Dear Non-responsive content removed

Sorry, but I have taken the liberty of copying the latest faulty party development graphic into the status report, having just finished it.

I also corrected a small typo on page 1.

I also changed the file name to 18.12.2009.

I hope that this is OK. If not please let me know within the next 30 minutes.

Thank you

Have a nice weekend.

Best wishes,

Dear [Redacted]

[Redacted] and I have corrected a few small points and a few minor typos (unfortunately also in blue; we will use a different colour next time)

We have expanded the [Redacted] scenario; also the changeover of the US pump, which we forgot on Wednesday.

The RP1 release date must be start of week 9 as AUDI-internal national releases (e.g. TPPA) etc. are also scheduled for week 9. Please rename the file after you have checked it; we have added the word "bearbeitet" (edited) to distinguish it.

Thank you

With best wishes

Good morning [Redacted]

That's fine as far as I am concerned. It can be distributed.
No need to confer with [Redacted] this time.
I just made a minor change on pages 4 and 10 (in red), please change this to blue

We need to adjust the dates on page 11, [Redacted]
Measure 5, roller support was implemented at Bosch on April (see below), so that the classification in

May

09 to measures 6 + 7 + 8 is correct.
Measure 9 was implemented at the end of Dec. start of Jan. in Győr, so that Jan 2010 is the right date for vehicles or MOP/MIS.
The RP1 with C2.1 layer will hopefully calm everything down.

With best wishes

Good morning Non-responsive content removed

Attached please find the CP4 status report for internal distribution in VW/AUDI.

The task force (AUDI and RB participants) ask permission that the status report should no longer be produced on a weekly basis, but rather fortnightly.

Best regards

Good morning 

I assume that this still an Audi-internal version - or is this intended as the official report for our directors from Audi's perspective?

Best regards

Subject: Re: General agenda for next Wednesday
Importance: High

Dear [REDACTED]

I have 2 questions:

1.) Task force on Wednesday

Attached please find [REDACTED] proposed agenda.

On Friday we discussed the possibility of holding the task force in Feuerbach starting at 10 a.m. and to perform a task force review. Is this now redundant or have you not yet agreed on this within Audi?

2.) Weekly report

You intended to talk to [REDACTED] and then we wanted to decide on the final version by phone.
What is the position now?

Could you please let me have your feedback on both points by 2.00 p.m. (I have internal business after that)

Thank you.

Best regards

Subject: General agenda for next Wednesday

Dear Non-responsive content removed

Here is a general account of the topics for next Wednesday. Is there anything you want to add? Detailed coordination (time and speaker) by tomorrow morning!

Dry run HPP
Failure statistics and focus: What is the point of RP1
Analysis of MSS "Brake pads, stands"
MSS validation status
RP2 validation status
Russian results
Black/white brake pads
Re Appear Test brake pads
Pipe test findings
RP3 definition
 Optimized inlet
 Optimized inlet edge
 < 180° roller enclosure
 Finishing dependent on rotational direction of NW
