

She states the dealer is "trying to pull a fast one. I know four people that used to work there and no longer do because the dealer has bad practices and tries to get money out of people whatever way possible."

6/8/2009 16:20:57 Diana Sanchez 7834

Writer called Chris Burke and left a message.

6/9/2009 12:22:21 Diana Sanchez 7834

Chris called writer and left a message. Writer returned call and left another message.

6/9/2009 14:49:26 Diana Sanchez 7834

Chris Burke advised the dealer replaced the throttle actuator thinking that would resolve the issue. They credited the customer when they came back with the same issue.

They are unable to duplicate the concern now and have put in hour of their work in diagnostic time.

They have contacted TAC and have been advised the cases they have received similar to this have been resolved with ME and Wiring harness. He stated he does not recommend this repair be done.

They have not been able to diagnose the issue.

6/9/2009 14:52:29 Diana Sanchez 7834

Writer called customer's husband and advised of above. He states he is dissatisfied with having to pay \$500 and still having to go elsewhere to have issue repaired.

Writer apologized and advised that dealer is an independently owned and operated company and they make the decision regarding their labor rates.

Writer informed that until they are able to duplicate the issue, they won't be able to diagnose.

Customer thanked writer for time.

What did the customer say?

██████████ called stating his SRS light came on in his vehicle which he brought to MB Fayetteville.

Srv Advisor Douglas Baker stated to customer vehicle is out of warranty and customer would have to pay \$560 to have issue fixed.

Customer is aware vehicle is out of warranty but believes he should not pay for something that is safety related.

What was your response?

Writer apologized but advised customer if vehicle is out of warranty, it would be customer pay.

Customer then stated he will remember this when he purchases another vehicle bc customer stated he had other brand vehicles which would cover safety issues even when vehicle is out of warranty.

Do to customer's dissatisfaction, writer advised issue will be documented for a CM for possible post warranty assistance.

What commitment(s) did you make to the customer (including timeframe)?

Customer advised CM to contact him "whenever".

Customer's preferred callback date/time (by timezone):

Summary Notes

10/16/2009 12:34:04 Romy Parekh 7832

Writer received call on personal extension from customer regarding the above.

Customer reiterated concerns, claiming "I wouldn't expect a Mercedes to have SRS issues with only 32,000 miles. I wanted to see if there assistance that can offered through Mercedes?"

Writer apologized for customer's experiences and frustration regarding the above. Writer made customer aware of NVLW terms [4yrs/50K miles; whichever comes first] which has expired. Also, assuring customer there are no active campaign(s), nor any issued, regarding this matter.

Writer advised customer that Post-Warranty Assistance is reviewed on a case-by-case basis by Dealership Management and MBUSA has trust in dealer to determine consideration based on vehicle terms, dealership relation, etc.

Customer claimed, "I know they have provided assistance towards other repairs previous [writer confirmed as per VMI] but don't want them to get into trouble about this. I really wanted to see if MBUSA can offer help because the concern is really the early failure of safety equipment on the car."

Writer offered to look into this matter however unable to guarantee any further consideration can be given - customer understood.

10/16/2009 12:34:26 Romy Parekh 7832

What did the customer say?

██████████ called stating he brought his vehicle into Plaza Motor for an SRS light.

SrvA Jeff Copeland diagnosis the issue as a "broken wire in the steering harness" which will cost customer \$780

SrvA told customer this has been occurring often and that MB "restructured" it so when it occurs, it can be fixed properly.

Customer would like to know if MB cost assisted him with the cost since MB was made of aware of this on-going issue with this particular yr and model vehicle.

What was your response?

Writer apologized for the inconvenience but advised customer if it was an on-going issue and MB addressed it, there would be a service or recall campaign for the vehicle.

According to the VMI, there is no recall for this particular issue.

Furthermore, writer advised customer to contact SrvM at the dealership who will review his issue for post warrant assistance.

Customer stated he would like MB to verify the information he received from the dealership and assist him with price instead.

Writer advised issue will be documented for a CM.

What commitment(s) did you make to the customer (including timeframe)?
within 24 hrs.

2/24/2010 11:44:41 Timothy Ucker 7810

Writer called ██████████ at ██████████ who reiterated above claiming SrvD has already reviewed and decline his request based on the fact that he has a third party ELW which declined repair. Customer alleges he does not understand position because SrvD has provided assistance in the past for a suspension concern even though he has a third party ELW. Writer advised age and mileage is also a factor although the SrvD would be the appropriate contact regarding details. Customer demanded writer to make a decision and writer advised writer could inquire but initially supports the dealer because the vehicle is out of warranty by over 20K and customer has received assistance in the past. Customer alleges he will reach out to SrvD for a better understanding and call back if needed. Customer also alleges the only reason he called is because the dealer advised this is a known issue and writer explained parts may have been updated although this does not justify coverage.

What did the customer say?

██████████ called stating he purchase his vehicle in Nov 2007, however it has been in the dealership 5 times; 4 times for the check engine light.

Customer stated the first time it was brought into MB of Buffalo, the counter balance shaft had to be worked on.

The other 3 times included oxygen sensors, wire harness, and manifold exhaust had to be replaced.

Customer stated both SrVA Neil Tate & Paul Garneret have been assisting customer, but customer would like ME to assist him with getting vehicle fixed or assuring that it would be covered after the warranty expires because his CPO warranty is about to expire.

What was your response?

Writer apologized for the inconvenience and advised customer to contact SrVM at the dealership.

Since each dealership is individually owned and operated, SrVM is in the best position to assist customer and address issue after warranty expires.

Customer stated the dlr has been great, however issue still occurs therefore he would like assistance from MBUSA.

Writer advised issue will be documented for a CM.

What did the customer say?

██████████ states he brought the vehicle into Downtown LA Motors with the SRS light on.

Phil, Svc Adv advised customer that the vehicle requires a "new harness module in the steering wheel" as the pa is "defective".

Customer wants to know "how could an airbag fail"? This is a "Mercedes-Benz"?

Customer was advised to phone us by Phil to inquire if "MBUSA would waive the cost" since the vehicle is no longer under warranty.

Customer states he already paid \$138 for diagnosis and \$766 is the estimate for repair.

What was your response?

Writer suggested that customer speak with GM, Elay Sung at the dealership, as he would be in the best position provide assistance, as the dealerships are independently owned and operated.

Writer advised customer that if there are further questions or concerns, do not hesitate to call us.

Customer was transferred to dealership for further assistance.

Customer called in stating that the vehicle had a restraint system malfunction light illuminated. Writer advised the customer to pull over in a safe location, this error message means there is something wrong with the airbag sensors and at this time the airbags could deploy while driving or they could not deploy if the vehicle was in an accident. Writer advised to have the vehicle towed. Customer declined tow and stated he was close to home, that he would drive home and schedule a tow for tomorrow. Customer thanked writer for her assistance.

Primary Phone: [REDACTED]
 Current Mileage: 30436
 Dealer(s) involved: N/A

Situation: Customer new owner of vehicle. Customer stated vehicle was in a light accident, airbags not deployed, and now will not start.

Action Taken: Writer updated records to show new owner. Writer assisted with lock unlock reset and vehicle failed to start. Writer asked if any warnings were showing. Customer stated that indicators, mirrors, ESP and ABS were showing as warnings. Writer explained that vehicle had detected a fault in the braking and stability systems and that was why vehicle will not start. Writer advised vehicle be towed to nearest MB dealership for inspection. Customer stated that he had AAA and would do so.

Summary Notes

2/9/2009 18:03:55 Simon Knott 7814

Primary Phone: [REDACTED]
 Current Mileage: 55090
 Dealer(s) involved: N/A

Situation: Customer called stating vehicle had an SRS warning light come on post warranty on vehicle. Customer took vehicle to dealer and as the vehicle was at 56,000 just out side warranty he requested assistance and was offered 50% reduction on his bill. Customer paid \$319.07. Customer stated he has since read a bulletin (TB91.60/99D) referring to the replaced cable harness. Customer stated he now requests that MBUSA "Step up" and refund him the balance of what he sees as a "factory defect"

Action Taken: Customer requests a call back tomorrow morning his local time on [REDACTED] to discuss matter further.

2/9/2009 18:04:09 Simon Knott 7814

Call back Date: 02/10/2009 time: 13:00:00

2/10/2009 12:40:07 Timothy Ucker 7810

Writer left VM for SrvD Mike D explaining above and requesting call back.

Summary Notes

2/10/2009 13:00:03 Timothy Ucker 7810

Writer spoke to customer who reiterated above claiming that if MBUSA does not cover this 100%, he will contact NHSTA claiming this is a manufacturers defect. Customer is requesting the full \$313 refunded to him. Customer alleges the regional rep is already aware and has declined his request. Customer alleges this is a safety concern and he will not accept no for an answer. Customer claims he has dealt with MB regional rep before and has received assistance in the past claiming he will persist until he is satisfied.

Writer advised that PWA is reviewed on a case-by-case by the dealer and if MB regional rep has already been contacted and made a decision , that decision will be supported by this office.

Customer then went on to state dissatisfaction claiming Mazda would cover this because it is a known defect.

Writer advised technical bulletins do not justify coverage and are not always warranty related. Writer advised only recall and service campaigns guarantee coverage to affected vehicles.

Customer reiterated this is a defect and claimed he will "own" Mercedes Benz if he is not satisfied.

Writer advised an inquiry will be made and customer will be contacted as soon as additional information is available in this regard.

2/10/2009 13:16:09 Timothy Ucker 7810

Writer spoke to SPOM Virginia Gee who advised she will review on Thurs if needed. Virginia stated she may have already discussed with SrvM Chris P and referred writer to Chris P.

Writer left VM for SrvM Chris P. explaining above and requesting call back.

2/10/2009 14:29:16 Timothy Ucker 7810

SrvD Mike D left VM advising 50% was the offer for this repair and dealer also good willed a previous repair for a sunshade when the vehicle was out of warranty. SrvD 714-448-4348

2/10/2009 14:34:34 Timothy Ucker 7810

Writer called SrvD Mike D who advised he was not aware there was a DTB on this issue and he will re-review with SPOM.

2/10/2009 14:36:13 Timothy Ucker 7810

Self reminder Date: 02/12/2009 time: 15:15:00

2/12/2009 16:06:29 Richard Major 6348

██████████ called asking to speak with tier 3 rep Tim U. Writer advised that Tim is currently unavailable and a message will be forwarded requesting a return call when he returns. Writer advised that the rep is still working on the issue with the SvcM and will contact him once further information is available.

2/12/2009 16:06:45 Richard Major 6348

Transfer

2/13/2009 09:16:40 Timothy Ucker 7810

Hi Tim,

Here is the update on this summary note. I have reviewed this with the SA and SD at Anaheim. This repair was covered at 50%, and this customer has received additional goodwill since his warranty expiration in August 2008 on other repairs. I feel the offer was fair, but Mike (the SD) called ██████████ and we decided to goodwill the balance of the repair to the customer as he has been a loyal MB customer.

Mike is going to contact the customer to advise him of the goodwill reimbursement.

Let me know if you have any other questions!

Best regards,

Virginia

Virginia Gee

2/17/2009 09:45:30 Timothy Ucker 7810

Hi Virginia,

I spoke to [REDACTED] this afternoon and informed him of our decision to credit him for his portion spent on the SRS repairs.

I reiterated to him that his warranty on the vehicle was expired and that any DTBs or updates to certain vehicle components do not constitute an extension to the vehicle's warranty, and that our decision was based on goodwill and due to his excellent service history and loyalty to Mercedes-Benz and the Dealership.

Thank you,

Mike Dehdashti

IBS
Customer Neither Satisfied nor Dissatisfied with dealer and Satisfied with Vehicle.
Customer rated "Fair" ability to answer questions, concern for time.
Issues not resolved.

Action taken: Called [REDACTED] Customer stated he was disappointed the SRS light came on the 2nd day he
had vehicle. Writer asked if customer contacted the dealer. Customer stated no, he has not brought vehicle in.
Writer advised customer to bring vehicle in to dealership.
Writer called customer again at [REDACTED] and advised customer that MBUSA recommends vehicle be towed
to dealership. Customer declined tow but customer said he would call dealership to make an appointment for
vehicle. Customer further stated he called dealership when SRS light first came on and dealership advised him
that this could be repaired at first service visit.
Mileage update: 1000.

Writer called customer @ [REDACTED] as requested on survey

Spoke to [REDACTED] who claims she's had dealer deactivate the sensor for front passenger airbag several times. She claims it's alright for a while then if she drives over a bump it chimes/lights again. She claims this is very annoying because she has always put her purse on front seat. She also would like the Nav. System screen feature a touch screen in the future. Writer advised her to contact her Service Manager, assured her that her concern/comments would be documented & forwarded on to the appropriate parties. Writer also referred customer to our 800# for the future.

Mileage Update: 13,000

Reached customer @ [REDACTED].

Customer stated he was very satisfied with the recent service at Precision Cars of Atlantic City. He said he was satisfied with the vehicle.

He stated he was not satisfied with the roadside assistance he received from MBUSA on 11/08/05. He said his vehicle needed to be towed because the SRS light. Customer stated he was concerned how he and his wife would get home he said it was after 8:00 pm when the dealership was closed. He said the Roadside Correspondent told him it was the customers responsibility to find a ride. Customer said he cancelled his Teleaid subscription because of this incident and tells his friends Teleaid is MBUSA's "get out of jail free card".

Survey found in DL
Action taken: Called customer at [REDACTED] S/w customer he reviewed all items and claims that he has no outstanding issues at this time.
Customer claims that on 7-24-06 the SRS light malfunctioned and he states that it had been in for that same issue 6 times. Writer checked warranty and history it appears only 2 time. At this time it appear to have been resolved.
Customer feels that some of the issues within the vehicle could qualify for Lemon law. Writer will forward to TL .

Summary of survey
Customer did not complete the survey
Customer attached a letter
Summary of letter Customer claims that his vehicle has been in 8X within 8 months.
Customer has had 2 vehicles with the same problems
1. the heart fan control sensor and
2. Leaking transmission Fluid.
3. customer claims that he was not advised that there is a cost for maintenance He claims that he was not advised at the time of sale that a maintenance plan can be purchased.

Summary Notes

Summary Notes

9/4/2006 17:45:11 Virginia Stella 4684

Y3 SES Survey states -

- Very Dissatisfied with service.
- POOR-Prompt in writing your service order. Understood the specific problem(s) with your vehicle. Explained charges and work performed.
- Vehicle NOT ready when promised.
- Additional visit required to complete original service needs.
- POOR-Completion of all the work requested. Quality of work performed on vehicle.
- Very Dissatisfied with how the payment/warranty paperwork was handled.
- Very Dissatisfied with vehicle.
- Improvement-"Build a more reliable vehicle and treat customer as #1."
- Comments-"I wanted to afford a MB - now that I have it I am very disappointed - unless you correct my lemon , I won't make same mistake (buying a MB) again!"
- "I am an unhappy camper!"

Action taken - Writer called [REDACTED] and spoke with [REDACTED] who stated that his passenger seat is still not operating correctly, it rained and the inside of the trunk lid filled with water and also the SRS light is back on again in his vehicle. Writer advised customer that his vehicle should not be driven, his vehicle needs to be towed due to the SRS light being on. Customer stated that he is going to contact New Country Motors Cars in Hartford CT because he is very unhappy with MB Of Southampton. Customer stated that is going to speak with the Service Manager in Hartford because he is in need of a loaner vehicle. Customer stated that he will contact MBUSA tomorrow for the tow. Writer explained to customer that the dealerships are independently owned and operated and the dealership have their own policies with alternate transportation. Writer assured customer that his information would be shared with writers Team Leaders and invited customer to contact MB with any other concerns in the future.

Sum Note Information filed in Team Leader Folder and e-mail sent to Team Leaders Drew and Kathleen.

Survey can be viewed in Doculogic.

9/5/2006 09:52:14 Kathleen Durning 4633

customer phoned back in Tues morning regarding malfunction light in the vehicle - - no ntmt being sent since issue being handled via rap call

Survey Summary;

- Neither satisfied nor dissatisfied with dealer
- Very dissatisfied with vehicle
- Vehicle brought in for mechanical repair
- Yes - customer was contacted by dealer after servicing
- Comments; "I Wish Calstar Motors, Inc Dealer Be More Responsibly When They Are Selling Or Using A Car. We Are Not Buying For One Day. I Am Having A Problem With My Car Since I Listed It. But Until Now I Am Waiting That Someone Will Call Me Back To Check My Car From Mercedes-Benz. "

Action Taken; called [REDACTED] and spoke with customer. She indicated intermittent problem with SRS light on since the first day she had the vehicle. She indicated vehicle will be in dealer for 2-3 days and its fixed but the happens again. She indicated the dealership told her it was a manufacturing issue and that someone from corporation would be taking a look at it. She doesn't believe that has happened. She is also concerned about th brakes continuing to squeak. Writer advised her comments would be documented and forwarded to the appropriate party for review. Mileage is 10,000.

Summary Notes

Summary Notes

8/6/2007 08:32:05 System Administrator

I bought the vehicle out of my area because it was a 2006, and those are hard to find. The dealer was orientating the lights to me, and one of the front headlights wasn't working, so the salesman suggested I take it to my local dealer back home. It turned out to be the wires to that light were cut by a utility knife, and I had to replace the wiring to that whole side of the car. Also, recently lights on my dashboard showed up indicating the SRS system had a problem. I took it to my dealer, and when I got back in the car the light was off, but the dealer said that it would probably come on again, and they'll fix it. Another thing I wanted to add, the salesman in Reno, where I bought my car, gets \$50 for a survey I fill out. Since I was out of the office and on the road I was unable to do it. When I came back I told the salesman, from Reno, and he said the survey expired and that they couldn't send another one. There wasn't anything I could do, but that was one of the reasons I bought the vehicle there.

Customer [REDACTED], called the CAC requesting to speak with "Frank Dingman" by name. Customer alleges that dealer (Susan Turner) told her to call him at the CAC and she alleges issues with the SRS system in her vehicle. Customer alleges that dealer told her that Frank Dingman is "reviewing her file".

Customer would like a call back at [REDACTED]. Writer suggested that customer contact the S/D at dealer who is her contact; writer did not promise call back by the SPOM. Writer stated that she would hear from "someone". Customer was disappointed with the response.

Writer alerted SPOM of call.

Writer contacted Mb of Fairfield Ct and spoke with John Antalik-Service Manager, regarding Dr. John Fatse. The concern pertained to a SRS light malfunction and PWA was considered and offered, then the customer declined.

The vehicle is out of warranty by mileage and Post warranty was considered at 50% per the Service Manager an also it was determined that the vehicle is serviced at a independent shop.

The Service Manager-John Antalik advised when the %50 consideration offer was presented to Dr. Fatse , customer declined the service with Mb of Fairfield Ct.

If the customer calls back, regarding the above concern. Please advise Mb of Fairfield Ct , has retracted their Post warranty consideration and the position determined by the dealership regarding such a decision would be supported by MBUSA.

Ed Duffy

6296

SM called back stating this vehicle had experienced a concern regarding the SRS system - vehicle was at the dealer for 20 days

and the dealer worked with the TAC to resolve. Dealer ordered part that was referred - part came in and was installed and then found to be defective and was reordered and repaired the vehicle.

SM stated customer reflected his disappointment in the survey.

SM stated this is a long time good customer of MB and the dealer and customer is still disappointed. Customer was provided a C-Class loaner during this time.

S/M, Ted Mansell, advises that customer is disappointed that her new MY06 E350 has had to be brought back for repairs --

*SRS light on.

*Tele aid malfunction (not able to locate her).

*seat heater malfunction.

S/M states that the vehicle is being repaired and it should be ready for pick up today.

S/M states that customer is very unhappy with the vehicle.

IBS - Customer is very dissatisfied with the vehicle and the sales experience. Customer attached a letter to the survey describing his experience since he purchased the vehicle. Customer claims that the salesman was high pressured, challenging and insulting. Customer stated that he was dissatisfied that the cradle for the phone was on backorder, the radio blinked out and the SRS light malfunctioned. Customer also described how much time he wasted in getting a loaner car to get the repairs done to the vehicle. Customer had the following suggestions and comments on his survey: "Fix The Electronics. M-b Has Told Everyone That They Already Have! " and "Go Back To Making Cars With The Quality You Did 20 Years Ago. Now I Know Why M-b Is At The Bottom Of The J.d. Powers In Luxury Cars! "

Action Taken: Called [REDACTED]. Left message with 800# inviting customer to callback with any additional questions or concerns.

THOMAS ISHLER

Writer was visiting dealer today when customer came to the SM's office requesting to speak with writer. Customer stopped by the dealer today with a complaint of a noise from the engine. The dealer sent our their Shop Foreman to take a look/listen with the customer and shop foreman believes it is a lifter noise. Customer asked shop foreman how long a repair would take and the shop foreman advised customer that he had not replaced lifters on this engine before as this was a fairly new engine. The shop foreman came in and asked writer if I was aware of any lifter problems with these engines and writer advised shop foreman that writer was not aware of any known issues. Customer was very aggressive, demanding and appeared to be intentionally unreasonable. Customer stated that he had been to the dealer 4 times in 2000 miles and that the vehicle was a lemon and he wanted it replaced. Writer reviewed the history on the vehicle and found that the customer had only been in twice since taking delivery. Both of those visits were for the SRS light for which was repaired on the second visit. Writer saw the steering angle sensor was replaced on the day the customer took delivery but was repaired prior to the customer taking delivery. Writer advised customer that the vehicle did not meet any Lemon Law criteria from what writer could see in the history. Customer stated he did not know what the Lemon Law was and didn't know if he could believe writer. Writer advised customer that if he felt the vehicle was a Lemon and did not want to take writer's word that it wasn't, he could have his concerns reviewed by an attorney. Customer stated "so your telling me to get an attorney?" Writer again stated as above. Writer apologized for past issues but advised the customer that he should give the dealer the opportunity to repair the vehicle and if required, we could provide technical assistance. Writer went out to listen to engine and confirmed a lifter noise. Customer stated that he did not want to be a guinea pig when it came to the dealer performing the necessary repairs for the first time. Writer advised customer that every job a technician does was at one time, the first time for that technician. Writer stated that it doesn't mean the technician isn't qualified and all dealer technicians get factory training. Customer stated he wasn't happy, requested a copy of the repair history and advised writer "I don't need an attorney, I'm in law school".

Writer spoke with [REDACTED] in regards to the above referenced vehicle which has been down since 1/18/06 for an SRS light. We have a wiring harness on order with Germany which is a special order part which could take 4-6 weeks for delivery. Part Number A2195401806 on order # 1796695. This was ordered on 1/30/06 by the dealer. The customer is currently in a C-Class loaner and has requested a loaner car upgrade or compensation for his downtime. As a gesture of good faith writer offered customer the sum of one lease paymer (\$1,318.63), which customer accepted. I advised [REDACTED] that the dealership would keep him up to date on the parts situation. I advised him not to expect the part for at least another 2 weeks if not more but that v would keep him updated. Writer left customer my phone # should he have additional questions.

2/17/2006 10:48:53 JACQUELINE HOEY

Part in route to dealership. See Fed Ex tracking # 701346866034 on MBZ # 538968. Writer notified dealership.

Please see note as provided by dealer SM.

CUSTOMER WAS HERE 9/9/05 PICKED UP 9/13/05 FOR NO START, SRS, CAMPAIGN,SERVICE. WHEN HE PICKED UP THE CAR IT WOULD NOT START. SERVICE PAYMENT WAS REFUNDED PENDING COMPLETED REPAIRS. THIS WAS THE CUSTOMERS FIRST VISIT HERE WITH THIS CAR. WE OPENED ANOTHER R/O. HE STATES HE ALSO HAD PROBLEMS WITH A S-CLASS THAT WE REPAIRED FOR HIM.

WE HAVE CHARGED THE BATTERY OVERNIGHT AND WE HAVE A DRAW. WE HAVE NOT LOCATED THE PROBLEM YET. WE ALSO NOTED SOME WATER IN THE LOWER TRUNK.
 THIS WAS NOT A COMPLAINT AND WE DO NOT KNOW IF THIS IS A CAUSE OR EVEN A PROBLEM YET. THE TRUNK LATCH ALSO QUIT WORKING JUST SILLTING HERE. CUSTOMER WANTS A MB LOANER. I ADVISED WE DO NOT HAVE BUT WOULD PROVIDE ENTERPRISE. CUSTOMER STATES HE HAS CALLED MBUSA ABOUT HIS S-CLASS AND WILL DO SO AGAIN ABOUT THIS CAR.

Spom met with this client to review her concerns of vehicle. Client alleges that vehicle has been in 5 times for SR repairs. Service File shows one visit and one RAP visit for SRS. Client demands that MB replace vehicle. Spom advised client that recent developments have provided a solution to her concerns and that since MB/Deale will repair the vehicle. Client became very upset and demanded that vehicle be replaced. Spom advised client that only repairs would be made, and no replacement would be offered. Client indicated that she intended to take vehicle and trade it. Spom asked if the SRS light was on at this time, client confirmed that it was. Spom strongly suggested that client leave vehicle at dealer so that SRS repairs could be made. Dealer even offered to get the newest loaner available. Client declined. Spom strongly suggested multiple times that client should not leave dealer in the vehicle as the SRS light was on. After repeated attempt, client declined. Spom asked client to confirm that we were cautioning her against this, which she confirmed. Spom also reviewed with client what illuminated SRS light meant to insure that she knew what she was doing.

1/13/2006 16:47:40 Frank Parente 4675

Customer called claiming that she is not satisfied with the response from SPOM - customer claims that she is also unhappy over the type of loaner vehicle she has been provided with. Writer informed customer that her comments would be documented, however, SPOM is responsible for the affair of MB in his area of responsibility.

1/16/2006 10:33:58 Frank Parente 4675

Note from SM at dealer to SPOM (AK)

Andrew, I spoke to Richie. FYI, the car is here now and we are going to repair the SRS system. We got her a new Enterprise vehicle as alternate transportation.

David Appleton

Mercedes Benz - USA

Dear Paul,

I am writing this letter to you out of some built up frustration with Brumos. I know that your organization is committed to delivering a level of high customer satisfaction. Unfortunately, there are several areas that have me very frustrated and disappointed.

In Jun of 2005, I purchased a 2006 CLS500 from Kraft Motor Cars in Gainesville. Kraft is a client of our office and a personal friend of one of my Financial Advisors in my office. I was very pleased with the level of service I received from Kraft. At the time of my purchase I asked about service issues in Jacksonville and was assured the Brumos would provide me with a high quality of service and that it is standard practice that I would receive a loaner car if I took it in for service if needed. Having owned luxury cars in the past, and requiring a vehicle during the day, this was very important to me.

At the time of purchase, I noticed a strong vibration while driving. Kraft stated that it needed to be aligned and the currently did not have the part for their machine to perform this and I could take it to Brumos for service. Brumos offered to do the service but refused to provide me with a loaner car. They also told me at that time that I would never be entitled to a loaner car because "loaner cars are only for clients who purchase their cars through Brumos". I appealed to the Service Manager and she again instructed me that a loaner car was not an option. The next time I was in the service area, I noticed in bold letters on the screen on my client record "NO LOANER CAR - CUSTOMER PURCHASED CAR FROM KRAFT"

I have to say that this is very disappointing. To spend over \$75,000 on a car and "the Mercedes Experience" , to be treated this way is not appropriate.

This is not a good public relations for Brumos. This week, no less than eight of my Financial Advisors asked me why I was driving a Chevy Cobalt as they walked past my parking spot in the garage. I had to tell my story eight times how Brumos refused to provide me with a loaner car because I did not buy my car from them. These are eight affluent people that you want driving your cars.

As you can see by the chronology of events listed below, I have brought my car in for service to Brumos six times in past 12 months. Each time, I have also discussed the vibration I feel when driving. They have addressed it on several occasions. The latest results stated that all four of my rims are slightly bent and causing the vibrations. I could have them replaced for \$2,200. No one can explain to me how it is possible for all four rims to be bent at the same time. This does not make sense to me. I have had the vibrations since day one.

I owned a Lexus for 4 years prior and my experience was wonderful. The only service the car ever required was the regularly scheduled maintenance. The level of service I received was excellent. During that time, I received a loaner car at three different dealerships where the car was serviced.

Currently I have spent \$1,901 with Brumos for service and installation. They have certainly been paid by Mercedes Benz for the additional warranty work they performed. Six service issues in 12 months is also very burdensome.

Two Issues:

1) I believe that I should be entitled to the same experience as any other Customer, that includes the use of a loaner car.

2) Mercedes Benz should replace the rims on my car at no cost to myself

It is my hope that you have the authority to help me with these issues.

Calendar of events

Jun 17, 2005 Purchased Car through Kraft Motors in Gainesville

Jun 21 , 2005 Took car to Brumos for Service

Car had a noticeable vibration when driving

Kraft did not have the equipment in service to perform alignment

So I took car to Brumos at suggestion of Kraft

Replaced all four tires & Front Camer bolts

Balanced all four wheels and tires

Cost \$597.15

Loaner car not provided for two days of service

- I rented a Camry across the street at Budget

Jul 5, 2005 Took Car to Brumos for service

Warning lights were on for Airbag

Noticeable Steering Vibration at 30 mph and greater at 50 mph

- Adjusted Preteanchen Steering Rack

Cost - Warranty

Loaner Car not Provided

- Rented Hyundai from Budget
Summary Notes

Aug 5, 2005 Took car to Brumos for Service

ESP Sensor light malfunction

- Replaced part

Performed Sched A Maintenance

Cost - \$315.30

No loaner car - Rented Camry from Budget across street

Mar 16, 2006 Took car to Brumos for Service

Active Headlamp malfunction - Part not available

Oil Level Sensor malfunction

Cost - Warranty

No loaner car provided - Rented car from Budget

April 6, 2006 Returned car to Brumos for service

- They received the Headlamp to install

- Battery was also replaced for malfunctioning

- Installed Satellite Radio

Cost - \$ 988.63

No loaner car provided

June 16, 2006 Took car to Brumos for Sched B Service

- Also requested that they look at car for vibrations

as discussed in prior service.

- Brumos stated that all four Rims were slightly bent and caused vibrations

Cost - \$350.43

No Loaner car provided - Rented Chevy Economy car from Budget

I look forward to hearing from you soon.

p.s. I would like to compliment Jonathan Hill (Service Rep). He has been very polite and provided me with a quality experience for the things that are within his control.

Sincerely,

Senior Vice President

cc: wstanton@duvalmotorcars.com, Mark Jacksonville.Stapleton/MAIL/MBDEALER@MBDEALER, Grahame Long/171/DCAG/DCX@WK-COOP

Subject: Service issue w/Brumos - WDDDJ75X36A - - 24,655 miles - warranty start date 1/17/2005

Scott:

Per the voicemail message I left you this morning in response to the voicemail message you left for me yesterday afternoon, please address directly with this customer or refer him back to Brumos. As I indicated in my voicemail message to you this morning, I don't plan any direct contact with this customer.

As you are aware, each dealership is free to determine it's own loaner car policy as an independently owned and operated business. Only if a warranty repair is involved and the dealer participates in the alternate transportation program would the guidelines for providing alternate transportation come into play. The warranty itself, however does not provide for loaner vehicles when warrantable service or repairs are needed.

Warranty history for this vehicle as evident from the VMI and service history at Brumos after July, 2005, at 11,420 miles do not reflect any concerns with a vibration until the current visit at 24,655 miles. Had a wheel been bent from the factory, it would have been evident in May, 2005, when the 2 front tires were replaced under goodwill at Kraft or in June, 2005, when the customer paid to have a damaged tire replaced and MBUSA paid for replacement of the 3 other tires (Michelins) since the Contis originally installed on the car were not available. MBUSA will not authorize wheel replacement under the terms of the warranty if they are in fact bent.

Not being directly involved with the current visit or diagnosis involved, MBUSA is not in a position to comment on the suggested repairs.

In the future, please be aware that customers should be referred to the Customer Assistance Center so that we can document their contact in our database but only after you have entered a sum note and discussed the situation with me. Customers should not be referred directly to me.

Regards,

Paul

Good afternoon,

In a conversation with the MBZ factory rep we discussed the fact that I had not heard back from you regarding the monies in place of the Extended Limited Warranty. Looking forward to hearing from you soon.

Sincerely,
Randy Rodgers
Penske Motorcars Claremont
Service Director
909-592-0201

-----Original Message-----

From: Rodgers, Randy

To: [REDACTED]
Subject: RE: SPAM! RE: Juan G. Guevara

SRS-1st visit, code for drivers side air bag, tested good, cleared codes as we can not perform repairs unless a faulty component is found.

2nd visit, found code for horn contact spiral spring which was replaced. We do not show a 3rd visit for an SRS light issue.

Oil level sensor-1st visit, light engaged, level found to be ok at the time of testing, tested and replaced oil level sensor.

2nd visit, oil level light engaged, corrected oil level (too high related to oil leak repair and technician not getting oil level correct).

We do not show a 3rd visit for oil level sensor light but we did have an oil leak repair (reseal engine lower oil pan) that was related to having the vehicle come back for the 2nd time on the oil level sensor.

TPS light, light engaged due to flat tire occurring and the spare being installed. A new tire was installed but the Assistant Service Manager neglected to communicate that this system requires a number of miles to be driven before the TPS will reset itself. After explaining that to you we decided it best to pick the vehicle back up and continue to drive the vehicle for the purpose of resetting the system and as well to again have the technical specialist from MBZ double check that the systems are functioning as they should.

I hope that you will not have a continues need to bring the vehicle in for service other than what would be considered regular maintenance but in an effort to rebuild some confidence in both the MBZ product and Penske the manufactures representative had offered to add to the vehicle a factory extended warranty. In processing this warranty it was determined that you already have a factory extended warranty necessitating a different goodwill offer of refunding you for the amount you paid (\$2500.00) for the warranty. I will process the paperwork required as soon as I hear back from you confirming your happy with the offer, please allow approximately 2 weeks to receive the check. Thank you for your patience and understanding and I hope you understand we will make every effort to meet or exceed your vehicles future service needs.

Hello Mr. Rodgers;

Please review the attachment and give me a call. As I have express to you in previous phone conversations, I do not feel comfortable with the fact my CLS 500 have been in your service department 8 times in the last 4 months because the sensors are defective, if you check the your records you will see that the following sensors have fell or as your service department stated were defective;

SRS Sensor-----3
Oil level Sensor-----3
Tiers Air Pressure Sensor-----2

Please review the enclose attachment and let me know if your company will take care of this issue and replace my vehicle or if I have to send this issue to my lawyer. Thank you for your time

Hello Mr. Rodgers;

I just want to share with you, a picture I took with my cell phone on Sunday night, it is not to clear, but it read
"Engine Oil Level"
"Oil Level Low"

As we discusse in our phone call on Thursday, I have many concerns as far as the quality of this particular car. I have a question for you;

* If the reason for this message to appear the first time was a bad sensor, and this sensor was replaced, Why did this computer in the car still give the message?

As you will see, my concerns only increase as time goes by, I need to talk

to you and with the gentleman that extended the warranty of this vihecle to
~~100,000 thousand milles~~

Summary Notes

On Tuesday you should be able to reach me on my cell phone any time, please
make this call one of your priorities in the morning. Thank you for your
time.

[REDACTED] called on behalf of his wife/owner/primary driver, [REDACTED] claiming she was involved in an automotive accident yesterday and claims non-airbag deployment. The customer stated he wants MBUSA to advise him why the driver's side airbag allegedly didn't deploy. The customer claims he may seek legal advice.

[REDACTED] claims his wife and 5 mth old child were allegedly making a left hand turn and an on-coming vehicle allegedly hit them. The customer claims his wife turned the wheel to attempt to avoid the car and was allegedly hit on the front corner of the driver's side. [REDACTED] claims his wife was belted and his child was in a rear-facing child seat. The customer claims no major injuries were sustained to the occupants. However, he claims his wife has some bruising from the seat belt.

The customer claims he has notified his insurance company, but doesn't have any insurance information to report. [REDACTED] claims there is a police report, but he doesn't have a copy. [REDACTED] also doesn't know the name and address of the body shop that the vehicle is allegedly at.

I provided [REDACTED] with my direct extension, 800-367-6372 ext. 4621, so that he can provide further details.

The customer asked the writer what MBUSA can do for him.

Writer explained that we can inspect his vehicle and as he requested, investigate his allegations of a non-airbag deployment.

██████████ phoned the CAC demanding to speak with a supervisor.

Writer apologized and advised that none were available at this time.

Customer alleges that no one has been sympathetic his request regarding inspection. Customer alleges that it is impossible the airbags on this vehicle should not have deployed as vehicle was struck at 70mph. Customer requested time frame to inspect inspection.

Writer advised that writer could not make assumption but advised that an inspection does not happen immediately as it needs to be arranged with out technical specialists out in the field.

Customer alleges that he will contact an attorney as he feels his interests are not viewed as important and he feels his needs legal protection.

Writer advised his comments would be documented and shared appropriately within our company and regional team.

Customer still requested contact from supervisor at 951-318-1580. Writer advised that supervisor would not be able to provide any further information and provide any further assistance than this writer and did not promise contact back immediately.

Open Date: 12/22/2004 16:43:47 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC

Writer received notification from T. Brunner explaining that a Technical Specialist will be sent.

Open Date: 12/22/2004 17:02:47 **Agent:** James Dowles **Phone** 4628 **Note Type:** PC

Writer called on behalf of T/L request. Writer spoke with Mr. Wang. Customer asked if writer was supervisor, writer informed customer yes. Customer expressed concerns about "being serious, I wasn't sure if you guys take these things seriously."

Writer advised customer information of this nature is considered very serious at MBUSA. Writer assured customer above rep's have addressed customer's concerns and forwarded to appropriate parties involved right away.

