RE: Safety Recall: 11E-003

Mr. Ansley:

Thank you for notifying us of this Carrier recall. Colonial is a service and repair facility for Carrier bus parts. However, we do very few installs anymore. Previously, we did a large number of system installs each year, but have found our business model shifting to more maintenance and repairs. At this time, we don't believe we have installed any of these systems at our location.

Also, please make note of our new address for future reference.

Sincerely,

Craig Combs
General Manager
