Subject: PE14-020 amended IR request no. 14

To Mr. David Cook,

Per our telephone conversation this afternoon, it is agreed to amend the November 12, 2014 information request letter, Request No. 14 as follows:

DTNA shall state the number of peer components that DTNA has sold that may be used in the peer vehicles by component name, part number (both service and engineering/production), model and model year of the vehicle in which it is used and month/year of sale (including the cut-off date for sales, if applicable) for the TOP 10 selling peer component part numbers applicable to the peer vehicle population. DTNA shall also explain the myriad part numbers that may be used on the peer vehicles and provide the estimated number of other part numbers (outside the TOP 10) that are available for use on the peer vehicles and approximately how many part sales they represent as a group.

Sincerely,
Kyle Bowker