Customer claimed "I feel better." Writer explained process. Customer thanked for explanation.

Customer asked for writer's phone number for possible follow up, writer provided.

Open Date: 12/23/2004 18:46:09 **Agent:** Christine Dingler **Phone** 6361 **Note Type:** PC

SPOM phoned CAC to ensure case was opened as he does not have access to system today. Writer advised case has been opened.

Open Date: 12/28/2004 10:51:44 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** PC

Requested update from TS that will be assigned to the investigation.

Open Date: 12/28/2004 12:28:49 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC

Mrs. Wang called to reiterate her eagerness to have MBUSA inspect her vehicle. Mrs. Wang stated she is visiting her doctor because she claims she isn't feeling well.

Writer reiterated that her vehicle will be inspected by our Technical Specialist and that her eagerness to have this inpection performed as soon as possible is duly noted.

Open Date: 12/29/2004 17:03:29 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC

Customer left a voicemail claiming that someone from Fletcher Jones (Tizak Ortez 949-718-3360) called her to advise that allegedly our representative has inspected her vehicle. The customer reiterated her intent to have in writing our findings.

Writer called customer at 951-312-0336 to advise that once report is generated she will receive our findings in writing via mail.

Writer called Tizak Ortez, from the Fletcher Jones Body Shop, who confirmed that our TS inspected her vehicle yesterday. At this point, the body shop is awaiting the customer's approval to repair her vehicle.

Writer encouraged customer to call Mr. Ortez at 951-312-0336.

Copy of e-mail sent to SPOM:

Mike:

██████████ (VIN# WDBUF83J65X ██████████ - Prestige) called in and repeated allegations noted in the opening of the referral -horn, electrical, airbags, SRS.

He stated dealer does not know why vehicle malfunctions, that he has been advised that "parts have been replaced and air bag is on order."

Customer stated that dealer rep had originally given hi the 800# and advised him to call MB about his vehicle; he stated he may pursue NJ Lemon Law on vehicle if issues are not addressed.

Regards,

Following is E-mail from PSD Brian Scully:

I spoke with ██████████ and he is a little upset can't blame him, I explained that the airbag should resolve his concern. The part# subbed to a new one and was backordered Germany. ETA expected 1/16/05. I offered a comparable lease payment of \$900.00 for his inconvenience. He seemed ok.

[Redacted] contacted the CAC

Advised that vehicle is at dealership as of Wednesday 3/9/05 for 3rd steering column service. Customer advised that steering controls and the horn do not work, and alleges dlr has advised her that "airbag would not deploy".

Customer advised that the seatbelt chimes even though she has her seatbelt latched on. She claims that dlr has tried to repair and advised her that "the seatbelt has been upgraded and the part is on backorder".

Customer advised that she is "an extremely unhappy customer" and does not feel safe in the vehicle anymore. Customer believes her vehicle meets Lemon Law criteria and therefore is requesting MBUSA buyback her vehicle.

Customer also claims that dlr advised her that they would speak with Home Office to see what could be done.

Comments: I purchased my 2005 E320 Mercedes Benz through the Signal Hill Long Beach California dealership by special order after waiting 2.5 months. I've had to return my car three times to the dealer for the same problem (SRS malfunction). I have less than 2000 miles on the car. I am disappointed to say the least. I really expected better of a Mercedes Benz product. It's my first experience with the corporation and I am not very happy with this situation at all. I talked to the manager of the dealership and his response was "what would you like me to do?" To their credit, they have tried to fix the problem with no success. I still have the problem and I want my 64,000 dollar investment fixed or order me a brand new car. I don't have the time to drive the car back and forth to the dealer every few days. I would appreciate your standing behind your product. Please contact me with any questions regarding this matter.

Customer letter forwarded to the CAC, received by Paul Halata's office on March 21. Customer claims that since his vehicle purchase in November 2004 his vehicle has 19 down days, and alleges 17 consecutively for issues with the seatbelt and SRS system.

Customer claims vehicle is a "threat to his family" and is requesting MBUSA buyback his vehicle.

Customer states that, "prior to retaining the law firm, I am willing to resolve this matter by having Mercedes-Benz repurchase vehicle for a negotiated amount."

Customer claims he will seek legal council if his request is denied.

Writer Scanned letter and sent to SPOM.

Open Date: 03/28/2005 20:28:26

left a message for the owner explaining I would review his file at the dealership during my visit on 3-29-05 and call him to discuss.

Open Date: 03/29/2005 21:17:14

Agent: GARY COX

Phone 7123

Note Type: RC

I talked to the owner after reviewing the file and declined to assist in a buyback of his vehicle. I specifically asked the owner if he was currently experiencing any issues and he said no. Owner stated he is uncomfortable with what he has read in Consumer Reports and wants out of his vehicle. I declined to help.

(Owner has been complaining about the seatbelt recognition beeping, dealer fist could not duplicate at 2489 miles. At 2558 miles the dealer had to perform adaptations to calibrate weight sensors. owner also complained about audio but dealer could not duplicate. At 4465 miles the dealer could not duplicate however replaced the weight sensor seat control module.)

Previous Summary Notes:

[Redacted] claims he has brought his vehicle into the dealership four times for the seatbelt light and airbag lights being on. He claims the dealership is not able to resolve the issues, and every time he goes there with an appointment, there is some other type of mix-up so he either doesn't get a promised loaner vehicle, or they don't have parts ordered for him.

[Redacted] also claims he has not been able to activate his phone since the day he got it. He claims Verizon allegedly told him that he was given an outdated phone and they can not activate the service.

[Redacted] is requesting technical assistance from MBUSA in repairing the vehicle.

Open Date: 05/09/2005 10:12:54

Agent: GEORGE MCNICHOL

Phone 7124

Note Type: RC

I spoke with customer who states that his carrier will not activate V60 phone because it is not GSM. Phone is new and still in box.

I told him that Dealer will exchange phone for new one next week when he is at Dealer.

Customer called CAC stating that he would like to know Mercedes-Benz policy on replacing vehicles with continuous repair issues. Writer advised that if any defect is found within the vehicle, we will make any repair or adjustments that are necessary under the terms of the Limited New Vehicle Warranty.

Customer alleges he feels as though he may have a "Lemon" having repairs over the course of the 6 months he has owned the vehicle = at least 5 visits for repairs on electrical components including;

- replaced Navigation system two times
- SRS replaced one time
- electrical problem with trunk

Customer alleges that he is now getting warning lights on the SRS once again.

Customer stated that he is "embarrassed, frustrated and tired of going back and forth the dealer" which is a 50 minute drive from his home.

Customer stated he already expressed these concerns with the Service Manager, however has not received a call back from anyone in one week. He is requesting assistance from a Mercedes-Benz representative to discuss returning this vehicle.

Writer advised that I will forward his concerns to the appropriate parties and invited him to call back should he wish to follow up with us, or make additional comments

Current Mileage - 7,265.

Forwarded to TL folder for NTMT and follow up.

CUSTOMER SEEKS TECH ASSISTANCE

[REDACTED] called the CAC seeking MB intervention in the repair of the vehicle....
 He alleges the vehicle has been in the shop 5 times for " the SRS light coming on"...
 He alleges that dealer repairs the same and in three days the light comes back on...He alleges that this cycle has been repeated at least 5 times..
 He alleges that dealer is well aware of his dissatisfaction and has called MB Techs before to assist....but the problem still persists...
 I advised the matter will be referred to a RM for review and assistance...

Writer received correspondence 268944 from customer [REDACTED] alleging that the SRS warning light remains outstanding and "came back on May 12, 2005, two days after my most recent visit".

The following information is quoted verbatim per customers letter:

"I am writing this letter to express my consideration that the vehicle is a lemon vehicle under California's Lemon Law Presumptions...."

"Therefore I would like to request a replacement vehicle under the provisions and guidelines of the California Lemon Law. And this letter will service as a formal request for a replacement vehicle".

Customer [REDACTED], called the CAC alleging she was involved in an accident on 05/13/05 and her vehicle's airbags allegedly did not deploy.

Customer claims at 4:00 pm on 05/13/05 a vehicle (allegedly driven by a couple that was testing driving a Mercedes-Benz through dealer 05765) cut her off and caused her to crash into their vehicle's rear bumper.

Customer claims she was wearing her seatbelt and was the only occupant in the vehicle at the time of the incident. Customer claims she suffered a broken neck, fractured skull, broken left hand, and bruised ribs, as a result of the collision.

Customer advised there is a police report and once she obtains a copy she will fax it to the CAC.

Vehicle is currently located at:
Superior Collision (650) 593-1019 contact person - Maha
956 Branston Rd.
San Carlos, CA 94070

Customer advised that Tele-Aid "was amazing, the person I spoke to was so calm and helpful and they made sure the fire department was on the scene in two minutes and they had my family there in three minutes!".

Customer goes on to state, "this vehicle saved my life, I will never buy anything other than Benz, and I will make sure they are all equipped with the Tele-Aid system".

Customer is requesting MBUSA inspect the vehicle to verify if the airbags should have deployed. Customer also alleging her contact person at dealer 05765, Larry, advised her that it may take anywhere from one to six months to receive all of the parts needed to repair her vehicle. Customer is requesting MBUSA intervene in order to obtain parts needed as quickly as possible and exclaimed, "I just want my car back, I love it so much!!" Customers alleges her vehicle was diagnosed as needing \$45,000 in repairs and claims she is surprised her insurance company did not "total it."

Customer did not have her insurance information available and advised she would callback with the claim number and a contact name.

Dedup function is inoperative.

Technical assistance requested and referral generated since warranty history demonstrates customer's complaints.

[REDACTED] called claiming that he took his vehicle to dealer 22420 for the 1,000 mile check up and everything was fine, however at the 3,000 mile checkup the vehicle had to have the SRS system checked since he claims the light appeared and then the radiator tube replaced since it was leaking.

The customer alleges that the vehicle also shifted into neutral while customer was driving and so customer coasted off to the side of the road. The customer claims that he shifted the vehicle up in order to get into a higher gear. The customer then claimed that this issue occurred for another 3 times even though the vehicle has been inspected by the dealer.

The customer claims that the electronic box control for the transmission has been replaced twice. The customer alleges that the vehicle seems ok, however he does not feel safe to travel this summer. The customer would like his vehicle to be replaced or refunded.

Writer advised customer that his issue would be documented and forwarded to the appropriate parties for review. AT

cc: Mark Kelly

Open Date: 06/27/2005 13:06:08

Agent: CLEO GAINES

Phone 7424

Note Type: RC

The dealer repaired the transmission issue for the vehicle and the vehicle experienced a SRS light issue which was resolved by the dealer. The customer wants MBUSA to repurchase/trade him out of the vehicle. The request to repurchase was denied. However with the input from the dealer, MBUSA will provide the customer with one lease payment reimbursement for the troubles with the vehicle.

[Redacted] phoned the CAC requesting technical assistance for his vehicle.

Customer claimed the vehicle had been in to MB of Westwood three times for repairs to the headlights for a combined total of five days.

Customer claims the SRS light has come on.

Customer claims "I think this is a lemon, and I want to just bring it back to the dealer and leave it there."

Vehicle is being towed to MB of Westwood and will be there Monday 6/20.

Customer is seeking technical assistance from MBUSA to repair the vehicle.

Open Date: 06/20/2005 14:35:10 **Agent:** Patricia Murdy **Phone** 6394 **Note Type:** PC

Customer contacted the CAC stating he wanted to make a complaint about the vehicle. Customer stated that the car was towed to the dealer last night when he was out to dinner for his wife's birthday. Customer stated he is extremely frustrated. He stated his wife does not have a vehicle right now and missed work today.

Writer advised customer that the rep he spoke with yesterday has opened this up to the regional manager for review. Writer advised customer that this process does take several business days.

Open Date: 06/20/2005 21:05:45 **Agent:** JIM MCINTOSH **Phone** **Note Type:** RC

Writer received case.

Open Date: 06/21/2005 22:13:57 **Agent:** JIM MCINTOSH **Phone** **Note Type:** RC

Writer reviewed with 36132 SM Bob Joyce who reports that the headlight issue was previously resolved and that this complaint had to do with an SRS warning light. The dealer has replaced the "clock Spring" and the customer now has the vehicle back in his possession.

Writer generated referral based on Service and Parts Operations Manager, Garret Wetterauw, contact to the CAC.

According to the Garret Wetterauw, SPOM, MB of Greenwich Sales Representative Paul De Rosa presented him with the a letter (copy of letter scanned) which customer requested an investigation of an alleged non-airbag deployment when vehicle was involved in an accident. Vehicle is at MB of Greenwich. Paul De Rosa (Sales Rep.) advised that the customer was extricated from the vehicle and was taken to the hospital by ambulance for back injuries.

Garret Wetterauw inspected the vehicle. When Mr. Wetterauw activated the ignition, he observed that the SRS light on instrument panel came on and then went off indicating the SRS system is operating properly. The dealer checked the vehicle with the SDS Diagnosis Assistance System. All values relating to the SRS system are within specification. Copies of the repair order, insurance estimate and SDS values have been scanned.

SPOM emailed digital photos to Ellen Bie (CAC supervisor), Frank Berenz (Legal) and Gary Bowne (Product Analysis). Perhaps

The customer did not provide an accident report. Parts & Service Director Pat Devlin is trying to get a copy from the customer and he will fax it to you and Gary as soon as he receives it.

Writer emailed Gary Bowne, T. Brunner, R. Cila and Frank Berenz.

Open Date: 07/01/2005 16:46:48 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
Pat Devlin, the Service Manager, sent a copy of the police report to the CAC. Corres. No. 272332 dated 6/30/05 and received by writer on 7/1/05.

Writer scanned document and sent it to G. Bowne and F. Berenz.

Open Date: 07/01/2005 20:40:35 **Agent:** GARRET WETTERAUW **Phone** **Note Type:** RC
Frank Berenz to respond to customer's letter,

CUSTOMER SEEKS TECH ASSISTANCE

[REDACTED] called the CAC alleging that he has taken the vehicle to the dealer for the following reasons more than twice: seat belt chimes come on when he turns the ignition...airbags sign does not come off...(3 times since purchase and still not fixed) .

He alleges that now they are replacing the shocks again and the easy entry feature did not work...

Customer stated that the vehicle was in the shop for 50 days...collectively...

Customer stated that if dealer cannot fix it he would like the vehicle replaced...

Previous Summary Notes:

Customer wrote letter to the CAC regarding his 2005 E55. He alleges that since his purchase in January 2005 his vehicle has been back to the dealership 10 times for numerous electrical issues.

He claims that his vehicle has been to the dealership 3 times for the SRS system, and stereo system which he states are still unresolved.

Customer believes that he is entitled to a new vehicle under the California Lemon Law and that is what he is requesting.

CC: Janet Charles

Letter Scanned and sent to SPOM

Open Date: 07/19/2005 11:26:44 **Agent:** kenneth fletcher **Phone** **Note Type:** PC
SPOM e-mailed the Assistant Service Manager and requested that he send the SPOM a chronology. (Service Manager is on vacation.)

Open Date: 08/03/2005 17:20:08 **Agent:** kenneth fletcher **Phone** **Note Type:** PC
SPOM spoke with Technical Specialist, Joe Ganske. Joe advised the SPOM that the software update for the command system will be available at the end of August.

The Technical Specialist also advised the SPOM that there is a control module and recalibration repair available for repairing the customer's right front seat alarm/chime issue.

Open Date: 08/03/2005 17:27:39 **Agent:** kenneth fletcher **Phone** **Note Type:** PC
SPOM spoke with the Service Manager and Assistant Service Manager. SPOM requested and the Assistant Service Manager agreed to call the customer to get him into the dealer for inspection.

SPOM also advised both Managers of the updated information for right front seat alarm concern.

Open Date: 08/11/2005 19:41:08 **Agent:** kenneth fletcher **Phone** **Note Type:** PC
SPOM received the following e-mail from the assistant service manager.

I did call him back, at your request, and asked him to be patient and wait until the end of August for the COMAND software update to come in. If after flashing the COMAND everything works well I let him know, as you said, that MBUSA would do something nice for him, like a 1 year warranty extension or a lease/months payment or something from the accessory catalogue. If the software is not available by the end of August then MBUSA would pursue a different avenue and possibly consider getting him out of the car and into another. I have not heard back from him as he is out of town, not sure when he is due back.

Open Date: 08/18/2005 01:30:16 **Agent:** kenneth fletcher **Phone** **Note Type:** PC
SPOM e-mailed TS, Jim Becker to see if the command software update will be available this month or next month.

Customer requested SPOM contact at 1-909-322-1341. Writer advised customer request can be forwarded but return phone call not promised.

Open Date: 07/29/2005 17:38:16 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** PC
SM to contact guest and request that MBUSA have a technical specialist do a thorough inspection of vehicle before a final decision can be made.

SPOM reviewed history with Service Advisor and SM. It appears that the root cause of the problem was the Weight Sensing System (WSS) in the right front passenger seat.

- The 1st repair made was to recalibrate the sensor.

- The 2nd time in the WSS control module was SPO'd. The customer took delivery of the vehicle until the WSS came in. The SRS light was reportedly intermittent.

- The 3rd repair was to install WSS control module that had come in SPO.

SPOM called [REDACTED] and spoke to him regarding his vehicle. SPOM to get last repair info from dealer 05145. SPOM to contact customer later in the week.

Open Date: 09/02/2005 21:33:31 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** PC
SPOM called customer about 6:30 pm to discuss possible buyback. Vehicle has about 24 days down not including repairs at 05101 (RO 770449. SPOM left message and will call customer next week from Atlanta.

Open Date: 09/06/2005 15:08:20 **Agent:** Carol Pantua **Phone** 4635 **Note Type:** PC
Writer received customer's letter (corr 277616) dated on 8/29/05 (before SPOM spoke with customer on 9/2) stating that failure to respond within 10 days of receipt of this letter will result in immediate legal action.

Customer requests again that their E500 be "bought back due to numerous mechanical and safety problems that we have experienced while owning this car. We no longer feel safe driving it. This automobile has unfortunately met the requirements of California's Lemon Law. The car has had the SRS system worked on 4 times, drive train worked 4 times (and counting), and it's been in the shop 30 days. We have corresponded several times with MB and have yet to receive an adequate response for such a serious matter. We are demanding that we receive an offer for a buy back of this vehicle. No response within 10 days of receipt of this letter will force us to take immediate legal action."

"Under Review" mailgram will be sent.

Open Date: 09/08/2005 11:57:35 **Agent:** Reina Rojas **Phone** 6367 **Note Type:** PC
Customer called requesting to speak with SPOM Brian, alleging she has been waiting for a call back from him. Writer advised customer I would forward her message but did not promise a call back. Writer left SPOM Brian a voice mail regarding customer request.

Customer, [REDACTED], contacted the CAC alleging she was involved in a collision with her vehicle on 07/12/05 at approximately 2:30 pm. Customer claims she was driving and her thirteen year old daughter, [REDACTED], was in the front passenger seat and her daughter's friend was in the rear passenger seat.

Customer claims she was at the intersection of Burberry and Rumson and the other driver allegedly involved in the accident passed out at the wheel and hit the customer's vehicle head on.

Customer claims the vehicle's airbags did not deploy and is requesting MBUSA inspect the vehicle to verify the functionality of the system.

Customer advised their is a police report and claimed she would fax a copy to the CAC. Customer further claimed all three occupants in the vehicle were wearing their seatbelts and alleges she has bruises, cuts and a neck injury and her daughter sustained a wrist injury as a result of the incident.

She advised the vehicle is currently located at dealer 56106.

Customer advised she has State Farm Insurance and indicated the claim # is 30V792665 and her adjuster is Frank Frabizio (888-326-0164 ext. 4010).

Previous CA Referrals:

Previous Summary Notes:

Owner's husband, [REDACTED], sent letter dated 7/17. In short:

"Our first problem came in middle of June. The memory seat function left the driver seat in a very poor driving position with the seatback in a semi-reclined position. After trying many things, we were able to get the seatback up in a safe position. We took the car to the dealer where the problem was diagnosed as a faulty motor in the seat back. We were promised a new motor the following week. That was June 22. We still do not have the part here for repair."

"Shortly after returning from the dealer on 6/22, as I went to use the car again a message appeared on the dashboard center. It stated there was a malfunction in the SRS restraint system and it should be serviced immediately. "

"I returned the car to the dealer the following day where the problem was diagnosed as a wiring problem inside or behind the steering wheel. I was told Mercedes was aware of the problem, was working on a correction, had nothing available at that time, but would have something soon."

"My concern is whether our SRS system will protect us at all if we have the misfortune of having to need it. One of the reasons for purchasing a Mercedes is its ability to protect passengers in an accident. We have been driving with this situation for nearly a month with no end in sight."

"I'm very concerned about our safety and the ability of our car to protect us. I do not feel we are driving a safe car under these circumstances."

Letter scanned & sent to SPOM.

[REDACTED] phoned the CAC requesting a replacement vehicle and express her disappointment with the quality of the above referenced vehicle.

Customer alleges the vehicle is "burning oil, the entertainment system blew out (malfunctioning) and SRS light was previously on".

"My car has been down for 15 days and constantly in the shop. I was told when it burns one more quart the engine will be replaced".

Writer advised customer we will review and document concerns, please allow several business days for communication to occur.

SPOM to review with SM on 8/5 visit.

Open Date: 08/05/2005 18:55:26

Agent: BRIAN BLOKDIJK

Phone 7322

Note Type: PC

First two SRS concerns were for the passenger seat weight sensor being too sensitive. Svc Advisor stated that the passenger seat weight sensor would activate with a bottle of water laying in the seat. The seat sensor has been calibrated twice.

The vehicle has recently begun an oil consumption test and the vehicle came back in during the test for an SRS concern. The clockspring has been replaced and the customer has taken the delivery of the vehicle.

SVC Director to contact customer and explain no decision can be made pending the put come of the oil consumption test.

Referral opened based on the Service Manager, Rob, information pertaining to this customer's experience with this vehicle.

[REDACTED] has contacted the CAC/Roadside Department several times because of electrical issues. According to our database, this customer has contacted MB Roadside on 6/18/05, 6/19/05, 7/28/05, 7/30/05 and 8/02/05. Presently, the vehicle is at the authorized dealer because it was towed in by our Roadside dept. because the SRS warning light was on. Rob, the Service Manager, claims this would be the 2x for the same issue (SRS warning light). Rob advised that customer is seeking documentations (i.e. repair orders, Roadside tickets, and Teleaid contacts). SM advised that customer is in the auto industry.

Rob, the Service Manager, explained that his tech is presently working on this vehicle. Dealer is awaiting parts from Germany (Battery Control Module).

Open Date: 08/04/2005 13:48:36 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
Note: According to our database, customer has owned a 2002 C320 and a 2003 E320.

Open Date: 08/04/2005 14:19:56 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
Writer called [REDACTED] to advised that our Service and Parts Operations Manager will be involved with reviewing the service history of this vehicle. Writer explained that MBUSA, LLC remains committed in honoring the terms of the Limited New Car Warranty and stands ready to provide the authorized dealers technical assistance.

Customer requested to speak with the Service and Parts Operations Manager directly.

Writer advised that his request is duly noted.

Open Date: 08/09/2005 15:41:20 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
[REDACTED] requested information about MB Roadside calls.

Writer consulted with Frank Berenz, Legal Counsel, who suggested that writer send him a letter indicating that we cannot provide copies of our records but can advise the days and times our records show that he made Roadside Assistance calls.

Letter sent.

[REDACTED] claims that his vehicle has been into the dealership three times for the SRS light being on, and twice for the rack and pinion. Customer claims he is driving the vehicle currently and he is allegedly having problems with steering, and suspension again.

[REDACTED] claims he spoke with the General Manager of the dealership and he claims that the GM stood up and threatened to kick his a**, and then allegedly spit on him. He claims the GM then banned him from the dealership.

Customer claims he picketed the dealership Thursday, however he wants his vehicle repaired at this dealership or he wants a new car given to him by them since this is where he purchased it. He claims he is taking the car there and "the dealership will have to call the police and have me arrested."

Customer claims he will have his attorney contact MBUSA and the dealer.

See the message below from the Market 1 Manager

Steve,

I Stuart Hayim (Dealer Principal) about this yesterday. The customer was evidently very irate and was threatening to attack Joe Abate (GM). The customer was screaming and yelling on the showroom floor and Stuart went up to him and asked him to leave the dealership. The customer declined. Stuart advised him that they would try to satisfy him however the customer continued to be uncooperative. Stuart called the police and had him removed. The customer then went home and got his friends and they set up a picket demonstration in front of the dealership.

Customer has multiple records but dedup function is not currently available.

Customer contacted the CAC regarding dissatisfaction with his vehicle. Customer claims the vehicle has been in the dealer more often than he's gotten to drive it. Customer stated that he wants this vehicle exchanged for a new model that is not defective.

Customer claims the vehicle was brought in for an air conditioning problem (there was warm air coming from the passenger side), there was a problem with his battery, and the SRS system. Customer claims that his service advisor Martin told him to call us. Customer stated that his 2 C Class models have not had these problems and he feels it is due to all the electrical components in the vehicle. Customer is requesting that MB take back this vehicle and give him another E class model.

Writer apologized to customer for his dissatisfaction. Writer advised customer his comments would be documented and forwarded to the regional manager for review. Writer advised customer this process can take several business days and his point of contact would be the dealer.

Note Type: RC

Writer reviewed service history and chronology of repairs @ 05718. Vehicle has been in for AC repair per DTB, battery control unit software update, easy entry-exit feature, SRS and Interior electrical connections on 5 separate visits over a short period of time. Writer feels that the service history does not support repurchase at this time but rather goodwill compensation for inconvenience. Svc Dir to contact cust and offer 2 monthly payments (\$1,598.20 total) as goodwill.

Copy of e-mail sent to SPOM:

Brian;

██████████ - referral 183097 out of Beverly Hills - called in.

He stated he was told by CAC rep on 8/30 to contact dealership about his vehicle; customer stated he spoke to "assistant GM Cameron" who advise him to call the 800# for information.

Customer stated he is refusing to pick up vehicle until he receives a "response," he threatened a lawsuit.

Contact information in referral ██████████

Regards,

Open Date: 09/01/2005 18:26:53 **Agent:** BRIAN BAE **Phone** **Note Type:** RC

Called customer and indicated that vehicle history was reviewed and that it didn't qualify for repurchase. Customer refuses to pick up the car and stated that his attorney says that vehicle is a lemon and demands repurchase or replacement.

SPOM explained the criteria for repurchase or replacement and stated that his vehicle clearly doesn't meet the criteria at this time because it doesn't have 30 cumulative days down or 4 repeat repairs for substantial impairment.

Customer stated, "Why should I have to drive this car until it qualifies? You called me up to argue with me!" SPOM stated that he is merely responding to customer's request to take back or replace the vehicle. Customer asked for SPOM's names, spelling, and contact number and stated that he would follow up with CEO Paul Halata.

Customer still refuses to pickup car and return loaner car.

Customer contacted the CAC alleging that the vehicle is in the dealer again for the SRS light.

The previous referral was just closed last week stating the issue was resolved. Customer claims he brought the vehicle in this past Friday again because the instrument cluster stated "SRS, visit workshop." Customer stated that he'd just gotten the vehicle back and had to bring it in. Customer stated he's extremely frustrated and feels the vehicle is a lemon. Customer stated it's currently at the dealer now and the dealer has not followed up with him. Customer stated that he thinks it's ridiculous that the service manager does not even speak to him or return his calls. Customer stated if this issue is not resolved he will exercise the lemon law.

Writer apologized to customer for the situation. Writer advised customer this will be documented and forwarded to the regional manager for review again. Writer advised customer this can take several business days.

Customer asked that if this time the regional manager could contact him. Writer advised that the regional manager is a liaison for the dealer and his point of contact would be the dealer. Writer advised customer writer could not guarantee any contact from the regional manager.

Previous Summary Notes:

Dedup function inoperative.

[REDACTED] called claiming that his vehicle has been at dealer 56106 seven times for an SRS light without a resolution. The customer was informed that if the SRS (Supplemental Restraint System) light comes on that the airbag system may be inoperative. The customer was also informed that the airbags might deploy when least expected or might not work when needed.

The customer also claimed that he had an issue with the battery light and so the dealer replaced the battery and alternator. The customer then alleged that he also had issues with the brake pads and ac to name some of the issues.

The customer then claimed that the dealer offered to get customer a replacement vehicle with a fee, however they decided to get rid of the charge. The customer alleged the vehicle offered does not come with heated seats and that is one of the features that he really enjoyed.

The customer then wanted to know the name of the Service Manager, Theresa Noto (temporary fill in), and SPOM, Joseph Gallagher. The customer was given the names. Writer then informed customer that his issues would be documented and reviewed by the appropriate parties and to keep in contact with the dealer Service Manager for updates. AT

[REDACTED] contacted the CAC and expressed that they believe this vehicle meets the VA Lemon Law criteria. Both customers stated that they would like MBUSA, LLC to review their concerns with the authorized dealer before they take legal action.

According to [REDACTED], this vehicle has been to the authorized dealer 3x because of an alleged issue with the SRS light. They claim that the alleged malfunction is outstanding and therefore feel skeptical about the quality of this particular vehicle.

[REDACTED] also talked about past repairs to the AC system and an alleged vibration concern that was resolved by the dealer. Nevertheless, he remains dissatisfied with the quality of this vehicle. See warranty claims history.

Internet Corres. No. 278154:

Hi, Arnold

Thank you for your time today. To reiterate our conversation, this is our second attempt to finalize our quality and mechanical issues with our 2005 E500 Mercedes. I have had mechanical issues since the day that I purchased it (November 20, 2004) from Mercedes of Tysons Corner. After multiple issues, we met with our sales representative and finance manager in August 2005 to try to come to a resolution. The finance manager did involve Mercedes corporate; however, there was no resolution proposed.

As of today, my SRS system has failed 3 times since purchase. Please let this serve as our final request for a resolution with my vehicle.

Regards,

[REDACTED]

Another email from this customer was sent to the writer:

Hi, Arnold

I understand that the local and national representatives started to review today the situation with my car. I was told that there has not been a final decision. I am requesting as a final and second(to the August meeting at the dealership) request that Mercedes buyback my vehicle for 100% of the purchase price.

Thank you for this consideration.

Alleged Unintended Acceleration

The following information was taken by Roadside Assistance Representative Ricardo Camacho.

"Customer [REDACTED] alleges he was stopped at a traffic light, with his foot on the brake, the engine revved up and the vehicle shot forward. Customer stated he was not involved in any accident but almost the vehicle in front on him if his foot was not firmly on the brake. Writer offered to have vehicle towed to the dealer and customer refused. Customer stated he turned vehicle off and on and it drove fine. Customer stated he will call his purchasing dealer to check if he can drive vehicle in today. Writer again advised to have vehicle towed and customer again refused. Customer will call purchasing dealer and call back RAP if he still needs assistance."

Writer opened referral to the Region as vehicle was not towed or presently at a Mercedes-Benz dealership.

Internet inquiry

"E-mail: ronr@schaeferstv.com

Comments: Mercedes Benz USA needs to be aware of a strange and very dangerous problem that I had today with my 2006 CLS500. I was stopped at a stop light in heavy traffic, Luckily I had my foot on the brake, the car made a clunk sound, (I thought that someone hit me) the next thing I knew, the vehicle accelerated, my tires squealed and my tach revved up, again luckily my foot was on the brake. I quickly turned off the ignition, and it stopped. I re-started and it was ok. I called the tele aid and they told me they could not do anything until Monday morning and not to drive it. I told them I needed to use my car and I was actually driving home at the time. I called the manager at the dealership, Bob Basse, at Husker Auto group and he told me to bring it in right away and he would give me a loaner car. I did that, and the car is at the dealership. The more I think about this, I feel how lucky I was that I did not hit any of the cars in front of me, or along side and injure someone, or my self. This was a very dangerous situation. I had noticed since I purchased this car in March, that it automaticly shifts hard, in fact it is the one thing that I dislike about the car. Three weeks ago I took the car in for service as the srs light came on, I told them about the problem shifting and they said they re-set the computer and it would be fine. It still shifts hard, jerking from a stop. I thought that that was the way it was. I feel, now that maybe that is part of the problem. Needless to say I'm very uncomfortable with this car right now. I feel that the car is a safety hazzard and that Mercedes Benz USA needs to be aware of this problem. Please advise

Technical Assistance Requested

Customer contacted the CAC alleging this is the 3rd time the above referenced vehicle will visit the work shop for a transmission malfunction.

"The transmission jerks. At what point does it become a Lemon".

"The dealer said they are unable to fix the transmission and call the CAC to open a case. Mercedes is aware of it however there is currently no fix, at this time".

Additionally, customer claims that the tire pressure monitoring system is currently malfunctioning and SRS light is on.

Writer advised customer concerns will be documented and reviewed, please allow several business days for communication to occur.

[REDACTED] sent email (corres # 279338) seeking technical assistance with alleged air conditioning concerns.

Customer's email:

"To Whom it May Concern,

My name is [REDACTED]

My client number is 137594 and VIN number is WDBUF56J66A [REDACTED]. If you have access to my profile, you can see that I took my Mercedes Benz E350 for service to the House of Imports in Buena Park, CA five times. I purchased this vehicle on 03/26/2005 from South Bay Mercedes.

The first time was on 04/23/2005. I had the Miles Out service performed and everything checked out fine.

The second time was on 08/23/2005. The SRS light came on and the air conditioner was leaking. The actual hose had a hole in it. The parts were not in stock so I had to wait for the parts and returned on the 30th of August.

The third time was on 08/30/2005. The AC was not cold and the hose was leaking. The AC hose was replaced, but the AC still was not cold.

The fourth time was on 09/08/2005. The engine light came on and the AC was not cold. The Technician found something wrong and corrected it. The AC had a leak. The AC still was still not cold.

The fifth time was on 09/22/2005. The Technician stated that there was No Fault in the system. I was charged \$54.49 to have a Technician tell me that the car is O.K. The Auxiliary fan is noisy when the engine is cold and the AC is placed in the Auto Mode. The noise is loud and almost unbearable. This is not O.K. I bought a car not an airplane.

I have owned many cars over the years and I know that this sound can not be normal. I have owned Lexus, Acura and BMW's all of them did not have this much trouble.

You may contact me at the following number [REDACTED] during regular business hours.

Thanks,

[REDACTED]

Writer contacted customer and he claimed "My air conditioning still doesn't work, I just want cold air, nothing more."

Previous Summary Notes:

[REDACTED] called CAC alleging he will invoke "Lemon Law" claiming he has taken his vehicle four (4) times for "low engine oil level" and three (3) times for SRS warning lamps on to dealer 80215 and issue remains the same.

Customer alleged vehicle was at dealership since 10/6/05 for repairs and allegedly received a call last night from dealer advising that vehicle was ready for pick up. [REDACTED] claimed "the first low engine oil warning lamp came on at 800 miles...the second time a couple of thousand miles...the third time at 5K miles and the last time at 10K miles... the low engine oil & SRS come on at different times so I have to take time from my customers to bring vehicle to dealer". Customer stated "in the state of VA if the same problem occurs 3 times the vehicle is a lemon...I already discusses that with my attorney". Customer then claimed that he is "very unhappy" with vehicle...that he wanted to purchase a "reliable and safe" vehicle and that if issue is not resolved, he will contact his lawyer and invoke the "lemon law".

Customer claimed he is picking up vehicle from dealer this afternoon.

Writer apologized to customer for inconvenience and advised I would document his concerns and share it with the appropriate individuals.

[Redacted] called the CAC.

Customer requests technical assistance for repair of SRS. light. Customer is also looking for compensation for down time

Customer alleges vehicle was repaired twice for this issue and dealer gave him the information for the TAC case they opened on last repair.

Customer claims SRS light is on again, has not called the dealer, wants dealer to come pick up the vehicle and bring him a loaner vehicle.

Writer advised that this service would have to be arranged through dealer, suggested customer call them, but customer wants dealer to call him .

Open Date: 10/18/2005 12:41:33 **Agent:** DAMON BLAKEMORE **Phone** **Note Type:** PC
SPOM spoke with SM regarding customer. SPOM directed SM to TAC. SM contacted TAC to alert them of situation. SM also spoke with TS D. Price. TS is scheduled to be at dealer for this customer concern on 10/25 or 10/26.

Open Date: 10/27/2005 16:38:59 **Agent:** DAMON BLAKEMORE **Phone** **Note Type:** RC
SPOM spoke with SM regarding customer. TS D. Price was at dealer on 10/26. He discovered a loose connection on the right rear airbag sensor. Connection was repaired and vehicle was released to customer on 10/27. Close.

Writer contacted customer at the suggestion of Roadside Team Leader, Mark Allen.

[REDACTED] claims the vehicle allegedly accelerated unintentionally while she was parking in a lot at her local grocery store. She stated that she was belted and the front vehicle was damaged because it hit the parking divider. She claims the airbags didn't deploy.

[REDACTED] stated that she didn't get injured. She is curious to know what actually happened because she believes the vehicle is at fault. She stated that she does not have a police report. She stated that she did contact her insurance company, Allstate, but didn't have a claim number at this point in time.

[REDACTED] stated that the vehicle is at Fletcher Jones in Newport Beach and the body shop manager is involved.

CORRES # 281428 is a faxed letter to Paul Halata.

Owner alleges her CLS500C is a "lemon". Owner alleges she has been for service 3x and had to make another appt. today for "new and recurring problems. It is so disappointing and frustrating to have to do this every other month. Something fair has to be done here. Not only do I have a lemon for a car but MB is not willing to help me and is asking me for more money for the lemon (in increase lease mileage)."

owner alleges when she purchased the vehicle the sales person suggested that she take 12k miles per year; states she is not happy with the 12k miles and wants to change it to 15k miles and was told by MBC that she has to purchase the extra miles.

