Subject: Request for List of Purchasers

Dear Mr. Henley:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Sure Power, Inc. (Sure Power) battery separators that the manufacturer has decided contain a safety related defect that could cause a vehicle fire. This investigation has been assigned the identification EQ12-001.

In a letter dated October 20, 2011, Sure Power, Inc. (Sure Power) notified the NHTSA that it had decided certain Sure Power battery separators contain a safety related defect. Sure Power stated that certain battery separators, shipped to various distributors and vehicle manufacturers between February 2009 and June 2011, may experience an internal circuit board capacitor failure. A circuit board capacitor failure could lead to overheating, smoke, and possibly a fire during or following use. NHTSA assigned recall number 11E-045 to this matter.

The purpose of this request is to obtain a list of purchasers that were sold these battery separators so they are made aware of this safety recall and are able to determine the need for any similar safety recall. Accordingly, we require the following information:

1. Provide a list of all customers that received the same or similarly affected Sure Power battery separators and provide their company name, line of business (i.e. vehicle manufacturer, equipment manufacturer, distributor, etc.), address, phone number, contact person, quantity sold to each, and sale date.
