Re: Request for Confidential Treatment of Business Information Submitted in EA12-005
Peer Investigation

Dear Mr. Vincent:

Chrysler Group LLC (“Chrysler Group”) is submitting information to the NHTSA Office of Defects Investigation (“ODI”) in connection with the above referenced investigation, which concerns certain Jeep vehicles manufactured by Chrysler Group. Chrysler Group is submitting the information in response to a request for “peer vehicle” information from Chrysler Group. This request was made in a letter, dated August 9, 2011, from Mr. Frank Borris, Director of the Office of Defects Investigation, Enforcement, to Mr. Reg Modlin of Chrysler Group. Although the subjects of the EA12-005 investigation are Chrysler Group products, the peer inquiry seeks information from Chrysler Group relating to vehicles that are not subject vehicles in the jeep investigation. Information requests in the peer inquiry also have been sent to other companies.

Based on a careful review of the submission, Chrysler Group has determined that some of the information in the submission is confidential and should be accorded confidential treatment under this agency’s regulations at 49 C.F.R. Part 512 and Exemption 4 of the Freedom of Information Act (“FOIA”), 5 U.S.C. § 552(b)(4).¹ Therefore, Chrysler Group is submitting the enclosed CDs together with this request for confidential treatment to the Office of Chief Counsel.

¹ Chrysler Group has taken steps to assure that the CDs are free of any errors or defects that would prevent NHTSA from opening the files on the discs. If, however, the agency is unable to open the files, Chrysler Group respectfully requests that the agency inform Chrysler Group of the issue, so that Chrysler Group may take steps to supply NHTSA’s Office of Chief Counsel with a disc that is fully functional.

A. Description of the Information (49 C.F.R. § 512.8(a))

The business information for which confidential treatment is being sought is:

- Enclosure 5B – Subject Peer Vehicle Graphics Conf Bus Info contains 13 pdf documents. These documents contain vehicle engineering graphics.
- Enclosure 6A - 301 Developmental Crash Test CONF BUS INFO contains 280 pdf documents containing developmental testing information. (Please note: Chrysler Group has submitted these documents as Entirely Confidential Business Information under the voluntary submission standard. However, should NHTSA determine that this information is subject to the compulsory submission standard, Chrysler Group requests the opportunity to redact the subset of confidential business information that would satisfy the standard for compulsorily-submitted information and resubmit these documents, with an appropriately revised confidential treatment request, to the Office of the Chief Counsel).
- Enclosure 6C - Summary of 301 Crash Test Conf Bus Info contains one pdf document entitled, “VC Summary for YJ TJ JK KK WK XK CBI.pdf”, for which partial confidential treatment is being sought. The Confidential Business Information has been identified by yellow highlighting.
- Enclosure 6D - Compliance Procedures Conf Bus Info contains 103 pdf documents containing compliance procedures and integrity standards.

The tables attached to this letter identify the documents, their location, and Bates page numbers.

B. Confidentiality Standard (49 C.F.R. § 512.8(b))

NHTSA treats “peer vehicle” submissions as voluntary. As noted above, although the EA12-005 investigation relates to Chrysler Group products, the peer inquiry for which the enclosed information is being submitted seeks information from Chrysler Group and other manufacturers regarding peer (that is, non-subject) vehicles. Thus, the information for which confidential treatment is being requested in this letter is peer vehicle information.

Accordingly, this submission is subject to the voluntary submission standard set forth in 49 C.F.R. § 512.15(d).

C. Justification for Confidential Treatment (49 C.F.R. § 512.8(c))

This agency has a long-established practice of treating “peer vehicle” submissions as voluntary. Under FOIA Exemption 4 and this agency’s regulations, voluntarily-submitted information is exempt from disclosure if it is the kind of information that the submitter does not customarily disclose to the public.

Chrysler Group does not customarily disclose to the public information like that for which it is seeking confidential treatment, and Chrysler Group takes steps to prevent its dissemination

outside the company. Indeed, with the possible exception of some of the FMVSS 301 test information, even if this information were subject to the substantial-competitive-harm standard, it would qualify for confidential treatment because the engineering standards and related information would provide competitors with valuable design and testing information that they could use to improve their own design and testing decisions, enhance their testing process, and assess Chrysler Group's operational capacities, all at Chrysler Group's expense.