Owner alleges upon purchase there was a chip in the paint on the front bumper. Owner claims "if MB is not willing to give me a new rental (which is basically what I want) and if they are not willing to compromise then I will write to every car magazine and newspaper until it is clearly understand that MB sucks. As President of MB, what are you willing to do for me....the customer...who brings revenue to the company and contributes to your paycheck. I await your response."

FOLLOWING EMAIL TO SPOM, CC: LEGAL A. ZEPH: Dear Steve, (& Anthony: FOR MBUSA ATTORNEYS INFORMATION ONLY): Scanned & attached above is Corres # 281428 from owner [REDACTED] who alleges her vehicle is a "lemon" and who wants the mileages terms of her MB Credit contract changed from 12k to 15k annually. Thanks for your attention to this case. Regards, Cynthia

EMAIL FROM SPOM: Cynthia, Below is a breakdown of the service history of this vehicle, I see no justification of any financial assistance for this customer. Please prepare the appropriate response to the customer and have Anthony review before mailing letter to customer.

MY EMAIL REPLY TO SPOM: Dear Steve, Per our department guidelines pertaining to Cases, CAC Reps are not to respond in writing unless owner requests same following SM or SPOM's verbal contact with owner relaying our position. That is to say, the response to the case, (per the mailgram sent to owner upon case opening) is supposed to come from "our local representative". Please confirm that you or SM have verbally relayed our position to owner and if owner requested that we put that response in writing. Thank you and have a good afternoon. Regards, Cynthia

Rallye Motors management reviewed the matter, since this customer is a first time Mercedes Benz owner they will make a goodwill offer to forward her the funds for the mileage increase in her lease agreement. Service Director contacted the owner to discuss the proposition from the customer and the customer was so taken back by the offer that Rallye Motors has exceeded my expectations and will buy many more vehicles from the dealer in the future.

[REDACTED] phoned the CAC requesting MBUSA assistance in repairs to this vehicle. Customer alleges, "If I have one more problem with this car, I don't want it back." This is the [REDACTED] 3rd MB.

[REDACTED] alleges that she has experienced 3 malfunctions with this vehicle in the last 3 weeks. Customer alleges 3 weeks ago, check engine light came and Autohaus replaced pump. Customer alleges this week, vehicle was brought to dealer because SRS light came on. Customer alleges that she has ongoing stalling issue with vehicle that dealer has not been able to repair yet.

Customer stated that she is very concerned about SRS malfunction as there are no working traffic lights in her county (no power due to hurricane) and there are frequent accidents.

Writer apologized for her inconvenience and advised that her concerns would be reviewed.

[REDACTED] called and claims that his wife was "in a Fender Bender last Tuesday" and the airbags did not deploy but allegedly his "wife heard a spark. I know it's the bang when the airbag is supposed to deploy, but it didn't." [REDACTED] believes that airbag malfunctioned and though it was released, the bag did not deploy. Customer claims that no one was hurt and his wife is continuing to drive the vehicle now under such conditions and he would like to know why the airbag didn't deploy.

Customer claims that he intends on calling Centennial's auto body vendor, but requests that MBUSA inspect vehicle and answer why airbag did not deploy.

Writer advised customer not to drive vehicle further since he believes airbags are malfunctioning and advised him to make an appt with the dlr's auto body vendor for repairs. Writer advised customer to speak with SM Bill McKissick (Dir Receptionist advised that they do not have a current SD and Bill McKissick could assist), since customer claims not to have spoken with dealer yet.

Writer advised that concern would be documented and reviewed. Customer claims he will call SM Bill McKissick now. Writer called and left a vm with Bill McKissick regarding customer's concern and imminent contact.

Gary Bowne emailed SPOM today and stated:

Hi Larry,

Please have the dealer check this vehicle for ETR deployment. They should also inspect the undercarriage for damage. Please call me to discuss after you hear back from the dealer.

Thanks,

Gary H. Bowne
Department Manager
Product Compliance, Analysis & Safety Engineering

[REDACTED] sent 2 page letter to Paul Halata dated 11/3/2005 via UPS (received @President's office 11/7-forwarded to CAC today)

Customer goes over history of repair & expresses her dissatisfaction with many issues (brake replacement, the type of loaner cars dealer has offered, leak in back trunk seal, SRS malfunction, etc.)

"I ask you, how could I ever sell this car and say to a buyer "its been a great car." I have been very loyal to Rusnak and Mercedes both over the years, purchasing several Mercedes, and have had them serviced at Rusnak."

"Here is what I want."

1. "For Mercedes-Benz to do the right thing."

2. "I want to be reimbursed for 2 car payments, the time I have without my car. I am paying for an E500. My Monthly payments are \$1,530.43; that's \$3,060.86. My time is worth something too."

3. "I have no confidence in the car. It is a lemon; you should take it back"

"I look forward to hearing from you."

[Redacted] called CAC requesting to have vehicle replaced, alleging ongoing electrical problems. Customer claims vehicle is going into dealer tomorrow for the 3rd time for SRS system malfunction and also burning odor from vehicle.

Customer claims vehicle has been in service 1-1/2 months out of the 11 months of ownership and is concerned about "longevity" of vehicle and expressed concerns of possible "burn up" of engine.

Writer apologized for his frustration, advising comments/concerns would be noted and forwarded to appropriate parties for further review.

Technical assistance requested as per customer.

[REDACTED] called claiming that she had her vehicle serviced at Keyes European and now at MB of South Bay due to SRS light which appeared 5 times. The customer claimed that the dealer replaced the sensor, however it continues to appear.

Writer advised customer that the SRS (Supplemental Restraint System) light represents that the airbag system may be inoperative. The customer was also informed that the airbags might deploy when least expected or might not work when needed. The customer did not want a tow instead customer will drive to the dealer.

Writer advised customer that her issue would be documented and reviewed by the appropriate parties. The customer was then informed to keep in contact with her dealer Service Manager for updates. AT

Writer received Attorney [REDACTED] letter (corr 283334) which states that he has been retained by Mr. Gary Stift to "enforce his legal rights regarding the lease... The subject vehicle has suffered from serious defects and nonconformities to warranties such that, in just 9 months and 7,336 of use, there have been 4 separate repair attempts for vibration / N.H.V, 3 for transmission system, 2 for alignment, and 2 for SRS/airbag, as well as other repairs."

Customer's Attorney cites Song Beverly Consumer Warranty Act, CA Civil Code, and claims that "Gary Stift is willing to return the vehicle and settle this matter for a repurchase, including restitution in the following amount: \$26,097.08," which includes 1st payment of lease inception, 9 monthly payments, attorney fees, and Less use of 221 miles.

Attorney [REDACTED] states, "If I do not hear from you by 12/16/2005, I shall assume that MB of North America is denying its obligations under the law and Gary Stift will be left with no choice but to initiate legal proceedings."

Writer scanned letter and emailed the letter and Referral Notes to Yvette Chang & SPOM.

Roadside Call # 337 0872

Technical assistance requested due to customer's multiple vehicle malfunctions with the same issue.

[REDACTED], who is the owner of Multiple Industrial Corporation, claimed that he is driving to the airport to pick up his daughter and his SRS light appeared. The customer claimed that this is the 3rd time that it came on after being serviced at MB of Rochester.

Writer advised customer that the SRS (Supplemental Restraint System) light represents that the airbag system may be inoperative. The customer was also informed that the airbags might deploy when least expected or might not work when needed. The customer declined having the vehicle immediately towed instead he wanted me to set up a tow when he gets home. Writer will have vehicle towed to MB of Rochester.

Writer advised customer that his issue would be documented and reviewed by the appropriate parties. AT

Open Date: 11/23/2005 12:51:05 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

[REDACTED] mbos phoned the CAC wishing to express his continued dissatisfaction. "The dealer picked my car up last night and told me that the part on order did not arrive however it should arrive by Friday of this week. I explained that there is a rattle behind the dash and the dealer told me they hope to fix the SRS malfunction by Friday. Why are they not able to repair the rattle?"

Writer explained that the dealer is independently owned and operated we will document concerns sharing with dealer management.

Customer then became aggressive and combative towards the writer screaming "why did the dealer let me drive a car with an SRS problem?" Writer explained we are unable to speak for the dealer as they are independently owned and operated and were not present. "Do not even go down this road with me, I want to speak with a Supervisor". Writer explained there are no Supervisors available, customer disconnected.

Open Date: 11/30/2005 09:48:41 **Agent:** DAMON BLAKEMORE **Phone** **Note Type:** PC

SPOM spoke with SM regarding customer. Customer brought vehicle in for SRS light issue. Dealer opened TAC case and was advised that he needed to replace SRS pigtail wires, which they were going to send. Somehow or another the wires were not sent as promised last week. Parts arrived via Fedex on Wednesday, 11/29/05. Repairs were performed, but vehicle now has a problem with passenger seat calibration concern. There is DTB out for this issue, but part is on backorder. Dealer waiting on part to complete repairs.

Open Date: 02/09/2006 15:01:26 **Agent:** DAMON BLAKEMORE **Phone** **Note Type:** RC

SPOM spoke with SM regarding vehicle. Dealer performed updated wiring to correct SRS issue. They also replaced dash to resolve noise problems as well. Close.

Corres # 283719 sent via Certified Mail postmarked 11-23-05, CAC rec'd today. See closed Case 185996. Owner alleges 3 service visits for SRS light. Owner writes "my dealer has set up an appt. for Friday, Nov. 25 for me to bring the car into service in Palm Beach, at which time I am invoking my rights under the Lemon Law. I have been a devoted MB customer for more than 20 years and have never had a problem with any of my vehicles. I am hoping that this situation will be remedied."

On 11-29-05, I left a v-mail for 14323 SM Mike Destefano w/ request he review this sum note & call me to confirm if repair was performed on 11-25 appt. & any other pertinent details. I sent following email to SPOM WN , cc: Mark Kelly: Dear Bill, (& Mark: FOR MBUSA ATTORNEY'S INFORMATION ONLY): Scanned & attached above is Corres # 283719 from Bonnie Perlin - SUM 978054 - see closed case 185996. I have left a message for update from 147323 SM Mike. Please review & advise if I should open another case or, if Mike advises me that the SRS light has been repaired , do you want me to write to owner? Regards , Cynthia

SM Mike called and reports that states Shop Forman and Tech Service mgr are involved with TAC. Wiring Harness is coming from TAC. Car is still at dealer. Owner has been updated daily.

I sent following email to SPOM and Legal: Dear Bill (& Mark - For MBUSA Attorney's Information Only): Scanned and attached above is Corres# 283719 from [REDACTED], New Case 186225 notes are copied below. Also below, is the Mailgram that need to be sent to customer. Can you please provide me (within 24 hours) with the pertinent information (underlined text) so we may update the letter and send it out. Thank you in advance for your attention to this matter. Regards, Cynthia

Customer is requesting a full review of his service history for this vehicle and add that this vehicle was a replacement for a 2003 E320 which also experienced unacceptable amounts of service visits.

Currently the vehicle is allegedly experiencing issues with the seat belt indicator light coming on and beeping even though no one is in the passenger seat.

Customer stated that 2 weeks prior the vehicle had been in for the SRS light being on.

Customer is requesting a direct call from our regional manager and "not a form letter from MBUSA" Customer is very dissatisfied and wants to know what MB is going to do about it now since replacing the vehicle has not helped.

Open Date: 12/01/2005 15:14:12

Agent: MIKE WILLARD

Phone

Note Type: RC

Writer and PSD Bob Teunisen called customer and went over concerns about repair history. Customer is back 3rd time for SRS problem and is frustrated because of extra mileage from vehicle and vehicle not being repaired. Customer was appreciated of first time being taken out and of other goodwill. Customer wanted to know if because of these problems if any consideration can be given in 8 months when his lease is up to go to another model. Writer told customer that he would give monetary help for this endeavor and also help if he comes over mileage in lease. The help for this would be the times mileage was put on the vehicle for warranty repair to the dealer. Customer agreed to this and wanted this in writing. Writer told customer that usually this record in Fastracc is enough but this one time he would have the company right him a letter stating that monetary help to get into another vehicle (both customer and writer agreed a dollar figure cannot be given at this time) and help if mileage on his lease is over and that MBUSA would help by paying the mileage on his visits for warranty repair to the dealer. Customer was satisfied for the call and the help.

Trigger - 11/05

Writer called [Redacted] and spoke to customer who stated his vehicle has been at the dealer three times for an airbag system malfunction. Customer stated this could cause serious injury or death and customer has already spoke to a lawyer regarding this matter. Customer stated he will give MB one more chance to resolve this matter before he takes legal action. Expects we will resolve this once and for all.

Writer advised customer his comments would be documented.

Writer forwarded to TL for further handling.

I received corres. no. 284886 which is a FL Motor Vehicle Defect Notification dated 12/14/05 and received at the CAC on 12/19/05.
Letter arrived via Certified Mail.

According to Katie Rosser (driver) the vehicle allegedly has been to the dealer 3x because the SRS warning light has appeared in the instrument cluster.

The customer concludes the letter by stating that she can be reached at [Redacted] or [Redacted].

I scanned the correspondence and sent it to the SPOM and Mark Kelly, Legal Dept.

Open Date: 12/19/2005 17:17:22 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
I email Bill Norman the FL Mailgram for his review so that the CAC can respond.

Open Date: 12/19/2005 17:58:10 **Agent:** WILLIAM NORMAN **Phone** **Note Type:** PC
SPOM sent CAC appointment date and time of 01/04/05 at 10:00 am at Fort Lauderdale for mailgram to be sent to the customer.

Open Date: 12/20/2005 10:06:29 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
Mailgram sent.

Open Date: 01/04/2006 15:26:13 **Agent:** WILLIAM NORMAN **Phone** **Note Type:** RC
SPOM inspected vehicle and had shop foreman assigned to diagnostic process of repair. Will follow repair process as set out by FRA and FL.L.L.

TECHNICAL ASSISTANCE REQUEST.

[Redacted] claims she has visited Penske Motors allegedly 4x because the SRS warning light appears on the instrument cluster. She stated that the vehicle is presently at Penske Motors and they have provided alternate transportation.

[Redacted] expressed her concerns about the quality of this vehicle. Therefore, she would like the intervention of Mercedes-Benz USA to provide whatever technical assistance that may be required in order for her dealer to ultimately resolve this alleged outstanding SRS issue.

Open Date: 12/22/2005 11:57:28 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC

██████████ called and rehashed the above. She claims that she had to call the dealer for an update, instead of the other way around. Customer claims the dealer has ordered parts to repair the SRS issue and that they may arrive next week at the dealer. Customer expressed her urgency to have this repaired as quickly as possible.

I assured the customer that the appropriate parties are involved and encouraged her to keep in touch with the Service Manager at Penske Motors.

Customer called the CAC in reference to his 2005 E320CDI. He stated that his vehicle has had numerous issues and the vehicle has been at the dealership for 3 weeks and has no ETA on when it will be returned to him.

He said that the vehicle is there for a fuel leak from the fuel filter, he said that it has had issues with the suspension, horn, SRS system, instrument cluster and brakes.

He said that he never drives the car as it is always in the shop, he said that he does not want the car anymore and "believes he has a lemon".

Writer apologized for the inconveniences and informed him that he will document and forward his concerns.

Owner states she is "not happy with this car, I believe we bought a lemon. I am also not very happy with the service, they seem content to send us on our way and tell us to wait until the oil light comes on again. I do not feel safe driving this car, especially with my child in the car." Owner claims she has been to dealer 2x for low oil light and was told to wait again for the oil light to come on again. Owner states vehicle is currently at dealer for SRS light, seat belt repair. Owner expresses discontent that she was given a "Ford Taurus to drive when I am paying for Mercedes. I should not have to be involved in your diagnostic process, I should not be told to drive a car and wait for it to break again. I spoke with the Service Manager Brian Tran, he was very confrontational and rude, he is not good at customer service. I do not want to talk to him anymore, so I have asked for his Supervisor to call me back." Owner claims that SA Hans has been "very nice, but I was not happy to hear him say that he agrees that the car burned too much oil on the test drive and he thinks the car is going to need a new engine. I have a long trip to take and I do not want to take it until I am guaranteed that this car is fixed." Owner seeks immediate follow up.

Open Date: 12/27/2005 13:17:40 **Agent:** Arnold Almaguer **Phone** 4621 **Note Type:** PC
Shannon, the Service Manager, advised that dealer is performing the oil consumption test path listed in the DTB.

As for the SRS. Dealer received the harness today and expect to repair it by the end of the business day.

Open Date: 12/27/2005 13:56:01 **Agent:** Joseph Leonardi **Phone** 6255 **Note Type:** PC
Brian (SM) Called and stated that customer will be calling the CAC. Writer informed him that the customer has called and a referral had been opened.

He said that they are working on the oil consumption issue and the SRS issue should be resolved shortly.

Open Date: 12/27/2005 15:03:08 **Agent:** Honora Duffy **Phone** 6307 **Note Type:** PC
[REDACTED] called again wanting to know "how I can file complaint about being treated rudely by General Manager & Service Manager".

I confirmed that as a result of her original call, MBUSA is going to address any technical issues she may be having with vehicle, but since dealer is privately owned, dealer would have to address how she feels about being treated by their individual employees.

Open Date: 12/27/2005 15:51:25 **Agent:** DONALD ZINDA **Phone** **Note Type:** PC
Will review with the dealer to address the clients concerns.

Open Date: 12/27/2005 15:54:11 **Agent:** DONALD ZINDA **Phone** **Note Type:** PC
Case transferred to Portland from Wilsonville.

Open Date: 12/27/2005 18:50:25 **Agent:** DONALD ZINDA **Phone** **Note Type:** PC
Reviewed with Shannon, car is at Wilsonville.

Open Date: 02/08/2006 19:02:46 **Agent:** DONALD ZINDA **Phone** **Note Type:** RC
The parts to repair the SRS came in and [REDACTED] has her vehicle back as of December 28, 2005. The oil consumption concern is noted but does not meet Mercedes Benz requirements for excessive consumption.

Brian Thran
Fixed Operations Manager
Mercedes Benz of Wilsonville

Received a letter via regular mail on 12/29/05, dated 12/22/05 from William R. McGee, Esq. post marked 12/22/05.

Mr. McGee is representing [REDACTED] under California Lemon Law and is alleging this vehicle has been out of service for over 41 days since delivery for alleged numerous defects and non-conformities, there are no specifics given.

Mr. McGee states his client is willing to return this vehicle and settle this matter for a repurchase of the subject vehicle and restitution in the following amount:

Down payment.....	\$30,000.00
13 Monthly payments.....	6,999.20
2006 registration fee	TBD
Less use of 1,720 miles.....	(776.95)
Attorney's fees.....	3,000.00
Total	\$39,222.25

Attorney states if he does not hear from MBUSA by 1/22/06 he will initiate legal proceedings.

Copy of referral to Janet Charles
Copy of letter to Maarco Fletcher and FYI to JC

Open Date: 01/03/2006 18:55:22 **Agent:** kenneth fletcher **Phone** **Note Type:** PC

SPOM discussed the matter with Service Manager and decided to buy the car back because the car appears to have been down for more than 30 days and had 2 SRS light repairs.

Open Date: 01/03/2006 19:02:21 **Agent:** kenneth fletcher **Phone** **Note Type:** RC

SPOM left a message for William McGee advising that he would be buying this car back. SPOM requested that the attorney fax the sales contract for this customer's car.

Mr. McGee is on vacation until January 9, 2006.

[REDACTED] called writer directly.

Customer complains that vehicle has been at the dealer twice since his last contact to the CAC (see previous referral) and issues with battery draw persist.

He states that there is an electrical defect in the vehicle that has caused problems with the SRS, the audio, and other systems which ultimately lead to a dead battery. Customer is extremely frustrated. He states that the dealer has changed out many electrical parts and issues persist. Customer states "the dealer is unable to make a permanent repair".

Customer wants MBUSA to revisit his request for a buyback.

Customer also advised that he has dealt with 6 different service reps. Before speaking with me he claims he tried to call the head tech, Gus Wessel.

Writer advised customer to speak with the Service Mgr directly. Customer requested that I call the SM on his behalf and fill him in before he calls SM directly.

Open Date: 12/30/2005 13:13:57 **Agent:** Maria Cruz **Phone** 4604 **Note Type:** PC

Writer left voice mail message for Ron Yanni advising of the above.

[REDACTED] phoned the CAC seeking MBUSA involvement and possible repurchase of the vehicle due to alleged "electrical and quality" concerns.

Customer claimed, "The first week I owned the car, the check engine light came on and the dealer had to replace the glow plugs. Now, the gas gauge flashes on and off, the radio randomly blasts, and the SRS light has come on. I am afraid to drive the car with that light on and I have a bad feeling that this car is a lemon. I would like to be traded out of this car and into an identical one, with out all of these issues."

Customer claimed, "I had a 1982 300SD for sixteen years, traded that for a Lexus, and now I'm back, but if your vehicles are all like this, I'm not sure if I've made a good decision. This is a brand new car and it's having all of these issues."

Customer is requesting MBUSA involvement and possible repurchase of the vehicle due to alleged "electrical and quality" concerns.

Customer left an irate voice message on writer's voice mail claiming, "the car is at Greenway now and they gave me a loaner, but they said it will be a week to get the part in!"

Customer claimed, "I want to know how quickly and how much I have to pay to get out of this car NOW! I am absolutely furious with this purchase and the whole experience! You tell the person in charge, the regional manager, I want a call NOW!"

Writer forwarded customer's comments to SPOM Frank Oswald to advise.

Open Date: 01/13/2006 14:30:30

Agent: Mark Sluscavage

Phone 6234

Note Type: PC

Writer phoned SPOM Frank Oswald to advise him of customer's allegations.

SPOM advised writer at this time repair history does not support repurchase or trade assist.

SPOM advised writer that if customer wishes to trade out of the vehicle, she may speak with the general sales managers at either Greenway or Sugarland about this.

Writer phoned Service Manager Cyrus to check status of the vehicle.

Cyrus advised writer the vehicle needed parts 001 540 8805 (electrical cable in steering wheel) and 002 546 1341 (connector clip)

SM advised these parts came in today and the vehicle will be repaired today or latest Monday.

Open Date: 01/13/2006 19:10:53 **Agent:** Mark Sluscavage **Phone** 6234 **Note Type:** PC

Writer returned customer's call and advised her of SPOM's notes (above.)

Customer claimed, "I will go back to Sugarland before I put more miles on the car and see if we can work out a deal. I really do not want to pay more money for another car because of all the problems this one has had, and I would like to transfer the extended warranty to the new one as well."

Customer claimed she had purchased "three years and up to 75,000 mile, manufacturer backed warranty."

Writer checked vehicle in VMI, and there is no ELW.

Customer claimed, "The sales rep Ken, at Sugarland told me that Mercedes-Benz does not offer extended warranties and sold me this one! He did not even offer me one or tell me anything about it! I specifically requested a Mercedes-Benz manufacturers extended warranty and he assured me that this one was! That was a blatant lie!"

Customer claimed, "I now want a replacement vehicle and I want to buy a Mercedes-Benz extended warranty."

Customer requested writer, "Call the sales managers at Sugarland and tell them about my issues and requests so they know when I come back there."

Writer advised customer her comments will be noted and writer will call the sales manager at Sugarland to advise him of customer's requests.

Open Date: 01/13/2006 19:23:34 **Agent:** Mark Sluscavage **Phone** 6234 **Note Type:** PC

Writer sent an email to Market Manager Matt Messerly to advise of customer's allegations at time of sale.

Writer left a voice message at customer's request with Howard Rich, Sales Manager at MB of Sugarland, to advise of customer's allegations and requests.

Open Date: 01/17/2006 11:03:07 **Agent:** Robyn Letz **Phone** 6209 **Note Type:** PC

Customer called again demands a call from Mercedes manager today at 713-594-2228.

Writer forwarded message to Frank Oswald by e-mail.

Open Date: 01/17/2006 14:00:00 **Agent:** Mark Sluscavage **Phone** 6234 **Note Type:** PC

Customer left an irate message on writer's voice mail claiming, "Greenway told me the car would be ready today, then they call me back and tell me a part is on back order and it will not be ready for at least a week! I was nice before, but now I'm furious! I want a manager, someone in charge, to call me back now!"

Writer phoned SM Cyrus to advise of customer's allegations of back ordered part.

SM advised per SPOM Frank Oswald, and a NetStar bulletin, the part customer's vehicle needs, can be repaired.

Open Date: 01/17/2006 16:41:49 **Agent:** Mark Sluscavage **Phone** 6234 **Note Type:** PC

Customer called back claiming, "No one has called me back! I want the regional manager to call me- I need some kind of communication! I am absolutely furious at the lack of communication from Mercedes-Benz! If I were a man, this wouldn't be happening! Because I am a woman, I am being ignored! MBUSA needs to stand behind their product and get me into a car that is not at the shop all the time!"

Customer claimed, "I will not accept that car back! When I go back to the dealer, a new one better be waiting there, because I will not get back into that Lemon!"

Customer claimed, "I want a full refund for the junk aftermarket warranty Sugarland made me think was a manufacturer's warranty! I will not take that car back!"

Writer advised customer her comments will be noted and that her request for "immediate contact" with the regional manager will be forwarded.

Customer demanded the regional manager's phone number. Writer respectfully declined.

Customer claimed, "If this is not taken care of today, I will go to an attorney!"

Open Date: 01/17/2006 16:48:03 **Agent:** Mark Sluscavage **Phone** 6234 **Note Type:** PC

Writer phoned SPOM Frank Oswald to advise of customer's allegations and request for contact by "someone in charge."

Open Date: 01/17/2006 17:19:21 **Agent:** FRANK OSWALD **Phone** **Note Type:** RC

to called customer, advised that MBUSA is not in a position to replace the vehicle, but will honor the limited new vehicle warranty and repair the car. Selling dealer will have to straighten out the ELW (aftermarket) situation. Customer is unreasonable in demanding a new car.

Open Date: 01/17/2006 17:29:15 **Agent:** FRANK OSWALD **Phone** **Note Type:** RC

Sugarland dealer offered loaner car , offered to pick up and deliver a loaner car. Customer refused, stating she was taking car to Greenway. Now she states Greenway wants to get her into another car. I advised that more than likely, there will be a charge to trade cars, and that MB Sugarland needs to handle the aftermarket warranty concern. Howard Rich of Sugarland to call about that situation.

[Redacted] called the CAC.

Customer requests repurchase of vehicle under terms of CA Lemon Law.

Customer alleges vehicle has been at dealer 3 times for SRS issue.

Customer says vehicle is at dealership today for this issue.

CC: Janet Charles

Open Date: 01/11/2006 13:08:34 Agent: CHRISTOPHER CARTER Phone Note Type: PC

Contacted the service manager, asked him to pull the repair history and contact me back.

Open Date: 01/13/2006 15:40:23 **Agent:** Kristin Kapr **Phone** **Note Type:** PC

Customer called the CAC very upset that he had not be contacted back.

Customer stated "My wife and I do not feel safe driving this vehicle. This vehicle is considered a lemon and you people are not doing anything about it. I contacted and attorney and he advised me after three times something is not correct this is a lemon. I am going to sue you if you do not take this car back and give me a new one with no problems.

If you do not do this I am going to get a crane and park it in front of my house and hang the lemon vehicle off of the crane. I will also be contacting the county news paper. I will do this if no one calls me back about my vehicle."

The writer advised this information is still under review. The writer advised she can put a request for a regional representative to contact the customer back but can not guarantee the call back.

The writer advised the customer all comments and concerns will be documented and forwarded to the appropriate parties.

SPOM sent the following email to SD Joe C today:

Joe-

Can you please contact this owner () and schedule a Final Repair Attempt ? He has offered this to us (SEE HIS ATTACHED LETTER) and therefore we should jump on this opportunity and hopefully put his alleged issues to rest.

Please advise when he is scheduled to come in.

thanks,
EE

SPOM received the following email today from SD Joe C at Bridgewater:

" Eric,
I had the BDC try to contact this client to arrange an appointment. Lavine left a message.

At this time we are waiting for a return call from the client to schedule an appointment.

When the appt is set I will let you know.

Joe Carannante
Director of Service & Parts Operations
Millennium Mercedes-Benz
Office (908) 685-0800 ext 228 "

Open Date: 01/20/2006 15:46:36 **Agent:** ERIC ERDENBERGER **Phone** 7525 **Note Type:** RC

SPOM recived the following email today from SD Joe C:

Eric,

just contacted the BDC to cancel his appointment to have vehicle repaired. He states there is nothing wrong with his vehicle at this time.

Joe Carannante
Director of Service & Parts Operations
Millennium Mercedes-Benz

SPOM then sent the following email to MB Atty Anthony Zepf and then closed this case:

Anthony-

Please see note just received from SD Joe C below. Looks like we successfully called his bluff ! Can you please send him a letter documenting the fact that his Lemon Law claim is now null and void.

thanks,
EE

Attorney sent demand letter.

Attorney, Alex Cha, sent a demand letter dated 1/20/06 to MBUSA/CAC via FedEx (8525 8953 5175) received in Customer Relations 1/23/06 with copies of purchase agreement & repair invoices.

Attorney advises that he represents [REDACTED] in regard to his 2005 E320 and that pursuant to the Song-Beverly Consumer Warranty Act demands repurchase of the vehicle. Attorney alleges SRS light malfunction.

Attorney demands:

*Down payment - \$10,000.

Monthly Finance payments - \$13,104.96

Registration fees - \$600.

Attorney Fees - \$4,500.

Total: \$28,204.96

Attorney advises that if this demand is not resolved within 10 days of this letter, they will file a lawsuit against MBUSA and the dealership for negligent repair.

[REDACTED] contacted the CAC expressing complete dissatisfaction with his vehicle.

Customer alleges since purchasing the vehicle, it has been into the dealer every 4-6 weeks for a variety of issues.

Customer alleged to have issues with the following:

exterior lighting, door ajar light on constantly, SRS light (4 times), automatic trunk closer inoperable, sun shades, and sunroof inoperable.

Customer claims most recently he had his vehicle towed in this past weekend because his instrument cluster stated "brake defective." Customer stated he loves the vehicle but is sick of having to bring it in constantly. Customer stated he is seeking the same model, "but one that works."

Writer apologized to customer for his dissatisfaction. Writer advised customer his comments would be documented and forwarded to the regional manager for review. Writer advised customer this would take several business days.

[REDACTED] called via EXECUTIVE HOTLINE and requested the involvement of our President and CEO, Paul Halata

[REDACTED] stated that "he no longer wants this vehicle because he doesn't feel safe in it". He stated that he wants it "bought back".

[REDACTED] stated that since the SRS is an important system, he called his states' Attorney's General Office. He claims that he will be visiting them on 2/9/06.

According to [REDACTED], the SRS warning light has allegedly been brought to an authorized dealers attention 7x. Presently, the vehicle is at Mercedes-Benz of Sarasota (He stated since 1/21/06).

[REDACTED] claims to have spoken to the Service Manager at MB of Sarasota. He explained that John Clark, of Autohaus Pompano, was allegedly going to contact MB of Sarasota. He claims the SM stated he never heard of John Clark and never spoke to him. [REDACTED] claims the Service Manager at MB of Sarasota told him that "he doesn't know where his car is". [REDACTED] stated that was the "last straw", He stated that he immediately threatened to call the police if the dealer didn't tell him where the car was.

After this alleged interaction with the Service Manager at MB of Sarasota he received a call from his advisor, Brian O'Connor. He stated that the advisor informed him that the dealer ordered parts for his vehicle to be repaired. [REDACTED] is dissatisfied because he claims to have heard conflicting information from the Service Manager and that is why he "lost it".

[REDACTED] also expressed his extreme dissatisfaction with his interactions with Brian Finnegan (GM) and his assistant, Nancy, at Autohaus Pompano. The customer stated that about 2 months ago they allegedly had a conversation to possibly trade him out of this vehicle. He stated that he was "insulted" when they offered an E350. He stated that he is an owner of an E500 and that is the vehicle he is most interested in. The customer also described Nancy as being "discourteous" to interact with. He claims he left 4 messages with Nancy and Brian and allegedly never received a return call. [REDACTED] stated he called Autohaus again today and Nancy allegedly denied that she was to call him back.

[REDACTED] also claims to have left messages with William Norman. He stated that he was advised to allow a final repair attempt to occur.

[REDACTED] described his overall experience with this vehicle, Autohaus Pompano & MB of Sarasota, and MBUSA as being a "complete nightmare".

Customer sent letter addressed to:

Ms. Patrice Malloy

Office of Attorney General

Lemon Law Arbitration Program

110 SE 6th Street

10th Floor

Fort Lauderdale, Florida 33301"

Customer CC'ed MBUSA.

Customer references concerns with SRS light, customer claims to be awaiting decision from Ms. Patrice Malloy on February 9, 2006.

cc: William Norman and Mark Kelly

Open Date: 02/02/2006 15:50:17 **Agent:** LARRY STAINS **Phone** **Note Type:** PC

Per MB of Sarasota [REDACTED] contact their BDC for an appointment on 01/21/2006 and it was scheduled for Service Advisor Mr. Brian O'Conner. The SA greeted owner who advised he was traveling in the area and that the SRS light was on. He indicated that the SRS had been a problem at Autohaus Pompano, 15317, where he had filed a Lemon Law complaint.

[REDACTED] advised Mr. O'Conner that he had been in contact with 15317 with a Mr. Louis Deustch who advised him to rent a car to return to his residence if the vehicle could not be repaired on Saturday. The vehicle diagnosed and found that it needed parts that were currently on back order. [REDACTED] was advised and he indicated Autohaus Pompano would send after the vehicle to tow it back to their Dealership. [REDACTED] rented a vehicle and returned to his residence on the East Coast.

As the vehicle was to be picked up and taken to 15317, Mr. O'Conner closed out the ticket on 01/21/2006. SA advised the Dealer Service Director Mr. Joe Rice of the matter as [REDACTED] indicated 15317 would contact him on Monday 01/22/2006.

No additional action occurred until 02/01/2006 when the Service Manager of 14125, Mr. Joe Kordick received a call from [REDACTED] wanting to know where the vehicle he left for Service was. Mr. Kordick indicated he was not aware of his vehicle but checked the open RO's and saw no open RO, advised owner of same. Before Mr. Kordick could check in other areas [REDACTED] became quite upset alleging the vehicle was stolen and that Mr. John Clark, Service Manager at Autohaus Pompano knew all about it and should have handled it. At that point Mr. Kordick committed to research the matter and get back with the owner. The owner threatened to call the police and report the vehicle stolen and terminated conversation.

Mr. Kordick found the vehicle and the closed RO with keys at his Dealer. He contacted Mr. John Clark to discuss the matter and was advised he was of the opinion that the owner was handling the tow.

This SPOM verified the above, verified the SRS light is currently on and noted that MBUSA completed a LLFRA for SRS issues on 12/18/2005 at Dealer 15317. I contacted Mr. Clark at the dealer regarding the matter and he confirmed the LLFRA and that he had spoke with the owner but was under the impression that the owner was having the vehicle towed, not his dealer. He went on to indicate he does not intend to pay for a tow.

This SPOM will review matter with individual currently handling 15317 and note findings to Referral.

Customer called back regarding the issues with her vehicle. Customer claims the following items are still outstanding: check engine light still comes on intermittently, oil light comes on with either "oil too high" or "oil to low". Customer claims this is still occurring after the 2nd visit - prior issue of the SRS light seems resolved but that also concerns her. Customer claims at both visit she was never offered a loaner or pick-up service and they didn't even re-set her clock as she simply requested. Customer states "I'm not looking for any special attention or service" - customer also claims this is the same dealer who wouldn't help her find the 2006 CLS - she ended up buying it in Atlanta G.A. -=> Customer knows she needs to bring it back in but seeks assistance from MBUSA to help the dealer address and fix these issues. Customer loves the vehicle and actually asked writer if she could help her locate a 2007 CLS 500. Writer offered regrets on current experience and assured her that her comments would be documented and forwarded to a Supervisor for further review. Customer would like to hear back from either the dealer or MBUSA.

Comments: I have tried to fax you my concerns with my new car, however, the fax is not going through. I will continue to try to fax. I am an ongoing Mercedes Benz customer who enjoyed my 1998 E Class for almost 7 years without any mechanical problems other than the normal maintenance. I got the NEW car bug when I first saw reports on your new CLS class in 2004. In February 2005 I placed an order for a Black Opal – and received my new car on May 18, 2005. It was exactly what I ordered. However, I have had ongoing problems with the car. It has gotten to the point that I am afraid to drive the car any farther than 50 miles from the closest Mercedes Benz Dealership for fear of the car breaking down. I have attached a list of my ongoing problems with the car and the solutions performed at the dealership. As you can see I have less 5000 miles and feel I have spent almost as much time in your loaner cars. At this point I am requesting that you consider a new replacement car. As much as I truly love this car, I am afraid to continue driving it. Please feel free to contact me during the day – [REDACTED] or on my cell phone [REDACTED] Mercedes Benz CLS 500 – VIN# WDDDJ75X46A [REDACTED] Dealer

Previous Summary Notes:

Writer contacted the [REDACTED] after customer called the Promotions Department and stated that he wanted a Customer Relations Representative to call him back.

Customer is upset and disappointed that his ownership experience with his vehicle has not been what he has expected. He claims that since he has purchased the vehicle he has had issues with the SRS system, Air conditioner, trunk lid, CD player skipping, and currently he has an issue with the OCS system. HE said that the chime continuously dings and there is nobody in the seat and there is nothing on the seat.

