Subject: RE: status of extension request for PE11-017

Jay,

I received your voice mail, thank you, and John and I spoke about this also. Honda's request is granted.

Valencia, please place this email in the investigative file for PE11-017 as a record of this extension request.

Best regards,
Scott

Subject: status of extension request for PE11-017

Scott,

I left a voicemail message for you last Friday, July 1 to request a one week extension for our response to PE11-017. The PE requests our response on July 12, but as I explained in my voicemail message, our North American factories are on summer shutdown all of this week.

We understand that we are expected to submit a partial response on the original due date of July 12, and will complete our response by July 19, if

our requested extension is granted.

The purpose of this e-mail is to confirm that you received the voicemail message left on July 1, and inquire as to ODI's disposition toward the request.

Thank you, and best regards,

-jay
