Subject: EQ11-004 - Kalmar
Date: Thursday, September 15, 2011 5:02:08 PM

The 11 parts covered by EQ11-004 and identified as sold to Kalmar were delivered to our aftermarket sales group not to production.

The parts were not installed on a unit produced by Kalmar but were sold into the aftermarket through our dealers as replacement parts.

How should I proceed?

Regards.

Paul