He said that he lives 1 hour from the dealership and he does not have time to keep taking the vehicle to the dealership. He asked writer "how do I give it back?"

He said that he does not want the car anymore and demands MB to repurchase it from him. Writer apologized and informed him that he will document and forward his comments and requests.

DLR Switch: from FT Lauderdale to Pompano

[REDACTED] called and claims that vehicle was towed to MB of Pompano yesterday, instead of MB Ft. Lauderdale. Customer expressed her extreme dissatisfaction with MB Ft Lauderdale, alleging that they are unresponsive to her plight. Customer demands a new vehicle.

Customer alleges that vehicle was brought to dlr 6 times for vehicle "shutting off" while driving and this would allegedly be the 2nd time for SRS concerns that vehicle seems to be experiencing now.

Writer advised that her concern and request would be documented and reviewed further. Customer claims she asked to speak with "Glenn Zitzman" on numerous occasions and has not heard back. Writer advised customer to speak with SM who would be her point of contact. Customer claims she will do so.

Customer Alleges Airbag Malfunction

Customer called the CAC alleging while driving on 02/20 he drove over a cement divider. Customer claims he drove the vehicle to dealer 15317 and they diagnosed the vehicle as needing \$10,000 in repairs.

Customer advised he was wearing his seatbelt but claims the vehicle's airbags did not deploy but that one curtain airbag (front driver's side window) came down "like an accordion" but was not inflated. Customer alleging the vehicle's airbags should have deployed and is demanding MBUSA investigate his concern.

He indicated there is no police report and that he did not sustain injuries. He further advised his seatbelt tighten and that Tele-aid dialed in to the vehicle to verify he was okay.

Customer's insurance company is American Insurance and his adjustor (Lori) can be reached at 1-800-870-8857 and indicated the claim number is [REDACTED].

[REDACTED] called the CAC requesting the vehicle be replaced.

[REDACTED] alleges "the vehicle began having transmission shifting issues at 700 miles. The dealer changed a sensor and did an update on the software and now the problem is worse. The SRS light was on as well."

Customer states "Woody Lewis SA told me to call MBUSA about my replacement request. I would like the same exact vehicle I currently have.

The vehicle is at the dealer now."

Writer advised customer MBUSA is sorry to learn he is having this concern.

Writer explained MBUSA's commitment to him and to the vehicle is to uphold the terms if the LNVW.

Writer inquired if customer has discussed matter with the service manager. Customer states "No."

Writer advised customer his request for repurchase will be forwarded appropriately and to remain in contact with the service manager directly.

Previous CA Referrals:

Previous Summary Notes:

[REDACTED] phoned the CAC requesting MBUSA involvement, technical assistance and possibly repurchase for alleged issues, "the dealer cannot figure out."

Customer claimed, "The SRS and Battery lights came on in my car and I took it to Mercedes-Benz of Beverly Hills for repair two days ago and it is still there. They cannot figure out what is wrong with the car. They said they ruled out problems with the battery, yet it was completely dead the next morning. They keep telling me they had everyone, big shots included, working on this car and they don't know what's wrong, when it will be figured out, or what kind of loaner vehicle they will be able to provide me. I will be going back to my second house for a week and, since owning Mercedes-Benz since 1976, Mercedes-Benz will take care of me."

Writer advised customer loaner vehicles and alternate transportation is strictly up to the dealership and that MBUSA has no policy regarding this.

Customer claimed, "well with an \$80,000 vehicle that the dealer cannot fix, you will provide me with the proper services until this is resolved. If this cannot be resolved, I want a replacement vehicle at no cost to myself."

Customer requested writer, "please note that Mercedes-Benz of Palm Springs told me I had to wait until March 23rd to bring the vehicle in, although the SRS light was on. Please also note that it appears that Mercedes-Benz of Beverly hills gives a much higher priority to customer's who bought their vehicles at the dealership, and that they do not care about those who did not buy their vehicles there. If a trained Mercedes-Benz mechanic cannot isolate and repair a problem, Mercedes-Benz should not be selling these vehicles."

Customer is requesting MBUSA involvement, technical assistance and possibly repurchase.

Re:Your 2006 Mercedes-Benz CLS500
VIN WDDDJ75X86A [REDACTED]

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have reviewed your request for concerning the replacement of your 2006 Mercedes-Benz CLS500, bearing Vehicle Identification Number WDDDJ75X86A [REDACTED]. I recognize that you may have experienced inconvenience and possibly frustration in connection with the servicing of your Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the LA Metro area. I have reviewed your repair history to date with service manager Cameron Stewart at the servicing dealership, and have determined that this vehicle does not qualify for the replacement under the Lemon Law that you seek. Specifically, your one time visit to the dealership on March 28, 2006, the overall nature of the repair issues reflected in the history to date does not meet the level required under the law to justify a repurchase or replacement, we believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues you have presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to replace or repurchase your CLS500.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your CLS500.

Sincerely yours,

Brian Bae
Service & Parts Operations Manager - MBUSA
cc: Cameron Stewart

Previous Summary Notes:

[REDACTED] contacted the CAC to request technical assistance for repeat SRS malfunction and concerns regarding rate of engine oil usage.

Customer claims that the SRS light has come on again today, accompanied by the following malfunction in the instrument cluster "RESTRAINT SYSTEM MALFUNCTION-VISIT WORKSHOP". Customer alleges that the dealer has made at least 5 attempts at a repair on this particular issue. He adds, that he has left a message with his service advisor "Sonia" advising her that the malfunction is back and that he needs another appointment.

Customer stated, "If I was just a guy living alone I would shrug it off. But I have a wife and kids who I transport in this vehicle and I can't take a message regarding the safety system likely."

Writer advised customer of our recommendations not to drive the vehicle as long as the SRS light is on and offered a tow. Customer declined as we could not provide a loaner. Writer advised that he would wait for Sonia's call.

Writer called the dealer and advised S&P director of the above.

Additionally customer is also concerned that "in a year, the dealer has needed to add oil to the vehicle almost every 2000 miles." He goes on to say, "The dealer even called MB corporate for help regarding the excessive oil burning. They determined that it is conceivable that a car can burn through oil every 2000 and this is within their limits".

Customer initially contacted Niles Barlow and Les Korngold on 3/22/06 to express his concerns over multiple repairs to SRS system.

In speaking with Les Korngold, customer [Redacted] stated that the vehicle was last repaired for an SRS issue at Santa Monica and appears to be functioning properly at this time.

Customer stated that he had done some research on the Lemon Law and felt the vehicle may qualify due the safety concerns and repeat repair visits.

After apologizing for any inconvenience, I explained that our local field representative would be in the best position to address his concerns. Customer agreed and assurances were given that he would be contacted on 3/23/06.

Customer can be contacted at (office) [Redacted] or mobile [Redacted]

Hi Brian,

Another one I'm e-mailing before you send an e-mail..

██████████
2006 E350

WDBUF56J66A ██████████

Miles: 2,400

Vehicle was here yesterday, car was brought in by her son who is a salesperson here. Complaints were.

1.Popping sound from rear of car.

a.SDS test no codes, road tested by Eric (TAC) and I noise verified but both Eric and I there is no defect. Fuel tank purge valve operating as designed to meet EPA government standards. Explanation given to salesperson who is the driver of the car. There is no fix because this is how it was designed due to the steel gas tank with a plastic liner. Purge valve sound apparent ½ tank or more.

2.SES warning light came on.

a.SDS test done no code and no warning light at this time.

The request for MBUSA Technical to be involved has been done.

Glenn

Note from SM:

Complaint of knocking sound from rear of car. and SRS light coming on. Inspected by Shop foremen sound coming from purge valve in fuel tank normal operation. 03/30/06, Road tested and inspected by Glenn & Eric (TAC) verified that the sound is from the purge valve that is required by the federal government. This car is driven by one of our salesperson but owned by his mother. Eric and I explained this to him why this valve is making the noise and there is no repair for this. SDS test for SRS no codes no light on at this time.

Referral to be closed at this time.

Customer, [Redacted], called the CAC alleging that his vehicle is currently at W. I. Simonson for an alleged engine mount issue. Customer claims the dealer has advised that his vehicle's "engine mounts are faulty and need to be replaced."

Customer claims the dealer advised it will take over a week to obtain these parts from Germany and that with the parts wait time and the repair time he will be without his vehicle for at least two weeks in total. Customer advised the dealer has provided him with a C-Class loaner. Customer alleging this is the second time his vehicle has been to the dealer since he accepted delivery of the car two months ago. Customer claims the first issue was with the SRS light.

Customer is alleging poor vehicle quality and is demanding MBUSA buyback his vehicle claiming he has lost all confidence in the brand.

Previous Summary Notes:

[REDACTED] called the CAC requesting lease payments on his vehicle to be waived while the vehicle is at the shop or possible trade assistance.

Customer claims vehicle has been at the dealership at least 5 times for an SRS light. Customer claims vehicle is a "nightmare to own." Customer advised that "ultimately I want a vehicle that is safe to drive."

Customer did show some interest on a trade assist but wanted something that would not cost him anything. Customer finally requested for lease payments to be waived while vehicle is at the MB dealership getting service for malfunctions. Customer claims vehicle is at the dealership at the moment. Customer requests a call back from reviewing party, writer advised request will be forwarded but did not promise anything.

See the message below from the Service & Parts Director (Rallye Motors)

Dear Steve,

Here is a quick update, on my open CAC contact:

██████████
2006 E350W4

Vin#WDBUF87J06X ██████████

CAC#190471

The vehicle was towed in, and we replaced his SRS clock spring, and modified the SRS wires. The noise from the engine, he stated sounds like a diesel, is the SBC pump working, as designed. The modifications for noise have already been done, so there was nothing else we could do about the noise. The car came in on April 20th, and left on April 22nd.

Please close this contact!

Best regards,

Charles Ludemann
Service and Parts Director
Rallye Motors

Customer alleges that he has had numerous problems with the vehicle and cannot seem to address them with the dealer. He alleges to have the following problems with his vehicle:

- brakes grind and squeal (to dealer several times)
- SRS light is on (three times to dealer)
- front end noises when the steering wheel is turned.

Customer stated he is bringing the vehicle in again tomorrow, and is concerned that these items will spill over towards the end of the warranty.

[Redacted] claims she has brought her vehicle into the dealership allegedly 11 times for issues. She claims that it has been into the dealership several times for the SRS light being on and the dealership is not able to resolve it.

Customer claims her supervisor told her that she will be fired if she takes another day off of work to bring her car into the dealership. Customer is requesting technical assistance in repairing the vehicle and states that vehicle is at the dealership currently.

Open Date: 05/11/2006 11:27:15 Agent: William Maher Phone 6250 Note Type: PC

Customer called back wanting to make sure that someone is looking at her situation for her. Writer informed the customer that we have shared her concerns with the appropriate people.

Open Date: 05/12/2006 18:32:28 **Agent:** Patricia Rosado **Phone** 7837 **Note Type:** PC

Customer phoned again stating she picked up the vehicle yesterday and the SRS light is on again. Customer claims she does not feel safe driving this car and this will make the 12th visit.
Customer requested tow as she does not feel safe driving.

Writer apologized for inconvenience and set up tow with Atlas tow, RAP# 3581699.

E-mail SPOM as FYI

Open Date: 05/16/2006 01:29:57 **Agent:** KENNETH FLETCHER **Phone** **Note Type:** PC

SPOM e-mailed the Service Manager and requested an update on the status of this car.

Open Date: 05/16/2006 17:38:36 **Agent:** Katina Clement **Phone** 6262 **Note Type:** PC

██████████ called the CAC states "I am sick of this car. The dealer wants me to test drive it with them. I do not have time for this."

Writer advised MBUSA is reviewing her concerns directly with the dealer management team.

Writer advised customer it appears dealer wants to attempt to duplicate her concern by test driving the vehicle with her.

Writer advised customer to remain in contact with the service manager directly.

Open Date: 05/17/2006 13:21:50 **Agent:** Joseph Leonardi **Phone** 6255 **Note Type:** PC

Customer called the CAC asking for update. Writer told her that the dealership is attempting to repair but she needs to go on a test drive with the dealership. She stated that it is inconvenient and she just wants MB to replace it.

Writer informed her that she should speak to the SM and that her concerns are being reviewed.. She was advised that her comments will be documented and forwarded.

Open Date: 05/17/2006 19:53:27 **Agent:** KENNETH FLETCHER **Phone** **Note Type:** PC

SPOM received the following e-mail from the Service Manager:

190993 ██████████ MY E320W4. Customer say her SRS light comes on, when in our shop there are ever any codes, and the complaint can never be duplicated. Customer states it always happens while she drives. Dealer has offered to road test with customer for as long it takes for us to verify complaint, and to make sure it is not being induced by some other electronic item the customer brings with into the car. Customer states she doesn't have any other electronic items, and she says she can not take the time to road test with dealership personal because it takes time from her job and she is going to get fired if she spent anymore time bring in her car. Without her driving so we can verify what is going on, since it only seems to happen with her, how will we fix this car?

Open Date: 05/18/2006 15:40:34 **Agent:** KENNETH FLETCHER **Phone** **Note Type:** RC

Service Manager called the customer and advised her to bring the car down and drive with a foreman or tech to verify the concern. The vehicle had two SRS related repairs. The customer had returned to the dealer twice with SRS concerns, but the dealer has not duplicated the SRS light being on, and no codes have been stored.

Service Manager will call customer and invite her to come in and test drive the vehicle so she can show them what the problem is.

See prior Sum Note. [REDACTED] called again today bringing up prior issue (which he confirmed has been resolved), but he remains very upset.

"This car has been a nightmare! It's had 6 major problems and now the SRS light has come on - you people have to come get this & tell me what you plan to do. I'm meeting with my attorney today and depending upon your response, will determine the next step!"

"I did not spend all this money on a vehicle to have it in the shop all the time with major electrical problems!" Writer extended our sincere apologies to [REDACTED], and advised that I would give him over to RAP so arrangements can be made to get vehicle to the dealership.

I also confirmed his call will be documented; once vehicle arrives at the dealership, the management at Germantown and our regional market team, who have full authority to address matters of this nature, would further handle this matter on behalf of MBUSA.

I called dealer to give them head's up - Service Manager out of the office, so I gave details to Ramon that vehicle is coming in on RAP & to be aware that [REDACTED] is upset.

CC: Gail Slaughter, Legal (FYI)

[REDACTED] demanded to be transferred back from RAP - he now demands that "MBUSA guarantee that once this vehicle is fixed I will NEVER have a problem again after this!" I confirmed no one can make that guarantee & as I advised him previously, once vehicle arrives region/dealer will address.

He then demanded I transfer him to MB Financial "I want to tell them that I'm NOT going to make my payment this month because of this!" I told him that his financial obligations is between him & MB Financial - he stated "that's OK - I have an attorney - don't worry about it!"

I transferred him to MBF. I'll send E mail to April/Glenn @MBF as head's up.

[Redacted] seeks technical assistance.

According to [Redacted], this vehicle has been to an authorized dealer 5x because the SRS warning light is illuminated. He advised that the SRS light has reappeared this morning and the vehicle is at his New York address (11 Scarsdale Farm Rd Scarsdale, NY). See warranty history.

[Redacted] expressed his extreme dissatisfaction with the quality of this vehicle. He stated "Mercedes-Benz is close to losing me as a customer". He also stated "this call to your department is my last attempt to have this resolved".

Writer forward info to Customer Relations Representative who has Roadside capabilities to arrange a tow to MB of White Plains.

Following email from Dealer service admin Christina Castillo:

Garret,

Sheryl spoke with [REDACTED] on 06/27/06 @ 1:50pm

As of today, with 2 weeks of driving the vehicle, the SRS light is not on. The customer does not feel MBUSA took care of the problem. He wants to wait a few months to see if the light will come back on.

[REDACTED] contacted CAC this evening to convey dissatisfaction with his vehicle. [REDACTED] vehicle is currently at the House of Imports dlr. Customer alleges that his vehicle has been to the House of Imports dealership on three occasions for SRS malfunction and that the dlr has yet to rectify his issues.

Customer communicated to writer that he has wasted a lot of time going back and forth to the dealership and does not know what else he can do to have situation taken care of.

Customer is requesting technical assistance from MBUSA in the repair of his vehicle.

Writer apologized to customer for issues experienced with the vehicle. Writer advised customer that his concerns will be documented and forwarded to the appropriate parties.

Customer thanked writer and advised that he will be awaiting contact.

Customer contacted writer and left VM expressing his dissatisfaction with the fact that he never received a callback and allegedly that the dealership has returned his vehicle to him without having made any repairs.

Customer claims that the light was reset and the vehicle was not repaired and that he is still waiting to see what MBUSA is going to do to assist him with his issues.

Customer conveyed to writer that he feels that the vehicle is unsafe and that the airbag light is likely to come on again at any time.

Writer will contact SPOM directly to discuss further.

Writer receive the following Email from [REDACTED] requesting technical assistance from MBUSA in getting his vehicle repaired.

"I am having the same problem with this 2005 320cdi I had with my last 2005 cdi that you bought back last year. The airbag idiot light goes off indicating the SRS isn't working and I should drive to the workshop. I can't believe that you haven't fixed this problem yet. I called you (factory) a month ago to inform you that my car was going to be repaired on 6/13/06 by R&H Motorcars in MD, my dealer. Your rather dismissive rep on the phone said they would be emailed about it. The dealer says that my old car was finally fixed by a factory guy after I sold it back to you. I asked your dismissive (pompous?) rep and wouldn't say. Please check my records, figure out how you fixed my old one if you did and make sure that proper repairs are completed on this one. For your sales persons all they can say as car after car has the same significant problem is "they build them with too much on them and it doesn't all work" I don't blame the dealer, I blame YOU. While these last two cars are the first new MBs I've owned I've owned nothing but your vehicles for a decade and a half. It was because of quality and longevity. Now I'm starting to have serious doubts despite my love of diesel cars. Please get this fixed first time this time and avoid any further problems of this nature with these cars in the future. Your business with me depends on it and if I'm not alone and I suspect I'm not; your car business overall depends on it as well. Sincerely, [REDACTED]"

Previous Summary Notes:

[REDACTED] called CAC (via Teleaid: incident #16793232) in a very upset state demanding MBUSA Buy Back his vehicle.

Customer alleged he just picked up vehicle from dealer 05644 on 6/9 for the "easy-entry/exit features and garage door opener repairs and claimed issues remain outstanding.

Owner expressed his continued "disappointment" with quality of vehicle and dealer service claiming vehicle has not been what he has expected and that dealer has been unable to repairs any vehicle issues. [REDACTED] claims since he has purchased the vehicle he has had issues with the "SRS system, Air conditioner, trunk lid, CD player skipping, currently the Easy-entry features and Garage door opener.

Customer claimed he lives 1 hour from the dealership and he does not have time to keep taking the vehicle to the dealership. Writer offered to have vehicle towed to dealer, customer declined tow and stated, "I will not have the vehicle brought back to the dealer until Mercedes-Benz takes it back, that's my final decision, and if Mercedes does not call me by tomorrow I will contact my attorney".

[REDACTED] said that he does not want the car anymore and demands MB to repurchase it from him.

Writer advised customer his concerns will be document and shared with the appropriate individuals.

FYI...Please see referral# 188721 for more information.

Per previous CA referral, customer was contacted by SM to address concerns and made arrangements with dealer to have car picked up from them when they went out of town. They had not contacted the dealer since.

Sent e-mail to SM for additional information.

Open Date: 06/13/2006 09:09:19

Agent: PATRICK TAM

Phone

Note Type: RC

Spoke with SM, customer had brought in car for concerns and took car home on 6/9. Customer frustrated because he was unable to make the homelink work with the new garage door opener in his home as a result of a fire and that the easy entry/exit feature stopped working, however, has since started working again. Customer is scheduled to bring the car back to the dealer on 7/3 for a seat part to be installed.

Based on repair history, this vehicle does not qualify for repurchase at this time in my opinion.

Open Date: 06/13/2006 09:10:04

Agent: PATRICK TAM

Phone

Note Type: RC

SM also had customer speak with sales person who provided customer with the phone number for homelink if they are having any issues with trying to program the garage door opener.

Sean Manuel, Service & Parts Director from dealer, called to advise that customer had driven her vehicle through water. The car is actually ready today, however they are waiting on \$300 additional from the insurance company.

Open Date: 06/14/2006 15:31:16 **Agent:** FRANK OSWALD **Phone** **Note Type:** RC

Frank

FYI

████████ ran through some water and bent a couple of rods. We have currently repaired the damage and are waiting on payment from the insurance company. Every time we deal with her she gets a little crazy. When she dropped the vehicle off I told her it was most likely water and she denied driving through any. It had flooded the day before she came in. I also told her it would take about 3-4 weeks to get it completed since we had to order parts and pull the engine. I told her last week it would be ready the end of this week.

ca ref id 192068

Sean

Car should be put on "8" status due to engine damage from water.

CORR # 298223

[REDACTED] attorney for [REDACTED] sent a letter to the CAC dated 06/13/06 and received 06/19/06.

Attorney alleges "seven separate repair attempts for brakes/SBC/ABS, four separate repair attempts for the transmission system and five separate repair attempts for seatbelt/occupancy detection/SRS airbag."

Attorney goes on to demand that MBUSA repurchase this customer's vehicle for the amount of \$16,541.22. Attorney alleges that if he does not hear from MBUSA by 07/13/06 litigation proceedings will be initiated.

Attorney Acknowledgement to be sent.

Previous Summary Notes:

Writer received the following Fax from [REDACTED] in regard to her 2006 E350. Customer is requesting assistance in getting her vehicle repaired. She claims she has not had her vehicle for 3 months and the body shop is not able to tell her when the vehicle will be ready.

"I LOVE my Mercedes... but I haven't seen it since March 23. I cannot solve this problem myself and knowing your commitment to the integrity of Mercedes brand, I know you do not want your customers to be treated in less than excellent manner.

I have been getting a runaround from Mercedes of Ft. Lauderdale through their "body shop", Maroone Collision Center (owned by Auto Nation). Here are the facts:

My automobile, a 2006 Mercedes E350, with 800 miles on it, was struck on the left rear driver's side on March 23, 2006, causing the two driver's side airbags to deploy, and other damage to the rear end. The car was towed from the scene. I called Mercedes of Ft. Lauderdale (954-462 4381) and spoke to the Service Manager and his assistant. They called their towing service, Superior Towing (954-424-8781), to pick the car up and tow it to Mercedes of Ft. Lauderdale's "body shop" which is Maroone Collision Center (954-462-1479).

Electric Insurance sent an adjustor who estimated the costs of repair to be \$10, 492.89 and approved work to begin.

Electric Insurance sent me a check for \$9992.89 (less my deductible) on April 5, 2006. 1 am still holding the check. Three weeks later, when Maroone finally got around to looking at the car, they called and said they found additional damage.

Electric Insurance's appraisers did not agree with the findings and there was a 10-day delay as each side argued their position. I must say that Electric Insurance did not want me to go to Maroone in the first place but I said that since I had a 2006 Mercedes with 800 miles, I would feel more at ease if a Mercedes dealer handled the repair.

On May 1, Electric Insurance agreed to go along with the extra costs since I had been with them since 1991 when I was VP of Corporate PR & Advertising for General Electric Financial Services. An OK was given to the shop and a check for the additional amount, \$5265.45, was sent directly to Maroone Collision Center, 122 SW 22 Street, Ft. Lauderdale FL 33315.

On May 18, yet another additional check for

\$609.29 was sent to them. Keep in mind, Electric Insurance sent the checks even though they "had reservations about the shop's request to replace rather than repair some body panels".

At that time, Maroone said they could have the car finished by May 19 since my husband and I were returning to our home in Southampton NY for the summer. We made arrangements with Liberty Towing to pick the car up at our home in Boca Raton on May 22.

Maroone called May 12 and said they could not make the promised date and would get back to me with a date certain the car would be finished. They called back May 15 and said they could have the car done on June 12. I made arrangements to fly to Fort Lauderdale directly from my daughter's baby shower in San Francisco on June 12. And, I contacted Liberty Towing to reset the pickup date for June 13. When I called June 6 to say I would take a taxi from the airport to the body shop, Lorraine (my contact) told me the car would not be ready. Again, I asked for a firm date, since I had to make new plane reservations. Once again, I cancelled Liberty Towing.

Lorraine checked with her manager, Ray, (as she had done all the previous times) and called me back a day later with A FIRM DATE of June 19. I called back on June 8 to verify that the date was FIRM and told her I had to know for sure before I confirmed plane reservations. She assured me it was FIRM and they would not slip it. This time, I had to ask my husband to fly down with me because we no longer had the luxury of time to ship the car back to NY. We had to drive because I had to be in DC for my other daughter's baby shower that weekend. In addition, since I am a breast cancer survivor, I had to drive directly from DC to Greenwich Hospital in Greenwich, CT on Monday for my 6-month medical checkup and mammogram scheduled for June 27 and June 28.

Saturday morning, June 17, Lorraine called to say the car would NOT be ready on June 19. She said it still had to have the panels taken off and it had to be sent to paint and some other things. And, in addition, she said she had no idea when it would be ready and blamed the delay on my insurance company (whose OK and check Maroone had since the first week in May).

I was appalled and stressed. As I pointed out, I have a very tight schedule with my two daughters expecting their first babies 5 weeks apart on separate coasts, my necessary medical attention in Connecticut, and my husband awaiting a final schedule so he can set the date for his cataract surgery in New York.

I asked Lorraine to check with her manager and call me back with a new and, once again, final date. (Not that I will be able to trust them at this point). I also said they would have to pay the penalty fees and additional fare if it applies with the airlines since I had to now cancel both tickets. I do NOT think my requests are unreasonable.. Lorraine called back later Saturday morning and said she was trying to reach her "boss" but he wasn't answering his cell phone. This is Tuesday (20th) and she still has not called back.

HELP HELP.. I have nowhere to turn except to you. How do I get my car back? Will it be worth getting back after sitting outside in a repair yard for 2 months? Should you arrange to tow it to the Mercedes dealer in Southampton to finish the repairs? How about my plane fares? How about all the extra money for car rentals (my policy only covered 30 days)? Now, I have to fly to DC and back to NY. Then, I will need to rent a car again on June 26 to get to Connecticut for my doctors' appointments. The problems multiply. As does the stress.

appointments. The problems manifest. As does the stress.

I sincerely appreciate your handling this for me and I look forward to hearing from you."

Writer received Attorney [REDACTED] letter (corr 299081) today by postal mail, requesting Buyback on behalf of his client, Jeff Schadlow. Attorney alleges defects in: SRS system, brakes, and transmission, though does not note how many times vehicle was brought to dlr for those repairs.

Writer scanned and emailed Attorney's letter to Yvette Chang & SPOM. Writer will send the following acknowledgement letter to Attorney:

June 29, 2006

[REDACTED]
[REDACTED]
[REDACTED]
Los Angeles, CA [REDACTED]

Subject:Client: Jeff Schadlow

Model: 2005 E320W

VIN: WDBUF65J45A [REDACTED]

Dear [REDACTED]:

Thank you for your letter.

Arrangements have been made for your client's concerns to be reviewed.
You will be contacted shortly, if not already.

Sincerely,

Carol Pantua

Customer contacted CAC this evening to request that his vehicle be "bought back from him under the terms of the lemon law". Customer cited concerns experienced with the vehicle as listed above and alleges that the vehicle was at the dealership on five occasions for brake squeal.

Customer was very pleasant with writer and advised that he has hired an attorney but insists that he would much rather settle his concerns directly through MBUSA.

Writer apologized to customer for issues experienced with the vehicle and advised that his concerns have been documented and that letter has been received from his attorney.

Customer requested writer's full name and extension (writer provided) and advised that he will be awaiting further contact.

Called attorney [REDACTED] and indicated that the vehicle has been in 7 times in first 18 months/18,000 miles and has been down for 17 days with no substantial impairments or 4 repeat repairs for any one non-conformity.

SPOM stated that he didn't feel brake squeak complaint was a substantial impairment and indicated that vehicle didn't qualify for repurchase at this time. Attorney thanked SPOM for the call.

[REDACTED] called the CAC demanding that MBUSA provide him with "one month lease payment as compensation for the amount of issues this vehicle has experienced". He stated that he contacted MB Financial and they referred him to the CAC.

According to [REDACTED], the following issues exists:

1. Instrument cluster is inoperative.
2. Cruise control is inoperative.
3. Shifter is stuck and he has to use the manual shift release.

[REDACTED] stated that he has called Rallye Motors and they have an appointment for 7/21/06. In the meantime, the customer requested that MBUSA be involved and review his request. He stated "my father was thinking about paying the new S-class but now he may buy a BMW". Customer also stated "I have friends that have less problems with their GM vehicles".

[REDACTED] also complained that his vehicle was allegedly at Rallye for 3 weeks to resolve an alleged issue with the SRS.

Writer did not promise any financial compensation. Writer advised that MBUSA remains committed to honoring the terms of the Limited New Vehicle Warranty. Writer advised that his request will be reviewed with the appropriate area of our company.

[Redacted] claims she does not want this vehicle anymore and wants to be given a new one as an even exchange. She claims the vehicle only has 4,000 miles accrued and it is constantly in the dealership for electrical problems.

She claims the SRS light keeps coming on, and the comand system stops working. She claims that she should not have to deal with this after spending this kind of money. She claims the dealership allegedly told her that they will discuss trading the vehicle however she will owe money since her vehicle is used and has had so many issues. [Redacted] claims that she will be given a new vehicle and will not pay a dime or she will contact her attorney.

SPOM spoke to client and confirmed MBUSA position was not to buyback this vehicle but to uphold the LNCW. SPOM confirmed that we would make sure that the vehicle was repaired as their is a question about the need for the replacement SBC hydraulic unit. In addition SPOM indicated that we would take steps to get the replacement CD that was held in the failed head unit. Client indicated that she wanted her husband to contact this writer which was welcomed. Follow up.

Open Date: 08/04/2006 19:34:24 **Agent:** DAN BERBERIAN **Phone** **Note Type:** PC

Client husband left voice message for SPOM. SPOM returned call and left v/m for client husband. Husband phone number is [REDACTED]

Open Date: 08/11/2006 02:28:46 **Agent:** DAN BERBERIAN **Phone** **Note Type:** RC

SPOM spoke with husband last evening and verified MBUSA position at the present time is that we do not feel the vehicle qualifies under California Lemon Law for replacement or buyback. SPOM indicated that the vehicle hydraulic unit that was ordered for the brake noise is at the dealership and they are prepared to install it. Client indicated that they would consider all their options before moving forward. No further action was possible at this time.

Corres # 294267 is from [REDACTED], Esq. sent via USPS 1st Class mail to One Mercedes Drive Address, postmarked 7-17-07; CAC rec'd 7-24-06. This is a 4 page letter with copies of dealer RO's, purchase agreement and registration.

[REDACTED] alleges in part "The subject vehicle has suffered from defects & non-conformities to warranty, including but not limited to 4 separate repairs attempts for the transmission...and one repair attempt for the SRS/airbag defects." [REDACTED] cites the Song Beverly Consumer Warranty Act. [REDACTED] writes "Xianodong Song is willing to litigate this matter however, she would prefer to resolve it short of filing a lawsuit. Xianodong Song is willing to return the subject vehicle to MB and settle this matter for a repurchase of the subject vehicle and restitution in the following amount: \$23562.69...in addition it will be required that MB satisfy the outstanding loan balance (US Bank. Do not attempt to contact my client for any reason whatsoever....do not send my client any mailgrams, direct all communications to me. If I do not hear from you by August 17, 2006, I shall assume that MBUSA is denying its obligations under the law and Xianodong Song will be left with no choice but to initiate legal proceedings."

Following email to SPOM/Legal: Dear Brian (& Yvette - For MBUSA Attorney's Information Only): Scanned & attached above is Corres # 300963 from [REDACTED], Esq. for Lessee Xiaodong Song. New Case 193316 notes follow. Thank you for your attention to this case. Regards, Cynthia

Re: Xiaodong Song
2006 Mercedes-Benz E350
VIN: WDBUF56J86A [REDACTED]

Dear [REDACTED],

On behalf of Mercedes-Benz USA, LLC, I have reviewed your June 15, 2006 letter sent on behalf of your client Xiaodong Song concerning their 2006 Mercedes-Benz E350, bearing Vehicle Identification Number WDBUF56J86A7 [REDACTED]. I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of their Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Los Angeles market area. I have reviewed your client's repair history and have determined that this vehicle does not qualify for the refund or replacement under the Lemon Law that your letter seeks. Mercedes-Benz must therefore decline to replace or repurchase your client's 2006 Mercedes-Benz E350.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty.

Sincerely yours,

Brian Blokdijk
Service & Parts Operations Manager - MBUSA

Customer Demanding a Vehicle Replacement.

Customer, [REDACTED], called the CAC alleging poor vehicle quality and claims his vehicle needs to go back to the dealer for the third time in three weeks for repairs.

Customer claims his vehicle's check engine light was on three weeks ago and he brought the vehicle to the dealer to have it repaired. He claims once he got the car back the battery went dead and needed to be replaced. Customer now alleging the check engine light is back on.

Customer claims this vehicle has been "nothing but an inconvenience" and alleges "this model is known to be plagued with issues not to mention three recalls."

Customer advise he will be traveling on business for the next two weeks but will contact the dealer before hand to arrange an appointment for when he returns.

I personally assisted with the diagnosis and repair of this vehicle yesterday at the cary, NC, facility. The Ck Eng light was caused by a defective "one way" valve for the air pump system. It was sticking intermittently. Replaced valve and shut off valve - Problem repaired. We also performed the subframe bolt campaign, and replaced a defective ashtray in the left rear door, and checked the brakes for squealing. I spoke with [REDACTED] at 3:00 PM yesterday, and explained the above repairs. Owner satisfied.

[REDACTED] called the CAC.

Customer requests that MBUSA repurchase his vehicle under terms of PA lemon law.

Customer alleges 15 repairs and 5 trips to the dealership in NJ. (Customer says he is loyal to the PA dealer and buys all his vehicles there.) Customer says he received the vehicle back last Monday after repair for an SRS issue. Customer claims this is the 3rd time for SRS light on. Customer "predicts" that vehicle will be back at dealership this week.

Customer alleges that he is ordering another MB vehicle and will cancel the order "if no one there wants to listen to me." Customer asked for issue to be sent to PA dealer. Customer claims his SA at the dealer in NJ told him that "we (MBUSA) buy lots of cars back."

Writer apologized to customer Writer apologized to customer for issues experienced with the vehicle. Writer informed customer that his concerns will be documented and forwarded to the appropriate parties.

[REDACTED] called the CAC and requested technical assistance.

The customer stated "This vehicle is currently in the dealership for the fifth time for the SRS light coming on in the vehicle. They have had the vehicle since Monday and they are having difficulty finding the issue. They advised they have been reviewing the wiring in the vehicle and they can't seem to find the issue. I would just like to have this fixed.

The dealership also will not give me a loaner vehicle since I did not purchase the vehicle there. So I have been without a vehicle for the past few days."

The writer advised the customer each dealership is independently owned and operated and responsible for their daily business operations including their loaner vehicle policy.

The writer advised all comments and concerns would be documented and forwarded to the appropriate parties.

Customer, [REDACTED], called the CAC alleging he was involved in an accident with his vehicle on 06/25 and claims the airbags did not deploy. Customer is demanding MBUSA inspect his vehicle to verify the car operated as designed during the alleged incident.

Customer alleges his wife was driving and he was the passenger when they were involved in a head-on collision with another vehicle a block and half from their home. Customer alleges they were both wearing their seatbelts and claims they both obtained injuries (scratches, cuts and bruises) to their faces as a result of the collision.

Customer did confirm that both he and wife refused medical attention at the scene of the incident and verified a police report was filed. Customer will fax a copy of this police report to the CAC tomorrow.

Customer indicated the vehicle was towed to S & D Autobody (Kruse Ave, 91016). The contact number is (626) 303-3008.

Customer advised he uses Farmers Insurance Company and his adjusters name is Dave Walling. Dave can be reached at (626) 445-6210). Customer did not have the claim number available.

[Redacted] called requesting technical assistance to resolve an alleged ongoing concern of the SRS warning light being on. He stated he has been back to the dealer at least 2 times for this concern and after just recently picking up the vehicle the light has again come on.

Customer stated he is very happy with this vehicle, his ML and his dealer but is requesting the technical assistance since he can not be confident that the SRS System is functioning correctly.

[Redacted] is calling the dealer today to arrange for the vehicle to be picked up again (dealer is 240 miles away).

Open Date: 08/08/2006 11:14:38 Agent: CHRISTOPHER CARTER Phone Note Type: PC

SPOM called the SM, left message asking for status.

Open Date: 08/15/2006 11:20:22 **Agent:** Paul Harmon **Phone** 7831 **Note Type:** PC

Customer phoned CAC about above mentioned concerns with vehicle. Customer claims that no one from MBUSA has contacted him and dealer SM will not return his phone calls. Customer claims that vehicle was picked up 8/9/06 and he has not heard anything since then. Customer claims that he expects better service from MB since he just purchased two new vehicles. Customer also claims that he should be compensated for the down time and is starting the process for MT lemon law suit. Customer claims vehicle has been at dealer four times for the same repair and has exceeded 30 days of downtime for same repair. Customer claims that this is an issue with the passenger airbag and is a major safety issue.

Writer advised customer that his comments would be documented. Writer advised customer that his point of contact is the SM at dealer and writer would contact SM to request a call back from SM with status of vehicle repair at 406-586-3405.

Writer left message with SM to contact customer.

Open Date: 08/16/2006 12:00:54 **Agent:** Ed Duffy **Phone** 6296 **Note Type:** PC

██████████ sent a letter dated 8/8/06 via certified mail post marked 8/8/06 stating he intends to enact the Montana Lemon Law unless Mercedes can prove without a doubt the problem is repaired once an for all and can ensure that the passenger airbag will work properly in the case of an accident.