The engineering graphics contain the detailed design specifics for various vehicle components. Competitors, including those in the aftermarket, could use this design information to improve their own designs without incurring the time and expense associated with independent design efforts. As a result, Chrysler Group's competitors could bring to market their products much quicker and at less cost.

The submission also includes developmental testing information and developmental design studies and analyses. NHTSA has recognized that developmental testing information should be protected under Exemption 4. Such information could enable a competitor to develop and upgrade its own testing protocols and improve its design decisions. It bears emphasis that the testing at issue was *not* undertaken to assure or certify compliance with Federal Motor Vehicle Safety Standards, but rather was used by Chrysler Group in the design development and validation phases of vehicle development. The disclosure of this information would reveal the scope, nature, and timing of Chrysler Group's developmental testing work—information that is critical to competitive vehicle manufacturing. Accordingly, the information should be protected from disclosure.

The compliance procedure documents provide detailed information about how Chrysler Group performs compliance-related testing. These documents go well beyond the procedures set forth in the NHTSA and Canadian motor vehicle safety standards, discussing the fine points of test set-ups, vehicle preparation, safety procedures, and step-by-step methods for conducting tests and recording relevant information. The disclosure of such information could enable competitors to prepare and refine their own testing procedures, saving them the considerable time, effort, and cost associated with independent development of test procedures. For these reasons, Chrysler Group regards these procedures as its valuable intellectual property. Thus, Chrysler Group does not have a custom of publicly disclosing such information, and Chrysler takes steps to prevent its dissemination outside the company.

D. Class Determination (49 C.F.R. § 512.8(d))

The engineering graphics fall within the class determination for “blueprints and engineering drawings.” 49 C.F.R. Part 512, App. B(1).

E. Duration for Which Confidential Treatment is Sought (49 C.F.R. § 512.8(e))

Because Chrysler Group anticipates that it will never adopt a custom of disclosing this kind of information, Chrysler Group requests that the information be accorded confidential treatment permanently.

F. Contact Information (49 C.F.R. § 512.8(f))

Please direct all inquiries and responses to the undersigned at:

800 Chrysler Drive, CIMS 482-00-91
Auburn Hills, MI 48326
248-576-8076
r.modlin@chrysler.com

If you receive a request for disclosure of the information for which confidential treatment is being sought before you have completed your review of our request, Chrysler Group respectfully requests notification of the request(s) and an opportunity to provide further justification for the confidential treatment of this information, if warranted.

Sincerely,

Reg Modlin

cc: Frank Borris

Attachment and Enclosures

Certificate in Support of Request for Confidentiality

I, Reg Modlin, pursuant to the provisions of 49 C.F.R. Part 512, state as follows:

- (1) I am Chrysler Group LLC's Director, Regulatory Affairs and I am authorized by Chrysler Group LLC to execute documents on its behalf;
- (2) I certify that the information contained in the attached documents is confidential and proprietary data and is being submitted with the claim that it is entitled to confidential treatment under 5 U.S.C. 552(b)(4);
- (3) I hereby request that the information contained in the indicated documents be protected on a permanent basis;
- (4) This certification is based on the information provided by the responsible Chrysler Group LLC personnel who have authority in the normal course of business to release the information for which a claim of confidentiality has been made to ascertain whether such information has ever been released outside Chrysler Group LLC;
- (5) Based upon that information, to the best of my knowledge, information and belief, the information for which Chrysler Group LLC has claimed confidential treatment has never been released or become available outside Chrysler Group LLC, except to certain contractors of Chrysler Group LLC with the understanding that such information must be maintained in strict confidence;
- (6) I make no representations beyond those contained in this certificate and, in particular, I make no representations as to whether this information may become available outside Chrysler Group LLC because of unauthorized or inadvertent disclosure (except as stated in paragraph 5); and
- (7) I certify under penalty of perjury that the foregoing is true and correct.

Executed on this 18th day of February, 2013

Reg Modlin
