Re: Safety Recall 11E-057

Dear Mr. Garrett:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 104 of these defective units to Big Tex Trailer Mfg. Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 44 of these defective units to Husky Trailer Manufacturing (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 44 of these defective units to Youngs Welding (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 18 of these defective units to 4 Star Trailer, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. EQ12-003
11E-057

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 14 of these defective units to Textrail, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 7 of these defective units to Roadclipper Enterprises (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 6 of these defective units to Mo Trailer Corp. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 5 of these defective units to Anderson Mfg (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 5 of these defective units to Belshe Ind., Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Mr. McConnell:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 5 of these defective units to Featherlite Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Mr. Kundo:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 5 of these defective units to Novae Corporation (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 4 of these defective units to Butler Trailer Manufacturing (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 4 of these defective units to Cornelius Manufacturing Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

Re: Safety Recall 11E-057

Dear Mr. Lehman:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 4 of these defective units to Newmar Corp (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 3 of these defective units to Alumina, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 3 of these defective units to Blue Ribbon Trailers, LTD (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 2 of these defective units to Aluminum Trailer (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 2 of these defective units to Felling Trailers (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 2 of these defective units to Holden Industries, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 2 of these defective units to United Expressline, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Bravo Trailers (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Flash Equipment Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

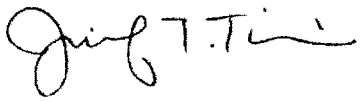

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Mr. Ely:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Forest River, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Interstate Trailer Mfg. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Kensington Welding (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Midsota Mfg., Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Royal Cargo (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to UTC Cargo Group (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

11E-057

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to UTC Cargo Group (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Re: Safety Recall 11E-057

Dear Sir or Madam:

The Office of Defects Investigation (ODI), Recall Management Division (RMD) is conducting an equipment query (EQ) investigation in relation to certain Dexter Axle Company (Dexter) electric/hydraulic (e/h) brake actuator pumps that the manufacturer has decided contain a safety related defect that could cause a vehicle crash. This investigation has been assigned the identification EQ12-003.

The purpose of this letter is to make you aware of a potential safety problem in vehicles that you manufactured and to remind you of your responsibilities under Federal law.

In a letter dated December 20, 2011, Dexter notified the NHTSA that it had decided a defect exists in certain e/h brake actuator pumps sold for use on various trailers. Some of these pumps may have not been properly heat treated. This condition can cause premature wear of some critical components in these pumps which can render the unit inoperable. The e/h brake actuator provides braking power to the trailer brakes. Failure of the actuator can result in the loss of braking effort by the trailer, increasing the risk of a crash. NHTSA assigned recall number 11E-057 to this matter. A copy of the respective notification is enclosed for your information.

Dexter reported to NHTSA that it sold 1 of these defective units to Wright Trailers, Inc. (your company) for possible installation into new motor vehicles, including trailer applications.

Pursuant to Federal law, manufacturers of motor vehicles sold, offered for sale, delivered, or imported into the United States must notify NHTSA, within five (5) business days, when they first learn a safety defect or a noncompliance with a Federal Motor Vehicle Safety Standard exists in one of their vehicles. In the case of a defect or noncompliance in original equipment installed in the vehicles of more than one manufacturer, notification to NHTSA must be made by the original equipment manufacturer as to the equipment item, and by each vehicle manufacturer as to those vehicles it manufactured in which the defective equipment

was installed. The content of that notification is specified in 49 U.S.C. 573.6, Defect and Noncompliance Information Report. As of this date, we have not received the required report from your company.

In view of this safety risk, and your company's obligations under Federal law should you decide your vehicles contain a safety defect, we are also reminding your company that it is required to issue timely notification to owners who may have purchased vehicles with the defective brake actuator pumps. In advance of issuing its owner notification letters, your company must submit a draft of its letter to NHTSA for review. Your company is reminded that this letter must meet the requirements of 49 CFR 577.5, "Notification pursuant to a manufacturer's decision." Your company is further reminded that notifications must be sent to those persons registered under State law as the owners of the vehicles. If particular owners cannot be reasonably ascertained by State records, notifications must be sent to those persons you identify as the most recent purchasers. We are also reminding your company that it is required to notify dealers and distributors as required by 49 CFR 577.13.

In addition to the Defect Information Report and the draft owner notification letter, please also provide a proposed schedule for conducting the owner notification that includes the following information:

a. the date on which the search of current state motor vehicle registration records will be initiated in order to update the original owner list;

b. the approximate date on which the revised owner list will be available to initiate owner notification;

c. the approximate date on which the owner notification will begin;

d. the approximate date on which the owner notification will be completed (if the owner notification is to be staggered, give the beginning and ending owner notification date for each segment); and

e. the approximate date on which the dealer notification will be completed.

Please further note that you must file six quarterly recall status reports as required by 49 CFR 573.7. These reports are to be filed on consecutive yearly quarters beginning with the quarter in which notification to owners begins.

If your company has not received any of this equipment, or if your products are not available to be sold, offered for sale, delivered, or imported into the United States, please so state. If your company does not agree with Dexter that a defect exists in these brake actuator pumps, you must submit a written response explaining your decision including all supporting documents, analysis, and/or test reports.

This letter is being sent to your company pursuant to 49 U.S.C. § 30166, which authorizes NHTSA to conduct any investigation that may be necessary to enforce Chapter 301 of Title 49. Your company's failure to respond promptly and fully to this letter could subject your company to civil penalties pursuant to 49 U.S.C. § 30165 or lead to an action for injunctive relief pursuant to 49 U.S.C. § 30163.

If your company claims that any of the information or documents provided in response to this information request constitute confidential commercial material within the meaning of 5

U.S.C. § 552(b)(4), or are protected from disclosure pursuant to 18 U.S.C. § 1905, your company must submit supporting information together with the materials that are the subject of the confidentiality request, in accordance with 49 CFR Part 512, as amended (69 Fed. Reg. 21409 et seq; April 21, 2004), to the Office of Chief Counsel (NCC-111), National Highway Traffic Safety Administration, Room W41-227, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. Your company is required to submit two copies of the documents containing allegedly confidential information (except only one copy of blueprints) and one copy of the documents from which information claimed to be confidential has been deleted. Please remember that the word "CONFIDENTIAL" must appear at the top of each page containing information claimed to be confidential, and the information must be clearly identified in accordance with 5 U.S.C. § 512.6.

Your company's written response must be submitted to this office within 10 days of receiving this letter. In your response, please be certain to include a reference to this matter's identification number which is EQ12-003.

If you have any questions concerning this matter, please contact Alex Ansley of my staff at (202) 493-0481 or by e-mail at alexander.ansley@dot.gov. Response submissions may be made by US Mail, fax (202) 366-7882, or e-mail rmd.odi@dot.gov.

Sincerely,

Jennifer Timian