Acknowledgement letter being sent.

Open Date: 08/16/2006 14:08:04 **Agent:** CHRISTOPHER CARTER **Phone** **Note Type:** PC

SM stated they replaced a seat sensor based on recommendation from TAC. The returned the vehicle to the customer, but the light came on after 1 week. The vehicle is back in the dealership. I told the SM to make sure the tech follows up with TAC to let them know the seat sensor failed. I asked the SM to make sure the dealership makes a follow-up status call to the customer.

Open Date: 08/25/2006 15:07:23 **Agent:** CHRISTOPHER CARTER **Phone** **Note Type:** RC

TAC suggested re-replacement of seat sensor, they have left follow up calls with customer, no return call.

[REDACTED] COO/VP of Portables Unlimited sent a letter to the CAC via U.S. mail dated 08/10/06 and received 08/17/06.

Customer requests technical assistance for alleged repeat "computer " issues.

Customer claims that vehicle has been at dealer in Nanuet 3 times for malfunctions of the Audio/ navigation system, SRS, Brakes, etc. and issues with replacement of 3 tires in the past year. Customer alleges some issue are ongoing and asks hat MBUSA review the service history of this vehicle.

Customer says people at Nanuet are excellent and Jeff Presti his Service Advisor is courteous and reliable. Customer says he has been in a loaner vehicle for around 6 + days since delivery of vehicle and "I am really starting to get concerned at the manufacture of this model."

Customer adds that his partner just ordered and S550.

Replacement Vehicle Requested:

Customer [REDACTED] phoned the CAC alleging he was advised by his service rep Mr. Chin to contact the CAC and open a case. Customer alleges his vehicle is at the (Helms Brothers) dealer for the 5th time for electrical related malfunctions.

"The volume on the radio is out, the horn does not work, the SRS light is on. These are safety issues. I knew I should have never purchased the first year of a model. I would like to try a 2007 CLS AMG but I do not want another 2006."

"I paid \$106,000, I should not be experiencing this frustration".

Writer advised customer concerns will be documented and reviewed, please allow several business days for communication.

CC: Anthony Zepf

Writer reviewing file and discussion with SM.

Open Date: 09/07/2006 11:31:03 **Agent:** John Hart **Phone** 4669 **Note Type:** TN

Customer [REDACTED] contacted the writer stating he was advised by Helms Brothers his vehicle needs to be taken to selling dealer Ray Catena for review of trade-assist. Customer stated he contacted his advisor Tom and will be bringing the vehicle in tomorrow.

FYI- Customer is a dealer principal (J&R Imports) for several non Mercedes-Benz dealerships in the Ozone Park, NY.

Writer phoned the Service Manager Glen G. advising of Referral transfer.

Open Date: 09/08/2006 14:14:13 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

Customer left a message requesting contact.

Customer wished to express dissatisfaction with the loaner provided, 2007 Dodge Cavalier.

Additionally, customer stated he file a Lemon Law notification and mailed document yesterday. "If it is I am going to fix your car...I am done making calls and am going to hand this over to my attorney."

Open Date: 09/11/2006 10:41:57 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

The writer was assigned correspondence 304591 today 9/11/2006. Letter was not dated 9/06/2006 from customer Anthony Panarella alleging...

"I believe that my vehicle is a lemon under the NJ Lemon Law. I am hereby making a written demand for relief under the Lemon Law....I am hereby allowing you one more final opportunity to repair y vehicle. If these repairs are not completed within 10 calendar days of receipt of this latter, I am entitled to a refund calculated in accordance with the Lemon Law.

CC: SPOM and Anthony Zepf

Open Date: 09/13/2006 09:25:54 **Agent:** JOSEPH GALLAGHER **Phone** **Note Type:** RC

Writer further discussed with SM, Jim Troiola. Customer has vehicle at Ray Catena (51146) for repair and has advised dealer that he is filing NJ Lemon Law through Ray Catena. SM advised customer that Helms was offering customer assistance however customer refused. Writer transferring case to Ted Zawacki.

Open Date: 09/13/2006 13:53:03 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

[REDACTED] phoned the CAC alleging he picked-up vehicle today and is wishing to conduct trade-assist with Helms Brothers.

Market Team reviewed with dealer who will contact customer

Open Date: 09/20/2006 15:04:19 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

Customer contacted the writer who claims he was offered \$20,000 trade-assistance and offered 66,000 for his vehicle however, customer is dissatisfied. Customer claims his pay off is 86,0000 and he is not interested in negotiating price of a new car again.

"I want a new car for what I owe on my current car. I am in the car business and understand Mercedes does not want to take back as a Lemon because the title will be branded and it will have to be disclosed at auction and everyone who buys it. I want a new car and do not and will not re negotiate the new car price. I am not discussing price or negotiating price. I want a new car for the same price of what I currently owe because of all the problems and inconvenience I encountered."

"If Mercedes will not give me do it, give me my \$86,000 back to pay of my car and I am done with Mercedes and will go buy BMW."

The writer assured customer his comments will be documented.

Open Date: 09/29/2006 16:29:40 **Agent:** John Hart **Phone** 4669 **Note Type:** PC

Customer contacted the writer alleging "John, I got a call from Julie from Helms Brothers who advised she is looking for a car. I want to ground my car, and take care of the pay off. Tell me who is responsible for this.

The writer advised customer to be in contact with the Sales and or Service Manager regarding concerns and Trade Assist.

Open Date: 10/12/2006 14:42:28 **Agent:** TED ZAWACKI **Phone** **Note Type:** RC

SPOM reviewed with Glen Gatio and Ken (Sales person).

Ken stated he has made the deal with customer with Market team offer of 20k trade assistance.

Please see the following notes as provided by the SM at 14302. Please also note that SM did contact client again this date to advise client that dealer and MB will continue to honor warranty. Client inquired about possible trade, dealer advised client that same would be review, however no promises made.

GM Mr. Greg Barnes received a letter last week while [REDACTED] car was here. Greg said the letter is well written and professional. [REDACTED] states he doesn't want this vehicle any longer.

[REDACTED] vehicle was here for a no start issue at times. You had to play with the ignition to get it started. We replaced the EIS to resolve the no start issue but we noticed the tip-start wasn't working after installing the EIS. We replaced the ME control unit to resolve the no tip-start issue. The SRS light was on after replacing the EIS. The EIS would not accept the vin#. We called TAC (#566304) and they recommended replacing the EIS again. We installed the second EIS and that resolved the problem. [REDACTED] picked up his car on Sept. 14th; unfortunately, the car had been here since Sept. 2nd. The vehicle has been here 3 times, different issues for a total of 20 days.

I spoke to [REDACTED] with regards to the letter. He doesn't want the car. We were going to see if he was interested in a trade but he doesn't want another MB. He wants MB to buy back the vehicle. Greg and I spoke Friday, we agreed that I would call him today and let him know that we are going to honor the terms of the new car warranty

Customer called claiming that he has had his vehicle in to the dealership (Mercedes Benz of Hoffman Estates) 6 times for an alleged SRS light issue.

Customer claims he would like to continue purchasing Mercedes Benz in the future and would like this issue resolved once and for all. Customer will be contacting the dealership to take the vehicle in for this repair.

Customer is seeking technical assistance at this point in time.

Writer advised customer that his comments would be documented and forwarded to the appropriate parties for review.

Customer left message with customer if he would like the vehicle towed to call us back and that we recommend towing the vehicle in.

Customer declined a tow and said he would be in contact with the dealership.

Previous Summary Notes: 1380164

See former Sum Note - in response, [REDACTED] called this morning asking for my E mail address - would not discuss what she was sending me.

I received below from her via E mail:

Honora D. Customer Relations Liaison

I have received your response to my letter listing my concerns on my car and the multiple problems and the response of my dealer ,my car (model E350W serial WDBUF56156A [REDACTED]) two weeks ago came up again with the notification "SRS Restraint system malfunction drive to work shop" my car now has 5050 miles on it and if you will check my last correspondent, more malfunctions that I can list again....

I call my dealer immediately and left a message on Wes Burrows voice mail about this message coming up AGAIN and the fact that it has been in the shop the month before for the same messageand that I had reached a level of displeasure with the Constance malfunction of this vehicle....remember I live 80 miles from the Memphis dealership and have to devote a day every time I have a problemI have NOT heard back from the dealership and am as you so aptly put it "diminished faith" would be nice description of the feeling I am having....

PLEASE HELP RESOLVE THIS PROBLEM CAR.....I have not had to plug in the auxiliary battery they furnished since it was in to be "rewired" last time so there goes the theory that I was not driving enoughone of the many lame excuses, I have been told.... being put in a position of Constance complaining is not a role I enjoy and seems to have no results do you have any suggestions....

[REDACTED]
Jonesboro, Ar. [REDACTED]

Phone [REDACTED]

I called Wes Burrow & then forwarded the E mail to Ed Hoefl & Wes (cc Mark Kelly - FYI):

Ed:

[REDACTED] sent below (see bottom) E mail in response to my prior letter to her:

As you can see, customer claims she called dealer several weeks ago. I contacted Wes & am forwarding this to him as well - his BDC people tried to contact customer without success; he will personally call [REDACTED].

At this point, because of the SRS malfunction light being on, I'm going to enter a Referral for documentation purposes in case she decides to pursue legal avenues.

Thanks!

Honora D.
Customer Relations Liaison
1-800-367-6372 (ext. 6307)

I responded back to customer:

Dear [REDACTED]:

Thank you for E mail

I thank you for E mail.

We regret to hear of your concerns, but seek your understanding that, at this distance, it is difficult for this office to comment on the events described or offer technical diagnostics via E mail.

Since Mercedes-Benz of Memphis and our Jacksonville Region have full authority to address matters of this nature on behalf of Mercedes-Benz USA, LLC, your E mail has been forwarded to Wes Burrow and our regional market team for review/handling on a local level; you may expect further contact shortly - if not already.

Sincerely,

Honora D.
Customer Relations Liaison

[REDACTED] phoned the CAC via TeleAid seeking RAP assistance and claiming the vehicle is displaying 'SRS Malfunction.'

Customer claimed, "I want to invoke the lemon law. This car has been at the dealer seven or eight times in the last six months. I am extremely upset at the quality of this car and I do not trust the dealer to give me a straight answer."

Customer claimed, "the transmission is still jerking badly. I was told there was a flash update from September 6th, but I do not trust that this is good information. I have just had it with how bad this car is. I bought a Mercedes-Benz for the safety and quality, and most of the time I've had to drive a PT Cruiser because the dealer will not give me a loaner!"

Customer demanded to know what has caused the SRS malfunction, and writer advised it is impossible to diagnose at this distance.

Customer demanded writer's supervisor. Writer respectfully declined.

Customer demanded the "number to the president of Mercedes-Benz." Writer provided 201 573 0600.

Vehicle will be towed to Bill Ussery on Saturday, Oct. 7 at about 8:00am.

Previous Summary Notes:

Customers, [REDACTED], sent an internet to Paul Juron at MBUSA requesting MBUSA technical assistance and involvement with on-going issue with the vehicle. Customers alleges that the transmission does not work right. (see internet below).

Dear Mr. Juron:

This correspondence resulted from a service experience survey we recently received.

On December 27, 2005 we purchased our first new Mercedes-Benz (E500) from the Palm Beach dealership. The sales experience was outstanding, the service experience is deplorable.

Unfortunately, the car has not and does not perform well. The malfunction began at approximately 900 miles when the transmission began to shift improperly. More disappointing is the lack of care and concern by the service department.

When the car is ready for pick-up we have had to "beg" for an explanation of the service performed. On my 9.15.2006 service visit, when asked by our service advisor if the car needed any other repairs than the SRS system failure the reply was "the transmission still does not work properly". That comment was never acknowledged nor was the comment on the service order. The perfect example of once the sale is made it just doesn't matter.

On another service pick-up we were not out of the parking lot when the car duplicated the initial complaint. Prior to this we had requested a new transmission. The next day Gus and Jason rode with us. The car duplicated the problem and a new transmission was installed. At this dealership the customer's opinion is not valued nor heard.

This car was a "milestone gift" to my wife as she completed over a year in treatment for cancer and five surgeries. We really love the car but did not sign up for the stress factor nor the rudeness of the service staff.

Please consider this question; how valued am I when my "new" car is in for the 5th time, same problem and the dealership believes it is ok if I drive away in a Kia Rio as a loaner? The keys to the loaner/rental were returned, the service manager made no attempt to locate another car. That action spoke very loudly to us. We could give you more examples of the level of service or lack thereof but will stop.

Please remember that a customer trying to get someone to listen and help resolve a problem is an opportunity to assist that customer remain a customer. We do not complain if we are not looking for help and resolution. We love the car.

If you get to this line, thank you for taking the time to read this. Our goal was to be as happy in service as it was in service with plans to purchase another car (\$550) in January of 2007. This is not what we expected.

We look forward to hearing from you.

Most sincerely,

Rob and Bonnie Tognacci

Writer contacted [REDACTED] on behalf of Paul Juron. (Customer sent Email to Paul's' direct Email requesting a return telephone call.)

[REDACTED] claims that he has owned 6 Mercedes-Benz vehicles in the past 5 years, and even though he has had issues with the last two, he has continued to stay faithful to the brand. Customer claims this vehicle is only 8 months old, and it has already been back to the dealership 7 times for duplicate issues, and has been there for an accumulated time of about one month.

Customer claims the vehicle continuously pulls to the right, the air conditioning still has a moldy smell; however, now it throws a puff of Febreeze in his face when he turns it on. He claims AM for the radio will not appear in the instrument cluster so he can change the stations via the steering wheel, and the SRS light came on recently.

[REDACTED] stated that he does not want this vehicle anymore and he does not want another E55 since the "bugs" have not been worked out of them.

Customer demands to be given a new E63 however, does not want to pay the difference in price because he claims he has been paying for his current car and could not use it. [REDACTED] stated that if this is not done, he just wants his money back and he will buy another 63 anyway. He claims he is loyal to the brand and demands to get out of this car.

Writer has met with customer and discussed his concerns. Customer stated that he really wants an E63 and not happy with this vehicle. Writer advised customer that he is aware of the customers buying history and that he is a loyal customer. Writer made offer that customer come up with some money based on his vehicle usage and price increase between the E55 and E63. This was presented to customer by GSM who stated that customer declined offer. Writer further reviewing concerns and doesnt believe that he qualifies.

Writer received letter from Sergei Lemberg Esq., claiming that he represents [REDACTED].

Attorney claims that MBUSA has violated several statutes of the law. Attorney also states "Because of the incurable problems outlined above, my client revokes his acceptance of the vehicle. Because my client is canceling his lease, he is entitled to a return of all money paid so far, including his down payment, amount of payments thus far, finance charges, and other fees. My client is also entitled to incidental and consequential damages, costs, and attorney fees."

Attorney claims that if he doesn't receive an answer by November 10, 2006, he will proceed in court.

Note Type: RC

Writer reviewed customer history and provided information to MB attorney, Gail Slaughter. Writer advised Gail of the concerns and down days. Writer also indicated that an offer was made to [REDACTED] regarding a E63 however he declined offer (pay difference in price between his E55 and the new E63). Writer advised Gail that MB should decline acceptance of his lemon law claim. Vehicle is repaired.

Previous Summary Notes: 1335833, 1426114

Customer states that she is still experiencing issues with the SRS light intermittently coming on and stated that she had an accident with the vehicle and the airbags did not deploy. Allegedly the dealer informed the customer that the SRS issue is due to the accident but she stated that she did not believe that to be the case since this light had been coming on and off since she purchased the vehicle.

Customer is also concerned about the brake noise she is experiencing even after the dealership has inspected it for this concern.

Customer is requesting technical assistance to resolve these two issues.

Open Date: 10/26/2006 16:18:55 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** SN

As per CARFAX vehicle was in the accident on about 10/12/05. Assuming that the vehicle has already been repaired it will be impossible to tell why air bags did not deploy. Vehicle has had two SRS concerns and one seat weight sensor calibration performed.

SM (Glenn) will contact customer to see if SRS issues exist.

Open Date: 11/01/2006 13:09:03 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** SN

SM (Glenn M) reports that he left a message for customer at 10:45 am on 10/30. Customer left Glenn a message who will return her call this afternoon.

Open Date: 11/14/2006 12:52:55 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** SN

SM (Glenn) spoke to customer who is requesting a technical inspection of her vehicle. Customer was informed by Glenn that we will not be able to determine why her air bags did not deploy in her accident as it happed sometime ago and the car has already been repaired.

Shop foreman and possibly TS will inspect vehicle at a date yet to be determined.

Open Date: 11/22/2006 12:59:10 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** SN

TS inspection scheduled for 11/27 or 11/28.

E-mail: [REDACTED]

Customer sent the following e-mail received by the CAC on 11/2/06.

Comments

As Mercedes so effectively markets, I spent many years working toward the ultimate rewards of success. A Mercedes clearly fit the bill. Now that I reached that point in my life, some things are not what I had hoped. My greatest disappointment... My wife's Mercedes. We have had it for two years, bought new. It has been in repetitively for the same things, the SRS (3 times), an unidentified suspension problem (3 times) among other things. These issues still persist. My new material goals: to replace my Mercedes with a BMW or Lexus. Thanks for reminding me that material things are just that, material things. Sincerely, Doug Kramer

Writer called customer in reference to his e-mail, he stated that there is a rattle in the steering wheel and a thumping under the floorboard and alleges that the dealership can not resolve. Additionally, he states that the SRS light is on again. Per customer, the vehicle was taken to the dealership this morning.

Customer alleges non-deployment of airbags & seat belt tensioner devices.

When did the incident occur?

11/04/06 about 3 AM.

Driver's name and name of occupants:

Driver: [REDACTED]; Front passenger: Vicki Peineda; Rear passenger side passenger: unknown female.

Where did the alleged incident occur?

Harbor City, CA

Were there passengers?

Front passenger and rear passenger-side passenger.

Was anyone injured?

Driver alleges he is bruised and sprained his ankle; allegedly front passenger bruised her chest and hit her leg on the dashboard.

Were seatbelts worn?

Alleges driver and passengers were wearing seat belts.

Where is the vehicle located now?

7th Street Tow, 1615 Maurentania St., Los Angeles, CA 90744; 310-856-1980.

Address, Phone and Contact person at Body Shop:

Vehicle was impounded and towed the above location.

Police Report?

Yes, customer states that he will send to MBUSA.

Insurance Information:

Customer indicates that he has contacted his insurance company.

Can customer forward photos to CAC?

Yes, customer states that he took photos & will forward with Police Report to the CAC.

Customer alleges the following information. He claims that he was traveling through an intersection when another vehicle (Honda) made a left at the intersection and the vehicles were involved in a head on collision. Customer alleges that both he and his front passenger were brought to the hospital and treated in the emergency room and have gone to their private doctors. Customer states that the rear passenger was not injured.

Customer alleges that the seat belts did not lock up during the collision and that he slide forward. Customer alleges that the front passenger was sleeping and her seat was slightly reclined and that upon impact she slide forward hitting her leg on the glove compartment and the sunglass compartment on the dashboard.

Customer alleges that Tele aid SOS system did not come on and he attempted to reach Tele aid but it did not connect; however, a passerby called police. (Note: Write called ATX (Russ) who advised that this is not an active account; ATX never received an agreement.)

Writer stated that customer comments would be noted.

Referral being opened based on customer contacting the Roadside Assistance Department claiming that his brakes allegedly did not work and he was involved in an accident where the airbags did not deploy. The following note was entered by Roadside Representative.

" [REDACTED] stated at 5:00PM while driving 30MPH, he struck the rear of another car at the intersection of 7th Street and Tamiami Canal Rd, in Miami. The vehicle in front of him was slowing to a stop for a red light. [REDACTED] claims the brakes did not perform properly. He believes the brakes should have worked better to stop his car. Also, he claims the airbags did not deploy. When ask what the damage was he stated the headlight lens(s) were broken. I asked if there were any injuries - [REDACTED] stated that the police came and no one claimed injuries. [REDACTED] was offered the assistance of a tow and declined to have his car towed - electing to continue driving the car. Again, I offered to tow and was declined. He will drive the vehicle to the Coral Gables dealer and request the dealer inspect the braking system."

Open Date: 11/14/2006 15:48:16

Agent: Gary Bowne

Phone 2719

Note Type: SN

Hi Andrew,

Please ask the dealer to check SRS and SBC for codes and take some photos of the damage. We can then decide if an inspection is necessary.

Thanks,

Gary

Open Date: 11/15/2006 10:22:06

Agent: ANDREW KAMBICH

Note Type: RC

Please see the following information. Spom reviewed with C. tobias who will generate letter to client advising that vehicle had been inspected and it was determined that the vehicle operated as designed.

I've tried to contact this client to review her/his concerns. When I call, I speak to someone who doesn't identify himself but asks if I speak Spanish as the clients only speak Spanish. I do not speak Spanish so I cannot communicate with them to address their concerns.

The phone number I've called is [REDACTED]

The vehicle has been inspected by the dealers bodyshop and found that the SBC system (brakes) are working properly, no leaks, no mechanical failures and no electrical failures. The SRS is also still armed and functional. Again there were no mechanical or electrical issues with the vehicle. The SRS did not deploy as the threshold parameters for deployment were not met. Minimal impact damage to the front of the vehicle.

Interesting to note that the client alleges that the brakes " Did not work ", yet he elected to not have the vehicle towed and drove it himself to the dealers bodyshop.

Letter being sent:

[REDACTED]

Miami, FL [REDACTED]

Subject:Model:2005 E320CDI

VIN:WDBUF26J85A [REDACTED]

Dear [REDACTED]:

This letter is in response to a telephone call you made to our Roadside Assistance Department.

Immediately after your call to our office, we contacted Bill Ussery in Coral Gables as well as our Regional Manager who has full authority to review concerns of this nature on behalf of Mercedes-Benz USA. He advised us that a technical inspection of your vehicle found it to be operating as designed.

[REDACTED], please be assured that Mercedes-Benz USA will continue to honor the terms of the Limited New Car Warranty of 48 months/50,000 miles, whichever occurs first. We also stand ready to provide technical assistance to the dealership at their request. If you encounter any additional technical difficulties of which we are not aware, we encourage you to contact the Service Manager of your local authorized Mercedes-Benz dealer for his review.

We realize this is not the decision you had hoped for, but we believe the facts and circumstances make it a reasonable one, and trust you will understand and accept our company position.

E-mail from G. Bowne

Hi Joe,

I reviewed the photos provided by the customer. The damage to the front end is relatively minor and was not sufficient to deploy the front airbags or ETR's in this collision. In addition, the driver only complained of minor neck injuries, which would not be prevented by airbag deployment, and were most likely sustained when she was originally rear ended.

I will not assign this case for inspection. If the customer feels the need, she can have the SRS checked by the dealer after the body repairs are complete.

Thanks,

Gary H. Bowne
Department Manager

Writer called body shop and spoke with Tommy, and informed him that he can begin to repair the vehicle.

Open Date: 12/01/2006 14:35:22

Agent: ANDREW KAMBICH

Phone

Note Type: SN

Spom contacted bodyshop manager and asked that the vehicle SRS function test (key cycle) be completed. BSM advises that when he inspected vehicle he noted that rear seatbelt ETR's had deployed. During key cycle test, the SRS would not extinguish, which is a result of the rear seatbelts having deployed. BSM advises that no airbags have deployed in vehicle. Spom reviewed above with T. Brunner who agrees that vehicle has operated as designed.

Customer contacted the CAC regarding dissatisfaction with his vehicle.

Customer claims his car has been in the dealer 10 times for multiple issues. Customer claims he's had issues with SRS, transmission, in-dash CD player, belt squeal, and engine. Customer stated that this is the worst car he's ever owned and he doesn't know where to turn. Customer claims he's spoken to "everyone" at the dealer. He stated that he's currently still experiencing a squealing sound coming from his vehicle. Customer stated that he feels the car is a lemon and should be replaced because it is unreliable.

Customer will be out of the country for a short time and returning on December 10th.

Open Date: 12/07/2006 13:10:47 **Agent:** GEOFF LEWIS **Phone** **Note Type:** SN

I am waiting for an update from the dealer, and will add case notes when possible.

Open Date: 12/13/2006 07:08:24 **Agent:** GEOFF LEWIS **Phone** **Note Type:** RC

This writer reviewed repair history; vehicle appears not to qualify as a lemon under the Minnesota lemon law statute. Customer recently returned vehicle to service dept for installation of previously ordered part, Comand unit. All reported problems with vehicle have now been addressed and repaired, vehicle is now being returned to customer. Dlr's Fleet Manager, formerly Sales Manager, Mike Milburn, has a long-standing relationship with this customer. Mr Milburn informed owner that repair history had been reviewed, and that vehicle would not be repurchased by dealer or MBUSA. Owner is not happy with this response, and may pursue matter further.

SPOM called attorney [REDACTED] and stated that he reviewed the service history. SPOM stated that he felt that the vehicle didn't have an unreasonable number of repairs or days down. Attorney confirmed that the case wasn't a presumption case, but he would have no problem convincing a jury that a \$70K car should have this many problems.

SPOM broke down warranty repairs as follows in 7 visits:

- 1 SRS
- 1 RF Seat Switch
- 1 B Pillar Material
- 1 SBC Recall
- 1 ESP Light
- 1 Cup Holder
- 2 Sunroof (1 Noisy, 1 Broken Sliding Blocks)
- 1 Roadside Spare (not warranty)
- 1 Transmission
- 1 CEL

SPOM denied buyback at this time. Attorney requested denial letter.

Dear [REDACTED]

Thank you for your letter.

As stated during your conversation with Brian Bae, Regional Service and Parts Operations Manager, on 12/13/06, he has thoroughly reviewed all pertinent information regarding your client's concerns. Mr. Bae has reviewed your client's repair history to date and has determined that this vehicle does not qualify for the refund under the Lemon Law that your client seeks. Specifically, the overall nature of the repair issues reflected in the history does not meet the level required under the law to justify a repurchase or replacement, and we believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to replace or repurchase your clients CLS500C.

Please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your clients 2006 CLS500C.

Sincerely,

James D.

Re: Final Repair Attempt-Postponement
Mercedes-Benz CLS-500
WDDJ75X86A [REDACTED]

On December 12, 2006 you and I had a telephone conversation concerning your 2006 Mercedes-Benz CLS-500. The purpose of that conversation was to review the Final Repair Attempt that had been scheduled for 12-14-06 (today) at Bill Ussery Motors, Inc. During the course of our conversation it was determined that recent repairs that were performed by Bill Ussery Motors, Inc. had corrected the condition outlined on the Motor Defect Notification. It was further agreed that since the condition was no longer present that a postponement of the Final Repair Attempt would be appropriate.

The purpose of this letter is to confirm that the Final Repair Attempt has been indefinitely postponed, and agreed to, by both yourself and Mercedes-Benz-USA, LLC. This does not however, preclude the manufacturer from performing the Final Repair Attempt in the future, should it be required. Should it become necessary for the manufacturer to perform the Final Repair Attempt, please contact me directly to schedule the appointment.

Should you wish to contact me directly, I can be reached at the telephone listed below.

Regards,
Andrew Kambich
Service and Parts Operations Manager
Mercedes-Benz USA, LLC.

[REDACTED] contacted CAC stating "I want you to buy this car back and do it now!"

See S/N # 1489351- customer contact - request is being reviewed - no CA Referral opened.

Customer stated "I have had so many problems with the SRS, check engine light, brakes, brake system, electrical, dynamic seats, trunk sounds and many other things. I called your office and I get bounced around like a ping pong ball and I am fed up with this. I do not feel safe driving this car at all. I have requested Mercedes to buy the car back, this answer still has not been provided to me. I am in contact with the service manager and he tells me this is up to Mercedes corporate. Stop giving me the run around, I want this resolved."

"Customer stated "I want to know what happens with all these break downs, the manager tells me to call you, you tell me to call the manager. I am a human ping pong ball, do you have a paddle?"

Writer spoke with customer for 31+ minutes.

Customer spent most of conversation venting concerns - writer listened.

Customer stated "I don't think I bought a Honda but this whole experience feels like I did. Calling headquarters has just been silly like having a Honda." Writer listened to customer and advised customer concerns have been documented and forwarded to all appropriate parties involved.

Customer did express interest in a 2007 E-Class.

Customer expressed concerns about "Mercedes requiring extensive road testing and putting a lot of miles on my car."

See warranty history.

[REDACTED] sent email seeking technical assistance with "brake squeal and fuel tank problems."

Customer's email:

"E-mail: [REDACTED]

Comments: I have owned BMW's, Audi's, Chevy's, Ford's, Volvo's, Dodge's, Land Rover's and Cadillac's. My 2 2005 Mercedes e500 sedan and wagon are at the dealer for repairs more than any of the aforementioned cars, even the Land Rover! I am very disappointed with the quality of these cars. For example, SRS systems have failed, brakes squeal continuously, gas caps need to be replaced, emission systems fail state exams, brake hydraulic pumps are loud and vibrate. Did I by a Yugo? Did I really spend 100K on these two cars? BMW here I come, if these things are not fixed. "

Writer spoke with customer.

Customer stated "I have had a lot of problems with the braking system, lots of parts replaced and lots of grinding and squealing, this can't be normal and it is still happening."

Customer stated "I have constantly got fuel gauge lights and fuel system problems."

Customer stated "My dealer bends over backwards for me, they keep me happy, my problems are with the quality of the car, please help me."

See warranty history.

On 12/21, SM at 67294 wrote : [REDACTED] IS COMPLAINING OF CONTINUED BRAKE SQUEAL WHICH WE HAVE CONFIRMED TODAY. IT IS BAD. WE HAVE ADDRESSED THE NOISE 3 TIMES AND EACH TIME IT HAS RETURNED. THE CAR HAS JUST OVER 12K AND IS OVER 1 YEAR OLD. WE NEED TO CONSIDER REPLACEMENT OF ROTORS AND PADS TO CORRECT THE CONDITION.

On 12/26, writer discussed with SM. Last complaint of brake squeal was in May, 2006. Writer stated he would rely on dealer expertise to determine if brake squeal is normal or, that there is an issue with materials. SM will drive vehicle overnight to verify and make recommendation to writer.

[REDACTED] was transferred to the writer from the Survey Department. [REDACTED] stated "I am calling on behalf of my friend the owner of this vehicle to request the vehicle be bought back as a lemon under the California Lemon Law."

[REDACTED] stated "The owner [REDACTED] has a language barrier. [REDACTED] vehicle has been to the dealership four times for the same issue with the SRS light coming on. The dealership is not able to repair this. Three times is considered to be the lemon law. The vehicle is at the dealership right now and I am making this request on [REDACTED] behalf."

The writer advised she would document the customer's call and forward the comments and concerns to the appropriate parties.

Please see sum note 152297.

SPOM spoke with customer's rep, [REDACTED], and stated that he reviewed his request and the warranty history. SPOM stated that vehicle didn't qualify for repurchase at this time. Customer asked what the criteria was.

SPOM stated that the vehicle didn't qualify under the Lemon Law, which was the criteria. SPOM stated that vehicle had 2 SRS issues and 1 ESP, rather than the 3 SRS issues the rep stated in the initial call. SPOM stated that a reasonable number of repairs for a substantial nonconformity is 4 repairs in the first 18 months or 18,000 miles of ownership.

Rep stated that he understood the position.

[REDACTED] called the CAC.

Customer requests MBUSA repair or repurchase vehicle.

Customer claims vehicle has been to dealer 4-5 times for issue with illumination of SRS light.

Customer says dealer advised vehicle can be driven, no concern. Writer offered tow as MBUSA does not recommend that vehicle be driven.

Customer alleges dealer is unable to provide appointment with loaner vehicle until Friday 2/2/07 and they cannot be without a vehicle.

Writer apologized for customer 's inconvenience and explained that issue is reviewed locally and that SM of dealer will provide updates to status of the review. Write also advised that MBUSA cannot influence dealer appointment schedules and availability of loaner vehicles.

Writer received fax from [Redacted] on 02/12/2007 stating that his vehicle is a lemon under the New Jersey Lemon Law and he hereby requests relief under this Law.

[Redacted] states his vehicle has gone into the dealership four times for an accumulated amount of 21 calendar days. He states that the vehicle has been in twice for front axle issues, airbag line replacement, and transmission issues.

Customer states "I am hereby allowing you one final opportunity to repair my vehicle. If these repairs are not completed within 10 calendar days of receipt of this letter, I am entitled to a refund calculated in accordance with the Lemon Law."

customer claims vehicle has 32,973 miles

[Redacted] called the CAC claiming his vehicle is a "lemon" and requesting MBUSA to "buy it back."

Customer claims vehicle has visited dealership 16 times for many different reasons including "Airbag seat sensor, bumper cover peeling, GPS system draining the battery, loose encapsulation shield, and SRS light going on." According to the customer the only concern currently outstanding is the GPS draining the battery.

Customer claims vehicle is currently in his possession.

Customer believes "vehicle is a lemon and MB has to take it back."

Writer spoke with Service Advisor, Kim DanTangelo, regarding customers concern. Customer's vehicle was repaired on March 14, 2007 and vehicle delivered later in the week. SM, Brian Mock, follow-end up with customer to determine if there were any further concerns with his NAVI system, and there were none.

Customer was satisfied with repair and there are no further issues at this time.

[REDACTED], vehicle driver, called to claim that he plans to invoke the Lemon Law due to the frequency of repairs required for the vehicle.

Customer claims that he had the vehicle back to the dealer several times for an SRS issue and now the vehicle will not shift out of neutral and is back at the dealer.

He claims that the vehicle is a lemon and is requesting to be taken out of it.

Customer can be contacted on his cell phone at [REDACTED]

Copy of referral sent to legal - Gail Slaughter.

Open Date: 02/28/2007 21:53:25 **Agent:** STEVE DENNIS **Phone** **Note Type:** SN

Information sent to dealer.

Open Date: 03/02/2007 15:22:06 **Agent:** STEVE DENNIS **Phone** **Note Type:** SN

Service & Parts Director for MB Massapequa (Maria Tully) and SPOM discussed this owners service history. Vehicle has been back to the dealer on 4 occasions for SRS concerns and now recently for a transmission problem. Vehicle at this point has been out of service for 30 days and the dealer is currently waiting on parts to address the transmission issue. Both the Service & Parts Director and SPOM feel the vehicle meets the conditions for New York State Lemon Law, however the vehicle currently has 29,000 miles on it. Under the New York State Lemon Law the first 12,000 miles there is no charge for mileage. After which there is excess mileage charge which is listed below: (29,000 - 12,000 = 17,000 x .25 =\$4250 approximately)
Dealership Management will inform the customer of this, if he accepts that responsibility the customer and dealer can work out the details.
Should the owner reject that offer, then the only recourse is through judicial relief in arbitration.

Open Date: 03/22/2007 20:34:45 **Agent:** STEVE DENNIS **Phone** **Note Type:** RC

SPOM reviewed the case once again to finalize details.
Dealer will terminate the lease of this vehicle. Customer will purchase another Mercedes product.

Hi James,

I reviewed the photos provided by the customer. The impact appears to be lateral across the front of the vehicle from left to right. There is very little longitudinal damage. I believe the SRS functioned as designed. Since the customer was belted and not injured, we can offer to have the dealer verify the functionality of the SRS after the body repairs are complete. We do not need to inspect.

Thanks,

Gary

██████████
Mc Allen, TX ██████████

Subject:Model:2005 E320W
VIN:WDBUF65J05A ██████████

Dear ██████████:

This letter is in follow-up to your recent contact with the Mercedes-Benz Customer Assistance Center in reference to an accident you were involved in with the above referenced vehicle in March of 2007.

This will confirm that a Mercedes-Benz USA, LLC technical representative has reviewed photographs of your vehicle and has concluded that the impact damage they reflect is consistent with an impact creating a deceleration rate below the threshold for deployment of the front airbags for belted occupants. Rather, it appears that the system operated as designed in the accident which you sustained.

Accordingly, it is MBUSA's conclusion that the system operated properly in the subject accident.

Sincerely,

James D.

Customer called and requested MBUSA Technical Assistance for many alleged electrical concerns with his vehicle. Customer claims he wants MBUSA "to fix it once and for all. I don't have time to keep bringing it back and forth to the dealer." Customer alleges that he currently has the SRS lamp on the dashboard.

Writer recommended that the vehicle be towed to the dealer if the SRS lamp is lit on the dashboard and not going off. Customer claims that he wants the vehicle brought to MB South Bay, which he claims is closest to his home.

Writer advised that his concern would be documented and reviewed. Writer advised customer to speak with MB South Bay's SM, when the vehicle is brought to the dealer. Writer called RAP, spoke with RAP Agent Jim, and conferenced the customer and RAP Agent to arrange the tow to MB South Bay [ticket# 3174946].

Writer called MB South Bay SM Devin Quella and left vm to advise him of customer's concern & request, and that vehicle is being towed to his dlr today.

[REDACTED] phoned the CAC demanding MBUSA/Dealer terminate her lease on this vehicle.

Customer states that this vehicle has been to this dealer at least 4 times for complaints with the transmission not functioning. Customer also stated she had concern with SRS light, dealer repaired a "crimped wire in the steering column and the day after I got the car back I was making a turn and the car clumped and stopped....my daughter was in the passenger seat and could have been killed."

Customer stated that when SRS light first came on dealer advised that they would not have appt available for a week and a half. Customer states that only after she mentioned that her friend was a lawyer and was involved in an accident where airbags did not deploy did dealer ask her to bring vehicle in same day.

Writer apologized for her experience and advised that her concerns would be reviewed.

