Mike,

Thanks for checking. As we technically already have a 573 Defect Report from Coachmen on this issue, we'll let that stand as your response and nothing further will be needed.

Thanks again,

Alex Ansley

Subject: FW: Information Request Letter Mailed

Hello Alex,

After speaking with Dave Carter about the information I requested, It turns out that the Coachmen Class A motorized plant is the only Coachmen, Division of Forest River Inc. that used these breakers. Please see the attached Document that was sent to NHTSA by Mr. Jason Brewer, Warranty Manager of the Coachmen Class A Division. Mr. Brewer also indicated that he has filed 3 quarterly reports following the date of the initial notification. Mr. Brewers phone number is 574 825 8212

Is there anything that we are missing that's needed to comply with the requirements?

Thank You

Mike Vanderpool
Warranty Manager,
Coachmen Fifth Wheel Division

Hello Alex,

Thank you for speaking with me about this recall on the Siemens circuit breakers. As we discussed, I am not aware of our plants using these breakers. However, Dave Carters has given part numbers and quantities of each sold to us so I am unsure at this point, I have contacted Dave Carters and asked for purchase order numbers and shipping locations of each of the orders for investigation purposes. I will let you know the outcome as soon as possible.

Regards,

Mike Vanderpool

Mr. Ely,

Good morning. Attached is a copy of the letter that we mailed Forest River this morning. Please let me know if you have any questions.

Thank you,

Alex Ansley
