RE: Recall of Ricon Power Seat Bases – 08E-046

Dear Mr. Ansley:

VMI is the distributor of certain power transfer seat bases produced by the Ricon Corporation. Some of the seat bases that VMI purchased from Ricon and resold to our dealers may contain a safety defect and are subject to the 08E-046 Safety Recall. The potentially defective seat bases were manufactured by Ricon from January 1, 2006 and May 14, 2007. A list of these seat bases manufactured within this time period and bought and sold by VMI is attached.

VMI sold these seat bases under the "Ricon" brand name and did not re-brand them with the VMI brand.

Our dealers that purchase these seat bases typically install them in new wheelchair accessible vehicles though sometimes they are installed in used accessible vehicles. VMI will inform dealers that installed the subject lifts into new vehicles to submit a ***Form 573 for Vehicles*** to NHTSA to register to conduct a safety recall on the new vehicles. If a dealer only installed the seat bases in used vehicles then the dealer will not have to register with NHTSA but will provide VMI with the names and addresses of the owners of the used vehicles. VMI will notify them of the recall. A copy of the notification letter VMI will send to our dealer is attached for your review.

VMI intends to begin notifying dealers of the recall the week of May 24, 2010.

Please let me know if you have any questions.

Sincerely,

David Eaton
Vice President Technical Services
Vantage Mobility International

<Address>
<City, ST Zip>

RE: Equipment Safety Standard Non-Compliance Notification # 08E-046

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

Dear Recall Manager,

VMI and The Ricon Corporation need your assistance in notifying your customers about a recall of certain Ricon 6-way power seat bases, built between January 1, 2006 and May 14, 2007 inclusive. Ricon has determined that a safety related defect may exist in these Ricon 6-way power seat bases manufactured by Ricon on the above dates.

YOU MAY NEED TO NOTIFY NHTSA AND CONDUCT A SAFETY RECALL:

The National Traffic Safety Administration (NHTSA) requires that installers who have installed subject seat bases into any new vehicle (before first owner takes delivery) are required to conduct a safety recall of those vehicles. It is critical that the National Highway Traffic Safety Administration NHTSA Guidelines are followed in a timely manner and that your customers are notified to discontinue the use of the Ricon 6-way power seat bases until they schedule a time for you to inspect and/or repair the vehicle.

To comply with NHTSA safety recall guidelines you must submit the following documents to NHTSA:

1. ***Part 573 Form for Vehicles.*** You may submit the attached form once you have completed the form with dealer specific information.

2. A draft of the end-user notification letter you intend to use to notify end users of the safety recall. The draft letter must be submitted for approval at least 5 days prior to mailing such notification to owners of potentially affected power seat bases. A sample end user letter is attached for your use as a guideline.

3. A sample of the envelope you plan to use to send the notification letters. The envelope must display "SAFETY RECALL NOTICE" all in capital letters, either in boldface or underlined, and in type that is larger than that used in the address

section. The envelope must also be submitted at least 5 days prior to mailing such notification to owners of potentially affected power seat bases.

All documents should be faxed to (202) 366-7882 or emailed to alexander.ansley@dot.gov. You may also contact Alex Ansley with questions by sending an email to alexander.ansley@dot.gov.

If you ONLY installed the subject seat bases in "used vehicles" (already delivered to end user) you do not need to register with NHTSA. If you installed subject bases in new and used vehicles you do need to submit a 573. For those bases installed in used vehicles, please supply the serial number, end user name and mailing address to VMI and we will contact the end user directly

IMPORTANT: Notifications to end-users of potentially affected vehicles should be sent by first class mail.

IMPORTANT: Some of the vehicles affected may still be in your inventory. Federal law requires you to complete the recall service on these vehicles before delivery. VMI will provide replacement or repair for these units prior to delivery to your customers.

IMPORTANT: If you installed an affected 6-way power seat base in a used vehicle, we urge you to provide the end user records to VMI as soon as possible.

WHAT IS BEING RECALLED:
The VMI/Ricon 6-way power seat bases, models R1209, R1209-L, and R1209-E, manufactured during the specified period.

WHY IS IT BEING RECALLED:
There is the possibility of a poor (cold) weld at the join between the pivoting plate and the swivel plate pin. This situation could cause personal injury.

WHAT YOU AS THE INSTALLER NEED TO DO:
Enclosed a complete list of the 6-way power seat bases you purchased that were manufactured during the specified time period. This information will help you identify your end-user customers. You must contact these end users and set up an appointment to inspect the seat base installed in their vehicle. Once you have the subject vehicle in your possession please perform the following recall procedure:

1. **Park the vehicle in a safe location.**
2. **Remove the OEM seat from the swivel plate.**
3. **Inspect the swivel plate welds per the *Ricon Service Bulletin RSB105.A* dated 07/31/07. A copy of the service bulletin is attached.**
4. **If the welds do not meet the criteria specified in the TSB, replace the swivel plate weldment.**

5. **Discard original parts.**

Note: If just an inspection is performed and not a retrofit, you do not need to contact VMI; you will notify NHTSA via the quarterly reporting process.

WHAT VMI WILL DO:

Upon your notification that a swivel plate weld is defective, VMI will send you a new swivel plate to complete the retrofit. The service will include inspection and replacement of the pivoting plate. VMI will provide all the necessary replacement parts at No Charge and will pay labor of $62.00 for each retrofit. The part number for the swivel plate is RI16018.

Thank you for your prompt attention to this matter. If you have any questions concerning these procedures please contact the VMI Technical Support or by email at johnm@vantagemobility.com . You may also contact Alex Ansley at NHTSA with questions by sending an email to alexander.ansley@dot.gov.

Sincerely,

David Eaton