Open Date: 04/18/2007 07:18:24 **Agent:** VINCENT ABUCEWICZ **Phone** **Note Type:** SN
Writer received case, and will discuss with SM.

Open Date: 04/20/2007 11:58:15 **Agent:** VINCENT ABUCEWICZ **Phone** **Note Type:** SN
Pat Evans (SM) and writer discussed customer problems and request. Per service history writer declined to terminate lease. Vehicle was in 2nd time for transmission repair. The other repair was for the SRS system.

Recent repair has been completed and verified by SM. Vehicle was scheduled to be returned to owner today.

Open Date: 04/26/2007 15:57:04 **Agent:** Christine Dingler **Phone** 6361 **Note Type:** SN
[REDACTED] phoned the CAC regarding vehicle and concerns. Customer stated that no one has contacted her but did state that she spoke with SM and sales rep.

Customer stated that SM stated to her that, "his hands are tied. He didn't build the car. When is an acceptable amount of times for a vehicle to be brought in with a safety issue before you do something?"

Writer advised that each situation is reviewed on a case-by-case basis. Writer advised that MBUSA's commitment to her is to repair vehicle per terms of warranty.

Customer stated that dealer can feel issue with trans but she will bring it in when it gets worse and "hopefully it won't strand me."

Open Date: 05/03/2007 13:08:31 **Agent:** VINCENT ABUCEWICZ **Phone** **Note Type:** RC
Vehicle left dealer, repaired 4/21/07. Pat Evans (SM) left telephone message for owner. Customer has not responded to SM. As per previous note, MB will not replace vehicle.

Attorney Demand Letter:

The writer was assigned correspondence 321167 on 4/20/2007 from the law offices of [REDACTED] dated April 11, 2007. The following is quoted:

"Please be advised that this law firm has been retained by [REDACTED] to enforce his legal rights regarding the lease of the above identified vehicle. The purpose of this letter is to set forth the facts of this case, cite the applicable law and attempt to resolve this matter as quickly as possible."

"...Due to numerous unsuccessful repair attempts which have substantially impaired the vehicle to him....Four separate repair attempts for SRS airbag defects in just 12 months and less than 12,003 miles of use."

"At this time, [REDACTED] is willing to return the subject vehicle to Mercedes-Benz of NA and settle this matter for a repurchase of the subject vehicle, including restitution in the subtotal amount of \$12,140.7".

"If I do not hear from you by May 11, 2007, I shall assume that Mercedes-Benz of NA is denying its obligations under the law and [REDACTED] will be left with no choice but initiate legal proceedings."

Customer contacted the CAC alleging that his vehicle is in the dealer for the 22nd time.

Customer claims that he has had numerous issues with the car and has reached the point of it being more than a lemon. Customer stated that right now it is in there for the SRS light being on. He stated that in the past he has had issues with "everything." Customer stated it is apparent the car will never be fully repaired and feels the only logical resolution would be to get a replacement vehicle.

Writer advised customer his comments would be documented and forwarded for review. Writer advised him it can take several business days.

[REDACTED] phoned CAC requesting "replacement vehicle". Customer claims that vehicle has been to dealer a total of "10 times" for three specific issues:

1. "Vehicle wanders all over the road" (3 times). Customer claims that dealer has done repairs to address the issue including "suspension, tire rotation, new tires, alignments, and new software".
2. "Needle for gas gauge on instrument cluster disappears (5 times)".
3. "SRS light (2 times)".

Additionally customer claims that in addition to "inconvenience of traveling 100 miles round trip to dealer, customer has spent a considerable amount of money renting a loaner vehicle".

Writer advised customer that his request will be documented and forwarded to the appropriate party. Writer advised customer to remain in contact with SM Mike Moreno.

Escalated Referral --

Attorney, [REDACTED] of [REDACTED], P.C., sent a demand letter dated 5-14-07 with attached spreadsheet via certified mail (7007 0220 0000 3368 5643) addressed to Ernst Lieb, Alan McLaren, MBUSA/CAC and M-B of Fairfield.

Attorney advised that he represents Steven Diamond of Fairfield, CT regarding the many issues which have arisen with respect to the performance of his 2006 CLS55. Attorney attached spreadsheet with alleges performance issues with this vehicle & dates of service (17 dates) and alleges that since this document was prepared, the vehicle has again been at dealer for repairs. Spreadsheet alleges issues with the phone, headlights, replaced SAM, SRS light and other warnings. Attorney also claims that dealer arranged to replace customer's previous 2005 E500 with the present vehicle pursuant to a "buyer's assist" program. Attorney demands the immediate replacement of the CLS55 or that the lease to this vehicle be terminated and, in either event, that appropriate arrangements be made to compensate Mr. Diamond for the financial loss that he has suffered arising from the defective performance of the product.

Attorney also advises if "appropriate arrangements" are not made to deal with this matter, then they will be left with no alternative to resort to the various rights/remedies available by law. Attorney also advises that starting on June 2, 2007 (and each Saturday thereafter) Mr. Diamond will park his vehicle in front to the dealer's showroom with a copy of the enclosed spreadsheet attached to a placard on the roof the vehicle.

Customer requesting buy back.

[REDACTED] phoned CAC demanding that MBUSA buy back his vehicle. Customer claims excessive amount of repairs and MBUSA "has to take back this lemon." Customer claims that he has had 10 different transmission fluid leaks and many electrical issues. Customer claims that none of the dealers that he has taken vehicle to have been able to repair vehicle. Customer being very aggressive and demanding to speak with SPOM.

Writer advised customer that writer takes calls on behalf of SPOM. Writer advised customer that there concerns would be forwarded on to the appropriate parties for review. Writer advised customer to allow several business days to process the information and that SM at dealer is the point of contact.

Customer not happy with that response and demanded a 3 way call with SPOM right now.

Writer apologized and advised that his request for a buy back will be reviewed with the appropriate parties. Writer advised customer that his point of contact is SM at dealer.

Customer still does not want to accept that position. Customer is demanding that writer provide telephone number to SPOM.

Writer apologized and advised customer that writer takes calls on behalf of SPOM.

Customer terminated call

Writer spoke with SM (Rusty) who verified that vehicle has 9,000 miles and not 46,000. SM advised that vehicle is at dealer for a transmission fluid leak, SRS light on, and a minor issue with park assist mirror. SM advised that vehicle was brought to dealer this morning and they have not even looked at it yet.

Writer thanked SM for information.

Phone 6328

Note Type: SN

Customer contacted the CAC alleging that the service mgr and general mgr gave him the name of the regional mgr Michael Ellis and suggested calling in for his contact information.

Writer advised customer that his request would be documented and forwarded but writer could not supply him with any further information. Customer dissatisfied with writer's response demanding to know when Mr. Ellis would be returning his call, writer advised that she could not speak on behalf of Mr. Ellis's schedule nor could not promise a call back. Customer demanded to speak with a supervisor and writer advised that currently none were available and that he would not receive a different response from any one in this office. Customer demanded writer's name and extension and ended the call.

Note Type: SN

Spom spoke with dealer n Macon and verified the correct mileage on the car is 9816 not 46,000. Apparent typo by dealer 17107. Service mgr advised that before they could complete diagnosis of vehicle client returned and after advising owner that diagnosis was not complete , he stated he did not have time and took car . Service mgr indicated customer very hard to satisfy.

Open Date: 05/22/2007 11:02:49 **Agent:** MICHAEL ELLIS **Phone** **Note Type:** SN

Spom called client and reviewed his concerns about trans shifting, SRS and mirror convenience feature. Client was very abusive and called writer knucklehead twice. He demanded that writer and our attorneys meet with him and his attorneys. Spom advised client that we do not have attorneys here in Atlanta. client made several negative statements about the dealership in Macon that he visited yesterday. Client demanded his car be repurchased and SPOM declined this request.. client was very argumentative and appears to been same with dealer in Macon. Client indicated he had an appointment at M B Buck head on Friday and SPOM advised him I would be there to look at his vehicle and issues and contact him once they are evaluated.

Open Date: 05/25/2007 14:10:19 **Agent:** Glenn Zitzman **Phone** 7234 **Note Type:** SN

This note is being written by G. Zitzman on behalf of Jim Hormann who reports having direct contact with the Customer. The following is therefore documented:

1- Contact was made at 1:45 PM on 5/25/2007.

2-Customer had called the region and had a conversation with Judy Cobb who forwarded contact to Jim.

3-Customer demands buyback of vehicle and was informed that SPOM Ellis is the final decision maker regarding all requests.

4-That SPOM was at the Dealer and was reviewing issues and would contact the Customer before close of today's business.

Open Date: 05/29/2007 10:57:14 **Agent:** MICHAEL ELLIS **Phone** **Note Type:** SN

Spom spoke with client and reviewed issues with SRS(corrected), trans not up shifting at times , and memory mirror. Spom advised client a T/S was inspecting vehicle today regarding issues with trans and mirror. T/S felt trans issue was client inadvertently bumping tip shift function on console shifter, that manually down shifts trans and does not up shift until shifter is manually up shifted or key is cycled, which is how client described complaint.

Open Date: 05/31/2007 10:34:50 **Agent:** MICHAEL ELLIS **Phone** **Note Type:** SN

Client contacted Spom and claimed car still has oil leakfrom transmission and car was delivered dirt in area where SRS repairs wer completed. Spom agreed tohave client car picked up and a loaner furnnishes and and have engine and transmission area steam cleaned and check for leak by having paper placed under vehicle. Previous inspection of transmission ans belly pan did not show and leak. Dealer has been contacted to make arrangements for this issue. Client demanded car be repurchased and Spom denied his request . Spom offered to trade client into another vehicle and he declined that offer.

Open Date: 06/11/2007 11:53:52 **Agent:** MICHAEL ELLIS **Phone** **Note Type:** SN

Dealer made appt to contact client on the morning of June 7th to arrange to pick car up as agreed previously. Dealer made several calls in the am and no response from client Dealer went to client residence and no one home. Client later called and said he left at 6:30 am for Macon Ga. Client told his Service advisor Carlos he would never do business with them again.

Open Date: 06/22/2007 15:05:16 **Agent:** MICHAEL ELLIS **Phone** **Note Type:** SN

Spom was advised client had been at RBM of Atlanta . Spom called Client service mgr Pam Knowles and was advised client had been there with his c class and requested service , then told dealer he just wanted parts (air filter) put in his car as he does his own work.

This request was done. Later client called Client service manager and insisted they had given him the wrong air filter.

Client service mgr asked client where he was installing filter and he said, under the battery cover. client service mgr advised client that this was the location of the cabin air filter not the engine air filter . Client said , my mistake and indicated he would never return to an M B Dealer again. Case closed

Dear [REDACTED]:

Thank you for contacting Mercedes-Benz USA, LLC.

Your request for the above referenced vehicle to be replaced by the manufacturer was reviewed by our Regional Service and Parts Operations Manager in conjunction with your dealership, Rallye Motors. After review, it was determined that your vehicles repair history does not qualify for replacement and must therefore respectfully decline to replace your E350.

We cannot overstate your importance to us as a Mercedes-Benz customer, or regret for your express disappointment. We are committed to honoring the terms of our Manufacture's New Limited Vehicle Warranty to perform any necessary repairs If required or applicable and stand to provide technical assistance should your dealer request it.

[REDACTED], we understand this is not the answer you anticipated however, we solicit your understanding of our company position.

The opportunity to review this matter is appreciated.

Sincerely,

John H.

SPOM did not receive a return call from Ben Hill.

The following was faxed on 6/28.

VIA FACSIMILE ONLY

Dear Mr. Starr,

I have reviewed your demand letter dated June 2, 2007 in reference to [REDACTED] 2006 Mercedes Benz CLS500 (WDDJ75X86A [REDACTED]). I will agree to repurchase this vehicle.

I will agree to a mileage offset at 1,769 miles, which according to our records was the mileage that represented the first SRS complaint. At your earliest convenience could you please send me an updated list of demands for my approval along with the following documents:

- current vehicle registration
- sales/lease contract
- payoff quote from lien holder (or title/proof of payoff)
- current vehicle mileage
- billing records for requested attorney's fees

Best regards,

Carolyn Duchene

[REDACTED] alleges his airbags did not deploy during a head on collision.

Making left turn and a cement truck was making a left opposite of customer. Customer alleges they collided head on. When writer asked customer how fast he was traveling he stated, "I don't know but it was fast enough to do \$10,000 worth of damage."

Customer alleges that his insurance adjuster told him that the airbags should have deployed because they sensor was "cracked in half"

Customer stated, "I don't think I should be responsible for the depreciation of this car because its your fault the airbag didn't go off."

Writer advised that MBUSA will provide a position for the airbag allegation although, this is irrelevant to the fact that the vehicle was involved in a accident, causing its value to depreciate. Writer advised MBUSA will not be responsible for damage due to outside influence as this is.

When did the incident occur? Customer believes June 13th
Driver's name and name of occupants: Owner and Son [REDACTED]
Where did the alleged incident occur? Crandall Lane in Ownings Mills MD
Were there passengers? Yes, son
Was anyone injured? Yes, legs and chest to son. Sore hips and neck for owner
Were seatbelts worn? Customer alleges yes
Where is the vehicle located now? Heritage Body Shop
Address, Phone and Contact person at Body Shop: [REDACTED]
Owings Mills, MD [REDACTED]
John or Dick ([REDACTED])
Police Report? Yes
Insurance Information: Incompass Insurance Agent Jim Schaftel (443)691-4450
Can customer forward photos to CAC? No

Writer apologized for any inconvenience, thanked customer for calling, and advised customer that all comments will be documented as well as shared with the appropriate parties for review.

Writer received letter from Mr. William R. McGee Esq. dated 06/21/2007, mailed 06/21/2007, and received on 06/26/2007.

Attorney states he represents [REDACTED] and his vehicle. They claim the vehicle qualifies under the terms of the California Lemon Law due to four repair attempts for the SRS/airbag, one repair attempt for the A/C, and one repair for the engine.

Attorney and customer are requesting to have the vehicle bought back and the sum of \$11, 923.44 refunded.

Mr. McGee is requesting to be contacted directly to discuss this matter further.

[REDACTED] phoned CAC extremely upset about ongoing issue with SRS system in vehicle. Customer claims that vehicle has been at dealer 6-7 times for SRS light on and customer did not feel that system was functioning properly. Customer claims that he "rear ended" another vehicle and none of the airbags deployed. Customer claims that his vehicle has \$8,000 of damage to the front end and cannot believe that his airbag did not deploy. Customer claims that for the second time he is requesting that MBUSA inspect his vehicle and "guarantee" him that his airbags are functioning properly. Customer claims that he advised body shop not to touch vehicle until MBUSA inspects it.

When did the incident occur? aprox: 2 weeks ago

Agent: Gary Bowne

Phone 2719

Note Type: SN

Sorry for the delay in responding. This was a high hit above the frame rails. The damage to the vehicle was not sufficient to deploy the SRS. In addition, the customer did not sustain any injuries. If the customer has concerns about the function of the SRS, he should have the system checked by an authorized dealer. If they find a problem, we can assign someone to inspect.

Gary Bowne

Note Type: SN

Customer phoned the CAC regarding above note and provided additional information.

Customer alleged: Accident occurred at the intersection of Federal Ave and Rochester in Brentwood CA. Customer was traveling at 35mph and was struck on the drivers rear door. Vehicle was sent into a spin into oncoming traffic where it struck a vehicle with its front end. Vehicle was then sent over a curb and a parking sign up a four foot retainer wall partially through bushes ultimately stopping when the wall of an apartment complex was struck. Customer added that when the fire department and police arrived they advised her that the only reason she and her children were walking away from the accident unharmed was because she was driving a Mercedes and her seatbelt was on.

Customer has Hartford insurance and is working with Raymond Abate 800-811-4832 X41273. Customer also advised that she contacted the insurance co of the person who hit her and set up a claim with them, Mercury Insurance claim number [REDACTED] Customer advised that an adjuster from Hartford Insurance will be at the body shop in 48 hours.

Customer would like to know why none of her airbags deployed. Customer wanted it noted that she is willing to release the vehicle to MBUSA to have it examined however a rep would need to be sent out soon.

Writer advised customer that her concerns would be documented fully and forwarded on appropriately.

Writer called customer and left voicemail with customer requesting for pictures. Writer called Hartford Insurance Raymond Abate 800-811-4832 X41273 who advised that their Adjuster has not inspected the vehicle yet, but will share the pictures with MBUSA. Writer provided Insurance with tel#, case#, and email mailmaster@mbusa.com.

Open Date: 07/16/2007 12:31:34 **Agent:** Jose M Carbajal **Phone** 7855 **Note Type:** SN

Customer called the CAC inquiring if above mentioned picture were received. Writer verified with Case Manager and advised customer pictures have been received and will be assigned for review shortly.

Open Date: 07/17/2007 11:22:36 **Agent:** Mary Marten **Phone** 6328 **Note Type:** SN

Customer contacted the CAC wanting to know if she should allow work to be performed on the vehicle before hearing from MBUSA.

Writer suggested that she does not have any work performed on the vehicle prior to receiving MBUSA's position. Writer advised that the pictures were received and were being reviewed.

Open Date: 07/19/2007 10:09:49 **Agent:** Nicole Shababb **Phone** 4619 **Note Type:** SN

CORR #327867

Customer sent the following e-mail to the CAC (which this writer forwarded to Gary Bowne, Frank Berenz, Gina Cila and Tom Brunner):

I received a message from Carol requesting that I send pictures (attached in two separate emails – this is 1 of 2) of my 2006 E350 because my side and front passenger airbags did not deploy during an accident I had on July 11, 2007. I was hit by a driver on my left side passenger door and was pushed into oncoming traffic where I hit another car coming towards me and was finally stopped by the wall in the picture. I would like an explanation as to why my airbags did not deploy.

Please call to acknowledge receipt of this email 310 393 9814

Many thanks - [REDACTED]

Customer Phoned back concerning above note and became slightly irate because she has not heard a response from MBUSA as to a timeframe that her vehicle will be looked at. Customer claimed that the vehicle is about to be taken apart and feels that that will make an examination of the vehicle difficult. Customer is also threatening litigation as she feels that it will require MBUSA to address her concern at an accelerated rate.

Writer apologized for customer concern and advised that her concerns would be documented.

Open Date: 07/24/2007 14:32:41 **Agent:** Carol Ann Carroll **Phone** 4673 **Note Type:** SN

██████████ called and stated she wanted to know when her vehicle was going to be inspected because her Insurance co wants vehicle to be taken apart so it can be repaired.

Writer advised customer that I could not give her a date as I was not privy to the schedule of the technical specialist who perform these inspections.

Customer demanded to speak with writers manager.

Writer advised no one in this office would be able to provide her the information she was requesting.

Advised customer the case is being reviewed by the appropriate parties but this does take time.

Customer asked writer who would pay for the storage of vehicle while she was waiting for this specialist.

Writer advised this would be at her expense.

Customer stated this was unacceptable. Stated we had no right to drag our feet and take our time.

Writer reminded customer that she requested this inspection.

Customer claims dealer advised her to have it performed.

Customer just kept repeating that she was demanding the name of the person to whom she could speak, higher than an 800 clerk who could give her and answer to her question.

Writer advised again there was no one who she could speak with. Advised she had reached the highest level of escalation.

Customer asked who writer reported to.

Writer advised Executive Management.

Customer demanded to speak with someone else.

Writer advised she could speak with a case manager but that they would not have any additional information.

Transferred to case manager.

Open Date: 07/24/2007 17:08:52 **Agent:** Robyn Letz **Phone** 6209 **Note Type:** SN

Writer spoke with customer at request of Carol.

Customer demands to know how long she will be without her vehicle. Writer advised that we inspect MB vehicles involved in accidents when requested by a customer, however, the process can take several months.

Writer explained that this is always by request not a routine occurrence.

Writer advised that no one here would tell her not have vehicle repaired.

Writer advised that if customer 's insurance company discovers that performance of the vehicle caused the accident they may seek recourse with MBUSA at a later date.

Writer advised that customer can wait for inspection or not but that we cannot predict how long it might be before a TS could be assigned to inspect the vehicle.

Writer suggested that customer speak with her insurance representative.

Subject: Model: 2006 E350W

Serial No: WDBUF56J46A [REDACTED]

Dear [REDACTED]:

This is in follow-up to your contact with this office.

We truly regret to hear of the unfortunate accident you had with your E350.

Upon receipt, our technical staff evaluated the pictures you provided, as well as the events described, and has determined on behalf of Mercedes-Benz USA, LLC that this type of impact would not have deployed the SRS system.

If you wish to obtain more information about the Mercedes-Benz restraint systems, you can go to our website, (<http://www.mbusa.com>), and print out the on-line brochure which provides background information on the purpose and function of the Mercedes-Benz seat belts, Emergency Tensioning Devices (ETDs), belt force limiters, air bag deployment logic, etc.

On the website, you can click on:

- Mercedes In Depth
- Mercedes Care
- Rescue Guide
- Seatbelts and Airbag PDF Brochure

The opportunity to review this matter is appreciated.

Sincerely,

Linda Tognetti

Attorney, Alan R. Golden, sent a demand letter dated 7-19-07 via certified mail (envelope not included) received in Legal 7-24-07 & CR 7-31-07 (no repair invoices attached). Attorney advises that he has been retained by [REDACTED] regarding her vehicle and alleges continuing malfunctions to transmission, SRS light, check engine light, remote control entry. He advises that his client revokes acceptance of the vehicle and rescinds the lease pursuant to the Song-Beverly Consumer Warranty Act (1790 et seq.) and other applicable provisions of the law.

Attorney advises that his client requests a full refund of the lease price paid and payable for the vehicle, together with her related damages according to the law, attorney fees and costs and arrangements must be completed through his office by Aug. 3, 2007.

Attorney also advises that if MB wishes to inspect the vehicle, arrangements must be made through this office by Aug. 20, 2007; "thereafter, it may be disposed of without further notice to you".

[REDACTED] contacted the CAC and is requesting technical assistance.

[REDACTED] claims "I was involved in an accident 2 days ago and the air bags didn't deploy. I was hit from the side and the driver was driving about 35mph which, caused both the driver and passenger driver rear doors to be damaged. I was hit and knocked unconscious for about 3-5 minutes. I own many Mercedes cars and don't understand why the airbag didn't deploy. After the accident there was a light that came on saying air bag malfunction. I thank god that I didn't get hit any harder because it would have been a bad situation. Anyway, the car is currently at my house and it's drivable but, you would have to climb through the passenger side to get into the drivers seat. I would like to be contacted by some one at the head office to arrange the car coming to their dealership as I will not be bringing it there and if Mercedes wants to keep me as a customer they will take care of this for me."

Writer advised the customer that his request would be submitted.

When did the incident occur?

8-7-07

Driver's name and name of occupants:

Daniel [REDACTED]

Where did the alleged incident occur?

intersection of US 61 about 30 yards
off the hwy on Main St.

Were there passengers?

No

Was anyone injured?

"knocked unconscious 3-5 minutes. but, wasn't
taken to the hospital."

Were seatbelts worn?

Yes

Where is the vehicle located now?

at his house, "it's drivable but, have to go through
the passenger side door."

Hi Ed,

Can you arrange for the vehicle to be brought to the dealer and have some photos taken of the damage? They should also run an SDS check for SRS codes. Let me know the results. I will get you a damage code the dealer can use to charge us for the work, just remind me when you send the information.

Thanks,

Gary

Open Date: 08/20/2007 11:02:22

Agent: EDWARD HOEFL

Phone

Note Type: SN

Gary,

vehicle was inspected at Mercedes-Benz of New Orleans by shop foreman, Steve Edwards, Parts and Service Director, Jerry Radaci, and myself.

Photos were taken and CD ROM is being Fedex to your office. Hit occurred low on the drivers side, low on the door. Their doesn't appear to be damage to the B Pillar, but hard to said, as we could not open door. No airbags deployed.

Checked for SRS code with SDS, and no fault codes appear. Print outs will be provided with CD ROM of photos.

Police report was also faxed over to field office and will be provided with CD ROM.

Please let me know if you need any further information. I have contacted [REDACTED] and told him that I would get back to him after you reviewed the information, and if there was any further inspections to be conducted. I also instructed dealer not to begin repair of vehicle until we heard from you.

Note Type: RC

Writer worked with Tom Brunner, MBUSA Product Analysis, to review findings of alleged non-deployment of airbags. After review of photos taken of impacted areas on the vehicle, information from SDS print outs of vehicle diagnostic systems, there appear to be no fault codes or other anomalies that would indicate anything out of the ordinary. MBUSA's position was that the vehicle functioned as designed.

Writer had made attempt to contact customer on August 24, 2007 and was not able to contact customer. A follow-up call was made on August 27, 2007, and writer was able to communicate MBUSA's position concerning the vehicle.

Writer apologized for taking so long on a decision and thanked customer for allowing MBUSA to inspect vehicle. Writer did inform the customer that after careful review with Product Compliance, the vehicle had operated as designed.

Customer calmly, but matter of factly, said to "tell Mercedes" that they would lose a customer. He further stated he had reviewed the damage with 2 experts (body shop/collision damage), and also reviewed the damage with two insurance agents. Both collision damage experts and insurers stated the airbags should have deployed. Customer stated he was glad that he had sought the advise of two groups of experts, because he "knew this was going to happen".

Customer stated there would be a lawsuit. Customer specified class action. Customer wished the writer "Good Luck", and terminated the conversation.

[REDACTED] contacted the CAC and is requesting technical assistance.

[REDACTED] claims "I have taken my car to the dealership at least 6 or 7 times already for the same issue. The problem was first with the SRS light and now it because the battery doesn't hold a charge so they suggested a charger or something that I have to put on my car. I want it to be clear that I didn't purchase a 50K car to have to have it hooked up to a charger every day and to be told by my SA and SM Wes that they can't find out what is wrong with my car. I have it hooked up now but, will be calling the dealership to make some arrangements for me to bring it in but, because the dealership is so far I don't want to drive up there for nothing. Anyway, I am asking that MBUSA helps me out with this as I don't believe the technicians at the dealer know what they are doing."

Writer advised the customer that his request would be submitted.

William McGee sent a letter to Mercedes-Benz on behalf of his client [REDACTED] dated 08/07/07 and received by the CAC 08/15/07. Letter was sent regular mail.

Attorney alleging the vehicle has had "six separate repair attempts for the transmission system, two repair attempts for the engine, two repair attempts for the alignment and one repair attempt for the SRS/airbag system."

Attorney is demanding MBUSA terminate [REDACTED] lease as well as reimburse him for all lease payments he had made and attorney's fees.

Attorney requests that all contacts regarding this matter be directed to his office.

Writer will send attorney an acknowledgement.

Open Date: 09/06/2007 19:44:07 **Agent:** CAROLYN DUCHENE **Phone** **Note Type:** RC

SPOM has reviewed service history and determined that vehicle does not qualify for repurchase. The following was emailed to Mr. McGee on behalf of his client on 9/5. No further action is necessary at this time.

September 6, 2007

The Law Offices of William R. McGee
Bernardo Executive Center
16855 West Bernardo Drive, Suite 380
San Diego, CA 92127
Attn: William R. McGee

Re: [REDACTED] 2005 Mercedes-Benz E500W
VIN: WDBUF70J35A [REDACTED]

VIA EMAIL ONLY

Dear Mr. McGee:

On behalf of Mercedes-Benz USA, LLC, I have reviewed your August 7 letter sent on behalf of your client Edmond Cariolagian concerning his 2005 Mercedes-Benz E500W bearing Vehicle Identification Number WDBUF70J35A [REDACTED]. I recognize that your client has experienced inconvenience and possibly frustration in connection with the servicing of his Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Los Angeles area. I have reviewed your client's repair history to date with Service Manager Carl Boyd at Downtown L.A. Motors, and have determined that this vehicle does not qualify for the refund under the Lemon Law that your letter seeks.

Specifically, we believe that the lack of a specific recurring complaint and overall nature of the repair issues reflected in the history to date does not meet the level required under the law to justify a repurchase or replacement. We also believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect. Also, [REDACTED] returned to Downtown L.A. Motors for routine maintenance in June of 2007. This visit occurred more than six months after his last repair visit, and at this time he did not mention that his vehicle was exhibiting any of the issues that had been previously successfully repaired at Downtown L.A. Motors. Based on the review of your client's service history, we are confident that the subject vehicle is repaired at this time. Mercedes-Benz must therefore decline to repurchase your client's E500W.

Even though your client's vehicle does not qualify for repurchase based on its repair history to date, we are willing to consider other alternatives. For example, we can discuss a measure of compensation for any inconvenience or annoyance your client may have experienced. If you would like, I would be happy to discuss those alternatives with you at a time of mutual convenience.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your client's E500W.

Sincerely yours,

Carolyn Duchene
Service & Parts Operations Manager - MBUSA

Customer was transferred to writer by a Tier 2 representative. Customer claimed she was involved in an accident today and alleged her airbags did not deploy, which has allegedly caused head and neck injuries.

Customer stated, "I was the middle car in a five car pile, and none of my airbags deployed. My head snapped back and then hit the steering wheel. The reason I bought this car was for the safety, and it has failed. I need a Mercedes specialist to come inspect the car because I feel it is defective. I am going to urgent care right now for medical assistance".

Writer informed customer her concerns would be documented and forwarded to the appropriate parties for review.

Customer also requested a RAP technician visit her home to disconnect her battery and claimed her alarm was going off every 15 seconds and Teleaid kept trying to connect. Customer alleged she was also receiving a "restraint system malfunction" message in the vehicle's display. Writer called tech who stated he would be glad to assist, and writer sent out a page.

When did the incident occur? 8/23/07

Driver's name and name of occupants: [REDACTED]

Where did the alleged incident occur? Wood Lawn Dr in Roswell, GA

Were there passengers? no

Was anyone injured? yes- customer claimed head and neck injuries from hitting the steering wheel

Were seatbelts worn? yes

Where is the vehicle located now? 4019 Defender Dr NE Roswell, GA 30075. Customer claimed her insurance agency may tow the vehicle tomorrow. Writer advised customer to call with new location if vehicle is towed.

Address, Phone and Contact person at Body Shop:

Police Report? yes

Writer received the following e-mails:

Hi Jeff,
I don't see any damage to the vehicle that would result in an airbag deployment. Are the rear seat ETR's deployed? Maybe that's why the SRS light is on.
Customer #1 - Deliver the Dream!
Thanks,
Gary H. Bowne
Department Manager

Jeff,
Please have the customer bring the car to the dealership, and have the dealer run SDS and let us know what they find.
Thanks,
Tom

Phone

Note Type: RC

Vehicle inspected by 17302 on 9/12/07. It was determined that the rear seat ETR's had deployed as a result of the rear impact. The drivers seat ETR was in an undeployed condition, consistent with an unlatched belt. Testing revealed no abnormal codes and the seat switch itself was fully operational. The weight sensing system for the passenger side was out of calibration and was recalibrated. Informed owner that the vehicle performed as designed. Owner appreciated investigation. HUB

[Redacted] contacted the CAC requesting technical assistance claiming his vehicle has ongoing and numerous issues. Customer claims currently he has a SRS malfunction, a clunking noise in the front and rear, and an issue with the command unit, as well as a musty smell in the air conditioner. Customer added that he is dissatisfied with the quality of the vehicle as it needs monthly repairs. Yet the customer stated when the car runs he enjoys it.

Writer advised that his concerns would be documented and reviewed.

[REDACTED] phoned CAC requesting a buyback or trade in for his vehicle.

Customer claimed "Since the time I have purchased this car I have been back for service every 3 months because the SRS light keeps activating. I have brought it to the dealership 5 times and they cannot duplicate the problem or even know how to fix it. I just had the car fixed at the dealership and it has just come on again. I don't feel safe driving this car anymore because I feel like the airbags could deploy at any time while I am driving."

Customer claimed that he enjoys owning a Mercedes Benz and wishes to make future purchases, but feels "unsafe" with his current vehicle. Customer alleged that this vehicle is "defective or a lemon law case" and feels "MBUSA should stand behind their product."

Writer apologized for customer's experience and advised that his concerns would be documented and shared with the appropriate parties for review.

[REDACTED] contacted CAC requesting a buyback, compensation, or upgrade her vehicle.

Customer expressed dissatisfaction with vehicle quality, alleging that "every 3-4 months I am bring my car back in for some type of service." Customer alleges that dealer has been able to temporarily some issues with her vehicle but many of the issues have reoccurred and are still outstanding. These outstanding issues include:

-A/C system not functioning properly ("blasts for 3-4 seconds and then turns off for 3 minutes and then keeps turning back on and off")

-Gas Smell Coming from vehicle (2nd time being serviced. "gas smell from inside and outside of the car.")

-Beeping Sound coming from rear randomly

Customer alleged that other issues include her vehicle being serviced the Sun Roof motor not working and for the "SRS light" 3 times, in which she feels it will occur again. Customer alleges her vehicle is a "lemon" and stated "I can no longer enjoy driving this car, and I choose not too."

Writer apologized for customer's experience and advised their concerns would be documented and shared with the appropriate parties for review.

[REDACTED] phoned the CAC claiming that he hit a big palm tree and that his seat belt tensioners and airbags did not deploy. Customer also added that he was wearing his seatbelt however struck the windshield with his face. Customer advised writer that he did not go to or feel the need to go to a hospital and while his face hurt did not think that his nose was broken. Customer advised that he did not file a police report and there was no property damage. Customer would like to know why his airbags did not deploy as he feels that the severity of the accident should have triggered them.

Writer apologized for customers experience and advised that his concerns would be documented and forwarded on. Customer will also be sending pictures and will advise the body shop not to repair the vehicle.

Customers Wife was forwarded to writer from a RAP agent and was screaming at writer because writer could not provide customer with an exact timeframe that her concerns would be completely reviewed. Customer wants writer to expedite request because she does not have an "endless supply" of loaner vehicles.

Writer advised customer that her husbands concerns were documented and that the pictures were received and that all information was forwarded on accordingly.

Open Date: 09/27/2007 14:55:55 **Agent:** Raynell Daniels **Phone** 7824 **Note Type:** SN

The husband also contacted the CAC in regard to the above and expressed additional frustration.

The customer stated "I will never ever buy another MB again."

Writer assured the customer the his comments would be documented.

Open Date: 09/28/2007 12:56:09 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

Hi Susan,

Please ask the customer to send us original photos of the vehicle. The one he sent by email is difficult to see.

Thanks,

Gary

Open Date: 10/01/2007 11:42:33 **Agent:** Lois Grillo **Phone** 4627 **Note Type:** SN

Writer called customer at [REDACTED] and left a V/M for him to call me at the CAC; writer will request that customer send us original photos per above request.

Hi:

Could you please give me the contact information for the person who might be investing this. I would like to chat with them. My phone is [REDACTED]. Thank you for your assistance with this matter. By the way, I have been a loyal MB customer for almost 20 years.....

Best Regards,

[REDACTED]

Open Date: 10/01/2007 11:55:59 **Agent:** Lois Grillo **Phone** 4627 **Note Type:** SN

Writer reached at [REDACTED] who advises that his has a broken nose and is going for a CAT scan today. Customer states that he will ask the body shop (Kenny at Sunshine) to take some photos (interior & exterior) of the car. Customer claims that the body shop alleges that the "seat belts failed" and that he was wearing the seatbelt. Customer states that we should expect the photos (including the ones that he forwarded previously) this Wed.

Open Date: 10/01/2007 12:21:26 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Customer phoned the CAC and inquired if there is a need to send the original photos, claiming "wouldn't you want someone from Mercedes to investigate this instead of a guy with a broken nose."

Writer advised customer, that is what has been requested to process customer's case.

Customer stated, "Okay, I will try to get these pictures first thing tomorrow. I have a CAT scan for my nose tonight."

Writer documented accordingly.

Open Date: 10/01/2007 12:52:23 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

Hi Jim, David,

Since the body shop is telling the customer that the seat belt failed, we should inspect this vehicle. Please assign a TS.

Thanks,

Gary

Hi Lois,

I assigned this case to the TAC on 10/1/07. By copy of this email I'm asking David to let us know when the inspection will take place.

Gary Bowne

Open Date: 10/09/2007 15:11:39 **Agent:** Lois Grillo **Phone** 4627 **Note Type:** SN

David,

Thanks for the information. [REDACTED] called today and I advised that we have scheduled an inspection (I did not advise when).

Customer asked that you inspect the seatbelt which she alleges did not tighten up.

Regards,
Lois Grillo

Open Date: 10/10/2007 10:01:02 **Agent:** Lois Grillo **Phone** 4627 **Note Type:** SN

Per T/S vehicle inspected 10-09-07.

Open Date: 10/10/2007 14:51:49 **Agent:** Lois Grillo **Phone** 4627 **Note Type:** SN

Customers [REDACTED] called asking if MB had sent their T/S to inspect the car and writer confirmed that we have done the inspection. Customers demanded a MB rental or loaner car; writer advised that this is an insurance matter and that MB does not provide loaner/rentals. Writer advised that he needs to work with his insurance company.

Customer wants to escalate the matter, writer advised that I am his contact and eventually he will hear something from MB. Customer wants writer a letter; writer stated that he could send it to me and it would be shared.

Customer alleges that he has headaches and that he just had his second MIR of his head; writer stated that I hoped that he would be feeling better soon.

Open Date: 10/16/2007 11:52:24 **Agent:** GEOFF LEWIS **Phone** **Note Type:** SN

I spoke with [REDACTED] 10/12/07 via phone. He was wondering when his vehicle would be inspected my MBUSA, and when the inspection results would be provided to him. I told him his car had been inspected within the last few days, and that our inspector's report would be sent to Home Office for further evaluation. I also let him know that he would receive a written response from us after our evaluation was complete, and that would likely be a few weeks from now. He seemed satisfied to be speaking with a local MB representative, seemed to understand the process and timeline, and thanked me for my call. I invited him to call me back in the future if he needs to discuss this matter further.

