Hi Alex,

The attached notice was sent to me regarding the recent Braun recall. We are a dealer and servicer of Braun equipped vehicles.

It looks to me, based on the last paragraph on the first page (stretching to the second page) that this notice applies only to manufacturers of the equipment, and not to the dealers.
We do not alter manufacturing in any way, nor do we install these lifts. We are simply a seller of the completed equipment to the end users.

Can you let me know if this attached notice applies to us?
Thanks,

Jacob McBurnie
