August 1, 2013

To Whom It May Concern:

I am writing in response to the letter that we received on June 20th, 2013 with the reference number of EQ 13-004. Our company luckily had all 7 of the defective awnings we purchased from Dometic in our warehouse still. They had not been installed on any customer trailers. We have made the necessary repairs to the defective awnings. Please let us know if further information is required. Thank you.

Sincerely,

Mark Ford, President