Open Date: 11/06/2007 10:54:26 **Agent:** Linda Tognetti **Phone** 6268 **Note Type:** SN

E-mail from G. Bowne:

'Hi Geoff,

By copy of this email, I'm requesting that the CAC draft a response to the customer saying that the SRS functioned as designed.

Linda/Carol - when can a letter go out to this customer?

November 6, 2007

[REDACTED]
Boca Raton, FL [REDACTED]

Subject:Model:2006 CLS500C

VIN:WDDDJ75X36A [REDACTED]

Dear [REDACTED]

Thank you for your inquiry.

An inspection by a MBUSA technical representative of your CLS500 confirms vehicle damage consistent with an impact generating a frontal deceleration rate below the airbag system's deployment threshold, and that the SRS system operated properly and in accordance with its design.

[REDACTED], we appreciate your taking the time to share your concerns and the opportunity to respond.

Sincerely,

Lois G.
Case Manager

Writer received a letter sent via fax from [REDACTED] dated 9/22/07, received in CR 9/26/07, in which customers stated, "We do not want this car as we feel it is a defective. Mercedes has an excellent reputation and I believe Mercedes Benz should make this up to us by: Buying this car back and give us concessions to get a new Mercedes that has all the bugs worked out, is reliable and will help restore our faith in the Mercedes Benz name".

Customers claimed the vehicle concerns are as follows: "accelerator would not respond, bumping knocking noise upon take off and slowdown, SRS light keeps coming on, multi-contour seat malfunction, seat belt chime malfunction and seat belt would not pull out, warning lights on and sunroof not closing all the way, headlights flash, and CD player malfunction".

Writer will send ack letter.

Subject: Model 2006 E350
Serial No. WDBUF56J36A [REDACTED]

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have reviewed your September 22, 2007 letter concerning your 2006 Mercedes-Benz E350, bearing Vehicle Identification Number WDBUF56J36A [REDACTED]. I recognize that you may have experienced frustration and inconvenience in connection with the servicing of your vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Santa Clarita area. I have reviewed your repair history to date with Carol Quintero, Service Manager at Mercedes-Benz of Valencia, and have determined that this vehicle does not qualify for the refund or replacement under the Lemon Law that your letter seeks. Mercedes-Benz USA must, therefore, decline to replace or repurchase your E350.

Even though your vehicle does not qualify for repurchase or replacement based on its repair history to date, we are willing to consider other alternatives. Mercedes-Benz USA is offering one lease payment for any inconvenience you may have incurred, as a one-time gesture of good faith. If you would like to accept this offer, please contact Carol Quintero at (661) 753-5555. In addition, Ms. Quintero has attempted to contact you at the number provided in your letter to inform you about the offer that is being provided.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz Limited Warranty for your vehicle, if required and applicable.

Sincerely yours,

Virginia Gee
Service & Parts Operations Manager

Writer received attorney letter dated September 28th, 2007 and received on October 3rd, 2007.

Attorney requests repurchase of vehicle based on the following allegations:

- Defective body: seats squeaking, floor mat stitching coming loose, cargo net "coming off", speaker cover loose, door mirror trim loose, left front door panel "bubbles".
- Defective brakes: fading under "hard use", brake squeak, clicking noises, brakes are "low", illumination of wear light, spots on rotors.
- Defective electrical: keyless go concerns, seat belt chime malfunction, sunroof noise when moving, headlights stay on, navigation concerns, steering wheel adjustment malfunction, head rest switch loose.
- Defective engine: supercharger belt shows wear and chirps, low on power, stalling condition, rotten egg smell, supercharger "cuts out", oil leak, SRS light illuminated, check engine light illuminated.
- Defective HVAC: hot air blowing from rear AC vents, foul smell
- Defective Steering: vehicle pulls to the right, vibration in steering, "binding" wheel, clicking and knocking noise from steering.
- Defective suspension: clicking and creaking noises from suspension, left suspension "drops", rear of vehicle "drops", and popping noise from suspension.
- Defective transmission: inoperative shift controls, valve body replacement.

Attorney requests return of vehicle and refund of all funds paid towards the vehicle including trade-in value, collateral charges, incidental and consequential damages.

Attorney requests attorney fee but did not specify amount requested.

Attorney letter dated October 16th, 2007 and received on October 30th, 2007.

Attorney requests repurchase of the vehicle based on the following allegations:

-defective transmission as evidenced by vehicle shifting hard.

-defective engine as evidenced by a squeaking noise under engine and knocking sound when driving over bumps.

-defective electrical system as evidenced by low navigation voice, and an illumination of SRS light.

-defective steering as evidenced by vibration from steering wheel while braking

-*any additional complaints made by our client, whether or not they are contained in your company's records or on any repair orders.*

Attorney requests refund with attorney fee. No specifics are far as cost provided. No repair orders provided, nor days down mentioned.

Customer sent letter dated 10-22-07 requesting that M-B help him "get into another vehicle."

Customer stated the following malfunctions with his vehicle:

- A/C froze up (temperature sensor changed)
- SRS light came on (air bag harness replaced)
- A/C froze again (humidistat needs to be ordered)
- leak in the seal where the electronic cables enter the transmission

Customer stated "the dealership has done a fine job trying to take care of this problem ridden vehicle. However, I am not convinced the A/C problem will be solved, and I am convinced that problems will continue to plague this vehicle."

Customer stated that "I am requesting that Mercedes-Benz help me get into another vehicle."

[Redacted] called the CAC seeking compensation for the amount of time his vehicle has been in for repair. Customer stated he has had to take time off from work, pay for rental cars and be without his vehicle for approximately 30 days. Customer stated he has consulted his lawyer and was advised that he qualifies for the lemon law because his vehicle has been to the dealership 4 times for a right front seatbelt sensor repair. Customer stated he did not want to pursue a lemon law buy back because his lease is ending at the end of January. Customer stated he would like to be compensated for the time the vehicle spent at the dealership, the car rentals and work time missed.

Writer apologized for the inconvenience and advised customer that he would document his concerns and forward them for review. Writer provided his extension number and advised customer that he could contact the SM at the dealership in 10 business days for an update.

Open Date: 11/29/2007 15:00:26 **Agent:** Timothy Ucker **Phone** 7810 **Note Type:** SN
Customer phoned the CAC requesting status.

Writer advised customer a position is not yet available although as soon as a position is available, it will be related.

Writer apologized for any inconvenience and advised MBUSA is actively working on providing a position as soon as possible.

SPOM sent the following email to dealer SM:

Cam/Sam:

Can you please refer to the CAC case copied below. Customer complains about 4 SRS light issues but I only see two verified within an 11K mile period and over one year apart. Further, the most recent SRS repair was made on June of 2006. Customer claims to have consulted with an attorney but is simply seeking compensation. Please contact the customer and inform him that based upon his service history which does not reflect what he claims, he does not qualify for any goodwill consideration. Please confirm once you have spoken to him. Thanks.

Follow-up to continue.

Open Date: 12/18/2007 13:44:19 **Agent:** Norman Swartz **Phone** 6341 **Note Type:** SN
The customer called for an update. He was advised to contact the S/M Sam for further information.

Open Date: 12/26/2007 18:07:41 **Agent:** HECTOR VILLEGAS **Phone** 7325 **Note Type:** RC
After reviewing this matter closer, SPOM authorized two goodwill lease payments to ensure customer satisfaction! Customer accepted and confirmed all issues have been resolved! No further action required at this time. SPOM will close this matter!

SPOM has communicated with atty Kaloustian and made goodwill offer of \$5K all inclusive. Atty responded that vehicle still exhibited serious issues and was willing to have vehicle inspected by dealer. MB BH inspected vehicle and only found two issues outstanding = odor from AC and TPC light illuminated for a tire with low pressure. Based upon this one non-substantial issue, SPOM has reoffered original \$5K offer as per email below:

Harry,

As you know your client's vehicle was recently inspected at MB Beverly Hills. You should also know, there were only two issues noted with the vehicle: musty odor from heater and TPC light for a low tire. Based upon these findings, our original offer of \$5,000 inclusive seems very fair and will be extended through end of business Friday, January 25th. If I do not hear back from you, I will assume your client has declined this offer and it will be rescinded and the case will be closed. Please let me know at your earliest opportunity what you decide. Thank you.

Follow-up to continue.

SPOM sent atty the following email: awaiting response.

Bill,

I have looked at the service history for this vehicle and inquired with the dealer management as to the overall history. Please note that according to the VMI there are only three transmission issues, the last being June 2006. Further, the overall most recent repair for an SRS complaint was in July of last year. Though this may have been inconvenient and nuisance but it appears the vehicle has been operating properly. At this time, unless there is something I am missing, I would like to offer \$5000 inclusive of fees for the inconvenience but at this time this does not appear to be a buyback situation. Please let me know if your client will accept. Thanks!

[Redacted] phoned CAC requesting technical assistance. Customer claims that vehicle has been to dealer "at least 9 times" for same "false" indications (SRS, brake, and low oil). Customer claims that "if she put in the amount of oil that this vehicle tells her to then the engine would overflow and MBUSA would be replacing the engine" claiming that it has come on "50 times" since the sensor was replaced and after checking oil level, oil was not needed. Customer claims that she "does not feel safe driving this vehicle with false indications especially airbags and seatbelts". Customer claims that it is an "inconvenience" to have to take vehicle to dealer every couple of months.

Writer apologized and advised that her concerns and request will be documented and forwarded to the appropriate party.

Vehicle is currently at dealer.

Orres# 2038386

[REDACTED] sent letter to MBUSA. Customer feels that vehicle is a lemon and says that she no longer feels safe driving it. Customer references our decision to decline her buyback request back in July and writes that The SRS light has come on while driving and that other electrical issues have resurfaced as well. Customer says that her lease is coming to an end and has to decide between MB, Lexus or BMW.

Writer contact [REDACTED] who advises that he is afraid to drive the vehicle. She claims that malfunctions appear on the display and after she shuts that car off , they disappear. She says this happens intermittently and for this reason , she does not trust the car.

Customer is requesting trade assistance and says that she like Mercedes' although she has never had a problem with her Lexus.

Customer wants to work something out with Mercedes' help to get her into another vehicle and 'not put the energy into getting an ATTY involved again'. Writer made no guarantees but advised that I would relay her request.

Customer requesting to work with Rusnak/Arcadia, specifically with Edith Wolfe, her salesperson whom she trust and feels very comfortable working with.

Re:2005 Mercedes-Benz E320
VIN WDBUF65J25A [REDACTED]

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have been asked to review the service history on your 2005 Mercedes-Benz E320, bearing Vehicle Identification Number WDBUF65J25A [REDACTED]. I recognize that you have experienced inconvenience and possibly frustration in connection with the servicing of your Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Los Angeles area. I have reviewed your repair history to date with Service & Parts Director Steve Schimkus at Mercedes-Benz of South Bay and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek.

If safety problems are persisting as stated in your contact, I can offer direct assistance from the Shop Foreman at Mercedes-Benz of South Bay. If you would like to make an appointment for such an inspection, please contact Steve Schimkus at 310-257-2025.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your E320.

Sincerely yours,

Carolyn Duchene
Service & Parts Operations Manager - MBUSA

Writer spoke with SPOM Carolyn Duchene, regarding resolution to this matter. Carolyn advised that she is unable (per Frank Berenz) to provide trade assistance.

Writer left voice mail message for General Sales Manager, Greg Sexton about customer's interest to work with Esther - sales rep at Rusnak if a good deal can be worked out given her trouble and dissatisfaction with this vehicle.

Writer also left voice message for SPOM, Robert Mansfield regarding the same, asking him to also follow up with Rusnak Sales Team to see if salesperson, Esther, can reach out to customer.

Open Date: 01/09/2008 13:47:21

Agent: Maria Cruz

Phone 4604

Note Type: SN

Writer contacted [REDACTED] and advised that her trade assistance request was denied and advised that we would continue to honor the terms of the warranty.

Writer advised that we had reached out with Sales team at Rusnak regarding her interest for further contact with her. Writer advised that MBUSA could not make any guarantees as negotiations would be between her and the dealer.

Customer is dissatisfied that MBUSA would not make an offer to keep her in the MB family and asked, "you won't stand behind your product, why would I be inclined to purchase another? "

Writer apologize for her dissatisfaction with our corporate position in this matter and advised that we would continue to honor the terms of the warranty.

Customer thanked writer for efforts and follow up.

Letter no necessary as writer communicated our position verbally. Therefore, letter not sent. Referral can now be closed. Letter not sent- see above.

Letter approved by SPOM Mario

February 5, 2008

Mr. John Akopian
130 N Brand Blvd Ste 300
Glendale, CA 91203-4622

Subject: Client: [REDACTED]
Model: 2005 E320W
VIN: WDBUF65J65A [REDACTED]

Dear Mr. Akopian:

On behalf of Mercedes-Benz USA, LLC, I have reviewed your 12/10/07 letter sent on behalf of your client, [REDACTED] concerning his 2005 Mercedes-Benz E320W, bearing Vehicle Identification Number WDBUF65J65A [REDACTED]. I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of his Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type. I have reviewed your client's repair history to date with Service Manager Glen Matsuda at Calstar Motors, and have determined that this vehicle does not qualify for the refund or replacement under the Lemon Law that your letter seeks. Specifically, we believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues you have presented for repair.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz New Vehicle Limited Warranty for your client's E320W.

Sincerely,

Mario Haro
Service and Parts Operations Manager

CC: Glen Matsuda (Calstar Service Manager)

[REDACTED] Wright phoned CAC claiming that she was involved in a accident and airbags did not deploy. Customer claims that vehicle requires "\$10,000-12,000" worth of repairs. Customer claims that there "were no serious injuries or damage" however she was advised by the hospital that "the muscles in her neck were ripped and would heal in 2- 3 weeks". Customer claims that she was traveling "~30mph" when vehicle in front of her stopped short. Customer claims that "police claim that she did not brake but her adjuster explained that she probably did brake but vehicle may have hydroplaned". Customer claims that she feels that this is an "engineering defect" claiming that the "wires for the front end sensors were severed which kept airbags from deploying". Customer claims that she contacted dealer 62106 (Mercedes-Benz of Bedford) several times and when she "finally spoke to somebody they didn't seem to care and referred her to MBUSA". Customer "demands" buyback.

Writer apologized and advised Customer that her concerns and request will be documented and forwarded to the appropriate party. Customer "refuses" to provide information on where vehicle is located and additional insurance information stating that "MBUSA has to go through me first".

When did the incident occur? 12/11/07

Driver's name and name of occupants: [REDACTED] / 0 occupants

Where did the alleged incident occur? State Road in North Royalton, OH

Were there passengers? No

Was anyone injured? As per Customer, "there were no serious injuries or damage but the hospital told me that I tore the muscles on both sides of my neck which will heal in 2-3 weeks".

Were seatbelts worn? "Yes"

Where is the vehicle located now? Customer refuses to provide this information stating that MBUSA has to go through her first.

Address, Phone and Contact person at Body Shop:

Police Report? Yes. North Royalton Police Department

Insurance Information: Allstate. Customer refuses to provide any additional information on insurance.

Can customer forward photos to CAC? Customer claims that she will forward photos to mailmaster@mbusa.com this evening.

Email received:

To Whom It May Concern:

I have been attempting to reach "someone" at Mercedes Benz in an effort to report what happened to my vehicle on December 11, 2007. I was involved in a collision in which I hit someone from behind. I am an excellent driver and have been without an accident or ticket in 19 years. Unfortunately, the driver in front of me played good Samaritan and stopped abruptly. Due to the weather conditions I ended up skidding into her at about 30 mph. I have been told that if an object is stationary it doubles the speed of impact. I have incurred over 10k worth of front end damages and I only owe 15k on the vehicle.

I originally bought this Mercedes in 2005. I could not afford this car, but after losing a son in Iraq in August of '05, you could say that the family was a little paranoid about losing anyone else. I made the choice with the E350 based on its safety and collision scores and felt very comfortable about my safety in this vehicle. Unfortunately, on December 11, 2007, my views and safety opinions changed forever regarding Mercedes products.

You see, upon impact, my air bag never deployed. I understand there are 3 air bag sensors on this model and two of them must activate for the air bag to deploy. The sensor on the right front passenger side still had the connectors behind the headlight but the wires were severed on impact. The Auto Body Shop said they had never seen anything like it before. Yes, you can say that I am alive because I was wearing my seat belt. You could also say that air bags could possibly cause further damage if they do deploy, however, I suffered neck, back and shoulder injuries that are still bothering me. I am disappointed in my car's performance and your product. What if I had been on the highway going at a faster speed ... would my air bag deploy? I do not have any confidence in your product at this point. I was involved in a horrible front end collision and I had no air bag. Who's to say that I will have one again or is this manufacturing defect?

My injuries will go away in time but, my opinion won't change about Mercedes. At the very least, could you investigate this so that you could rule out any defects in case someone else is not hurt any worse in the future? Unfortunately, I will have to continue driving this vehicle never knowing if this safety feature will ever work and that just makes me sick.

Sincerely

[REDACTED]

Hi Rick,

Please attempt to have the customer bring the vehicle to a dealer after the body repairs are complete. We can then check the SRS and provide her with a response. We would also need a copy of the repair invoice so we can see if any SRS components were replaced.

Thanks,

Gary

Dear ,

On behalf of Mercedes-Benz USA, LLC, I have reviewed your letter dated December 17, 2007 sent on behalf of your client Ovsanna Balyan concerning a 2006 Mercedes-Benz E350, bearing Vehicle Identification Number WDBUF56J86A. I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of the Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Service and Parts Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Los Angeles market area. I have reviewed your client's repair history and have determined that this vehicle does not qualify for the refund or replacement under the Lemon Law that your letter seeks. Mercedes-Benz must therefore decline to replace or repurchase your client's 2006 Mercedes-Benz E350.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty.

Sincerely yours,

Robert Mansfield

[REDACTED] contacted the CAC to request a buy back as her vehicle had to go back to the dealership again for a blower motor and her SRS system is not working.

The customer stated that she requested a buy back once before and she was told that she had to get the vehicle repaired before the request would be looked at.

The vehicle was in on 1-08-08 for repairs and eight days later the blower motor and SRS system was shorted out. The customer alleges that this is the fourth time the blower motor had to be replaced .

The customer also advised that she rented a vehicle as she does not feel safe driving her vehicle.

Writer apologized for any inconvenience, thanked customer for calling, and advised customer that all comments will be documented as well as shared with the appropriate parties .

[REDACTED] called requesting an update on her request.

Writer advised customer she would receive correspondence from MBUSA.

Customer demanded to know what the determination was.

Writer advised request was declined. Advised MBUSA will continue to uphold the terms of the NCLW.

Customer stated the Nevada lemon law states when the same issue occurs more than three times, the vehicle is considered a lemon. Claimed she contacted the consumer agency and her attorney and they both need written documentation that previous request was denied and that current request is also being denied.

Customer stated the blower failed at the same time the window failed, with her children in the vehicle. Claimed the consumer agency "was interested in knowing that MBUSA did to do anything, especially with the temperature here in Nevada."

April 7, 2008

[REDACTED], Esq.

Encino, CA [REDACTED]

Re your client: [REDACTED]
2006 Mercedes-Benz CLS500
VIN: WDDDJ75X76A [REDACTED]

Dear [REDACTED]

On behalf of Mercedes-Benz USA, LLC, I have evaluated your request to have your client's 2006 Mercedes-Benz CLS500 bearing Vehicle Identification Number WDDDJ75X76A [REDACTED] repurchased under the California "Lemon Law". I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of your Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Regional Customer Relations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues your client has presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's CLS500. Please feel free to contact me at (800) 225-6262 extension 7321 if you would like to discuss other possible alternatives.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your client's CLS500.

Customer sent pictures as requested and claims that he almost lost his "life because of this safety defects." "I hope that you can find a wise and proper decision to correct this mislead by Mercedes-Benz to avoid further legal actions, specially, when my car is still under warranty."

Writer sent pictures to Gary Bowne, Frank Berenz, Tom Brunner and Regina Cila via inter office mail

Open Date: 06/02/2008 19:05:34 **Agent:** Diana Sanchez **Phone** 7834 **Note Type:** SN

██████████ called CAC to request follow up on his concern.

Customer stated that he sent the pictures one month ago and no inspection has been done.

Customer stated, "Mercedes mislead me to believe that this car is safe. I am disabled. I spend my time between chiropractors, physical therapists, and pain therapists because of you lack of safety. Now you are playing games with me. I will take this to the furthest extent possible. I will actually contact the media and the newspapers. I am still making payments on the car that nearly killed me."

Customer claimed MBUSA is ignoring him.

Writer apologized for dissatisfaction. Advised that the case is still open and under review. Advised that every case in reviewed individually and it may take several weeks for a final position to be communicated.

Customer provided phone # ██████████. Stated that if he was not contacted within the next 48 hours, he would take further action beyond MBUSA.

Writer reiterated case is still under review. Advised that request for contact would be documented, but contact was not promised.

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have evaluated your request to have your client's 2005 Mercedes-Benz E350 bearing Vehicle Identification Number WDBUF65J25A [REDACTED] repurchased under the California "Lemon Law". I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of your Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As a Regional Customer Relations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues your client has presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's E350.

In the interest of customer satisfaction and to compensate for any inconvenience that your client may have experienced during the servicing of his vehicle, I would like to make our previous goodwill offer of \$5,000.00 inclusive of attorney's fees available until May 31, 2008. As a Regional Customer Relations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues your client has presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's E350.

In the interest of customer satisfaction and to compensate for any inconvenience that your client may have experienced during the servicing of his vehicle, I would like to make our previous goodwill offer of \$5,000.00 inclusive of attorney's fees available until May 31, 2008. Please feel free to contact me at (800) 225-6262 extension 7321 if you would like to discuss other possible alternatives.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your client's E350.

Sincerely yours,

Frank Dingman

Attorney, Todd Friedman, sent a letter to MBUSA's legal department, dated 4/24/08 received in CR 5/15/08. Yvette Chang of Legal sent an acknowledgement via fax advising attorney letter would be forwarded to CAC for handling.

Attorney demanded MBUSA repurchase customer's vehicle and stated, "my client merely requests a refund for the defective vehicle, plus payment of our attorneys' fees pursuant to the fee-shifting provisions of the Lemon Law".

Attorney claimed vehicle concerns are: "1. Defective body as evidenced by trunk opens by it self while driving; 2. defective brakes as evidenced by the illumination of the SRS and brake lights and the illumination of the malfunction visit workshop warning light; 3. defective electrical as evidenced by the illumination of the malfunction warning light, dome lights flash on and off and SRS warning light flashes on and off; and 4. any additional complaints made by our client".

Attorney requested all communication be directed to their office and not the customer. No attachments.

Writer will send atty ack letter.

Dear Mr. Friedman:

On behalf of Mercedes-Benz USA, LLC, I have evaluated your request to have your client's 2005 Mercedes-Benz E320 bearing Vehicle Identification Number WDBUF65J85A [REDACTED] repurchased under the California "Lemon Law". I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of their Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As an After Sales Process Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues your client has presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's E320. Feel free to call me on my cell phone at [REDACTED] 2 if your client chooses to reconsider denial of our \$7,500.00 Goodwill offer or if you care to discuss this matter further.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of any Mercedes-Benz limited warranty for your client's E320.

Sincerely yours,

Frank Dingman

Note Type: SN

Writer spoke with cust's attorney and offered \$6,000.00 inclusive in the interest of settling this matter expeditiously.

Writer agreed to \$7,500.00 inclusive and drafted and forwarded to cust's attorney a release as follows:

RELEASE AGREEMENT

This Release is entered into this day of June, 2008 between [REDACTED], [REDACTED] Los Angeles, CA 90019, hereinafter referred to as "Releasor" and Mercedes-Benz USA, LLC ("MBUSA"), Daimler Aktiengesellschaft, and Downtown L.A. Motors Mercedes-Benz hereinafter collectively referred to as "Releasees".

It is understood and agreed that for and in consideration of the full discharge of any and all past or present claims for or with respect to any losses or damages of any form whatsoever alleged to have arisen as a result of result of repair work completed prior to the date of this release ("Repair Work") on a 2006 Mercedes-Benz CLS500 automobile purchased, financed and/or leased by Releasor, vehicle identification number WDDDJ75X66A [REDACTED] (hereinafter "2006 Vehicle") and in full and complete discharge of any asserted claims and claims that could be asserted in the future by Releasor, his heirs, representatives, successors and assigns arising out of the Repair Work completed prior to the date of this release on the 2006 Vehicle, as a result of the alleged actions or omissions of Releasees, all of which are expressly denied, Releasor will receive the compensation specified herein. This Release Agreement applies to all claims, whether known or unknown, on the part of Releasor and shall be a full, binding and complete settlement between Releasor and Releasees.

I

In consideration of a full and complete Release as stated above and other undertakings stated herein, Releasee MBUSA shall provide to Releasor the amount of \$7,500.00 inclusive of attorney's fees.

II

In further consideration of the undertaking by the Releasor under this Release, the Releasor represents that he has not filed a law suit under applicable law as it relates to the Repair Work completed prior to the date of this release on the 2006 Vehicle.

III

In further consideration of the undertaking by Releasees under this Release, the Releasor, being of lawful age, does hereby fully release, settle, acquit and forever discharge Releasees and all of their agents, servants or employees, from any and all actions, causes of actions, claims, demands, damages, costs, expenses, compensation or obligations, which the Releasor may have against Releasees on account of or in any way growing out of any alleged damages which allegedly resulted or may result arising from the Repair Work completed prior to the date of this release on the 2006 Vehicle.

IV

It is understood and agreed that this settlement is a compromise of doubtful and disputed claims arising from the Repair Work completed prior to the date of this release on the 2006 Vehicle and the payments made and consideration given in connection with this Release Agreement are not intended, nor are they to be construed as an admission of liability on the part of any persons, firms or corporation hereby released.

The Releasor hereby acknowledges that the consideration stated above has satisfied all obligations and duties, responsibilities and liabilities which could or might conceivably be imposed on the Releasor by the terms of this Release Agreement by the Releasor, his attorneys and assigns.

In entering into this Release Agreement, the Releasor acknowledges that he has not relied in any way upon the representations or statements made or pertaining to matters with respect to the 2006 Vehicle by any persons, firms and corporations hereby released.

Releasor expressly waives the provisions of the California Civil Code, Section 1542 which provides:

"A General Release does not extend to claims which the creditor does not know or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor or any similar law or statute applicable to this Release."

This Release is made, executed and entered into and is intended to be performed within the State of California. Releasor hereby confirms and admits that he has read and understood this Release and have been fully advised and represented by counsel with respect to this Release and all negotiations giving rise to it and that Releasor has fully discussed the execution of this Release and all of its terms, consequences and ramifications with his counsel.

execution of this Release and all of its terms, consequences and ramifications with his counsel.

V

Subject to any contrary provision in the Civil Code section 1793.26, this Release is confidential and Releasor agrees that the contents of this Release, including the amount of consideration paid hereunder and fact of settlement, are not to be discussed, inferred or referred to in any way by Releasor or counsel for Releasor, except for income reporting purposes, if applicable, as may be required by state or federal government.

VI

It is understood and agreed by the Releasor that the terms of this Release are considered to be material contractual terms and not merely recitals and that the consideration described in this Release constitutes the entire agreement between the parties regarding the payment of any sums or the giving of any consideration in connection with this matter. This Release is intended to and does hereby bind Releasor and each and every one of his heirs, executors, administrators, representatives, attorneys and assigns from this day forward.

The Releasor states that he has carefully read the foregoing Release, knows its contents, and has consulted with his attorney regarding its meaning and effect and has signed it as his own free act and deed.

[REDACTED] phoned the CAC requesting technical assistance for his vehicle or a replacement CLS55.

Customer claims since his time of purchase he has experienced a variety of transmission related issues in which his vehicle has currently been in repair for more than one month. Customer alleges he has been experiencing several issues with his transmission malfunctioning in which it "will not shift properly or it will shift on its own." Customer identified other outstanding electrical issues with his vehicle, as well, consisting of "the SRS warning light being on and the instrument gauges changing on their own."

Customer expressed dissatisfaction with the above occurrences and stated, "I have owned this car a little over a year and it has been in the dlr in total almost 3 months. I don't even know what this dlr has been doing with my car being that all of my invoices show only 3-4 things done at a time, while they are telling me almost every component of the transmission has been replaced. I honestly just want my car fixed because I don't even believe its made anymore. I just do not feel this dlr is competent enough to repair it. I want MB to be either fix my car at this point or provide me with another CLS 55."

Writer advised customer his comments would be documented and shared with the appropriate parties for review.

TS has already been involved with this vehicle. SPOM to review with SM at next visit

Open Date: 06/18/2008 14:14:24 **Agent:** Stephen Quinones **Phone** 6261 **Note Type:** SN
Writer phoned back customer [REDACTED] in response to a customer survey he filled out and due to his request to receive a contact back in this regard.

Customer thanked writer for response and advised the dlr contacted him and informed him that his vehicle would be repurchased from him in which no repairs would be performed on the vehicle from this point. Customer expressed concern with this information due to being advised that the "airbags" in his vehicle are no longer functioning, in which the dlr "denied repairing the vehicle until it was repurchased." Customer claims he was advised it may take upwards of one month before his vehicle is repurchase in which he feels it is a "safety hazard" to not have functioning airbags. Customer inquired as to receiving assistance in this regard.

Writer apologized for customer's concerns and advised once more information could be obtained in this regard he would receive some form of contact.

Open Date: 06/18/2008 14:14:32 **Agent:** Stephen Quinones **Phone** 6261 **Note Type:** SN
Email sent to SPOM.

Open Date: 06/27/2008 12:32:21 **Agent:** BRIAN BLOKDIJK **Phone** 7322 **Note Type:** RC
SPOM spoke with SM (RU) who states that he will concern any warranty issues the customer has. SPOM has already agreed to repurchase this vehicle.

[REDACTED] contacted the CAC to request MB involvement with obtaining a replacement vehicle or repurchase.

Customer claims that soon after purchasing his vehicle in December of 2005, he experienced multiple issues with his brakes "failing". Customer claims that as he would drive on the freeway, his brake system would "lock up".

Customer claims that he has also had repeated issues with the SRS system, and claims that the light recently came on again, but has since disappeared.

Customer stated "my car is a safety hazard. I do not feel safe in it. I want to end this lease early and get into a new vehicle. I will contact an attorney if I must."

Writer advised customer that if there is still an outstanding concern with his SRS system, he should have the vehicle towed to the dealer. Writer apologized for customer's experience and advised customer that his request for repurchase would be forwarded for review.

Client Relation Manager Rocio contacted the CAC to request writer update the notes.

Rocio stated that customer "never had a complaint about his brakes 'locking up'". Rocio also stated that on June 29th, 2006, the hydraulic unit was replaced. Rocio stated that one month later, there was a leak in the brake lines which was repaired. Rocio stated that the last time customer was at the dealer was on February 11, 2008 for the SRS system, and the direct line to the steering column was replaced.

Writer thanked Rocio and advised that her comments would be documented.

Liberty Mutual Insurance Company contacted the CAC and was transferred to writer by a tier two rep.

Liberty Mutual rep Wanda Hartman (800-521-0986 x73385) claimed that the vehicle was repaired on 7/28 and that her legal department advised contact be made to MBUSA regarding an alleged defect with the SRS system. Insurance rep claimed that airbag deployment was due to malfunction, not vehicle impact, and that due to the fact that no other parties were involved in the accident the insurance company looks to the manufacturer for payment of the claim. Insurance rep advised that subrogation contact will be sent to MBUSA via mail, along with vehicle photographs. Rep also requested that MBUSA be involved in having a specialist look at the vehicle. Rep alleged that the claim has been paid at a total of \$12,000 and that the vehicle has been returned to the customer.

Writers contact was initially made with the driver of the vehicle [REDACTED] the father-in-law to [REDACTED]. [REDACTED] contacted MBUSA offices on 6/24 (SN-2674137) and advised that the vehicle struck a "pothole or depressed sewer cover" at 15-20mph. [REDACTED] claimed that the drivers steering-wheel airbag deployed as well as the rear drivers curtain airbag. Vehicle was subsequently towed to Viti MB in Tiverton.

Writer advised Insurance rep that her companies requests would be documented and forwarded appropriately for review.

Driver's name and name of occupants: (father-in-law to customer), [REDACTED]
Was anyone injured? No
Were seatbelts worn? Yes
Where is the vehicle located now? Customers possession
Insurance Information: Liberty Mutual, case 9696451, contact Wanda Hartman 1-800-521-0986 x73385
Can customer forward photos to CAC? Insurance company will mail photos with subrogation letter.

Open Date: 08/14/2008 09:08:11 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

Hi Susan,

Since the vehicle is already repaired, we'll review the materials provided by the insurance company and then decide if we need to inspect.

Thanks,

Gary

[REDACTED]
Sherman Oaks, CA [REDACTED]

Subject: Client [REDACTED]
Model: 2006 E350
VIN: WDBUF56J06A [REDACTED]

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have evaluated your client's request to have her 2006 Mercedes-Benz E350 bearing Vehicle Identification Number WDBUF56J06A [REDACTED] repurchased under the "Lemon Law". I recognize your client may have experienced inconvenience and possibly frustration in connection with the servicing of this Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As an After-Sales Process Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined the vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial defect and/or for the various repair issues you have presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's E350.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of the Mercedes-Benz limited warranty for your client's E350.

Sincerely,

Christopher B. Carter

[REDACTED] called the CAC requesting MBUSA to look at airbag and the SRS system, alleging "the malfunction light and message has been on-dash before and I don't think hitting a pot-hole should have cause the side-airbag to deploy."

Customer claiming "Yesterday, 10/9/08, around 11am I was driving on Sadler Ave in the 'bunker-hill section' of Dunmore, PA when I hit a pothole. In that moment, the passenger-side curtain airbags deployed however it seems unnecessary because the impact caused no body or frame damage to my car. With no body damage/impact, I don't think the airbag should have deployed. The vehicle is currently at Motorworld in Wilkes-Barre, PA and they are telling me that this is not covered. I have had previous issues and malfunctions with the SRS system. I can definitely show documentation that the SRS light was on-dash and dealer replaced some modules and cables under warranty. Last week, the 'message SRS - Visit Workshop' came on but went away by itself. In other times, the 'SRS light' came up and went away. I wanted to see if Mercedes-Benz could look into this matter to see for what/why did the airbag deployed, for I think it was a malfunction with the SRS and think this should be under the warranty."

Writer apologized for customer's experiences and was grateful that she was not injured however concerns and request will be documented and forwarded appropriately to parties involved. Writer advised that requests are reviewed on a case-by-case basis and we cannot guarantee coverage [as per customer's request to have it replaced under warranty].

When did the incident occur?

10/9/08 around 11am

Driver's name and name of occupants:

[REDACTED]

Where did the alleged incident occur?

driving on Sadler Ave - bunker hill section in Dunmore, PA [no cross street near this location]

Were te passengers?

No

Was anyone injured?

[REDACTED] claimed she hurt her neck and shoulder because of seat-belt tensioner

Were seatbelts worn?

Yes and driver's-side seat belt tensioner did activate

Where is the vehicle located now?

Motorworld

Address, Phone and Contact person at Body Shop:

Motorworld - Dlr code # 67227

150 Motorworld Drive

Wilkes-Barre, PA 18703

Police Report?

Customer claimed, Police deemed it an Incident [not accident]

Insurance Information:

StateFarm Ins. - 570-689-5238

Can customer forward photos to CAC?

cust. claimed she did not take any pictures but vehicle at Mercedes dealership - Motorworld here

Writer received attorney demand letter dated October 15, 2008 on October 20, 2008.

Attorney communicates in letter that he has been retained to represent [REDACTED] with regard to the above-listed vehicle.

Attorney requests vehicle purchase due to "numerous attempts at vehicle repair" for the following concerns:

1. AC problem
2. SRS light illumination
3. Electrical -requiring battery replacement
4. Battery light illumination
5. Tele-Aid visit workshop messages
6. check engine light illumination, ABS light illumination, Central Gateway.

Attorney provided the following financial data:

deposit: \$3,000.00

lease payments: \$40,138.56 (343 x 1216.32)

Less Proration: \$782.29 (mileage offset 1225 miles)

Total refund: \$42,356.27

In addition, his client demands:

Attorney Fess: \$3500.00

DMV: TBD

Mileage offset: 1225 miles

(\$76632 pp x 1225 miles at time of first alleged problem)/ 120,000 miles =\$782.285.

Attorney provided copies of Keyes dealership repair orders.

Writer reviewed service history and found that it does not support repurchase demand. Writer sent via e-mail the following letter to cust's attorney:

December 12, 2008

Khatchatrian & Associates
100 N Brand Blvd Ste 622
Glendale, CA 91203-2641

Subject: Client: [REDACTED]
Model: 2006 CLS500C
VIN: WDDDJ75X96A [REDACTED]

Dear [REDACTED]:

On behalf of Mercedes-Benz USA, LLC, I have reviewed your October 15th, 2008 letter, sent on behalf of your client, Janeta Tatoian, concerning her 2006 Mercedes-Benz CLS500C, bearing Vehicle Identification Number WDDDJ75X96A [REDACTED] repurchased under the California "Lemon Law".

I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of your Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As an After Sales Process Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have interviewed dealer service personnel and reviewed your client's repair history and diagnostic data to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial warrantable defect and/or for the various repair issues your client has presented for repair. Among other things, the repair history does not meet any of the three statutory guidelines for measuring an excessive number of repair visits. Mercedes-Benz must therefore decline to repurchase your client's CLS500C.

