If a document is not in the English language, provide both the original document and an English translation of the document.

- **Other Terms:** To the extent that they are used in these information requests, the terms "claim," "consumer complaint," "dealer field report," "field report," "fire," "fleet," "good will," "make," "model," "model year," "notice," "property damage," "property damage claim," "rollover," "type," "warranty," "warranty adjustment," and "warranty claim," whether used in singular or in plural form, have the same meaning as found in 49 CFR 579.4.

In order for my staff to evaluate the alleged defect, certain information is required. Pursuant to 49 U.S.C. § 30166, please provide numbered responses to the following information requests. Insofar as Prestolite has previously provided a document to ODI, Prestolite may produce it again or identify the document, the document submission to ODI in which it was included and the precise location in that submission where the document is located. When documents are produced, the documents shall be produced in an identified, organized manner that corresponds with the organization of this information request letter (including all individual requests and subparts). When documents are produced and the documents would not, standing alone, be self-explanatory, the production of documents shall be supplemented and accompanied by explanation.

Please repeat the applicable request verbatim above each response. After Prestolite's response to each request, identify the source of the information and indicate the last date the information was gathered.

1. State the total number of subject component Prestolite has manufactured for sale in the United States by calendar year. For each component produced, provide the following:

   a. Serial Number;
   b. Production lot number;
   c. Date of manufacture; and
   d. Date Warranty coverage commenced.

   Provide the table in Excel or a compatible format, entitled "PRODUCTION DATA."

2. State the number and provide copies of each of the following, received by Prestolite, which relate to, or may relate to, the alleged defect in the subject vehicles:

Multiple incidents involving the same unit are to be counted separately. Multiple reports of the same incident are also to be counted separately (i.e., a consumer complaint and a field report involving the same incident in which a crash occurred are to be counted as a crash report, a field report and a consumer complaint). For "f" and "g," provide a summary of the event.

   i. Concern stated by customer; and
   j. Prestolite's assessment of the claim.

   Provide this information in Excel or a compatible format, entitled "WARRANTY DATA." A pre-formatted table that provides further details regarding this submission will be emailed to you.

5. Provide copies of any service or technical bulletins, product improvement campaigns, announcements, or advisories, and all other communications concerning the alleged defect that Prestolite has issued or is considering issuing to fleets, dealers, zone offices, field offices, or owners. If Prestolite has drafted any such communications, furnish a copy of the draft. For any such communication that has been issued, identify, by name, address, telephone number, and contact person, each entity to which it was sent, the date on which the communication was sent, and the specific equipment to which the communication pertained. Include all information including dates of both internal and external meetings, meetings with fleets, manufacturers, or any others involved in this issue and discuss the resolution, planned action, and/or the manner in which Prestolite plans to address this issue. Also separately, provide a copy of any/all document(s) and presentation materials that were used during the meeting(s) whether Prestolite generated the document(s) or the document(s) were generated by others.

7. Describe all modifications or changes made by, or on behalf of, Prestolite in the design, material composition, manufacture, quality control, supply, or installation of the subject component(s), from the start of production to date, which relate to, or may relate to, the alleged defect. For each such modification or change, provide the following information:

   a. The date on which the change was incorporated into production;
   b. A detailed description of the change;
   c. The reason(s) for the change;
