PART A. POWER OF ATTORNEY TO DISCLOSE MILEAGE

Federal law (and State law, if applicable) requires that you state the mileage upon transfer of ownership. Providing a false statement may result in fines and/or imprisonment.

I, _____ appoint _____ as my attorney-in-fact, to sign all papers and documents required to secure the title and further grant the authority to endorse and transfer title thereto, and to disclose the mileage, for the vehicle described above, exactly as stated in my following disclosure.

(Transferor's/Seller's Name, Print) (Transferee's/Buyer's Name, Print)

Date of Statement _____

I state that the odometer now reads _____ (NO TENTHS) miles and to the best of my knowledge that it reflects the actual mileage unless one of the following statements is checked:

1. I hereby certify that to the best of my knowledge the odometer reading reflects the mileage in excess of its mechanical limits.

2. I hereby certify that the odometer reading is NOT the actual mileage. **WARNING - ODOMETER DISCREPANCY**

Transferor's Address: _____ (Street) _____ (City) _____ (State) _____ (Zip Code)

Transferee's Address: _____ (Street) _____ (City) _____ (State) _____ (Zip Code)

Dealership Name: _____ Dealer License Number: _____

PART B. POWER OF ATTORNEY TO REVIEW TITLE DOCUMENT AND ACKNOWLEDGE DISCLOSURE

(Part B is invalid unless Part A has been completed)

I, _____ appoint _____ as my attorney-in-fact, to sign the mileage disclosure, on the title for the vehicle described above, only if the disclosure is exactly as the disclosure completed below. The attorney-in-fact may endorse, release, or transfer ownership documents as required by Nevada Revised Statutes for the vehicle described above.

(Transferee's Signature) (Printed Name) (Transferee's Address Street, City, State, Zip)

Federal and State law require that you state the mileage upon transfer of ownership. Providing a false statement may result in fines and/or imprisonment.

Date of Statement _____

I, _____ (Transferor's name, PRINT) state that the odometer now reads _____ (NO TENTHS) miles and to the best of my knowledge that it reflects the actual mileage unless one of the following statements is checked:

1. I hereby certify that to the best of my knowledge the odometer reading reflects the mileage in excess of its mechanical limits.

2. I hereby certify that the odometer reading is NOT the actual mileage. **WARNING - ODOMETER DISCREPANCY**

1. DRIVER'S DESCRIPTION OF EVENT: **Mrs. [REDACTED] stated she and her husband were driving the mountain route (back roads) to a flea market in South Carolina. They were traveling at about 35 mph when a chime starting making a bong noise, the Air Bar Red light flashed and the Air Bags blew up. She states this happen within 3 seconds. They did not hit anything or even run over anything. Her husband is a war veteran and was so upset. After getting out of the car they both decided, due their location (in the mountains and in a very remote location with no cell phone) to drive to their selling dealership. Very complementary of the dealer who inspected vehicle and within a few minutes had give them a car to drive and advised they would handle the problem. No one was injured in this incident.**

There were no injuries in this incident. Mrs. [REDACTED] was driving on mountain type state hwy's (Paved-black top) when she noticed chime making a noise, then the red Air Bag light flashed and with in 3 seconds both air bags deployed. Inspection revealed both air bags did deploy. Four different attempts were made today to get DRB diagnostic reading from the Air Bag Module and each time received this message-Unable to ID module for ORC. Personally checked every fuse on this vehicle and all get proper reading. No fuse was open and the fuseable links were not damaged. There are no diagnostic codes in the following modules: 1. PCM 2.TRANS 3. BCM and the ABS. Inspection of the ORC module revealed no damage (fluids of phicial). See attached pictures of the Air Bag Module)

Re: New Grand Jeep Cherokee Lmted. Loredo 2003
Color: Patriot Blue
Vehicle I.D. No. 1J4GW58N93C [REDACTED]
Body Model code No. WJJP74
Purchased from: Wood Chrysler Dodge Jeep Zone 67
Dealer Code #68915
Brevard, North Carolina
(Dealership currently owned by Egolf of Brevard)

To Whom It May Concern:

My husband and I made a life-long dream come true by purchasing our brand-new Jeep Cherokee. Many friends & people in our small town were anxiously waiting to see how we would like it, as they were interested in getting a Jeep. We were so pleased & proud of our Jeep.