Finally, please be assured that Mercedes-Benz USA, LLC will continue to honor all of the terms of any Mercedes-Benz limited warranty for your client's CLS500C.

Sincerely,

Mario Haro
After-Sales Process Manager
Mercedes-Benz USA, LLC - Western Region

[REDACTED] contacted the CAC and is requesting technical assistance and MBUSA involvement.

[REDACTED] claims "I pulling out of the driveway, turned from the side street and made a right hand turn to merge in with traffic. Anyway, there wasn't enough of an incline for you to see and when I drove over the incline every thing stopped. I was driving about 25-30 mph at the most and hit the guy in front of me causing \$13,500 worth of damage and the air bags did not deploy. The car is currently parked here at my place because I have been too sick to drive. Not to mention, I was hurt in the process and it has been difficult for me to complete a sentence, which is the reason I am now seeing a neurosurgeon. however, I am getting better, but I would like to know if I can get some one out here to inspect the car and let me know why the airbags didn't deploy."

Writer advised the customer that his request would be submitted.

When did the incident occur?

8-1-08

Driver's name and name of occupants:

Where did the alleged incident occur?

Ramon Rd and Santa Cruz

Were there passengers?

No

Was anyone injured?

Yes

Were seatbelts worn?

Yes

Where is the vehicle located now?

1175 Los Robles Dr.

Palm Springs, CA 92262

Address, Phone and Contact person at Body Shop:

Police Report?

Palm Springs PD, but I don't have the police report number.

Insurance Information:

AAA Insurance

I will call you back and provide you with the claim number and police report number.

Can customer forward photos to CAC?

I will get back to you.

Hi Virginia,

The customer should have the car towed to the dealer. Please ask the dealer to check for codes and take photos of the damage. We will reimburse them according to my NetStar message of 2/29/08. We can then discuss how to proceed with the customer.

Thanks,

Gary

Open Date: 12/20/2008 02:03:06 **Agent:** VIRGINIA GEE **Phone** **Note Type:** SN

SPOM sent request to SM, and received the following response on 12/17/08 via email:

this car was brought in to our shop on 8/29/08 by Brother's Auto Body after they performed the collision repairs to it's front end,we performed the following; (1) recharged the A/C system (2) four wheel alignment (3) aim head lamps (4) replaced right front SRS sensor (part # 003 821 28 51) inspect electrical system, clear codes in the systems,(there are no print out sheets in the file).

Brother's Auto Body also replaced SRS sensor (part # 002 820 27 26) as well as a Air Bag cannon plug (part # 168 545 2928)

We can tow the car in car in and check for any new codes,any codes that were in there at the time of the accident are gone, there is no damage to take photos of, please advise if you still want us to tow the car.

Gary, please advise on how to proceed. Thank you.

Writer called Carl, SM to request Auto Body Phone Number.

He advised he would call them as they have a working relationship and get back to writer.

Open Date: 01/08/2009 09:34:00 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

Hi Virginia

Since the vehicle is long repaired and the SRS control unit was replaced by the body shop, there is not much we can do or say to the customer. If the customer or body shop has any photos of the damage we may be able to comment on whether or not the SRS should have deployed, but not much beyond that. We can also offer to have the dealer check the SRS to make sure it is OK.

Other than that, I would close the case.

Thanks

Gary

I reviewed the photos provided of the accident damage. The damage sustained was not sufficient to deploy the SRS. There is little or no frame damag as most of the impact was to the relatively soft sheet metal. I would not expect the SRS to deploy.

Gary

Dear [REDACTED]:

Thank you for your contact to our Customer Assistance Center on December 12, 2008, regarding the accident that occurred on August 1, 2008. We have received the pictures of the vehicle from Brother's Auto Body Shop.

Based on these pictures, Mercedes-Benz USA, LLC, has determined that the damage sustained was not sufficient to deploy the air bags. There is little or no frame damage, as most of the impact was to the relatively soft sheet metal.

We suggest that after the Body Shop completes the repairs, the vehicle's Supplemental Restraint Systems (SRS) system be checked by your authorized Mercedes-Benz dealer to ensure it is functioning properly at this time.

We have enclosed a brochure entitled, "Seat Belts and Airbags" for your reference, should you wish to read about the functionality of the SRS system in your vehicle.

We appreciate the opportunity to review your concerns and wish you a speedy recovery.

Sincerely,

Carol C.

Writer reviewed service history and found that it does not support repurchase demand. Writer spoke with cust's attorney and in the interest of customer satisfaction offered \$6,000.00 inclusive of attorney's fees to compensate cust for any inconvenience that they may have experienced with the servicing of their vehicle.

The Law Offices of Hovanes Margarian
13425 Ventura Blvd., Suite 303
Sherman Oaks, CA 91423

Subject: Client: [REDACTED]

Model: 2005 E500

VIN: WDBUF70J95A [REDACTED]

Dear Mr. Margarian:

On behalf of Mercedes-Benz USA, LLC, I have evaluated your request to have your client's 2005 Mercedes-Benz E500 bearing Vehicle Identification Number WDBUF70J95A [REDACTED] repurchased under the California "Lemon Law". I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of their Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As an After-Sales Process Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history and diagnostic data to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. I believe that the repair history does not reflect an unreasonable or excessive number of repair attempts for any one substantial warrantable defect and/or for the various repair issues your client has presented for repair. In light of this fact, the repair history does not exceed a reasonable number of repair attempts or visits, whether under the statutory guidelines or otherwise. Mercedes-Benz must therefore decline to repurchase your client's E500.

Although we have declined to repurchase your client's vehicle, we would like to propose an offer of \$6,000.00 all inclusive to compensate customer for any inconvenience that he may have experienced during the servicing of her vehicle.

Please let me know of your decision by April 15, 2009.

Regards,

Christopher B. Carter

The writer spoke with Ms. Robin Timmons (Rep) who called on behalf of [REDACTED], alleging he was involved in an accident and the Airbags did not deploy. Ms. Timmons claims [REDACTED] was sitting in traffic when a Honda Element rear ended his vehicle causing him to hit a Sport Utility Vehicle in front of him.

Ms. Timmons alleges [REDACTED] suffered injuries to his neck , Shoulder and Ribs. The writer was advised [REDACTED] is questioning whether the airbags should have deployed and is requesting Technical Assistance from Mercedes Benz. Ms. Timmons claims [REDACTED] has contacted his attorney and They will be calling Mercedes Benz for additional information. The vehicle is currently at the Intercontinental Auto Body.

Writer apologized to [REDACTED] for his experience and advised we will submit his request for a Buyback for review which can take at least 3 or more weeks.

Subject:Model:2006 E350W
VIN:WDBUF56J86A [REDACTED]

Dear [REDACTED]:

Thank you for your recent contact with our Customer Assistance Center.

After inspection by our technical specialist of the above 2006 E350, bearing VIN WDBUF56J86A [REDACTED], it was determined that the impact resulted in a first threshold deployment. The belted driver's ETR deployed, as well as the left and right rear seat belts and the "Neck Pro" head restraints for the front seats. As such, the Supplemental Restraint System (SRS) functioned as designed.

Enclosed is the brochure which provides background information on the purpose and function of the Mercedes-Benz seat belts, Emergency Tensioning Devices (ETDs), belt force limiters, air bag deployment logic, etc.

The opportunity to review this matter is appreciated.

Sincerely,

Susan C.

[REDACTED] states he feels his vehicle is a lemon. He feels MBUSA "should replace it or take it back."

Customer claims since purchasing this vehicle, on 09/2008, it has been brought to the dealer as frequently as twice a month.

He states "I am sure this trend will continue regardless of whether the car has warranty or not. I am nervous about having to pay out of pocket for those repairs. Everything seems to brake down; form the rotors, to the calipers, to switches, to the steering wheel, even an airbag. The repair history is too long."

Customer states that currently he is in a bad situation because of the a wheel bearing issue that was not properly repaired and became an inconvenience for him as two dealer are disputing as to who is responsible, whether warranty or 55164 (see summary note 3121277).

Customer requested that dealer perform a CPO inspection on the vehicle to "ensure the car is fine and will not need significant repairs."

Writer informed CPO inspection only applies to vehicles acquired through dealer's inventory.

Writer advised customer his request would be documented and forwarded accordingly. He requests that warranty history be reviewed by MBUSA.

Per dealer 55164 svc mgr Maria Tully " I had the Vehicle towed here from Fairfield late yesterday afternoon. I have been in contact with [REDACTED] and assured him It will be

handled as quickly as possible. We will provide him with alt. Trans."

Writer spoke to customer [REDACTED] to review his concerns. Writer explained that he was following up with dealers involved to assure situation with current repair was being addressed. Customer noted he was not properly communicated with by dealers involved regarding the decisions made to transport vehicle between dealers.

Writer inquired where customer purchased vehicle and customer stated that vehicle was purchased used from an independent used car dealer. Writer explained that while I empathized that customer has experienced need for repairs circumstances do not support MBUSA repurchasing vehicle. Writer and customer reviewed vehicle history which included vehicle being in PA, MD, CA and NY and that vehicle was sold at auction in Sept 2009. Customer asked writer for advice regarding lemon law and writer explained that vehicle would not meet terms of new vehicle lemon law, and explained that vehicle may meet pre owned lemon law. However writer explained that customer would need to consult his own legal counsel to determine his rights. Customer thanked writer for the contact.

Comments:

Part ONE... [REDACTED] PMB 1109 [REDACTED] Bothell, WA [REDACTED] May 21, 2009 Mercedes-Benz USA, LLC Customer Assistance Center Three Mercedes Drive Montvale, NJ 07645 Dear Alan McLaren or whom this may concern, Re: 2005 Mercedes Benz E320 Airbag malfunction September 2008, I purchased from Harris ford of Lynnwood silver 2005 Mercedes Benz E320. (VIN# WDBUF65J15A [REDACTED]) Unfortunately, your product has not performed well and the defect makes this car unsafe to drive. I had just got off the freeway and thankful that I did because, I feel that this would have been worst if I was on the freeway and going faster. I was driving about 25 miles an hour at the time, When I heard and extremely load noise, I thought what someone hit me from the side, but I was in the far right lane and no one was on my passenger side at all. When I looked over and noticed all the airbags had deployed and my seat beat was locked and hurting my shoulder and torso area.

Comments:

Part two . I pulled over and got out and looked all around my car. I couldnt find a scratch, dent or anything on the outside of my car. I immediately drove my car to the nearest Mercedes-Benz (Mercedes Benz of Lynnwood). I pull up quite shaken and explain what happened and they took it back and to do a quick look and they also quite baffled as to why this happened, because there was no damage to my car yet all the passenger side airbags were out and the backseat and drivers seat belts were not longer useable, so it was no longer drivable. I left my car with Mercedes Benz of Lynnwood for the repairs. Gary Lang went back and forth with my Warranty company (Easy Care), after a couple weeks finally got the ok, that they were going to pay for the repairs. The Total repairs less my Deductible was over \$6000.00. When I went back to pick up my car once my car had been fixed, I asked again how this can happen? Gary Lang explained that he had a couple different people look at it, even someone

Comments:

part three ... that took findings back the Mercedes Benz and no one knew what caused the malfunction to happened and there is No guarantee that it wont happen again, but if the airbags malfunctioned again that wouldnt be covered and I would have to pay the full repairs. I was told that I should keep the side airbags turned off and that might help that malfunction not happening again. Arent the airbag for safety? They should be one and they should work properly. This means I would be driving a car that wont protect me or my passengers when an accident occurs. If the Malfunction would have been on the drivers side, or if someone would have been in the passenger or back seats. I believe it would have cause injury to me or my passengers or cause an accident. This Car is unsafe to drive, I am not nor are my passenger protected, this car will cause injures to myself and others if this Malfunction happens again.

Comments:

part four To resolve the problem, I would like you to take the car back and refund or credit me with the amount total cash price of the car including the tax, warranty, insurance, and Gap, that I paid for the car \$33043.36. If you just credit me with the amount, I will apply it to another Mercedes Benz. I would use my credit to purchase a car from Lynnwood, Seattle or Bellevue Mercedes Benz. I still want to own a Mercedes Benz but I would like to have one that is safe to drive and not one I

Bellevue Mercedes Benz. I still want to own a Mercedes Benz but I would like to have one that is safe to drive and not one that feels like it is going to injure me or someone else every time I get behind the wheel. I would be happy to send copies of the repair summary, the bill of sale and any other information that is needed to research my complaint and get it rectified. I look forward to your reply and a resolution to my problem and will wait until 1 week before seeking help from a consumer protection agency or the better business bureau. Please contact me at the above address or phone or

Hi Don,

Please look into this with the dealer. Did anyone check the undercarriage for damage? Were there any fault codes in the SRS besides those that indicate which bags deployed?

Please let me know what they found and we can discuss how to proceed.

Thanks,

Gary

Dear [REDACTED]:

Thank you for your recent contact to the Mercedes-Benz USA Customer Assistance Center concerning the above model. We apologize for any inconvenience you may have experienced with your 2005 E320.

Your request to have the above-referenced vehicle repurchased by the manufacturer was reviewed by our After-Sales Operations Manager, in conjunction with Mercedes-Benz of Lynnwood. After review, your request was respectfully declined.

We confirm your vehicle was repaired by your dealer, Mercedes-Benz of Lynnwood, prior to your contact to Mercedes-Benz USA, and that the repairs were covered by your extended warranty company.

[REDACTED], we appreciate the opportunity to review this matter. Should you have any future technical concerns regarding your E320, please feel free to contact your local authorized Mercedes-Benz dealer for assistance.

Sincerely,

Susan C.

Dear [REDACTED]:

Thank you for your recent contact to the Mercedes-Benz USA concerning the above model. We apologize for any inconvenience you may have experienced with your 2005 E320.

I have reviewed your request to have the above-referenced vehicle repurchased by the manufacturer. As an After-Sales Operations Manager with Mercedes-Benz USA, I have full authority to make decisions of this type in the Western United States. After thorough review of the service history, your request has been respectfully declined.

It is my understanding the vehicle was repaired by your dealer, Mercedes-Benz of Lynnwood, prior to your contact to Mercedes-Benz USA, and that the repairs were covered by your extended warranty company.

[REDACTED], the opportunity to review this matter is appreciated. Should you have any future technical concerns regarding your E320, please feel free to contact your local, authorized Mercedes-Benz dealer for assistance.

Rep/Brother-in-law for customer [REDACTED] phoned the CAC and his concerns were escalated to writer for review.

Writer phoned rep who claimed that [REDACTED] s Amin was driving and struck a tree at 55mph. Rep claims that the airbags did not deploy and that the "seatbelts" saved them from very serious injury. Rep claimed that he and [REDACTED] suffered physical pain from the accident and while they were released from the hospital, will be seeking further medical attention. Rep also claims that customer [REDACTED] presently out of the country on business, and he is handling concerns.

Customer claimed that the vehicle is presently at ECM Collision and that they will hold of repair until receiving a response from MBUSA. Rep is requesting that an MB TS inspect the vehicle as he believes the airbags should have deployed.

Writer apologized for rep and customers experience and advised that I would note the request and said request would be reviewed subsequent to receipt of the vehicle photographs.

Rep understood and will submit them soon.

When did the incident occur? 5/21/2009

Hi Justin,

Sorry, I did get the photos. After review, based on the vehicle damage and the injuries sustained, it appears that the SRS functioned as designed in not deploying. If the customer has concerns about the operation of the SRS they should have the system checked after the body repairs are complete.

July 6, 2009

[REDACTED]
Newark, CA [REDACTED]

Subject:Model:2006 CLS500C
VIN:WDDDJ75X06A [REDACTED]

Dear [REDACTED]:

This is in follow-up to [REDACTED] contact with this office.

We truly regret to hear of the unfortunate accident you had with your CLS500.

Upon receipt, our technical staff evaluated the pictures [REDACTED] provided, as well as the events described, and has determined on behalf of Mercedes-Benz USA, LLC that this type of impact would not have deployed the SRS system. This being the case, we do not need to inspect the vehicle, and you can inform your body shop accordingly.

We have included a brochure which provides background information on the purpose and function of the Mercedes-Benz seat belts, Emergency Tensioning Devices (ETDs), belt force limiters, air bag deployment logic, etc.

The opportunity to review this matter is appreciated.

Sincerely,

Paul H.

[REDACTED] contacted the CAC stating that her vehicle was involved in an accident, and her airbags did not deploy.

Customer alleges that she left the dealer after her tire and speaker were repaired. Customer alleges that "all I remember is that I was driving to my sister's house off Mastin Lake Road in Huntsville AL and the next thing I know, I am in a 12 foot ditch." Customer stated that the front end of her vehicle is damaged and the vehicle is totaled. Customer alleges that her airbags did not deploy.

Customer alleges that her injuries are as follows " cracked L7, fractured L1, using a back brace because I may need back surgery. I was out of work and may not be able to go back because I cannot do the light load. I want to be compensated for my injuries. I want someone to inspect my vehicle. I have already contacted an attorney. "

Writer apologized for customer's experience. Writer advised customer that there are many factors that will determine if an airbag should have deployed during a collision. Writer advised customer that an authorized dealer is in the best position to review vehicle. Writer advised customer that her comments will be forwarded for review.

When did the incident occur? May 11th, 2009

Driver's name and name of occupants: Driver- [REDACTED]

Where did the alleged incident occur? "Mastin Lake Road Huntsville AL"

Were there passengers? "No"

Was anyone injured? "Yes. I have a cracked L7, fractured L1, and I am using a back brace because I may need back surgery."

Were seatbelts worn? "yes"

Where is the vehicle located now? " A facility in Birmingham AL. I will call you back with the address and phone number".

Address, Phone and Contact person at Body Shop:

Police Report? No

Insurance Information: Nationwide (256) 882 -0706 Writer requested claim number and customer stated " I don't have it off hand. You can ask them for that."

Can customer forward photos to CAC? Yes- Writer provided contact information for writer and CAC

Customer phoned Writer requesting update at about 2:25 today. Writer was unable to access file at the time because system was down. Writer apologized and advised customer that writer was unable to access information for any available update and would call back.

Customer inquire "whether or not Mercedes airbags should deploy in the event of an accident".

Writer advised customer that there are many different factors which determine whether airbags should deploy". Writer advised customer that this is generally speaking and am unable to comment on her specific vehicle and accident.

Customer inquire what will happen next.

Writer advised customer that once review complete, MBUSA will send letter with position.

Writer advised customer that once system is up and running, writer will call back with update if available.

Open Date: 07/29/2009 14:46:01 **Agent:** Jennifer Burton **Phone** 7843 **Note Type:** SN

Writer phoned Customer and advised that only update available at this time is that vehicle has been inspected. Writer advised customer that once reviewed by the appropriate parties MBUSA will send position.

Customer thanked Writer.

Open Date: 07/29/2009 15:46:39 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

The vehicle had undercarriage damage only. No frame deformation and the SRS system was fully functional at the time of inspection. The thresholds for the air bag system and seat belts were not reached for deployment.

Please note that the more significant injuries she is complaining of were pre-existing according to the medical records she provided. However, based on these injuries, the response should come from the legal department.

Gary

Dear Mr. Shaw:

On behalf of Mercedes-Benz USA, LLC, I have evaluated your request to have your client's 2005 Mercedes-Benz E320, bearing Vehicle Identification Number WDBUF65J45A [REDACTED] repurchased under the California "Lemon Law." I recognize that your client may have experienced inconvenience and possibly frustration in connection with the servicing of his Mercedes-Benz vehicle, and we at Mercedes-Benz apologize for this.

As an After-Sales Operations Manager for Mercedes-Benz, I have full authority to make decisions of this type in the Western United States. I have reviewed your client's repair history to date and have determined that this vehicle does not qualify for the refund under the Lemon Law that you seek. The repair history does not meet any of the statutory guidelines under California Statute. Mercedes-Benz must, therefore, decline to repurchase your client's E320.

The opportunity to review this matter is appreciated.

Sincerely,

Virginia Gee

[Redacted] is requesting MBUSA Technical Assistance.

Customer stated the vehicle SRS light has illuminated multiple times and is requesting for it to be repaired "correctly."

Writer apologized and explained his concern will be forwarded.

Customer stated he will bring the vehicle to the dealership today 10/26/09.

Open Date: 10/30/2009 15:18:34 **Agent:** Lindsey Freeswick **Phone** 6258 **Note Type:** SN

██████████ phoned stating he attempted to bring his vehicle to the dealership however he was advised that assistance is unavailable.

Writer apologized for any inconveniences and advised that him that a TS case has been opened.

Writer phoned the SrvM and left a voice message stating the customers concern.
Writer requested a return call.

Open Date: 10/30/2009 16:26:10 **Agent:** VIRGINIA GEE **Phone** **Note Type:** RC

AOM discussed with SM. SM advised that the customer discussed that he is actually requesting goodwill assistance on repairs that are not covered by his service contract. The repair has been identified. The SM declined goodwill assistance, and the customer declined repairs at this time. The customer has picked up his vehicle.

Open Date: 10/30/2009 17:57:08 **Agent:** Lindsey Freeswick **Phone** 6258 **Note Type:** CP

Writer phoned ██████████ ██████████ and explained that his concern is already known to the dealership and assistance for the repair is unavailable. Writer explained at this time repairs would be at the customers expense.

Customer states he feels MB should repair the part at no cost claiming it has failed twice in 10,000 miles.
Writer again apologized and explained MB part warranty is 1 year 12,000 miles. Writer explained the part is currently outside the warranty period and if the current concern is due to another part the repairs would be unrelated.

Customer requested to speak with the Regional Team.

Writer respectfully declined and stated a representative from writers department will be able to contact him either tonight or Monday morning.

Open Date: 10/30/2009 21:20:48 **Agent:** Robyn Letz **Phone** 6209 **Note Type:** CP

Writer called and spoke with ██████████ at ██████████
Writer advised customer that the issue was thoroughly reviewed and the repair would be the responsibility of the owner.
Customer asked for name of the SvcM of Keyes European, name was provided.
Customer alleges that if he is not satisfied he will contact his lawyer.

The following not was forwarded by a Customer Care rep:

' [REDACTED] called the CAC and stated that his wife was in an accident on Sunday November 29. He stated the vehicle was taken to Park Place Collision Facility and was totaled by his insurance company. He stated that the vehicle is currently at the dealership but he released the vehicle yesterday to the insurance company.

[REDACTED] stated that the airbags or the seatbelts did not deploy. He stated the Service Advisor Mark Waugh advised him that the rear seat belts should have deployed and didn't.

[REDACTED] stated that his wife hit the rearview mirror, bruise on her head, has bruises on her knees and may have a broke her hand but she has not gone to a doctor.

[REDACTED] stated that a vehicle hit his wife's vehicle at a 90 degree angle, the driver's side headlight and the vehicle spun around 360 degrees and hit the other side. He stated the vehicle crumbled in all the right places but he is puzzled about the seat belts."

Customer may be contacted via email the rest of 2009 ([REDACTED]) and by phone in 2010

Dear [REDACTED]:

This is in follow up to your recent contact with our office.

We regret to learn of your wife's unfortunate accident. The above-referenced vehicle was removed from Park Place Motorcars before Mercedes-Benz USA (MBUSA) had the chance to inspect it. Our Technical staff reviewed photos of the vehicle and determined that based on the damage the vehicle sustained; the deployment threshold for the Supplemental Restraint System was not reached. As such, the vehicle operated as designed.

The opportunity to review this matter is appreciated.

Sincerely,

Maria C.

AOM checking with SM.

Open Date: 01/21/2010 15:56:26 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Writer received warm transfer from Customer Care Rep. - Maureen, as [REDACTED] was requesting status of above case.

Customer claimed, "I don't think that Mercedes cares for their customers because I am STILL having issues with the SRS light coming back on-dash after MANY trips to the Mercedes of Easton dealer. I don't get why I have to take it there back-and-forth. I really need Mercedes to help the Columbus dealer and get this problem fixed! I picked up the vehicle this week and the dealer assured me it would be fixed however the light is back-on again. I have scheduled an appointment for Tuesday 1/26 and hope this problem will not come back. I have been a loyal Mercedes customer and think I might reconsider BMW because of this experience?!"

Writer apologized for customer's experiences and frustration, assuring his comments will be noted, moreover offered to contact Dealer Management at MB of Easton and relay above concerns. Writer advised case is still open and being reviewed with Market Team and Dealer Management. Writer requesting his patience - customer understood and agreed to await appointment for 1/26 until vehicle can be assessed further by Dealer Service at MB of Easton.

Open Date: 01/21/2010 15:57:18 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Writer contacted MB of Easton and attempted to reach SrvD - Cindy L. however no answer.

Writer left VM with name/ext., requesting return call to relay above conversation [writer had with [REDACTED]

Open Date: 01/25/2010 15:16:49 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Writer contacted MB of Easton again and attempted to reach SrvD - Cindy and/or any available Dealer Service personnel however clerk advised all are unavailable but offered to transfer to voicemail.

Writer left VM for SrvD - Cindy with name/ext., moreover brief explanation of above customer's concern, understanding he intends to bring vehicle to dealership tomorrow for further assessment regarding 'SRS malfunction'.

Open Date: 01/29/2010 10:01:06 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Writer received VM yesterday 1/28/10 on personal extension from SrvD - Cindy regarding the above.

In voicemail, SrvD advised the vehicle was presented to dealer on 1/26 and some work was performed at no cost. SrvD advised, customer was provided 'special pricing' on previous repairs and has requested 'competitive pricing' for alternate work needed on vehicle.

SrvD will request the SrvA to consult with [REDACTED] to further discuss pricing/details.

Writer noted according to voicemail.

Open Date: 02/02/2010 15:48:34 **Agent:** Romy Parekh **Phone** 7832 **Note Type:** SN

Writer received call on personal extension from SrvD - Cindy providing update.

SrvD advised that vehicle repair is being finalized and this recent repair is being performed at no cost to customer. SrvD advised, the dealership will contact [REDACTED] once ready for pick-up.

Writer noted accordingly.

Open Date: 02/22/2010 16:42:30 **Agent:** STEVE NEUKAM **Phone** **Note Type:** RC

AOM checked with SD Cindy and customer is ok following last repairs. Case closed. See also notes above.

[REDACTED] called the CAC on 1/26/10 and stated:

Customer contacted the writer and stated she hit a wall when driving in a commercial area while parking. The customer stated the vehicle accelerated unexpectedly and hit a wall. The customer stated the vehicle presently is not drivable, it is at a Geico appraisal center, it will be there for a few days. The customer stated she wants an evaluation as to why the vehicle accelerated and hit the wall. Sent to a case manager.

She also sent an e-mail:

Vehicle Information:

VIN: WDDDJ75X36A [REDACTED]

Comments:

Hello, I am writing because tonight I was parking my car and the car suddenly accelerated at uncontrollable speed and crashed into a wall. As of right now, it appears that I mistook the brake for the gas. However, about 6 weeks ago, I was reversing the car from a parking spot and the car suddenly accelerated too. I did not think much of it. The car has on occasion jerked. It is normally my husband car, but I have been using it now for a while since he has a company car. I am reviewing the CLS 500 series and am seeing that there have been a couple of filed and many unfiled cases of transmission issues or sudden acceleration issues due to electrical problems. One story on automotix is exactly like mine. I am very careful and cautious driver and have never had an accident. The speed that the car accelerated was as if someone slammed the pedal down. It was completely abnormal. I am very concerned and am having the car towed to be reviewed by insurance agency.

Writer called both numbers provided and requested a callback to clarify and obtain information such as location of vehicle, and pictures of damage.

Open Date: 01/27/2010 11:55:14

Agent: Gary Bowne

Phone 2719

Hi Carol,

Please let the customer know that she can have the vehicle checked for her claim of unintended acceleration by her authorized dealer after the body repairs are complete.

Note to Geoff - we'll cover the dealer's time according to our NetStar message of April 3, 2009. Please have them send us printouts of any diagnostics they perform.

If the dealer identifies a problem, we'll inspect.

Thanks

Gary

[REDACTED] called writer back.

She advised that she is waiting to hear from Ins. Co. on the damage.

She claims right after the accident she was upset and not thinking straight but since that time she has clearer thoughts.

She claims that vehicle has been jerking, even when it is drive. She also claims that a couple of weeks ago, it jolted forward when the vehicle was in R.

She stated this time it jerked at an uncontrollable rate.

She is now concerned that the air bag did not deploy.

Writer advised customer that the impact has to meet a certain threshold for the airbag to deploy. Requested customer send in pictures of the vehicle damage.

She will send them tonight.

I advised after body damage is complete, dealer can check the transmission system.

Open Date: 02/01/2010 12:28:38 **Agent:** Carol Ann Carroll **Phone** 4673 **Note Type:** SN

██████████ sent the following e-mail with photos. She also included copies of reports of other owners of this like vehicle who allegedly experienced unexpected acceleration.

Forwarding pictures to Gary.

Hello Carol,

Here are some photos of the damage done to the car, the location where it happened and my written summary I sent to our insurer.

I am very concerned about the condition of this car in the position where it was almost at a stop. It does not seem natural that this much damage could be done to the car within this distance plus I am wondering why the air bags did not go off.

The parking spot from behind has other spots behind it without not enough space to even accelerate, in my opinion into the spot and slam into a wall.

As noted, the other occurrence where I was backing out a parking spot was on December 30. I was at this time, not in a position to 'confuse' the brake for the gas nor had any need to press hard on the gas (nor did I). I had intentionally parked in a spot with clearance behind me.

Because I believe that this car has a grave defect and the circumstances do not seem normal, I had the same night I emailed Mercedes found this documented accident for the same year and model car with the NHTSA (also enclosed).

To date, we have yet to hear the analysis from the insurer. I am sincerely, worried about this car and our safety.

Open Date: 02/01/2010 13:14:51 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

Hi Geoff,

After the body repairs are complete, please offer to have the dealer check the vehicle (brakes, throttle, etc.). We'll reimburse them according to our NetStar message of April 3, 2009. We can then discuss how to respond to the customer.

Thanks,

Gary

Open Date: 02/01/2010 13:17:23 **Agent:** Gary Bowne **Phone** 2719 **Note Type:** SN

I reviewed the photos provided by the customer. The impact was not severe enough to deploy the SRS. We will have the dealer inspect for the UA complaint after the body repairs are complete.

Open Date: 02/02/2010 07:45:25 **Agent:** GEOFF LEWIS **Phone** **Note Type:** TN

Since the dealer is being asked to inspect the vehicle, I am transferring the referral to them, so that they can access it through NetStar.

Open Date: 02/02/2010 10:49:09 **Agent:** Carol Ann Carroll **Phone** 4673 **Note Type:** SN

██████████ called writer and advised she received an estimate from her Ins. Co of \$12,305. She wanted to know if she should approve repairs or if we needed to look at vehicle regarding either the air bag or the transmission concern.

Writer advised that the pictures sent have already been reviewed and the impact was not severe enough to deploy airbag. Advised it would be fine to have body work done on the vehicle and then it could be brought to our dealer for inspection of transmission/shifter concern.

██████████ was unclear about the air-bag. I explained that there are different thresholds of impact that have to be met for the air bag to deploy. Advised we had a booklet I could send her to explain this system.

She requested I do so.

██████████ is sending the estimate for repair and request we look at it to make sure the work proposed will not change our inspection afterward. She will fax and scan to writers attention.

Open Date: 02/05/2010 12:52:38 **Agent:** Carol Ann Carroll **Phone** 4673 **Note Type:** SN
Writer received estimate and forwarded to Gary. Requested review so I can advise customer that it is okay to go ahead with repairs.

Open Date: 02/05/2010 13:55:35 **Agent:** Carol Ann Carroll **Phone** 4673 **Note Type:** SN
Gary responded customer can go ahead with repair.
Writer called mobile number and left a message that estimate has been reviewed and she can have repairs performed. Called home number and spoke with customer relaying above.

Dear [REDACTED]:

As promised in our conversation on February 2, 2010, I have enclosed our booklet on Seat Belts and Air Bags for your review.

I hope this booklet helps to provide understanding of our Supplemental Restraint System.

Sincerely,

Carol C.
Executive Case Manager

██████████ has sent;

Hello Carol,

Geico believes the car should be done tomorrow. I have now exceeded my rental limit with Geico and am wondering if while the car is in Mercedes if a rental is provided. The Pines Mercedes dealership has contacted me, but I have yet to discuss this.

I am also concerned about driving the car. I have had plenty of time to review this incident and have re-visited the location where the accident occurred because my son attends baseball practice at this building.

I am now almost certain that it is impossible for me to have even had my foot on the gas. In this parking lot, one would need to have slowed down enough and use the break to enter the parking spot. I was also at the stop spot where the median was when it jolted over the median, onto the sidewalk and into the wall.

I have rehearsed this situation over and over in my head and know that something is not normal. My husband and I also remember that while running the car in the drive way while it was in park mode the gas would increase creating a louder sound. I am not an expert, but he could maybe describe it better.

Is there a way to get the car from the collision dealership to Mercedes without me driving it?

I am now positive something is very wrong with this car.

██████████
Writer called ██████████.

Advised MBUSA does not have loaner vehicles, this is at the discretion of the dealer and suggested she call them to discuss. Advised many dealers will not provide loaner for an accident.

Also advised customer that if she is afraid to drive we could arrange a tow, however, if we do not find anything wrong with the vehicle she would be responsible for the payment. Suggested calling and speaking with her Ins. Co. regarding a tow. She stated they are sick of her and she doesn't want to ask them for anything else.

Customer will think about it and let writer know if she wants the tow. Vehicle was supposed to be ready yesterday but was not.

██████████ called writer and advised that the dealer has contacted her and advised they did not find anything wrong with this vehicle.

██████████ wanted us to know she is not feeling satisfied with this because she claims the vehicle was jerking before this accident.

Writer apologized for her dissatisfaction but confirmed if the dealer is unable to find anything wrong, there is no repair to be made.

██████████ stated she will be sending a letter to us because she wants to make sure this is all documented in case it happens again.

Writer assured customer that I have also documented her concerns since her first contact.

Dear [REDACTED]:

Thank you for contacting us in regard to the accident in which this vehicle was involved.

As advised by the dealer, and confirmed by myself on the telephone, this vehicle was inspected by Mercedes-Benz of Pembroke Pines under the direction of our Technical Specialist. The inspection did not reveal any fault codes nor was the dealer able to find any abnormalities in the operation of this vehicle.

As such, Mercedes-Benz USA is unable to relate this accident to any manufacturer defect.

We appreciate the opportunity to respond.

Sincerely,

Carol C.

[REDACTED] phoned CAC demanding MBUSA involvement and technical assistance. Customer claims that vehicle has been to dealer "7 times" for same issue. Customer claims that vehicle sputters, will not accelerate and then will leave him stranded on the side of the road. Customer claims that dealer advised him previously that it was the wiring harness but "refuses to replace wiring harness". Customer stated that he is going to pursue lemon law.

Writer apologized and advised customer that writer will document and forward his concerns and requests to appropriate parties for review.

Additionally, customer voiced dissatisfaction with Roadside Assistance at MBUSA on 2/14/10 because he was advised that he would be responsible for tow charges upfront and may be responsible for tow. Customer claims that he asked to speak with supervisor and was placed on hold for "31" minutes and eventually hung up.

Writer apologized and advised customer that writer will share his feedback regarding hold time for supervisor with the appropriate parties.

Writer advised customer that tow is covered if it is warranty issue. Writer advised customer that we are unable to determine if issue is warranty related. Writer advised customer that if tow vendor that is contracted with dealer is used, then generally vendor will bill dealer who will bill customer if it is not warranty related. Writer advised customer that in cases where vendor is unavailable we can still set up service for customer however tow payment may be required upfront. Writer advised customer that if issue is warranty related then he would be eligible for reimbursement.

Customer voiced dissatisfaction.

Customer stated that he currently has a loaner vehicle and "doesn't care if it takes 1 week, 1 month, or 1 year but just wants his vehicle fixed and does not want to be stuck on the side of the road again".

Writer provided 800#/ext. Writer advised customer that either dealer or writer will call with update.

[Redacted] called the CAC requesting MBUSA to buyback her 2006 E350.

Customer claims vehicle has constantly experienced issues which include "chirping noises, bucking, leak in trunk, and more." Customer claims vehicle is very disappointing and believes it all these concern should not happen to a MB. Customer claims she has owned many MB vehicles before and none have experienced as many disappointments as this one.

Customer is requesting for MB to do the right thing and buyback or swap her vehicle.

Comments:

My wife was in an accident that totalled her 2006 E350 this past week. She was hit in the right back by a person driving at least 50 MPH. She is shaken up with possible back injuries. We are concerned because the air bags did not deploy ... I purchased the car because of MB's reputation for MB's reputation for safety. How do we talk with someone at Mercedes about this? Should we get an attorney or do I have the opportunity to discuss this with someone responsible at Mercedes or do we contact the US regulators with NHTSA.

left v/m for writer.

Writer called her back at

verified that it was rear impact and says that the trunk is crushed in. Customer said that the vehicle has been considered a total loss and is at a salvage yard right now.

Writer inquired about back injuries mentioned in their e-mail. She said its okay and that who knows what problems would arise in the future.

Writer explained that the airbags are intended to deploy in frontal and lateral impacts, not rear. Customer asked, what is there was someone in the back seat, like my grandchildren, I can't believe there would be no airbag protect. Writer asked if there were passengers in the back seat and she said "non". Writer again advised that airbags are intended to deploy in frontal and lateral impacts, not rear.

Writer told customer that I would send a brochure explaining the operation of the SRS- customer declined.

Customer alleges she was involved in a frontal accident with this vehicle 2 1/2 years ago and says the airbags did not deploy. She claims these repairs were done at MB Huntsville and admits that they never contacted MBUSA to report any concerns at that time.
