Subject:	Recall Notice Reponse, ID# EQ12-001

To whom this may concern at NHTSA, this reply is in response to the notice we received. Our Safety Recall number is 11E-045 and ID number EQ12-001. The recall was for the Sure Power (now Cooperbussman Industries) separators; part numbers 1314 and 1315.

We are one of Sure Power\Cooper Bussman Ind. distributors. ALL our customers are aftermarket consumers; generally, customers who have purchased vehicles that they would like to modify or customers who would like to sell these items in their local area. We have not sold ANY product(s) to before market vehicle manufacturers.

The one customer we are unsure of is NBC Equipment:

NBC Equipment
Attn: Angie Smith
28130 Groesbeck
Roseville, Michigan 48066
Phone: 800 778-8207
Email: asmith@nbcte.com
www.nbcte.com

They purchased 25 of the 1315 separators. The reason we are unsure is that NBC uses them for various applications and it is possible that the application COULD be for one of their before market customers.
