**Subject:** Dexter Axle Actuator

Alexander Ansley –

Per our conversation on the phone Bravo Trailers replaced the defective brake actuator pump on the trailer before the trailer ever left the manufacturing plant. Any Jamison of Dexter Axle brought us the new actuator we installed on the trailer before the customer ever received the trailer. Bravo Trailers has resolved this situation following the lead of Dexter Axle and NHTSA. The trailer that is being used has the right actuator on it.

If you need anything else please contact me at the information below.

Thank You.
