Part J - ADDITIONAL COMMENTS

Driver frontal airbag deployed and front passenger frontal airbag deployed. Airbag lamp illuminates when the ignition key is turned to the "ON" position, and remains "ON" during the ignition cycle. Unable to obtain DRB restraint system readings or codes. Front seat belts locked and held in place when a slight tug was applied to the seat belt webbing. No evidence of interior vehicle water damage or moisture damage. No evidence or witness markings of impact with foreign object to exterior body or undercarriage.

Dear Rajya and Chrysler:

It is my hopes that careful consideration of the faxed documents can bring both parties to an agreement without need of retaining legal assistance on my behalf. I appreciate your quick and thoughtful review of documents and doctor letters.

Sincerely,

A solid black rectangular redaction box covering the signature of the sender.

Case #21168002

Loss of Property

1. Vehicle isn't safe to drive or sell in current condition
2. Vehicle fixed isn't satisfactory to owners' because of fear for safety
3. Can't sell vehicle for full value of the above average condition it was in before airbags deployed
4. This incident has put us in a situation to need a new vehicle prematurely
5. *NADA clean trade-in of our 2003 Jeep Liberty is \$7275.00

*Please see attached NADA document (\$7275.00)

Injuries and Medical Bills

██████████ first degree burns from forearm down to hand and fingers, external bruising on hand, pain in thumb, lost hearing for 2 hours in left ear after incident, ringing in both ears, hearing loss in left ear and failed OAE test in left inner ear, neck injury, back pain, and dizziness after hit to the side of the head.

*Please see attached documents of medical visits, doctor letters, and medical bills totaling approximately (\$5158.00 for treatment through 9-23-11)

Loss of Time

- 1 hour for family physician visit 7-28
- 1 hour and 30 minutes for chiropractic visit 7-29
- 45 minutes over telephone with OKC engineer inspecting vehicle 7-29
- 15 minutes with Chrysler case manager Maggie 7-29
- 1 hour arranging appointments and coordinating appointments 7-28
- 45 minutes to take vehicle to dealership for Chrysler inspections 7-29
- 1 hour chiropractor visit 8-2
- 1 hour and 30 minutes for ENT visit/ hearing test 8-4
- 30 minutes for conversations with Chrysler case manager Maggie 8/3, 8/4
- 1 hour chiropractor visit 8-8
- 1 hour and 30 minutes hearing test (extended high frequency test) 8-8
- 1 hour and 30 minutes chiropractor visit 8-12
- 1 hour chiropractor visit 8-16
- 15 minutes with Phillip from Southpointe 8-16
- 1 hour meeting with Chrysler attorney Rajya 8-17
- 2 hours in conversations with Doctors, and appointment setting 8-18
- 1 hour chiropractic appointment 8-19
- 1 hour chiropractic appointment 8-23
- 2 hour MRI appointment 8-24
- 1 hour CT appointment 8-25
- 1 hour chiropractor visit 8-26
- 1 hour chiropractor visit 9-2

1 hour chiropractor visit 9-7
1 hour chiropractor visit 9-9
1 hour chiropractor visit 9-13
1 hour chiropractor visit 9-16
1 hour chiropractor visit 9-23

*Approximately 28 hours as of 9-23 spent as a result of airbag incident

Future Expenses---Pain & Suffering

*Approximate costs for continued chiropractor visits in sustaining near full recovery **\$1200** (figured on approximately \$240 a visit; five total visits after 9-23-11) (reference Dr. Halsey's medical bill and professional letter)

*Approximate continued chiropractor visits for maintained wellness as a result of airbag incident **\$14,400** (figured on 1 visit per month at \$240 for next five years) (reference Dr. Halsey's medical bill and professional letter) (this covers my peace of mind in settling now in case something flares up from injuries that needs chiropractic attention)

*Approximate costs for yearly hearing exams over next 49 years **\$3920** (figured on the average life expectancy of a male (76 years) minus the age of Charley Feeley (27) equals 49 years times the \$80 fee for update test) (reference nation master) (reference Dr. Scholl's medical bill)

*Approximate costs for the need of a hearing instruments in the future before natural decline of hearing **\$4980** (figured on a mid to high level technology for hearing device and one replacement device for the approximate remaining 49 years of Charley Feeley's life) (reference is my knowledge of retail hearing aid sales since this is my occupation) (Charles D. Feeley, B.S., BC-HIS National Board Certified in Hearing Instrument Sciences)

*Additional pain and suffering for the situation of computer systems failure and air bag module failure in 2003 Jeep Liberty that has caused substantial injuries from a life that was enjoying good health before this incident, as well as the documented amount of time loss **\$3000**

I, [REDACTED], would consider the incident of airbag failure on Chrysler's 2003 Jeep Liberty that took place on July 27, 2011, with all of its injuries both short and long term I suffered and will continue to endure through the remainder of my life, also including property damage and pain and suffering settled with the payment totaling **\$39933.00**

SRS
AIRBAG

A close-up photograph of a car's interior dashboard. A piece of dark, textured material, likely leather or vinyl, is being held by a person's fingers. The material has a jagged, torn edge. Embossed on the surface of the material is the text "SRS AIR BAG" in a bold, sans-serif font. The background shows the rest of the dashboard, which is covered in a similar textured material. A white plastic component is visible in the upper left corner.
