RE: EQ10-004

Dear Ms. Timian and Mr. Ansley:

We acknowledge receipt of your correspondence to the Company dated July 21, 2010. In response to your letter, we submit the following information.

O'Reilly Automotive, Inc. ("O'Reilly") is an aftermarket retailer and wholesaler of automotive parts and products. O'Reilly does purchase products from Remy for resale to our customers including certain alternators subject to the recall identified by the reference number noted above. O'Reilly was notified by Remy of a product safety alert on March 31, 2010. At that time, Remy requested that O'Reilly "freeze inventory and stop all sales to end users." O'Reilly, of course, complied.

Shortly thereafter, O'Reilly's product manager, Jim Harnisfager, in cooperation with Remy, caused O'Reilly stores to pull all Remy alternators corresponding to the recall numbers, regardless of date of manufacture, from the stores and have them returned to O'Reilly distribution centers. From there they were then shipped back to Remy. In addition, O'Reilly supplied to Remy a list of all identifiable customers who purchased a recalled alternator and Remy provided the O'Reilly customer with a personalized copy of the attached "Proposed Owner Notification Letter."

We have been in contact with Remy and have been advised that customer notification commenced and was completed in April 2010. Our merchandising department informs me that notification was indirectly verified by way of contact from O'Reilly customers after having received the Owner Notification Letter from Remy.

Should you have a need for additional information, we will be responsive. Feel free to call me personally should you require anything further.

Very truly yours,

O'REILLY AUTOMOTIVE, INC.

Customer Name
Customer Address

Dear Customer,

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Safety Act.

Remy Power Products, LLC ("REMY") has determined that a defect which relates to motor vehicle safety exists in certain REMY alternator model nos. **01-1813, 01-1749, 01-1828, 01-1845, 01-1852, 3904164** manufactured **between** December 23, 2009 and March 26, 2010. The date code is printed on the outside of the alternator. This defect does not apply to any Remy alternator sold or installed **prior** to December 28, 2009.

REMY IS NOW CONDUCTING A SAFETY RECALL OF CERTAIN REMY ALTERNATOR MODEL NOS. 01-1813, 01-1749, 01-1828, 01-1845, 01-1852, 3904164 MANUFACTURED BETWEEN DECEMBER 23, 2009 AND MARCH 26, 2010. THESE ALTERNATORS WILL BE REPLACED AT NO CHARGE.

Our records indicate you purchased a REMY alternator Model No. **01-1813, 01-1749, 01-1828, 01-1845, 01-1852, 3904164** between December 28, 2009 and April 9, 2010. REMY has learned that some of these alternators may develop an internal short circuit that may, in certain instances, cause a thermal event, which could potentially cause a fire in your vehicle, even when the vehicle is off or not engaged.

Your safety is our first priority. For that reason, REMY has initiated a safety recall of the potentially affected alternators. If your alternator has already been installed into a vehicle, it is very important that you take your vehicle to your preferred local automotive service repair shop for an inspection of your alternator. You should have this alternator inspection performed AS SOON AS POSSIBLE, PREFERABLY WITHIN 24 HOURS OF YOUR RECEIPT OF THIS NOTICE. You or the Mechanic at the service shop should contact Remy's customer service immediately at **1-866-372-2088** to receive instructions on how to identify the affected alternator and determine if it needs replacement. If your alternator needs replacement, Remy customer service will immediately make arrangements for the replacement of your alternator without any cost to you or the service shop. If you are not able to take you vehicle to a service shop, or if you prefer to perform the inspection and possible replacement yourself, please contact Remy's

customer service immediately at **1-866-372-2088** to receive instructions on how to identify the affected alternator and determine if it needs replacement. If your alternator needs replacement, Remy customer service will immediately make arrangements for the replacement of your alternator without any cost to you.

REMY adheres to the highest standards in safety and quality. If, after taking the actions described above and contacting REMY, you are still not satisfied we have done our best to remedy this condition without charge and within a reasonable time, you may want to write to the Administrator, National Highway Traffic Safety Administration, 1200 New Jersey Ave., S.E., Washington, DC 20590, call the toll-free Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or visit http://www.safercar.gov.

The enclosed owner reply card identifies your REMY alternator model no. **01-1813, 01-1749, 01-1828, 01-1845, 01-1852, 3904164** purchased between December 28, 2009 and April 9, 2010. Presentation of this card to your retailer or automotive service provider will assist in installing a replacement in the shortest possible time. If you have sold, leased or traded this alternator or have sold, leased or traded the vehicle in which you installed this alternator, please let us know by filling out the postage paid reply card and returning it to us so that we may promptly notify the current owner or lessee.

We are sorry for this inconvenience. Your safety is our greatest concern, so please review the listed vehicles and time frame and give this matter your immediate attention. We have taken this action in the interest of your safety and continued satisfaction with our products.

Sincerely,

Remy Power Products