We drive five hours (one-way) to visit my husband's father in a nursing home (for 5 years now) in Georgetown, South Carolina. We always take the interstate. This one time (in 2004) we took another route on a two lane highway (we had to make another stop). As we were riding (my husband driving & I was passenger) and we were doing about 40 mph (there were some curves in the road), my husband's air bag deployed in his face & a gas came out. He was trying desperately to control the vehicle & then another loud sound & my air bag deployed in my face. We sat there shaking for quite a while, trying to figure out what happened. My husband's seat belt broke and the steering wheel center was blown out, as was the dash board, glove box, etc. Somehow, we managed to drive the Jeep straight back to our Jeep dealer. We were given a rental vehicle and told to wait. Which we did for well over a month. Please, bear with me while I explain what we went through.

In a few days, we were called by a representative of Daimler Chrysler (from Florida) & told that we would be visited by another representative in North Carolina that would come & talk to us. No one ever did. No one even asked if we got injured. We had minor injuries but didn't even get an opportunity to tell someone. We kept

calling our dealer & they were trying to find out what was going on. Someone called us, said they came & took pictures of our Jeep & we would hear something soon. He also said that he was a specialist in air bags and in many years, he had never seen this happen. He told us that it was not 'one in a million' chances of this happening, but 'one in millions!' He told us that we were lucky to be alive. We realize that if we had been on the inter-state, this would probably have been fatal.

We are 54 years old and my husband is a Vietnam Veteran Marine, 100% totally & permanently disabled and suffers Post Traumatic Stress Disorder. The bags going off were like gun shots & upset him so much, that we didn't think he would be able to drive again. He didn't want to get back in that Jeep. Everyone we knew, our church, our neighbors, our friends, folks in town, were waiting to see how this would be dealt with by our Jeep dealer. Certainly, no one expected us to be driving the same Jeep. It was brand new and everyone was quite shocked that this happened. I won't even tell you how our whole family feels.

As time passed, nothing was being done to the Jeep. We keep it garaged and very clean.....they didn't have 'room' for our Jeep & left it in the parking lot for the whole duration. It was pitiful, for everyone to see (the dealership is in a shopping center) sitting there dirty & in the weather. We asked if it could at least be put inside and were told 'there was no room.' We waited....and waited....we called our dealership so many times that we lost count. We were told it is all up to Daimler Chrysler & that we should try calling them ourselves. We got several phone numbers & called everyone we could. We stopped calling when a very young sounding customer relations person told us that we would just have to wait until someone made a decision. A gentleman in the dealership told us that the proper thing to do would be to give us a new Jeep. My husband was elated because it bothered him so to get in the defective one. Well, after no one contacted us for a few more weeks, we called Daimler Chrysler several more times. We wanted to speak to someone with some authority and higher up in the corporation. We were told in no uncertain terms; that this would not happen! We could not speak to anyone else or with any authority. We tried to write. No names would be given to us where to send a letter.

Finally, the Jeep parts that were defective were replaced. I won't list all of the replacements because I am sure that someone there can look this up...but it was extensive damage. We were told to come get our Jeep, it was dirty & when we mentioned the condition of it, they gave it a quick run over with a hose. When I drove it for a day or two, something fell on my foot from under the dash board (turned out to be a tool that was left in it) & then something else went wrong. Can't remember what it was but it was related to the accident. (we are trying to block this out, I guess) the dealership fixed it.....there is probably a record of this there.

