RE: Safety recall 12E-002

Dear Mr. Ansley:

I am writing in regards to the safety recall 12E-002. After discussing this with the Braun Corporation it would appear we are not responsible for the noted recall. We do not modify or manufacture vehicles.

The list of wheelchair lifts that Braun has identified us as selling falls into 3 categories. First, would be the lifts which we have installed in customer owned vehicles. Second, would be lifts which we sold and had Braun Corporation drop ship to customers who performed the installation. Third, would be a turnkey complete modified vehicle which we sold but did not modify.

If any of this is unclear or needs further clarification, please contact me at 513-821-3220 or mike.roberts@fuse.net.

Thanks and have a great day!

Michael A. Roberts
President
