Recall management Division (NVS-215)

Dear Sir / Madam,

I received your request for the names and contact information of customers we have installed Hollandia 700/600, Hollandia 900 sunroof units for. I do not track this information detailing which serial number went to which customer.

I do however provide each customer with the warranty registration card that they are required to send into Webasto to register their sunroof per serial number, and initiate their warranty. I am sending you a sample warranty card each customer is provided with. You will be able to notice that the warranty card clearly provides the serial number corresponding to the customer's sunroof unit. It is the customer's responsibility to register the unit with Webasto, therefore, I assume Webasto's responsibility to send out the recall notices.

I am confident that this system must work, as we have been asked by Webasto to exchange several sunroof glasses under this recall.

Sincerely,

J.Roger Dale