When people kept asking us what Daimler Chrysler did for us, they were shocked to hear that they just replaced the defective parts and let us keep the same Jeep. We were told over & over that we should get a lawyer & sue. I want to tell you that the thought has crossed our minds. However, we are Christians & we didn't think this was the way to handle the matter. The dealership has changed hands but we ran into someone who worked there & were told that if we 'stood our ground', we would have been given another Jeep! We felt very betrayed. Let me explain why:

We always take our Jeep to our dealer for factory authorized service and we are pleased with that. Everytime we did, even for an oil change, we were sent a questionnaire asking how the service was. Not any more....after the accident, we never once received anything, but our Jeep magazine, which we love. No one even responded to our phone calls, we left messages, were told..."we replaced the bad parts, that's it." I said, we could have easily been killed & it has made us feel different about our Jeep, Daimler Chrysler....we are still afraid that it will happen again. We were told (over the phone) from Daimler Chrysler....well, you weren't killed (no one even asked if we got hurt.....not one person) and if it happens again, then we will deal with that." We think it was a terrible response from a professional corporation. No one said, we are sorry, we weren't allowed to speak to anyone with any authority, no customer satisfaction questionnaires came anymore, nothing. Just we replaced things, that's it.

It has very much affected our life! We are still proud of our Jeep and love Jeeps but we feel like the laughing stock of our town. We have kept quiet....we could have written a letter to our local newspaper (which everyone reads) about this & we were told some other avenues to take, to get this story out. However, we feel that we would like to give Daimler Chrysler one more chance to maybe rectify there image in our town. Egolf of Brevard has taken over the dealership. A gentleman in charge there told us that he would check into this & that we were not treated correctly at all. After a few weeks, he told us that he called Daimler Chrysler & couldn't find out anything at all, except that they 'did what policy called for' and our feelings remain hurt.

We would like to keep Chrysler (we like Dodges, too) in our lives. We need a truck and someday would like to upgrade our Jeep Grand Cherokee....but we have reservations about this now. All we are asking right now, is for you to pass this letter along to someone who can and does have the authority to do something. I can promise you this, there are many people waiting to see how this will be handled. I don't know exactly what we will do, however, we await a response from someone at Daimler Chrysler....we do expect that. We don't understand why we were told that we could not even reach the executives at the top. We feel that they were not even

aware that this happened to us & we could have easily been killed. It all didn't seem to make much difference to them. Then to be told, if we had stood our ground, we would have been given a different vehicle because we were sold a defective one. All of our life savings went into this Jeep. Please, if this letter cannot be shown to someone in charge with authority, may we at least send it to them ourselves. Shouldn't they know? We would like to sing our praises about your company and our Jeep. Please, help us to do this. Thank you so much for your time and assistance in this matter.

P.S. The reason we are writing this letter to you and now....

We read our Jeep Magazine from cover to cover. We saw the part where it said we would like to hear from you and the address. We took a chance that someone there might really care. (also, as we were watching Good Morning America, there was a guest that appeared on the show that had an air bag deploy, just like both of our did.) We are very concerned about a corporation of your size & reputation that would just not respond to such an incident. Again, thank you for your time and concern. We pray that we hear from someone there.

Very truly yours,

INTERVIEW DATE: 05/24/2005 DATE OF INCIDENT: 05/14/2005 TIME OF INCIDENT: 02:40 AM PM INSPECTION DATE: 05/21/2005

1. DRIVER'S DESCRIPTION OF EVENT: **The following is a description of the incident as related to the writer by [REDACTED] on 5/24/05: My name is [REDACTED]. I am the owner of the subject vehicle. I purchased this vehicle used in October of 2004. Since I have owned the vehicle, it has not been involved in any collisions, had any air bag service or any other significant repairs. To the best of my knowledge, fluids have never been spilled in and around the center console. To the best of my knowledge, the air bag warning light has never indicated there was a problem with the air bag system. At the time of the incident, the vehicle was being driven by Felicia Plummer. I was not present. The following is a description of the incident as related to the writer by [REDACTED] on 5/24/05: My name is [REDACTED]. I am the mother of [REDACTED] s son. I reside at [REDACTED] Milwaukee, WI [REDACTED]. I am a frequent driver of the vehicle; however, at the time of the incident I was a passenger in the right rear seat. My Aunt, [REDACTED] was the driver. Her daughter, [REDACTED], was a passenger in the right front seat. [REDACTED] d son of [REDACTED] was a passenger in the left rear seat. The driver and all passengers were wearing their seat belts. The seat belts functioned normally. The following is a description of the incident as related to the writer by [REDACTED] on 5/24/05: My name is [REDACTED]. I reside at [REDACTED] Milwaukee, WI [REDACTED]. I was the driver of the vehicle at the time of the incident. The air bag warning light was not on. The incident occurred 5/14/05 in Milwaukee, WI. At approximately 1440 hours I was driving west on Morgan. The weather was clear with temperatures in the mid sixties. Wind velocity was insignificant. There were no road hazards. I stopped for a traffic signal at 27th Street. While waiting for the light to change, both air bags deployed. We didn't hit anything nor were we hit by anything. The right front air bag injured Mattie Key's stomach. She did not seek medical attention.**

