Re: Safety Recall 12E-002
ID #EQ12-005

Dear Jennifer Timian:

Prime-Time Specialty Vehicles was notified of the Braun Lift recall in March of this year. We conducted a safety recall by mailing a copy of the Service Bulletin, #37679), concerning the Braun Century II Series to our retail customer and to the selling Dealer. The serial number of the lift in question is # DA-01932

Retail Customer:
[redacted]
Dalhart, TX 79022

Selling Ford Dealer:
Maplecrest Ford-Phil Kozak
102 East Main Street
Mendham, NJ 07945

Knowing how important a safety related defect is to the consumer, they were notified within five days of the official notice from Braun Corporation. Having only produced one vehicle with this product, this now concludes this recall.

If you have any further questions, please feel free to call me at 1-866-785-9191.

Sincerely,

Marla J. Meyers
Warranty Manager
