DEXTER

September 116, 2013

Ms Cynthia Glass
National Highway Traffic Safety Administration
1200 New Jersey Ave. S W
Washington, D.C. 20590

Subject: Safety Recall EQ 13-006, 13E-039

Dear Ms Glass:

Dexter Axle Company is in receipt of your notification letter regarding Safety Recall EQ-006, 13E-039. We have been advised by Fastec Industrial Corp., a supplier of lock mechanisms for recreational vehicle doors, that a defect may exist in some of the products supplied to our company.

While we acknowledge that our company has received some of the product believed to contain a defect, we do not feel that one incident warrants a significant risk to public safety.

Respectfully,

William L. Dunlap
Sr. VP Engineering
Dexter Axle Company