While attempting to pull dtc`s from the air bag controller, this message appeared on the drb screen: " This diagnostic control module is not supported by this software. Please use DRB III with the supercard software to diagnose this vehicle. " The writer used the drb with and without the supercard. The foregoing drb message remained the same. The writer then removed the center console. At sticky fluid and a 25 cent piece was observed on the mounting base of the air bag controller. Observation of the controller connectors, did not reveal any evidence of corrosion; however, pins 16 and 24 were without power. See photographs for clarification. Both air bag fuses were examined, and were found to be in serviceable condition. A road test of the vehicle was performed. At start up, the air bag warning light came on and stayed on. The seat belts locked up on rapid deceleration. The horn is operational. The left rear brake light is inoperative. A build up of salt was noted where wiring loom from engine compartment enters the passenger compartment by the left side of the firewall. See photographs for clarification. Forty-nine photographs were uploaded to Covisint 5/21/05. Repair order # 422504, VIP summary and shop manual page illustrating pins with open circuits were faxed to Mike Martell 5/23/05.

air bag malfunction

Comments:

my wife and daughter were sitting at a stop sign and she heard a beeping sound and then the air bags went off.she called the police because she was scared and didn't know what else to do.I just bought this jeep about a month and a half ago and i am very disappointed.if she had been on the highway it could have killed them both.something needs to be done about this immediately seeing how this was a vehicle malfunction.

Dear [REDACTED]

Your email concerning your air bag incident was received and reviewed by the DaimlerChrysler Customer Assistance Center.

We were sorry to learn of the incident, and understand your being upset over it. If you haven't already done so, it is recommended that you contact your insurance company and advise them of the occurrence.

I see that the vehicle was towed to Hoopston Jeep. If the vehicle is relocated please let me know. I have forwarded your file to the appropriate area for review. You will receive a letter by mail stating our corporate position.

Thank you again for your email.

I am very upset it has been since monday and we have no other vehicle and three kids. You have not even been nice enough to call and let us know anything. I have never owned a Jeep before and I will never again. You have not been considered of our needs. The jeep could of done this an hour before it did and I would have been going down the interstate with my mom, daughter, and two stepdaughters then we would of been in serious trouble. BUT since I was just setting at a stop sign waiting to turn it only hurt my chest and bruised my daughters arm. I would of thought you would of been a little more concerned in our needs since it was your product that could have killed us and has kept me out of work a couple of days because of the chest injuries. Since you do not care at least you contact us and let us know how long are we walking for. Mrs. [REDACTED]

1. DRIVER'S DESCRIPTION OF EVENT: **Owner reports that his wife was driving their 2003 Jeep Grand Cherokee with her daughter to softball practice. Owner reports that they had driven approximately 1 mile, stopped at a stop sign at West Lincoln and 6'th Avenue in Hoopeston, IL when his wife heard 3 beeps or chimes and then both the driver and passenger air bags deployed. Owner reports that his wife called the Hoopeston Police Department, they came to the scene but wrote no report of incident. Owner stated that he bought this vehicle used about a month and a half ago from Shelby Motors in Champaign, IL. When asked, owner did not know if his wife and her daughter were wearing their seat belts at the time of the incident. When asked, owner reported no warning lights illuminated on dash.**

I tested both the driver and passenger seat belt locking mechanism by rapidly tugging on them, both seat belt mechanisms locked when tugged and released when pressure was released. The airbag warning light on the dash would illuminate after 5 tone chimes and stay illuminated when the ignition switch was cycled. No evidence of recent repairs were noted or evident. No wetness or corrosion was present in the area of the air bag control module located beneath the center console.
