Hello,

I have received a letter pertaining to Dexter actuator pump recall. We are a small family run trailer dealership that does not manufacture any new equipment whatsoever. We only stock these pumps to sell to walk in parts customers who in turn would install them on their own existing trailers. I guess I am not sure what to do with all this information that you are requesting. Can I supply you with a list of the customers names and addresses that I would have potentially sold the last 20 or so units to? Any suggestions or help would be appreciated. Thanks.
